# General Overview

## **CITY OF SALEM, MASSACHUSETTS**

Kimberley Driscoll  
Mayor

Office of the Mayor

May 26, 2022

Honorable Salem City Council  
Salem City Hall  
Salem, MA 01970

Ladies and Gentlemen of the Council:

Enclosed please find the proposed FY2023 operating and capital budgets for the City of Salem and the Salem Public Schools. I am pleased to submit this proposed expenditure plan and recognize that the coming fiscal year presents unique challenges and opportunities for our community.

As we continue the recovery from the COVID-19 pandemic, the uncertainty of the future course of the virus, as well as the scope of state and federal resources to address it, is complicated by a larger economic picture impacted by global conflicts, historic supply chain and labor issues, and rapidly rising interest rates and prices. Against this backdrop we must also consider the impacts of inflation on energy costs, materials and supplies, and wages, not to mention the unavoidable increase in fixed cost centers with which the City must contend. These contextual challenges are exacerbated by level funding of our school aid from the state, increased state assessments, aging infrastructure, and a housing market where costs and values are rapidly escalating.

There are reasons for optimism, however.

I am proud to say that the pro-active measures we used locally to safeguard, strengthen, and rebuild our local economy during the pandemic have worked. Our revenues are rebounding, and our local economy is coming back stronger than ever. During the pandemic Salem had a net zero loss in businesses and our storefront vacancy rate decreased to 4%. Our local unemployment rate has returned to its pre-pandemic level. We weathered the fiscal challenges without having to draw down substantially from our reserve funds or tap heavily into our levy capacity.

Indeed, Salem should be proud of our record stabilization levels, bond rating, and considerable levy capacity. We have also enjoyed a low average tax bill increase relative to our region and to

the considerable increases Salem endured prior to this administration. Lastly, while net state aid has been reduced and Salem is being disproportionately and negatively treated under the new Chapter 70 formula, we do have the benefit of one-time relief funds from the American Rescue Plan Act (ARPA), the Bipartisan Infrastructure Investment and Jobs Act, the Elementary and Secondary School Emergency Relief Fund, and other federal and state sources that we are working to creatively leverage and apply to one-time needs related to recovery or to investing in our capital needs.

All of this is thanks in large part to a collective partnership between local elected officials to see our way through the early stages of this pandemic as a team united in our efforts to address the impacts of this virus on our community. The professionalism and commitment of City staff, including the early actions taken to support businesses and embrace investment in our city, as well as our thoughtful approach to managing municipal finances all played a hand in our efforts to date to weather pandemic related challenges. Our collaborative partnership with the City Council, small business owners, private and public partners and our neighboring municipalities in the region has helped us to meet our needs and grow back stronger than ever.

The proposed FY2023 Salem budget is \$188,157,262, a change of 3.4% over the FY2022 budget. Fixed costs, such as health insurance, pension and retirement payments, insurance, debt payments, and state and other government assessments, account for about \$1 of every \$3 in the budget and will increase by roughly \$2.5 million in FY2023, accounting for around 40% of the budget increase.

Our schools' budget is \$68,747,963, an increase of \$2,150,044 or 3.2%, over the FY2022 school budget. This does not include school-related costs that appear elsewhere in the budget, such as school employee health insurance increases, unemployment costs, debt for school building projects, and so forth. When those factors are included, a substantial amount of Salem's budget is tied to our schools and our students, easily the largest single area of spending.

The enterprise fund budgets will increase by \$335,929, or 1.7%, over the FY2022 enterprise funds budget, due to increases in assessments for these services and the need for ongoing infrastructure maintenance and upgrades. Ordinances have been submitted to you establishing the water and sewer rates necessary to fund these budgets.

The FY2023 Capital Improvement Plan (CIP) is also included as part of this budget, as are the associated bond orders to fund these capital investments. I am proud that we instituted a practice of including a forward-looking capital plan in our budget each year as a responsible and transparent way of planning for future obligations while meeting present-day needs to best serve Salem residents.

One point you will notice for FY2023 is a larger reliance on "pay-as-you-go" or short-term capital outlays, as well as retained earnings for water and sewer capital and ARPA allocations, all over traditional bonding. This is because rising interest rates make borrowing less cost effective at the current moment, even with our historically high bond rating. This has the additional benefit of lessening our long-term debt service payments. Highlights in the capital plan include \$2.5 million in sidewalks, crosswalks, and roads, over \$1 million in school building

upgrades, signature park projects including the Willows Pier and the next phase of the Pioneer Village/Camp Naumkeag project, a major enhancement of the Mayor Jean Levesque Community Life Center kitchen facility, over \$250,000 for new public safety vehicles, and the first phase of a much-needed overhaul of our critical police and fire radio communication system.

From having around \$35,000 in our stabilization fund when I took office in 2006, we today have over \$14.2 million in that fund thanks to permanent, prudent finance policies that we have worked collectively with the Council to put in place.

Despite the past financial difficulties we faced, Salem remains dedicated to policies that foster economic growth, to stable financial management practices, and to sustainable and transparent budgeting. Since 2006 we have implemented professional financial management standards and our debt payment as a share of the budget has been reduced by 33%. We have been able to accomplish this by leveraging hundreds of millions in grants, as well as PILOT, SILOT, and other tax agreements, and by being responsible, thoughtful, and prudent with tax dollars. Over the last 16 years, the average single-family tax bill in Salem increased by half as much as it did in the 16 years before 2006.

In our budgeting practices, the taxpayers of Salem have always been foremost in mind, and FY2023 is no different. This budget recognizes and respects the impact of property taxes on our residents, especially as many are suffering from the financial hardship afflicting many Americans today. Salem's average tax bill change over the last decade has been well below the average for our region and bolstered by the adoption of as many exemptions and abatements as practical, particularly focused on our neediest taxpayers, including lower income residents, seniors, veterans, and those living with disabilities, as well as through increasing the share of the cost burden being exported to visitors and non-residents through fees and excises. Salem has never sought a Proposition 2-1/2 override and we continue to tax below our allowable levy limit. For FY2023, we will continue to maintain excess levy capacity – in the amount of \$6.2 million – a further demonstration of our prudence and care with taxpayer dollars.

Despite the overwhelming impact of the pandemic on our budgetary situation, it does not diminish the other external influences with which we still must also contend. Whether it is housing needs, fears about growth, the opioids epidemic, changing demographics, or a changing climate, our community is facing many challenges that require strategic and sensible leadership. Indeed, in some respects the pandemic and ensuing economic downturn only exacerbated some of these challenges, such as the need for affordable and available housing.

On the financial side, we continue to see challenges with the state not fully funding their obligations for charter school reimbursements and the existing PILOT with the South Essex Sewerage District failing to adequately compensate our community for hosting this regional facility. Most egregiously this year, an embedded flaw in the state's school aid formula means that Salem will effectively be level funded in Chapter 70 funds for our schools: where other Gateway Cities are seeing an average increase in Chapter 70 funds of around 13%, Salem's increase is just 1%. Aid is increasing to all other Gateway Cities by between \$1.6 million and \$35.8 million; in Salem, our aid is only increasing by \$248,340. Rising health care costs are impacting both the public and private sector and we continue to face the challenge of OPEB and

pension liabilities, not to mention costly sick-leave buybacks, agreed to decades ago, but impacting our retirement stabilization fund now.

We have worked hard to tackle these challenges by allocating funds to reserve and stabilization accounts to plan for the future and by taking actions like entering into the Group Insurance Commission and annually reassessing the cost-effectiveness of that choice. However, the financial challenges presented by these fixed cost centers are still very real and have a real effect on our budget. Despite those pressures and despite the economic setbacks of the past year, the FY2023 budget maintains our dedication to fiscal responsibility while making important investments to strengthen our community.

I am proud of our collective efforts to limit impacts on Salem taxpayers while also providing much needed services to constituents. This is possible due to our joint attentiveness to City finances, as well as our ongoing efforts at identifying efficiencies in the delivery of services.

Our fiscal practices have resulted in not only affirmation of our historic high AA bond rating for the last nine years in a row, but also our regular receipt – for fourteen years in a row – of recognitions and awards from the Government Finance Officers’ Association, a national agency that provides professional guidelines for government budgets and fiscal practices.

In its most recent affirmation of the AA bond rating, issued just this month, S&P Global Ratings specifically cited Salem’s “robust and strong economy...consistent positive financial operations...[and] strong financial management conditions, including conservative budgeting and long-term financial planning.”

Lastly, another key factor in enhancing our local economy and contributing to new revenues to help meet the projected budget deficit are the public and private investments we continue to see in our community. These projects enhance our short- and long-term economic growth, create much needed housing, add to our tax base, and generate jobs. We are projecting the value increase of new growth for FY2023 at around \$1 million; that is \$1 million less burden on existing Salem taxpayers. Without responsible new growth we cannot provide the services and improvements that our constituents rightly demand and deserve. Given the reliable increase in fixed costs to the City and the financial challenges of the past year, a reflexively anti-growth position is equivalent to endorsing substantial tax increases on Salem homeowners and reduction in critical City services like public safety and public works. With appropriate new growth comes much needed housing, commercial enterprises with jobs, and new revenues to support the needs of Salem taxpayers and local government.

In FY2023 we will continue to strive to exceed the service level expectations of our constituents, while simultaneously ensuring fiscal prudence in all expenditures. The mission of City government in Salem is to provide open, honest, and pro-active services effectively and efficiently, focusing on the needs of today, with a vision for the future. To accomplish this, the proposed budget aligns operations with short-term and long-term strategic goals and objectives, while maintaining necessary fiscal controls and a careful attention to our financial forecasts in our budgeting.

Balancing the City's budget in a normal year itself is no easy task and I appreciate the hard work and cooperation our department heads have put into the preparation of this year's budget. I cannot say enough about the efforts made by our Finance Department especially. The department's work ensured that the budget was ready for submission and in compliance with the high standards we set for ourselves pursuant to GFOA Distinguished Budget guidelines. We are one of only a handful of Massachusetts communities who annually qualify for both a Certificate of Excellence for our Comprehensive Annual Financial Reporting and a Distinguished Budget Presentation Award from the GFOA. New this year, in furtherance of the GFOA's prioritization of improving transparency in public budgets, we are proud to offer a "Budget in Brief" summary that quickly highlights the most important parts of the FY2023 City budget.

The proposed FY2023 budget represents a strong commitment to the people we are fortunate enough to have been elected to serve. It continues our balanced and responsible approach to City finances. It invests in the critical services that make Salem a vibrant city and one with schools in which we can all take pride – in short, a stronger, more livable city for all. I recommend adoption of the proposed FY2023 budget, CIP, and other associated budgetary measures and I look forward to working with you in the coming days to enact this proposed spending plan to continue ensuring that Salem is a financially strong and professionally administered community.

Sincerely,

Kimberley Driscoll  
Mayor  
City of Salem

\*\*Short Term = 1-12 months, Medium Term = 12 months to 24 months, Long Term = 24 months or more.

# City Overview

# City Overview

## Profile of the City

The City of Salem, which was incorporated as a town in 1630 and became a city on March 23, 1836, is situated on the Massachusetts coast, 16 miles northeast on Boston. The City has a population of approximately 40,407 and occupies a land area of approximately 8 square miles. The second city in the Commonwealth to be incorporated, it is the Shire City of Essex County. Salem has operated under the Plan B form of government, with a mayor and an eleven-person City Council, seven elected from wards, and four at-large, since 1915.

