

ADDENDUM #2
SALTONSTALL MASONRY REPAIRS
OCTOBER 29, 2015

The following is a clarification to IFB R-34:

1. The scope of work pertains solely to the decorative cast stone band as described in the drawings. Disregard notes pertaining to other parts of the building.
2. The basis of design for the sealant shall be Dow Corning 795 Silicone or equal.
3. Refer to the attached photos for additional information. Photos are included for reference only to provide information on the existing conditions. Conditions may vary along the length of the cast stone band.