## Historic Information

Salem was originally founded in 1626 by Roger Conant and a group of settlers from the Cape Ann area. In 1630, the area was incorporated into a town; and the name of Salem from "Sholem," meaning "peace" in the Hebrew language, was adopted. Salem is perhaps best remembered as the site of the infamous witchcraft hysteria that swept the colonies in the late 17th century. Early in the 18th century, Salem was a thriving commercial port. The protected harbor encouraged trade, but industrial development occurred slowly. During this time, shipbuilding and allied industries were well established and trading with the West Indies and European ports was extensive. This commercial expansion brought about a cultural expansion in the life of the town. The depression following the War of 1812 seriously affected the economy of Salem. Thereafter, the opening of the Erie Canal brought serious new trade competition; and with the building of larger vessels, trading was limited because the harbor was not deep enough to accommodate the larger vessels. As the level of commerce decreased, the growth of industry increased. In 1848, a large cotton mill was established; and after the Civil War several tanneries, shoe and paint factories were founded in Salem. A fire destroyed a large part of the industrial district in 1914, but the area was again built up as a thriving industrial center.

Among the many sites of historical interest are the Crowninshield-Bentley House, House of Seven Gables, Pierce-Nichols House, Pickering House, Pingree House, The Peabody-Essex Museum, Pioneer Village, Ropes Mansion House, the Witch House, and the Salem Maritime National Historical site which was the first national historic site in the United States.

## Governmental Structure

The Mayor is elected for four years in November of unevenly numbered years. The Mayor is the administrative head of the city and chairman ex-officio of the School Committee, the Board of Library Trustees, and the Board of Trust Fund Commissioners. The Mayor acts with the City Council and School Committee to carry out city business. The Mayor appoints his or her office staff, the City Solicitor, and the Assistant City Solicitor without City Council confirmation. The appointments of most city department heads, and members of the various boards and commissions, however, require City Council confirmation. The Mayor has the right to veto any order, resolution, or ordinance passed by the Council. However, a veto may be overturned by a two-thirds vote of all councilors. After reviewing and revising estimates prepared by department heads, the Mayor submits the budget to the City Council for final action. The Mayor approves all municipal payrolls, vouchers, contracts, and instruments; and recommends bond issues, legislations, and orders to the City Council; and represents the city with other levels of government. As the general administrator of all city departments, the Mayor is consulted by department heads pertaining to the city's welfare.

The City Council is primarily the legislative branch of the city government. As the legislative body, the Council confirms appointments made by the Mayor and appropriates all monies necessary to city operation. It can approve, disapprove, or reduce the amount of appropriations, but not add to the appropriation. The Council receives orders of recommendation by the Mayor and petitions from the public, and acts on them after committee study. The City Council also has the power to enact the Ordinances and other regulations. A majority of the City Council constitutes a quorum, and the affirmative vote of a majority of all the members of the Council is necessary for the adoption of any motion resolution, or ordinance. In some instance, adoption by a two-thirds vote of the members is required by statute.

The City provides general governmental services for the territory within its boundaries, including police and fire protection, disposal of garbage and rubbish (for residential properties); public education, including vocational-technical education at the high school level; street maintenance; certain water services, through the Salem and Beverly Water Supply Board; certain sewerage disposal services, through the South Essex Sewerage District; and parks and recreational facilities. Approximately 95 percent of the City is connected to the sewerage system; the entire area of the City is served by the municipal water system. The Salem Housing Authority is responsible for managing 1,462 units of low-income housing for the City. Buildings are either owned by the Authority or are part of the rental subsidy program or the voucher program. Of the 1,462 units, 715 are included in twelve elderly developments, nine family developments, and one handicapped accessible family developments. These units are owned and operated by the Authority. The principal highways serving the City are state Routes 1A, 107, and 114, all of which provide immediate access to Routes 1 and 128 and other major highways serving the greater Boston area. The City is a member municipality of the Massachusetts Bay Commuter Railroad, which provides passenger and freight service.

Within 170 days after the annual organization of the city government (which is ordinarily in early January), the Mayor is required to submit a budget of proposed expenditures for the fiscal year beginning on the next July 1. The City Council may make appropriations for the recommended purposes and may reduce or reject any item. Without recommendation of the Mayor, the City Council may not increase any item or make an appropriation for a purpose not included in the proposed budget (except by a two-thirds vote in case of the failure of the Mayor to recommend an appropriation for such a purpose within 7 days after a request from the City Council, pursuant to state statute). If the Council fails to act on any item of the proposed budget within 45 days, that item takes effect.

**Cultural and Historical Facilities**

The City has numerous facilities of continuing cultural and/or historical significance. These facilities contribute to making Salem a unique place that appeals to residents and attracts visitors. The visitor-based economy is important in Salem and contributes jobs and tax revenue for the City of Salem.

In 1692, infamous witch hysteria created fear and superstition as the fantasies and allegations of a group of young girls led to accusations of witchcraft against ordinary citizens. Nineteen people were convicted for the crime of witchcraft and were put to their deaths. 1992 marked the 300th Anniversary of the now famous Salem Witch Trials. The City of Salem commemorated this event with many special exhibits and events planned by the City’s Salem Witch Trials Tercentenary Committee. The major event of the year long commemoration was the design and construction of the Salem Witch Trials Memorial located adjacent to the Charter Street Cemetery . The Memorial design was chosen through a nation-wide design competition. As part of a living memorial, the City also annually awards the Salem Award for Human Rights and Social Justice.

The City has numerous facilities of continuing cultural and/or historical significance:

*Peabody-Essex Museum* : In 2003, the Peabody Essex Museum (“PEM”) undertook the largest museum addition in America. The \$125 million expansion allows them to showcase their extensive collection of Oceanic and Asiatic art for the first time. The PEM houses a broad spectrum of artifacts representing centuries of Essex County life and industry, as well as treasures from across the world brought to the region by early navigators. The PEM consists of a downtown campus, four National Historic landmarks and several properties on the National Register of Historic Places, as well as the Yin Yu Tang, the only complete Qing Dynasty house outside China. The PEM enjoys an attendance of approximately 250,000 visitors per year. See the section on Economic Development for overview of PEM’s expansion project.

*The Salem Maritime National Historic Site and Derby Wharf Lighthouse* : This 9.2-acre site, operated by the National Park Service, (“NPS”) is comprised of several buildings, including the original Customs House, as well as several wharves and homes. The NPS has restored the wharves and buildings. The Friendship, a full-size replica of one of Salem’s historic trading ships is berthed at the site. This \$6 million project was 75 percent federally funded and has become a major cultural attraction and educational tool. The National Park Service has recently relocated the historic Pedrick’s Warehouse from Marblehead to Derby Wharf and installed a pile supported dock adjacent to the building to facilitate interpretive display of historic maritime functions.

*El Punto Urban Art Museum* : Twenty years ago, North Shore CDC produced two murals which have long been points of pride in the Point neighborhood. In 2015, North Shore CDC worked with the Point Neighborhood Association, the City of Salem and Salem-raised and South Florida-based artist Ruben Ubiera on a crosswalk mural project. In 2017, North Shore CDC worked with 12 artists to create 15 large-scale outdoor murals and 12 large-scale wall murals within North Shore CDC’s office. In September 2017, the CDC secured permission from National Grid to paint a long wall on Peabody Street and invited 20 local artists to paint small murals.

By creating a walkable, curated arts district within three blocks with dozens of murals in the Point Neighborhood, the district will be readily accessible to all that downtown Salem already has to offer to over a million tourists per year. Bringing a fraction of those visitors to the Point neighborhood stands to be a transformative economic development boom to immigrant-owned businesses. It will also begin to break down the invisible barriers between the Point Neighborhood and the rest of Salem by creating a beautiful, walkable destination within the Point Neighborhood for people to visit.

*The House of the Seven Gables* : The House of the Seven Gables was made famous by Nathaniel Hawthorne’s novel of the same name. The site is a complex of the actual house occupied by Hawthorne and several adjacent historic structures. The House of Seven Gables received the prestigious designation of “Museum” status in 2008 and has been designated a National Historic Landmark District.

*Salem Witch Museum* : The Salem Witch Museum commemorates the famous witch trials that occurred in 1692 through an audio-visual presentation. Life-size stage settings, lighting and historically accurate narration recreate the afflicted girls, the trials, and the executions of the Salem Witch Trials.

*The Witch House* : The Witch House was the home of one of the famous Witch Trial judges, Jonathan Corwin. The Witch House is operated by the City of Salem and is an excellent example of 17th century architecture. The site recently received interior and exterior improvements for handicapped accessibility and historic preservation.

*Witch Dungeon Museum* : The Witch Dungeon Museum provides a live re-enactment of the Witch Trials for visitors to the City. The presentation is adapted from the 1692 transcripts and re-enacted by professional actors.

*The First Church* : The First Church, located on Essex Street, was founded in 1629 and is one of the oldest, continuing Protestant congregations in North America and the first to be governed by congregational polity, a central feature of Unitarian Universalism.

*Chestnut Street* : Chestnut Street is a National Historic Landmark consisting of a group of homes of notable architectural significance. The homes are primarily old mansions built by Salem’s successful sea captains during the early 19th century.

*Pickering House* - The Pickering House is the oldest house in America to be continuously occupied by the same family.

*Pioneer Village* : Pioneer Village, situated in Forest River Park, is a living-history Museum that depicts life in Salem in 1630. Guides in historical costumes show visitors how early Puritans lived. The site contains a thatched cottage, historic gardens, wigwams, and animals.

*Winter Island Park* : Operated by the City of Salem, Winter Island is a former U. S. Coast Guard Air and Sea Rescue Station located on Salem Harbor. The site is a seasonal recreation site with RV and tent spaces. The site also has a beach, boat launch, wind surfing, scuba diving, picnic areas and a snack bar. Historic Fort Pickering and Fort Pickering Light are located within the site. Winter Island is now the home of “Sail Salem”, a community sailing program that provides free sailing lessons to Salem children.

*Salem Wax Museum of Witches and Seafarers* : The Wax Museum, opened in July of 1993, features a multi-media presentation and realistic wax figures depicting pirate and witch stories of Salem’s past. The Wax Museum also offers hands-on children’s activities

*Salem Witch Trials Memorial* : The Salem Witch Trials Memorial was dedicated on August 5, 1992 to commemorate the 300th anniversary of the now famous Salem Witch Trials of 1692. The memorial is located adjacent to the Charter Street Burial Ground. The 20-year old Memorial has now been restored with a rededication ceremony on September 9, 2012.

*Heritage Trail*: The many cultural and historic facilities in Salem are connected by the Heritage Trail, a 6-inch red line painted on sidewalks and streets. The Heritage Trail leads to world-renowned museums and historic homes, as well as to restaurants offering simple fare to gourmet meals, full-service hotels, inns and bed and breakfasts.

*Salem Common* : Salem Common has been public land since Salem’s early days. Its eight acres were originally a swampy area, with several ponds and small hills. Salem’s military heritage begins in 1636, when the first muster occurred on Salem Common. Today, the National Guard traces its roots to that first muster. Needing a place for regular military drills, it was voted in 1714 by the commoners to be “forever kept as a training field for the use of Salem”. In 2016, the City completed Phase III of the historic fence’s restoration and next phases to continue through 2026.

*Baker’s Island Lighthouse* : The tower is located on the north end of the island. The lighthouse was automated in 1972. The island is closed to the public and is best seen by boat.

*Fort Lee* : This American Revolution fort was built in 1776 and was added to the National Register of Historic Places in 1994.

*The Phillips House* : The Phillips House is the only home on historic Chestnut Street open to the public, and it provides a glimpse into the private world of the Phillips family during the early decades of the twentieth century.

*Ye Olde Pepper Candy Companie* : This is America’s Oldest Candy Company, dating back to 1806, when an English woman, Mrs. Spencer, was shipwrecked and landed in Salem. Mrs. Spencer was assisted financially by residents, and what resulted was the first candy made and sold commercially in America and carried around the world by sea captains and their crew.

*Proctor’s Ledge* : In 2017, the City constructed a memorial to honor the 18 victims of the Salem Witch Trials who were executed at Proctor’s Ledge in 1692. The memorial, designed by Martha Lyon Landscape Architecture and constructed by The Patio Company, includes a landscaped slope down from the ledge where the executions are believed to have taken place and a semi-circular area for quiet contemplation surrounded by a granite block wall. The memorial was dedicated on July 19, 2017 on the 325th anniversary of the second day of executions held at the Ledge. This project was completed in 2017, funded with \$179,140 in FY16 Community Preservation Act funds.

The tourist attractions described above are included to illustrate the continuously growing tourist economy. These attractions provide jobs, tax revenue and buying power to the City of Salem .

**Development and Investment**

Salem has experienced over \$1 billion of investment in recent years throughout the city. Three geographic areas of focus are downtown, the North River Canal Corridor, and the Waterfront.

**Downtown Development**

A number of vacant and underutilized properties have been redeveloped into mixed-use residential/commercial buildings. The downtown alone has seen over \$125 million in private investment from projects such as the Laundry Building, The Distillery, Old Police Station Redevelopment, Blue-stone Alley, 10 Federal Street, the Salem News Building, Latitude (former Tompkins Furniture Building), Old Salem Jail, Commonwealth Diagnostics, Hotel Salem, Hampton Inn mixed use project, and Brix (the District Court redevelopment). New projects continue to be proposed, permitted, and get under construction as described below.

*Superior Court and County Commissioners Buildings* : The Governor signed legislation in January 2017 to transfer ownership of these two iconic properties to the Salem Redevelopment Authority (SRA). DCAMM completed a warm mothballing project in early 2019 to maintain the properties while the SRA works to identify a redevelopment project. The SRA issued a Request for Qualifications in early 2020 and selected WinnDevelopment as the preferred developer. Winn has begun the permitting process for a mixed-use mixed-income development that will adaptively reuse the court building and have new construction on a parking lot across the street.

*Washington and Dodge Street Redevelopment* : This 237,000 square foot, \$50 million project includes a mixed-use development with 52 residential units, a 113 room Hampton Inn branded hotel, ground floor retail, 215 parking spaces, associated landscaping, and pedestrian and transportation improvements. Construction will begin in spring of 2018 after a redesign of the project has been approved by local boards. When completed, this project will dramatically increase the footprint of Salem’s downtown. The City was awarded a state grant in the amount of \$3.36 million for infrastructure improvements to support this proposed project. This project was completed in 2020.

*District Court Redevelopment* : The District Court building was transferred to the Salem Redevelopment Authority (SRA) in accordance with legislation passed by the Legislature for the purpose of redevelopment. The SRA solicited development proposals through an RFP process in 2015 and selected Diamond Sinacori as the designated developer. The project is projected to cost approximately \$26 million and began construction in 2019. It will be completed in the fall of 2021.

*Peabody Essex Museum (PEM)* : The PEM completed a 40,000 gross square feet expansion in 2019. It includes three floors of state-of-the-art galleries, a secondary entrance to the museum and a full basement for mechanical and electrical equipment. The project cost approximately \$49 million.

*90 Washington Street* : In 2018, the three-story building was redeveloped as office space with ground floor retail. The City entered into a 20-year lease for the office space to accommodate personnel located in other leased premises. The City took occupancy in April 2018.

*120 Washington Street* : The office space currently serving as the City Hall Annex was permitted in 2017 to be converted to 14 residential units.

*Old Salem Jail Complex Redevelopment* : The first phase was completed in 2010, which includes 23 housing units, a restaurant, and a jail exhibit. Phase 2 includes an additional 13 housing units in a new building for a total project cost of approximately \$11 million. Phase 2 was completed in summer 2018.

*Hotel Salem* : In 2015, Lark Hotels purchased the “Newmark Building” on Essex Street for the purpose of converting it to a 44-room boutique hotel with a rooftop restaurant and basement lounge. The \$7.4 million project was completed in 2017. The City supported this project with a five-year TIF valued at approximately \$353,000. It is anticipated to be a catalyst for further economic development activity on the pedestrian mall.

*Commonwealth Diagnostics International (CDI)* : In 2016, CDI established its headquarters at 39 Norman Street after making an approximately \$5.1M investment in the purchase and renovation of the building. The business is expected to add potentially up to 100 new full-time equivalent jobs by 2021.

*The Merchant* : In 2016, a new 11 room Lark Properties boutique hotel opened in the renovated historic Joshua Ward House in downtown Salem.

*J. Michael Ruane Judicial Center and Probate and Family Court* : At the end of 2011, the new courthouse opened. This \$106 million court expansion in downtown Salem continues to have a significant positive economic impact on the downtown and the city. The \$60 million Probate and Family Court Renovation component of the judicial complex was completed in 2017.

#### North River Canal Corridor Redevelopment

A second area undergoing transformation is the North River Canal Corridor, known as Blubber Hollow, adjacent to downtown. Formerly the region’s whaling and then tannery center, the neighborhood has more

than \$70 million in pending development. Guided by a community-based plan, the City changed the zoning to encourage development. The pending private investments will transform the largely vacant and contaminated sites into a vibrant mix of residences, offices, and retail uses. Specific projects are:

*9 South Mason Street* : The project involves redevelopment of industrial and residential land located between Mason Street and Commercial Street in the North River Canal Corridor district. The plans total 4 buildings and 29 dwelling units, including the rehabilitation and expansion of an existing two-story concrete industrial building; expansion of a three-story residential building; and construction of two new townhouse style buildings. The project was permitted in 2016 and was completed in 2020.

*Riverview Place* : Located on the former Salem Suede site, Riverview Place consists of the demolition of the old tannery and construction of 130 residential rental units and 5,540 square feet of commercial space. Construction began in 2019 and is expected to be completed in 2021.

*River Rock* : In September 2016, the Planning Board approved a mixed-use development containing 50 housing units and retail space. Located on the former Flynn Tan property, the 1.98-acre site contained vacant industrial buildings and land along Boston Street, a major entrance corridor into Salem and within the new North River Canal Corridor (NRCC) Neighborhood Mixed Use District. The project will was completed in 2020.

*Grove Street Apartments (formerly known as Legacy Apartments)* : This project consists of 129 residential apartments. It was approved by the Planning Board in 2012 and amended in 2015 to meet MEPA requirements. In July 2015, the project received a MEPA certificate and Superseding Order of Condition. Environmental remediation and demolition of some on-site structures is completed. Construction is anticipated to begin in 2021.

*Gateway Center* : Local permitting was completed in August 2016 for the development of a 3.48-acre parcel located at the corner of Bridge Street and Boston Street to include a mixed-use building with a commercial/retail and 117 housing units and a free-standing building to house the City’s Community Life Center (CLC). Construction of the CLC was completed in September 2018.

*28 Goodhue Street* : Now known as North River Apartments, this mixed-use project on the site of a former factory was completed in 2014. The development includes 44 residential condominiums, 6,000 square feet of com-

mercial retail space and on-site parking. Construction was completed and the building is occupied.

### Waterfront Development

Key changes also are rapidly occurring along Salem's shoreline, creating rare waterfront development opportunities.

*Charlotte Forten Park (289 Derby Street)* : In 2016, the City Council approved a \$1.4 million bond order to acquire property located at 289 Derby St. for the purpose of constructing a downtown waterfront park. Construction was completed in 2019.

*Salem Harbor Power Station/Footprint Power* : Construction of the new natural gas facility is completed. The new state-of-the-art, 630-megawatt gas-fired plant began operating in June 2018. Site work was completed in 2020. The new plant was developed on one-third of the site, opening the remaining two-thirds of the 63-acre waterfront property to re-development opportunities. In June 2021, the City began collaborating with the Commonwealth of Massachusetts on the role the site could play in offshore wind. In September 2021, the City announced a public-private partnership with Vineyard Wind and Crowley Maritime Corporation to establish the site as a major offshore wind port.

*Port of Salem Expansion (Salem Wharf)* : This \$20 million project resulted in the construction of a multi-commercial wharf facility with supporting utilities and amenities for cruise ships, commercial fishing, transient, and charter vessels. A terminal building, harbor walk, dredging, and landside improvements are part of the project. During the project's first phase undertaken in 2011, the City completed utility installation, seawall construction, base paving, and installation of an interim ferry terminal. In 2012 and 2013 a combination of state and federal Ferry Boat Discretionary (FBD) Funds enabled the City to construct the second phase of the project, which consisted of the first 260 feet of pier, wave fence and a portion of the seawall, install a gangway and ramp system, install utilities and begin dredging. The City has completed Phase 3 which includes final paving, landscaping, lighting, and construction of the harbor walk. In addition, the City has made improvements to the adjoining deep-water dock owned

by Footprint Power and constructed a connecting walkway between Footprint's dock and the City's Blaney Street pier. Since construction of the cruise port, Salem has received visits from a number of cruise ships. Now that construction of the powerplant is complete, the Port of Salem can host a full schedule of ship visits. In 2017, the City completed dredging and construction of an 11-slip Commercial Marina at Blaney St. The Marina is home to seven marine businesses. It implements an important recommendation and goal of the City's Municipal Harbor Plan by creating a multi-use commercial wharf facility with deep water access for ocean-going vessels. As a result of its construction, the Port of Salem is now a full service commercial and industrial port.

*South River Dredge* : The maintenance dredging for the South River Channel was last performed by the US Army Corps of Engineers (USACE) in 1967. In February of 2008, the USACE dredged the Federal Navigation Channel into Salem Harbor, the Federal Anchorage Basin off Derby Wharf, and the approach to the South River Channel but stopped short of the South River Channel because of contaminated sediment that exceeded the state levels for open ocean disposal were encountered. Since then, the City obtained \$155,000 from the Governor's Seaport Advisory Council for sediment testing, bathometric survey work, cost analysis for dredge disposal options, and preliminary design and engineering of the dredge footprint for the South River Channel and the South River Basin (area west of the Congress Street Bridge). In 2012, the City received an additional \$275,000 from the Seaport Council to finish the design, engineering and permitting stage of the dredge project. The City's consultant, Apex, has prepared a Draft Environmental Impact Report and Notice of Intent. Upon the Army Corps of Engineers' final determination of the suitability of the CAD cell material for offshore disposal, the City will submit both documents to the appropriate regulatory agencies. Once completed, the dredging will provide direct access to downtown Salem for deeper drafting vessels, transient boats, and dingy boats, which will encourage increased boating activity and support economic development.

*Salem Ferry* : The Salem to Boston Ferry is an alternative transportation option connecting two great cities. Named the Nathaniel Bowditch after the founder of modern maritime navigation and Salem’s native son, the ferry is a high-speed catamaran that carries 149 passengers, is entirely ADA accessible and makes the trip from Salem to Boston – where it docks at Long Wharf – in less than 45 minutes. The City of Salem and the Massachusetts Bay Transportation Association (MBTA) have an agreement which allows commuters to purchase a pass that can be used both on the Ferry commuter runs and on the commuter train, strengthening the Ferry’s viability as a transportation choice for daily commuters. Due to the success of the program, the City of Salem has obtained \$3.4 million in grant funding to add a second ferry which is expected to be operational by 2021. The City of Salem is one of only a few municipalities to own a ferry vessel, which it purchased with a grant from the Massachusetts Executive Office of Transportation.

*Osborne Hills Subdivision (Strongwater Crossing)* : Currently under construction, Strongwater Crossing Subdivision is a cluster development project that includes the construction of 131 single-family homes on approximately 162 acres of land. Approximately 93 acres of the project will be permanently protected open space. The project represents one of the largest subdivisions built in Salem in recent history. Due to its size, this subdivision is being completed in phases. There is no scheduled date for completion.

*Witch Hill* : The construction of 23 single family homes along the extension of an existing roadway is underway. There is no scheduled date for completion.

*St. Joseph’s Church Redevelopment* : Located on the site of the former St. Joseph’s Church that was closed in 2004, this affordable housing development is a key revitalization project for the Point Neighborhood and will provide much-needed housing for the City. Phase 1 of the project is complete and includes a new building with 51 affordable housing units, commercial space, and a community room. Phase 2, which will bring an additional 37 units, began construction in 2020.

*Eaton Place/Former Elks Lodge (17 North Street)* : With Planning Board Site Plan Approval in December 2009 to add a third and fourth floor, the former assembly hall’s conversion into six residential condominiums was completed with special care to restore the structure’s historic appearance.

*50 Palmer Street* : This project by the Salem Harbor Community Development Corporation (CDC) included the demolition of the existing structure and the construction of a new three-story residential structure with a footprint of 7,300 square feet. The new structure is complete and consists of 15 units of affordable rental housing for low- and moderate-income households. This project was funded using a partnership of private and public sources, including funds from the City.

**Residential Development in Other Areas of Salem**

*First and Traders Way* : In 2018, a 212-unit apartment complex with 7,000 square feet of commercial space was permitted. Construction began in 2019.

*North Shore Community Development Coalition (NSCDC) Properties* : The NSCDC has invested \$18.9 million in renovating 77 affordable housing units in Salem since 2016. In 2017, the CDC began the permitting process to develop two new affordable housing buildings with a total of 46 units at a project cost of \$19 million.

*Clark Avenue Cluster Subdivision* : The proposed plan for a 26-lot residential subdivision with approximately 1.95 acres of public open space is fully permitted and currently under construction. There is no scheduled date for completion.

**Institutional and Commercial Development in Other Areas of Salem**

Salem enjoys a mix of businesses and markets. Markets for Salem businesses include the local population, the large tourist trade of over 1 million visitors, Salem State University, the North Shore Medical Center, and

the J. Michael Ruane Judicial Center. Salem State University with its 10,000 students and large employment base generated over \$104 million for the City of Salem in direct and indirect spending, which is derived directly from employee salaries and benefits, purchased goods and services, and student spending. The North Shore Medical Center is expanding its facilities in Salem, and in 2017, the Family and Probate Court renovation project was completed marking the completion of the overall court complex on Federal Street.

Large commercial and industrial development, prominent in the Highland Avenue, Swampscott Road and Vinnin Square areas, is strong. Salem's industrial park on Technology Way houses large companies such as Salem Glass and Thermal Circuits. On Swampscott Road, a 170,000 square foot vacant building was converted to commercial condominiums and is now home to 9 businesses relocating or expanding in Salem. A number of significant national retailers such as Staples, WalMart, Home Depot, Target, Pep Boys and PetSmart are in these areas. The City also is home to Shetland Park, a 900,000 square foot business park abutting downtown, which houses more than 70 businesses.

*Tropical Products* : In 2020, Tropical Products announced it was going to build a new facility along Highland Avenue in order to grow. The project was approved for a TIF and in September 2020 received \$340,000 in state tax credits to support the expansion which will bring 120 new jobs. The project began its permitting process in September 2021. The existing facility will be sold.

*North Shore Medical Center (NSMC)* : The North Shore Medical Center completed redevelopment of a portion of their existing hospital campus in order to better serve the surrounding community by consolidating existing uses, improving access and circulation around the hospital, and constructing a new state-of-the-art emergency services department. The Project consisted of 119,735 square feet of new building space, 119,734 square feet of interior renovations, parking and driveway reconfigurations, landscape and hardscape improvements, and utility infrastructure modifications to support this use. The project was completed in 2019.

*Salem State University* : Changes to the physical campus since 2007 are profound. Nearly 760,000 square feet of new construction and renovations have been completed or are underway, bringing state-of-the-art academic and student life spaces to campus. Through the support of the Commonwealth of Massachusetts and generous donors, combined with resources of the university's operating budget, over \$250 million has been invested in campus improvements. Highlights of these changes include the Frederick E. Berry Library and Learning Commons, the Sophia Gordon Center for Creative and Performing Arts, the Harold E. and Marilyn J. Gassett Fitness Center, athletic fields and courts, and two residence halls that provide accommodations for nearly 900 students. Efforts are currently underway to secure the Commonwealth's support for a new science facility to meet the strong demand for science, health care, and technology programming.

*U.S. Biological Corporation* : This corporation completed the construction of a new \$3 million, 50,000 square foot headquarters building on Technology Way with the plan to have 28 new jobs within five years.

*Endicott School (110 Boston Street)* : The former Endicott School sits on a .53-acre lot along Boston Street, a major entrance-corridor into Salem with direct access to Route 128. After a competitive RFP process, the property was sold for \$350,000 to a nonprofit organization, Children's Friend, who relocated their office from another location in Salem. The City also negotiated a PILOT Agreement with the agency.

## **Public Infrastructure Projects**

The City works throughout Salem to improve infrastructure to meet the needs of residents, businesses, and visitors.

### Transportation Projects

*Salem Skipper* : In December 2020, the City launched the Salem Skipper, an on-demand shuttle service. The first eight months of operations had more than 20,000 trips.

*Blue Bikes* : In 2021, the City launched BlueBikes bikeshare system. The program building on the success of the Zagster bike share that logged nearly 25,000 rides in its three years of operation.

*Boston and Bridge Complete Streets Infrastructure Improvements* : The City received \$3.5M in FY2016 MassWorks Infrastructure Grant Program funding, for "Complete Streets" streetscape improvements along Bridge Street, between Boston and Flint Street. An additional \$250,000 in grant funds was awarded to this project from MassWorks that was expended in fiscal year 2017. Construction began in 2020.

*Canal Street Improvements* : The improvements included reconstruction of the roadway pavement, curbing and sidewalks. Wheelchair ramps and appropriate pedestrian crossings were added to improve pedestrian safety. Additional pedestrian improvement such as street trees and curb extensions were incorporated. Drainage and other utility improvement were made, the road crown was adjusted to provide a consistent cross slope, and settled locations were repaired. The project was completed in 2018.

*Grove Street Improvements* : The City received a \$1,250,000 grant for improvement to Grove Street to support the proposed housing and mixed-use developments in the North River Canal Corridor. The project is complete.

*1A Bridge Street Improvement Project* : The major reconstruction of 1A Bridge street is complete, including roadway reconstruction, new sidewalks and crosswalks, landscaping and period lights.

*Lafayette Street Improvements* : Funded through a Public Works Economic Development (PWED) grant, construction was completed in the fall of 2012. Improvements include the installation of traffic signals at the Harbor/Lafayette Street intersection and the Lafayette/Washington Street intersection, new sidewalks, new crosswalks and curbing, period lights, new bus shelters and new benches along Lafayette Street. The #1 million grant was matched with approximately \$200,000.

*North Street Improvement Project* : Reconstruction of North Street, including roadway, sidewalk, signalization and period lighting was completed.

*Derby/Congress Traffic Lights* : This intersection was redesigned to increase pedestrian safety. Installation of traffic lights for pedestrian and vehicle safety and traffic circulation was completed.

#### Parks and Recreation Projects

*Salem Willows* : The City has been working on various improvements throughout Salem Willows Park. In December 2020, plans were approved for the design of a new parking lot, tennis courts, and hill area. This project will be substantially complete by the fall of 2021.

*Palmer Cove* : In 2021, construction was completed for the first phase of renovation to Palmer Cove Park. These improvements, funded in part by a \$400,000 PARC grant, include an upgraded waterfront path, relocated and enhanced community garden space, and improvements to the basketball court.

*Lower Gallows Hill Park* : The renovation of Lower Gallows Hill Park, funded in part by a \$400,000 PARC grant, includes reconstruction of the Ryan Brennan Memorial Skate Park, expansion of the baseball field to regulation size, improved trail connections, and upgraded drainage. The project will be completed in 2022.

*Lafayette Park Renovation* : In fall 2017 and spring 2018, Lafayette Park was renovated to include upgraded walkways, lights, and benches, a new irrigation system, and a tree plan with an appropriate mix of sun and shade. The project was funded through \$100,000 in CPA, \$162,000 CDBG, and \$25,000 CIP.

*McGlew Park Renovation* : In 2016, the Executive Office of Energy and Environmental Affairs awarded the City a \$400,000 Parkland Acquisitions and Renovations for Communities (PARC) grant to renovate McGlew Park. The park is currently under construction and is anticipated to be finished in the spring of 2018.

*Remond Park* : Improvements to the old bridge abutment on Bridge Street Neck have been funded by the State to create a new park. Construction is complete.

*Bertram Field* : A complete renovation of Bertram Field football stadium and track was completed, including a synthetic turf surface expansion of

the track to regulation size and installation of a resilient surface. Cost of the project is \$1.9 million and was partially funded with a Massachusetts PARC grant in the amount \$400,000.

*Bertram Field* : A complete renovation of Bertram Field football stadium and track was completed, including a synthetic turf surface expansion of the track to regulation size and installation of a resilient surface. Cost of the project is \$1.9 million and was partially funded with a Massachusetts PARC grant in the amount \$400,000.

*Salem Common Fence* : In 2017, the City completed Phase III of the Salem Common Restoration Project. The City was awarded \$68,000 in CPA funds and utilized \$100,000 of CIP funds to restore thirteen fence sections and three bollards. The Common fence is a significant historical feature of this municipal property and \$150,000 of CIP funding has been secured for another round of restoration.

*Fort Avenue/Szetela Lane Redevelopment* : This City-owned site at the intersection of Fort Avenue and Szetela Lane consists of five parcels containing approximately 2.13 acres. The property now contains an easement for the natural gas pipeline supplying the Footprint Power Plant. The City intends to improve the site with a new multi-use path connection, greenspace, and possibly parking, utilizing funds secured through the easement agreement.

*Furlong Park* : The City received a \$500,000 Parkland Acquisition and Renovation for Communities (PARC) grant from the State Division of Conservation Services for the restoration of Furlong Park. The 5.5 acre park is located along the North River and contains a baseball field, tennis court, playground, and basketball court. As part of the project these features were renovated and additions to the park included construction of a care top boat launch and stabilization of the eroded embankment that borders the North River. Environmental remediation work was funded with a separate state grant. Park renovations are now complete.

*Bicycling Accommodations* : The City undertook a demonstration project for protected bike lanes on Lafayette Street in accordance with Vision2020. The City and the Salem Bike Path Committee continue to be committed to extending the Salem Bike Path to downtown Salem via an extension of the former Boston & Marine Railroad ROW at Canal Street, behind Gardner Mattress and all the businesses on Broadway Street, and a portion of the MBTA's active and abandoned railroad ROW. This extension has been engineered as part of the Canal Street Roadway reconstruction project and the city is seeking to secure full funding.

Other City Projects and Initiatives

The City pursues additional opportunities to make physical improvements, increase efficiencies, and improve the community.

*Proctor's Ledge* : In 2017, the City constructed a memorial to honor the 18 victims of the Salem Witch Trials who were executed at Proctor's Ledge in 1692. The memorial, designed by Martha Lyon Landscape Architecture and constructed by The Patio Company, includes a landscaped slope down from the ledge where the executions are believed to have taken place and a semi-circular area for quiet contemplation surrounded by a granite block wall. The memorial was dedicated on July 19, 2017 on the 325th anniversary of the second day of executions held at the Ledge. This project was completed in 2017, funded with \$179,140 in FY16 Community Preservation Act funds.

*Charter Street Cemetery* : In 2017, the City received a \$125,000 Massachusetts Cultural Council Facilities Fund grant for the full restoration of Charter Street Cemetery. In addition, the project is funded by \$260,000 of CPA funds and \$218,000 Capital Improvement Project funds for a total of \$600,000.

*Dickson Memorial Chapel* : The City was awarded \$70,000 from the Massachusetts Historical Commission's Massachusetts Preservation Project Fund

(MPPF) for the restoration of Dickson Memorial Chapel. A total of \$226,000 has been allocated to the first restoration phase of the chapel which was completed in 2017.

*Urban Forestry* : A tree committee was formed to renew Salem's dedication to its urban forestry. A pilot neighborhood tree inventory was completed in 2016, and the City secured a \$30,000 DCR Urban Forestry Challenge Grant to fund a citywide tree inventory, management plan, and cost estimates for implementation of the management plan. The City provided a \$30,000 match through CIP. The inventory was completed in 2017.

*Collins Cove Living Shoreline* : In 2017, the City received a \$55,230 grant to complete final design and permitting for a living shoreline project in Collins Cove. The City will finalize the measurements and site plan for the proposed green infrastructure methods and use the prepared final design documents to submit to local and state permitting agencies to have the approval to install coir rolls and salt marsh plantings. The goal of the project is to increase resiliency to Collins Cove and the abutting residential properties from effects of climate change such as increased frequency and intensity of flooding and storm surge.

*Public Art* : Over the past four years, the City has been working to increase the amount and quality of public art. Partly in response to public demand, this initiative is being pursued to support the City's identity as an arts and cultural destination and supports the City's efforts to leverage the arts for economic development purposes. In late spring of 2017, a call for works was distributed for "Celebrating the Urban Environment" resulting in three locations for public art in the downtown. Efforts in the spring of 2017 resulted in a painted stair project at the middle school to bring awareness to the impact pollution has on the oceans.

*Artists' Row* : Artists' Row, five stalls originally built as a marketplace, is located across from Old Town Hall and Derby Square. This area is at the heart of the city and continues to be an important public plaza and pedestrian way. In the spring of 2015, the City initiated the Creative Entrepreneur Program to utilize the four stalls as maker/gallery space from May to October. In spring of 2017, a group of graphic design students from Lesley University re-branded Artists' Row. The scope included changing the paint colors of the stalls, new doors and windows for better visibility and new graphics for signage on the walls to the entrance of Artists' Row. To further enliven activity on Artists' Row, in 2017 the Public Art Commission initiated an Artist in Residence Pilot Program which resulted in weekly creative placemaking activities resulting in a community table and planted gardens.

*Old Town Hall* : The Old Town Hall is a beautiful federal style building located in the heart of downtown Salem. Old Town Hall is the crowning jewel of Derby Square and the earliest surviving municipal structure in Salem (dating from 1816-17). Our venue is a two-story, brick structure featuring Palladian windows, carved wood details, antique chandeliers, decorative columns, and wooden floors. The building is owned and managed by the City of Salem which programs both non-profit and private events.

Old Town Hall is the summer/fall home to the Salem Museum, presenting hundreds of stories of Salem’s rich past and History Alive, a performance of the re-enactment of the trial of Bridget Bishop accused of witchcraft. During the winter and spring, the building hosts musical performances, weddings, and civic events such as the Salem Arts Festival art exhibit. The City received a \$20,000 Cultural Facilities grant from the state, which was matched with local CPA and C.I.P. funds for window restoration and repair. The restoration work was completed in early 2016.

*EPA Brownfields grant* : The City with the City of Peabody received a \$950,000 federal grant to be utilized for a revolving loan fund to clean up contaminated sites.

*Universal Steel site* : This brownfields site was taken by the City for tax title in 2012. Through a coordinated effort with EPA, DEP, and Mass Development, the site has been remediated and paved and was used for temporary parking during the construction of the MBTA garage. The City solicited proposals for redevelopment to put the site back on the tax rolls and received a proposal from the adjacent commercial business, F.W. Webb Company, to build a new warehouse and commercial showroom. In 2018, the business withdrew its plans.

*LED Streetlight Conversion* : In 2016, the City completed the conversion of 3,000 overhead streetlights to LED fixtures. This project will result in \$194,000 annual cost savings and 1.2 million kilowatt hours in annual energy savings.

*Redevelopment of 5 Broad Street* : In March 2010, a reuse feasibility study was completed for a city-owned building located at 5 Broad Street. The building, which currently houses the City’s Council on Aging, was declared as surplus property by the City Council. The City hired consultants to examine the redevelopment potential for this property in preparation for its future sale. Proceeds from the sale of this building will be used to off-set the cost of a new senior center. An RFP was issued in the summer of 2018,

and the SRA made a developer recommendation to the City Council in April 2019. Closing will occur after permitting is completed.

*Salem Main Streets Program* : In July 2007, the City, in collaboration with the Salem Chamber of Commerce and the Salem Partnership, revived the Salem Main Streets program. The program works to support the revitalization of downtown Salem as a vibrant year-round retail, dining and cultural destination through business recruitment, retention, and the promotion of downtown Salem. The program has continued to support business recruitment and retention while adding an annual downtown arts festival and a weekly farmers market.

*Salem Affordable Housing Trust Fund* : The City adopted an ordinance to create a municipal housing trust fund in October 2006. Through negotiations with a developer, the Trust Fund received \$50,000 and additional funds are expected from negotiated contributions from other large development projects.

*Destination Salem* : Salem continues to market sale as a premier, year-round travel destination. The City continues its funding commitment to destination Salem through its annual allocation of hotel/motel tax revenue.

## Planning

The City's investments are guided and informed by planning studies including the following:

*Imagine Salem* : The first phase of this citywide visioning project will be completed in fall 2017. The plan's vision statement and guiding principles will inform the development of a subsequent action agenda.

*Housing Goals and Production Plan* : In early 2021, the City was awarded a \$40,000 grant from the Executive Office for Administration and Finance (EOAF) to help create a Housing Goals and Production Plan. The plan will create a proactive strategy for planning and developing affordable housing to meet the anticipated needs of the City. Work began late summer 2021 and will be completed in early 2022.

*Municipal Harbor Plan* : The Harbor Plan update began in July 2020. The update will guide future development along Salem Harbor, most notably the reuse of the 44 acres of undeveloped land adjacent to the Footprint Power Plant. Public meetings began in August 2020 and continued

through summer 2021. The plan will be submitted for approval in late 2021.

*Resilient Together* : The City partnered with the City of Beverly for a joint climate action and resilience plan known as Resilient Together. Funded through a \$250,000 grant from the Municipal Vulnerability Program (MVP), the work included community engagement via social media campaigns, Zoom community meetings, and various other online engagement tools. The plan was completed in June 2021 and the Cities have begun to implement the priority actions.

*Highland Avenue Corridor Study* : In September of 2020, a corridor study for Highland Avenue commenced. The goal of the study was to develop a vision for the future of the corridor from which other action can be taken to realize the vision within a context of market dynamics. The plan was completed in April 2021.

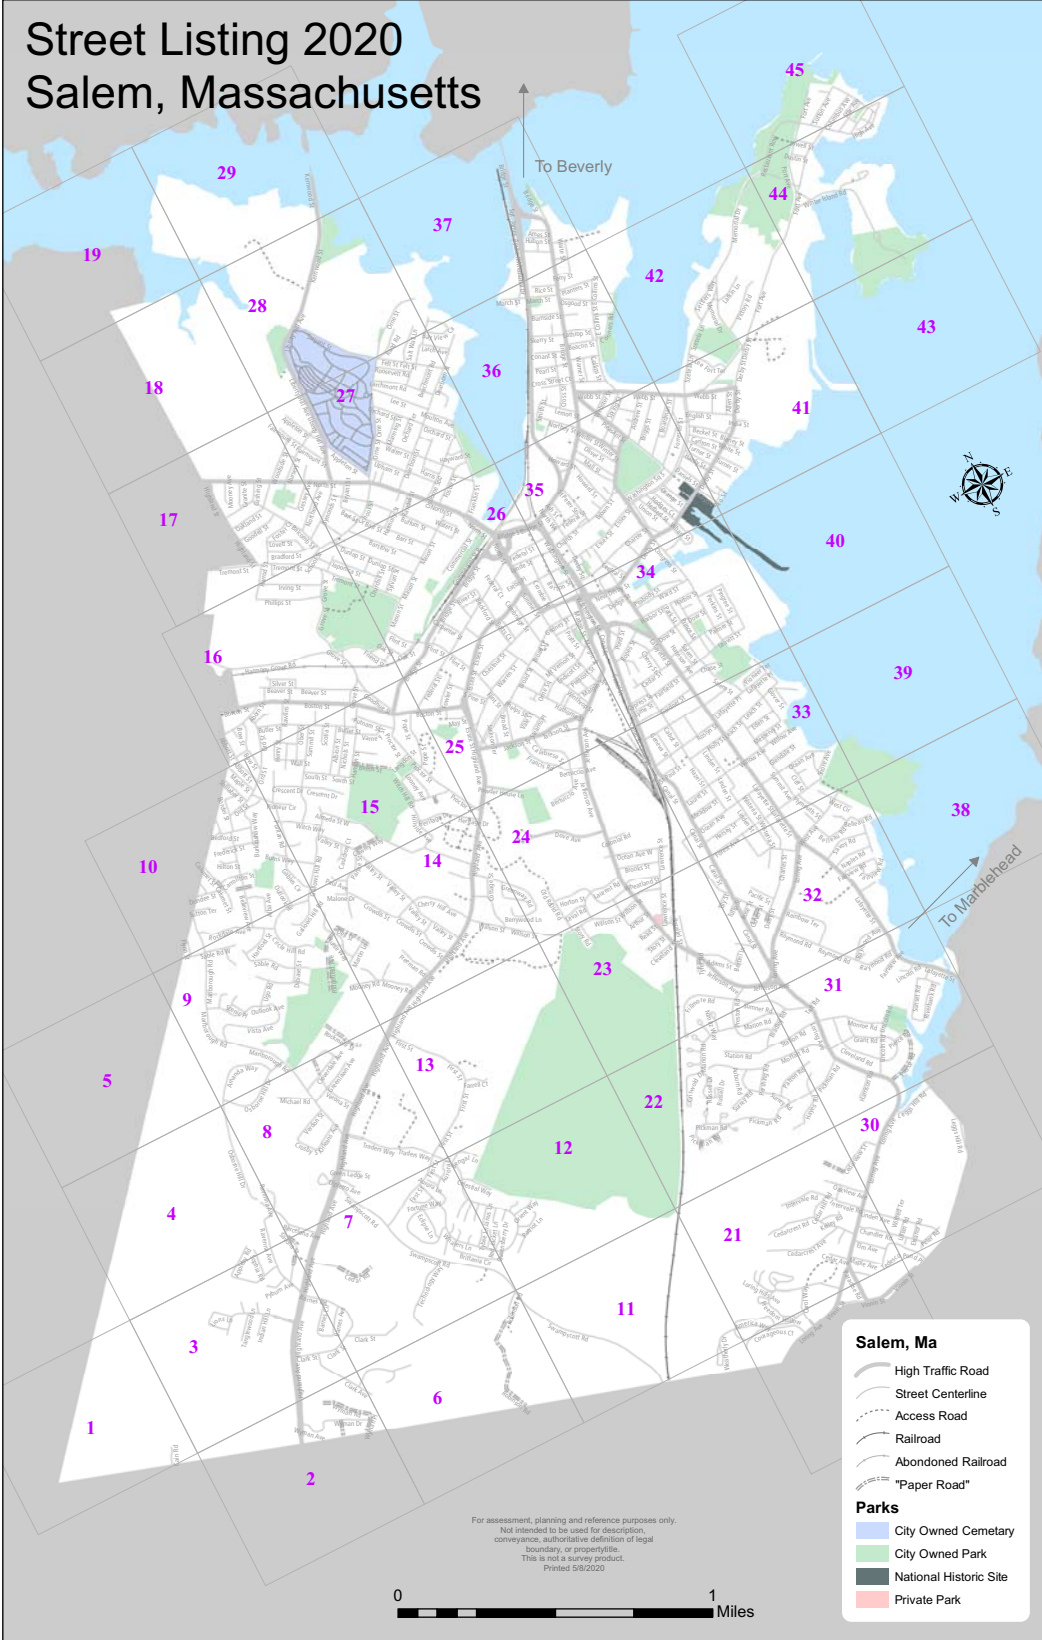

*Bridge Street Neck* : A Bridge Street Neck updated vision report with recommendations was finalized in March 2020. The first implementation step is development of a mixed-use overlay zone with design guidelines. It is anticipated the mixed-use overlay zone with design guidelines will be filed for approval in December 2021.

*South Campus* : This City partnered with Salem State University to support DCAMM's development of a request for proposals for the redevelopment of the South Campus as the University consolidates its footprint to its North and Central Campuses. The redevelopment of the 21.5 acres site will be informed by the community vision completed by Sasaki Associates in April 2020.

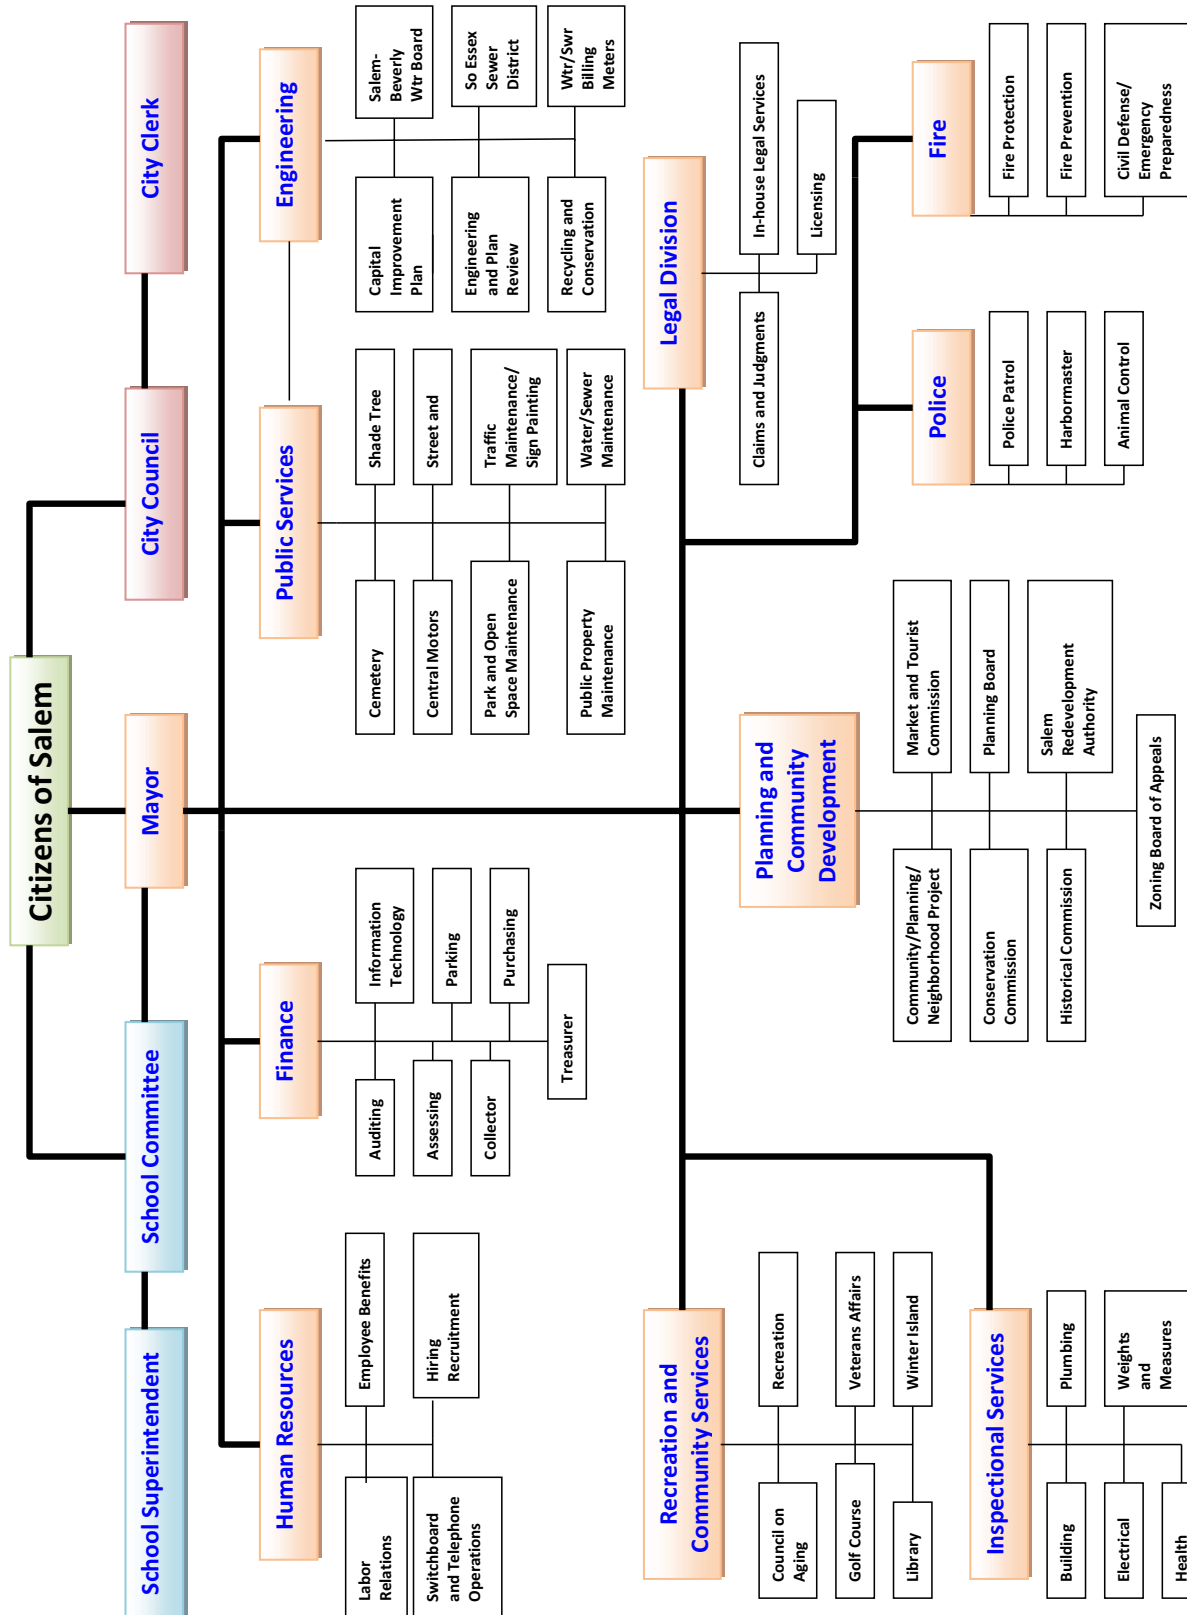

*Public Art Master Plan* : In recognition of the value that public art can bring to the cultural aesthetic and economic vitality of the community, the City completed a master plan for public art in partnership with the Peabody Essex Museum and the Salem Partnership, funded through the National Endowment for the Arts.

*Historic Preservation Plan Update* : In 2015, the City completed the Historic Preservation Plan Update. The preservation plan is used to prioritize local preservation efforts. Historic preservation is a key community value and tied to the economic success of the City.

# Fiscal Year 2023 Budget Overview & Timeline

In January the Finance Department sent out budget packages to each non-school department requesting that they prepared a FY 2023 budget based on the following:

- Level funded non-personnel budget - utilities should be funded to reflect any anticipated increase or decrease in charges or use a 3-year average.
- Level service personnel budget should be funded to include contractual increases. AFSCME 1818, Police Patrol Union, Police Superiors, and Firefighters contracts have not been settled.

The Mayor requested that the School Department submit a level service budget.

The departments were required to complete their FY 2023 Mission Statement and Goals, Budget Detail Reports, Revolving Fund budgets (if applicable) and Capital Requests. Pictures are submitted each year by departments which are put in the Mission Statements and throughout the budget.

The FY 2023 budget requests were entered into the cities computerized system by the finance department using the figures submitted by each department. Copies of the department budget requests were printed for each department. A complete copy of the proposed budgets was prepared for the Mayor, Chief Administrative Aide, and Finance Director.

The Finance Director prepared the five-year forecast, capital improvement plan for FY 2023, as well as a preliminary FY 2023 budget using the Governor proposed state aid figures, estimated local revenue, Real Estate & Personal Property tax revenue estimates, and the budget figures submitted by the departments. During February, March and April, the Mayor, Chief Administrative Aide, and Finance Director met with each department head to discuss their budgets and their capital improvement needs.

Once the budget was balanced, the Finance Department then prepared the proposed FY 2023 budget for the City Council. All information is reviewed carefully for accuracy and consistency to ensure that the budget contained all of the information that was necessary for the City Council to make an informed decision regarding the finances and the budget of the City of Salem for the FY 2023.

In April the School Committee met with the School Superintendent, School Business Manager and School Department Heads to review and approve the School budget for submission to the City Council. The final vote of the school committee was held in May.

In late May, the FY 2023 budget was submitted to the City Council for their review and approval along with the FY 2023 Capital Improvement Projects. The budget will be sent to the Committee of Administration and Finance for their review and approval. During the months of June, the City Council subcommittee on Administration and Finance met with each department head, Mayor, Chief of Staff, and Finance Director to review each departmental budget.

# Property Tax "101" - A Taxpayers Guide FY 2023

## Introduction

This information about real estate taxation is designed to explain the process leading to a tax bill and attempts to dispel many of the common misconceptions associated with this often-misunderstood subject. Slightly over half the money needed to fund Salem's City Government must be raised through property taxation. The remainder of the revenue comes from other sources such as State aid and local receipts.

Massachusetts's municipal law permits two types of local property taxation – real estate and personal property. Since it affects the greatest number of residents, most public attention is focused on the real estate tax. The following information pertains to the real estate tax.

## Assessed Value & Tax Rate

Every year the Assessing Department adjusts all of the City's taxable property according to a procedure outlined in Massachusetts General Law. The new "assessed value" is designed to reflect the property's "full and fair cash value" on the first day of January prior to the December bill on which it first appears. It is important to note, that your assessed value is a year old when it appears on your bill and is not intended to be a reflection of the property's current value. The assessors then "add up" the total assessed value of all of the City's taxable property.

The City's Finance Department provides the assessors with exactly how much revenue must be raised through property taxation. It is this revenue figure, divided into the total assessed value of the City's taxable property that determines the basic "equalized" tax rate per \$1000 of assessed value. Some communities use this rate to tax all classes of property – Salem does not.

Since Salem has opted to tax residential taxpayers at a different rate than commercial/industrial taxpayers, the equalized rate information is submitted to the City Council, with a recommendation by the Mayor, and at the "annual classification hearing" it is decided how the tax burden will be apportioned. The two new rates, when applied to the new property values, produce the required total revenue figure and become the tax rates for that fiscal year.

Now on a five-year basis and undertaken for 2021, subject to the dictates of the Commissioner of Revenue, the City is required to undergo a "recertification" procedure. This is commonly known as a "revaluation year". In past years, it was at this time that property owners usually saw the greatest change in their property assessments. With the use of computerized mass appraisal systems, most communities, including Salem, now adjust their property assessments on a yearly basis. These assessments closely follow the fluctuations in the marketplace and reflect a property value on the 1st of January prior to the bill on which the new assessed value first appears.

## How is Property Value Determined?

The average residential dwelling in Salem gets its new assessment each year from the Assessing Department's analysis of the property market. You could correctly say that the amount your "new neighbors" paid your "old neighbors" for the houses in your area provided the Assessors with the basis for your new assessment. The Assessors program the mass appraisal system with relevant sales information and it generates new values for similar property that did not sell.

In periods when residential property sales information indicates an increase in property value, it is important to understand that your fiscal year assessment is based on sales information that took place more than a year before the new assessment appears on your bill. For instance, the FY2018 assessments are meant to reflect the value of your property on January 1st, 2017 and were derived from sales information obtained in calendar year 2016. They do not reflect the property's current value. The influence of the market place is always a year behind your annual property assessment. Unlike many "appraisals" that are meant to reflect current value, "assessments" are retrospective and look back in time to "arms length sales" that have already taken place.

Income producing property, such as multi-unit residences or commercial/industrial property is also valued by the mass appraisal system only by a different methodology. Each year the Assessors request "income and expense" information from owners of "income" producing property and develop values based on the "return on investment". Sales and cost aspects of this methodology are important factors but the greatest emphasis is based on income.

## What Makes a Tax Bill Go Up or Down?

Many factors can affect the total amount of your property tax bill and often many influences are at work at the same time. Historically, the yearly cost of running a City increases each year much in the same way the cost of maintaining a household increases each year. If nothing else changed, this increase would more than likely cause your tax bill to go up.

### **These factors could also contribute to an increase:**

### **These factors could contribute to a decrease:**

As you can see from the above, there are many dynamics to each tax bill. Any single factor, but usually a combination of factors, will influence the amount of your bill. Although an "average" tax bill can be statistically produced, very few bills would actually reflect the statistical average.

## What about Proposition 2 ¾?

Simply stated, Proposition 2 ¾ says that a community cannot collect any more than 2 ¾ % more than the maximum amount it was legally allowed to collect through property taxation in the previous year. This refers to the "total" amount that the City collects from the community and not the "individual" amount it collects from a taxpayer.

## What is "Growth" and Why is it Important

"Growth," when referred to by municipal officials, means property eligible for taxation this year that was not there last year. The reason why so much importance is attributable to the "growth figures" is that this infusion of this newfound revenue assists in defraying the impact of budget increases on the tax bill.

Large capital building projects normally contribute to the bulk of the growth figures, but the simple addition of a deck to the back of a house is also part of the calculation. The cumulative effect of growth on the City's economy can often reduce a tax bill by a couple of percent over what it would have been had this "growth" not occurred.

## What is the "Power Plant" Agreement

In 1997 as a result of the uncertainties surrounding the deregulation of the electricity generating industry, the City entered into a financial agreement with the operators of the power plant on Fort Avenue. Designed to allow both sides a degree of future financial planning, the agreement outlines a yearly schedule of payments in lieu of calculated tax assessments.

Salem had an agreement with Dominion lasting from 1997 until 2014 with yearly reduction in payments down to \$4.75 million and further reduced with the closure of the power plant on June 30, 2014.

In the fall of 2011, the Mayor negotiated a "Hold Harmless Agreement" with the Department of Energy Resources (DOER), the group that oversees pollution control for the energy industry in Massachusetts, to keep the remittance for the Power Plant site at \$4.75 million through fiscal 2019. In September 2012 Footprint Power Salem became the new owner of the

Salem Power Plant, continuing the use of the old plant until its closure on July 1, 2014. Footprint Power Salem started construction for a new power plant in 2015 and has now completed the new plant which is now fully operational. In December 2014, the Mayor, City Council and Footprint negotiated an 18 year agreement that started in 2015. In accordance with the "Hold Harmless Agreement", the Commonwealth will be making up any balance below the \$4.75 million paid through the Department of Energy Resources until fiscal 2020 when the new gas fired facility will be fully operational and on an increasing taxable plan established via the P I LOT agreement. Starting in July 2019, (the start of FY 2020) the plant will pay \$5,002,000 to the city for Real Estate taxes. The tax amount will escalate 2.25% from 2020 to 2023, 2.50% from 2024 to 2027 and 2.75% 2028 to 2032 which is the end of the negotiated current PILOT with Footprint Power Salem.

## Summary

Although a community's tax rate or rates are often a measure of comparison by one city to another, your actual tax bill consists of not one but two parts – the tax rate and the property's value assessment. The better comparison would be to compare a similar home, in a like neighborhood and the "bottom line" of an actual tax bill.

Remember, the city's budget and what part of those funds come from property taxation, determine the amount property owners are asked to contribute in the form of their tax bills. The property assessment and tax rate are the mathematical way in which that sum is realized.

The City maintains a "state of the art" computerized mass appraisal system and periodically reviews, through various processes, all its taxable property. The resulting citywide adjustments made to property database assure taxpayers the most equitable distribution of the tax burden Salem tax assessors can provide.

Internet access to this information offers Salem 's citizens and taxpayers a clear look at the statistical component of their property assessment and a way to track any discrepancies that might warrant correction now and into the future. Visit [www.salem.com](http://www.salem.com) for more information.

# Revenue Overview

## General Fund Budget Summary

A key component of the budget development process is the identification of revenue assumptions and projections to determine the range of choices that the Mayor can make in allocating resources. The City's revenue plans attempt to balance the desire to reduce the impact of government cost on the taxpayer, to provide for a relatively stable and diversified revenue portfolio that is not highly subject to economic fluctuations, and to equate the cost of services to the revenues received. Because of the critical nature of this information the revenue analysis and the revenue projections are monitored, updated and presented to the Mayor on a monthly basis. If significant changes in revenue streams were to present the potential for shortfalls, this process would allow for the action(s) to be made in time to maintain fiscal stability.

The City does not have the statutory ability to change rates and formulas for many of its revenue sources. The rates and/or formulas for property tax and certain fines, for example, are set by the State. The City may set user fees, permits and licenses. In 1980, the voters approved a statewide property tax initiative, Proposition 2 1/2. Prop. 2 1/2 established, among several restrictions, a "2 3/4 percent cap" on property taxes increases in all local taxing districts in the State.

City revenues are divided into six basic categories recommended by the National Committee on Governmental Accounting. The categories are taxes, charges for services, licenses and permits, fines and forfeits, inter-governmental revenue, and miscellaneous revenue. The following pages discuss in detail the City's projections for those categories in the upcoming fiscal years.

Some of the taxation terminology used throughout the revenue section can be confusing to the average taxpayer. Below are descriptions of a few of those terms. More information can be found in the glossary section in the back of this book.

**Levy** - The amount of taxes, special assessments, or service charges imposed by a governmental unit.

**Levy Ceiling** - The limit imposed by Proposition 2 3/4 that equals 2 3/4 % of the total full and fair cash value of all taxable property.

**Levy Limit** - The amount that a municipality may raise in taxes each year which is based on the prior year's limit plus 2 3/4% increases on that amount plus the amount certified by the State that results from "new growth".

**New Growth** – The additional tax revenue generated by new construction, renovations, and other increases in the property tax base during a calendar year.

**Proposition 2 3/4** - Is the law which became effective on December 4, 1980. The two main components of the tax law relating to property taxes are: 1) the tax levy cannot exceed 2 3/4 % of the full and fair cash value, and 2) for cities and towns at or below the above limit, the tax levy cannot exceed the maximum tax levy allowed for the prior by more than 2 3/4 % (except in cases of property added to the tax rolls and for valuation increases of at least 50% other than as part of a general revaluation).

**Equalized Valuations (EQV)** – The commissioner of Revenue, in accordance with MGL CH. 58 Section 10C, is charged with the responsibility of biannually determining an equalized valuation for each city and town in the Commonwealth. EQVs present an estimate of fair cash value of all taxable property in each city and town as of January 1 of each year (MGL CH. 58, Sections 9 & 10C). The EQV is a measure of the relative property wealth in each municipality. Its purpose is to allow for comparisons of municipal property values at one point in time, adjusting for differences in local assessing practices and revaluation schedules. EQVs have historically been used as a variable in the allocation of certain state aid distributions, the calculation of various state and county assessments to municipalities, and the determination of municipal debt limits. EQVs are used in some distribution formulas so that communities with lower property values receive proportionately more aid than those with higher property values. In some assessment formulas they are used so that those with lower property values assume proportionately less of the cost than communities with higher property values. The local aid receipt programs using EQV are: Public Libraries, Chapter 70, and School Construction Aid. The assessments using EQV are: Boston's Metropolitan Transit Districts, the Count Tax, Mosquito Control Projects and Air Pollution Control Districts. A municipality's annual EQV is the sum of estimated fair market value for each property class plus an estimate of new growth, resulting in values indicative of January 1.

**Tax Rate** - The amount of tax stated in terms of a unit of the tax base. Prior to a 1978 amendment to the Massachusetts Constitution, a single tax rate applied to all of the taxable real and personal property in a City or town. The 1978 amendment allowed the legislature to create three classes of taxable property: 1) residential real property, 2) open space land, and 3) all other (commercial, industrial, and personal property). Within limits, cities and towns are given the option of determining the share of the levy to be borne by the different classes of property. The share borne by residential real property must be at least 65% of the full rate. The share of commercial, industrial, and personal property must not exceed 150% of the full rate. Property may not be classified until the State Department of Revenue has certified that all property has been assessed at its full value.

The following chart is a summary of the EQV, Tax Levy, Levy Ceiling, Levy Limit, 2 3/4% increase, and New Growth by fiscal year.

# Revenue Summary

## CITY OF SALEM REVENUE SUMMARY - GENERAL & ENTERPRISE FUNDS

# General Fund Revenue Detail & Graphs

## TAXES

### Real and Personal Property Tax

The primary source of revenue for most municipalities in the Commonwealth is real and personal property taxes; however, the property tax as a percentage of all revenues can greatly differ from community to community. For purposes of taxation, real property includes land, buildings and improvements erected or affixed to land and personal property consists of stock, inventory, furniture, fixtures and machinery. The City's Board of Assessors determines the value of all taxable land, which is revalued at fair market value every three years and updated every year. The City of Salem revalued all real property in FY10 adjusting property values to within 90%-100% of market value. The City's Board of Assessors is also responsible for determining the value of personal property through an annual review process

*Factors influencing property taxes:*

*There are three major factors that influence the amount of revenue generated by real and personal property taxes:*

**1. Automatic 2.5% Increase (Prop 2 ½)** – The levy limit is the maximum amount that can be collected through real and personal property taxes by the municipality. Each year, a community's levy limit automatically increases by 2.5% over the previous year's levy limit. This increase does not require any action on the part of local officials.

**2. New Growth** – A community is able to increase its tax levy limit each year to reflect new growth in the tax base. Assessors are required to submit information on growth in the tax base for approval by the Massachusetts Department of Revenue as part of the tax rate setting process.

**3. Overrides/Exclusions** – A community can permanently increase its levy limit by successfully voting an override. Debt and Capital exclusions, on the other hand, are temporary increases in a community's levy limit for the life of the project or debt service. Only a Debt or Capital exclusion can cause the tax levy to exceed the levy limit.

The levy limit for FY2023 is estimated to be \$120,701,802. The actual amount of revenue raised through the tax levy will be determined when the tax rate is set in the fall. The Tax Levy for FY2023 is estimated to be \$114,458,526 which is an increase of 3.89% over FY2022.

## Real and Personal Property - Tax Levy

The property tax levy is the revenue the community can raise through real and personal property taxes. In Massachusetts, municipal revenues to support local spending for schools, public safety and other public services are raised through the property tax levy, state aid, local receipts and other

sources. The property tax levy is the largest source of revenue for most cities and towns, including the city of Salem.

Real and Personal Property - Tax Levy

## Real and Personal Property - Levy Limit

The amount that a municipality may raise in taxes each year which is based on the prior year's limit plus 2.5 percent increase on that amount plus the amount certified by the State that results from "new growth".

community cannot levy more than 2.5 percent of the total full and fair cash value of all taxable real and personal property in the community. Second, a community's levy is also constrained in that it can only increase by a certain amount from year to year. The levy limit will always be below, or at most, equal to the levy ceiling. The levy limit may not exceed the levy ceiling.

A levy limit is a restriction on the amount of property taxes a community can levy. Proposition 21 established two types of levy limits: First, a

Real and Personal Property - Levy Limit

## Motor Vehicle Excise

Local Receipts

Motor Vehicle Excise Tax Receipts – Massachusetts General Law (MGL) Chapter 60A, Section 1 sets the motor vehicle excise rate at \$25 per \$1,000 valuation. The City collects this revenue based on data provided by the Massachusetts Registry of Motor Vehicles (RMV). The Registry, using a statutory formula based on a manufacturer's list price and year of manufacture, determines valuations. The City or Town in which a vehicle is prin-

cipally garaged at the time of registration collects the motor vehicle excise tax.

Those residents who do not pay their excise taxes in a timely manner are not allowed to renew registrations and licenses through a 'marking' process at the RMV. The City of Salem notifies the Registry of delinquent taxpayers, through its deputy collector, who prepares excise delinquent files for the Registry of Motor Vehicles. We are anticipating an increase in col-

lections of 1% for FY 2023 based on prior and current fiscal year trends. Due to inflationary pressures, revenue collections for Motor Vehicle Excise have not been as strong in the final quarters of FY2022.

### Motor Vehicle Excise

### Hotel Excise Tax

**Hotel Excise** – (Room Occupancy Excise - MGL Chapter 64G) This category includes taxes received through the state that are collected from all hotels, motels, and other lodging houses within the City at a rate up to, but not exceeding, 6% of the total amount of rent for each such occupancy. On April 22, 2010 the City Council approved by a 6-5 vote to pass the local

options tax increases of .75% on meals and 1% on Hotel/Motels. In FY 2016 the hotel tax was increased from 5% to 6%. In FY 2023 we estimate an increase of 81.82% (\$450,000) due to robust economic recovery from COVID-19, new hotel rooms, and short-term rentals.

### Hotel Excise Tax

### Meals Excise Tax

**Meals Tax** – (MGL CH27 B60 and 156 of the Acts of 2009). This revenue was established in FY2011 as allowed by the Commonwealth of Massa-

chusetts in FY 2010. We are anticipating a 5.88% increase (\$50,000) in meals tax for FY2023 as restrictions from COVID-19 have been lifted.

### Meals Excise Tax

### Boat Excise Tax

**Boat Excise** – As per MGL Chapter 60B Section 2, boat excise tax is levied by each city and town in each fiscal year on every vessel, and its equip-

ment, for the privilege of using the waterways of the Commonwealth. We anticipate little to no increase in FY2023.

### Boat Excise Tax

### Marijuana Excise Tax

**Medical Marijuana Dispensary Revenue** – The City of Salem has entered into Community Benefits Agreements with Registered Marijuana Dispensaries (RMD) to receive revenue from sale of medicinal marijuana. Funds received by communities per agreements with medical marijuana dispensaries belong to the community's General Fund under G.L.c.44, §53. These funds cannot be separately appropriated as available funds.

The city receives an annual payment equal to 1.25% of the total gross annual sales of the RMD for the first two years after it opens. On year

three and after, the city will receive 2% of all gross annual sales. The first medical dispensary opened in June 2015 and the city anticipated approximately \$50,000.00 in year one of the agreement. Since that time, that dispensary has also opened as a retail establishment and two other retail establishments have opened. In FY2023 we remain conservative in our projections on the agreements with medical and retail dispensaries while monitoring trends revenue trends, as well as potential changes to state law regarding community benefit agreements and the fees that can be placed upon dispensaries.

### Marijuana Excise Tax

### Penalties & Interest on Taxes

**Penalties & Interest on Taxes** - This category includes delinquent interest and penalties on all taxes and tax title accounts. It also contains demand fees on real and personal property taxes as well as demands and

warrants on late motor vehicle excise taxes and boat excise taxes. We anticipate no increase in penalties and interest in FY2023. Demand fees were increased from \$15.00 to \$30.00 in FY2018.

### Penalties & Interest on Taxes

### Payment in Lieu of Taxes (PILOT)

**Payment In Lieu Of Taxes (PILOT)** - Many communities, Salem included, are not able to put all the property within its borders to productive, tax generating uses. Federal, state and municipal facilities, hospitals, churches and colleges are examples of uses that are typically exempt from local property tax payments. The City currently has PILOT agreement with several entities, including the South Essex Sewerage District, North Shore

Medical Center, and the Salem Housing Authority, Northeast Animal Shelter, as well as some Urban Redevelopment Corporations (MGL Chapter 121A).

Revenues are adjusted for FY2023 to reflect current PILOT agreements.

### Charges for Services

#### CHARGES FOR SERVICES

**Services / Charges / User Fees** – Charges for services are a revenue source to assist municipalities to offset the cost of certain services provided to the community. Some of the fees within this category are board of health fees, building and plumbing permits, electrical fees, engineering inspections as well as park and recreational fees. In FY 2007 the trash fee was also added to this category as well as passport and ferry fees. In FY08

the trash fee was moved to an enterprise fund, however police and fire administrative fees for detail work were added as a new revenue source.

In FY2023 we project no increase in the amount of new building projects and ongoing building projects over the current. This number is variable and can fluctuate up and down, based on a number of external factors.

### Charges for Services

### Parking Fees

**Parking Fees** – Parking revenues are from fees charged for parking at the Museum Place Mall Parking Garage, South Harbor Parking Garage, Church Street Lot, and all metered parking. Parking revenues are set by City Ordinance.

Revenue increase are anticipated from these adjustments to assist with ongoing maintenance and improvements of these facilities. In FY 2018 the Traffic and Parking director and staff worked with the Traffic and Parking Commission to review all parking rates, which have been largely unchanged for eight years, and utilization levels in the downtown area. It was determined that rates were low and should be increased in certain locations to better reflect value and utilization of parking.

In FY19, the City of Salem adopted a new parking fee structure of many key components of the parking department; including increases from \$1.00/hr. to \$1.50/hr. in the Museum Place Garage, from \$.25/hr. to \$.75/hr. in the South Harbor Garage, at the Church Street parking lots from \$1.00 per hour to \$1.50 per hour and other lots throughout the city from .50 to \$1.00-\$1.50. Residents are provided lower rates in many areas. In addition to the garage rates and meter changes, the price for a monthly parking pass in the Riley Plaza parking lot changed to \$35.00 per month, effective September 22, 2018.

Based on trends during the economic recovery from COVID-19, we are projecting an increase of 2.5% in parking fee collections for FY23.

### Parking Fees

### Licenses & Permits

**Licenses & Permits** - License and permit revenue arises from the City's regulation of certain activities (e.g., selling alcoholic beverages). A person or organization pays a license fee to engage in the activity for a specified period. The primary licensing agency in the City is the City Council. All fees are set by one of three methods: State law, City By-Law or Licensing Body.

**Liquor Licenses** - Under Chapter 138 of the General Laws of Massachusetts, the City is empowered to grant licenses regulating the sale of alco-

holic beverages. License fees vary depending upon the type of establishment, closing hours, number of days open, and whether the license is for all alcohol or beer and wine. All licenses issued by the City Council, with the exception of short-term and seasonal liquor licenses, have a maximum fee set by State statute. In FY 2011 Liquor license fees for all restaurants impacted by the increase in meals tax were reduced by 25%.

**Entertainment** - Entertainment licenses are issued for live performances, movie theaters, automatic amusement machines, billiard tables, bowling alleys, and several other forms of entertainment.

**City Clerk Licenses & Permits** - The City Clerk issues licenses and permits primarily relating to marriages, births, deaths and dog registrations.

**Other Departmental Permits** - Other Departments issue various permits including smoke detector, LP gas, firearms, and constable fees.

We anticipate level collection for license fees for FY 2023 based on revenue trends.

### Licenses & Permits

### Fines & Forfeits

#### FINES AND FORFEITS

**Court Fines** – Non-parking offenses result in fines for moving violations. Responding to the community’s desires and public safety concerns, the police department has been focused on enforcing speed limits in local neighborhoods. Other moving violations that are included in this category are driving while intoxicated, passing in the wrong lane, and failing to stop at the traffic signal. These fines, collected by the District Court, are distributed to the City on a monthly basis.

**Parking Fines** - The collection of outstanding parking fines continues to be an important source of revenue to the City. The timely collection of fines has been aided by automation, and by State law that violators are prohibited from renewing their driver’s licenses and registrations until all outstanding tickets are paid in full. Like Motor Vehicle Excise, those individuals who do not pay their parking tickets in a timely manner are not allowed to renew registrations and licenses through a ‘marking’ process at the RMV. The City of Salem notifies the Registry of delinquent fine payers,

through its deputy collector, who prepares parking ticket delinquent files for the Registry of Motor Vehicles.

As part of the 2011 parking study, the City has changed both the time limits and the overtime fine for parking meters. The limits will increase from two (2) hours to four (4) hours, which will certainly decrease the amounts of overtime violations written by the meter enforcement division. However, the increase of the overtime fine will offset some of the decrease in the volume of tickets written. Furthermore, the sharply reduced rates in the City’s parking garages will certainly decrease the volume of cars parking curbside (where the tickets are written) and increase the volume of cars parking in the garage, where there will be virtually no tickets written (except for handicap violations, which go into a separate account). We don’t believe

In FY 2023 we anticipate level collections based on revenue trends.

### Fines & Forfeits

### Investment Interest Income

**Interest Income** - Under Chapter 44 Section 55B of the Mass. General Laws, all monies held in the name of the City which are not required to be kept liquid for purposes of distribution shall be invested in such manner as to require the payment of interest on the money at the highest possible rate reasonably available. The investment decision must take into account

safety, liquidity and yield. The City Treasurer looks to maximize our earning potential by evaluating investing options. In FY2023 we conservatively anticipate a -40.0% decrease based on prior fiscal year revenue trends. While historically low interest rates may now be increasing, we still anticipate a decrease in interest income in FY2023.

### Investment Interest Income

### Medicaid Reimbursement

#### MISCELLANEOUS

**Medicaid Reimbursements (SPED)** – In accordance with laws and regulations governing the Medicaid program, school systems are mandated by the Individuals with Disabilities Education Act (IDEA) to provide health related services to their special education student population. They are permitted to file claims for partial federal reimbursement for both their student health services and the administrative support expenditures

incurred in providing those services. We receive both the Direct Student Expenditures reimbursement (school-based health services provided directly to the student) and the Administrative expenditures reimbursement (to assist in the delivery of Special Education (SPED) services to students.) In FY 2023 we anticipate a 5.56% increase in SPED Medicaid based on revenue trends.

### Medicaid Reimbursement

### Miscellaneous Recurring

**Other Miscellaneous Recurring** – This category is used for all ‘other’ non-categorized income such as revenue from sale of copies of reports generated by a department, sale of data from tax files, collector’s fees,

refunds, bad checks, etc. We anticipate a 0% increase for FY 2023 based on current revenue trends.

### Miscellaneous Recurring

### Miscellaneous Non-Recurring

**Miscellaneous Non-Recurring** – This category is used for all one-time income sources and revenues not considered common in municipalities.

In FY2015 much of the Host Fee money comes in as tax revenue and is part of the Tax Levy. Only 185K actually comes in as revenue outside of the tax levy. Massachusetts General Law (MGL) Chapter 21A, Section 33 allows

for a Reimbursement for Communities Affected by the Regional Greenhouse Gas Initiative (RGGI) also known as the ‘Hold Harmless Agreement’. The reimbursement for FY 2020 amounted to 3.75 Million in hold harmless money based on the tax agreement with Footprint and the state. The City no longer collects the hold harmless monies in this category as the Power Plant is now on the tax base.

### Miscellaneous Non-Recurring

## Chapter 70 (Education Aid)

### INTERGOVERNMENTAL REVENUE – CHERRY SHEET

Cherry Sheet - Every year the Commonwealth sends out to each municipality a "Cherry Sheet", named for the pink-colored paper on which it was originally printed. The Cherry sheet comes in two parts, one listing the State assessments to municipalities for Massachusetts Bay Transportation Authority (MBTA), Charter Schools, RMV non-renewal fees, Retired Teachers Health Insurance, air pollution control districts, and the other State programs; the other section lists the financial aid the City will receive from the State for funding local programs. Each Cherry Sheet receipt is detailed below. State Cherry Sheet revenue funds are the primary intergovernmental revenue and in the case of many cities, is the single largest source of annual revenue. Cherry Sheet revenue consists of direct school aid, local aid, and specific reimbursements and distributions such as aid to public libraries, veteran's benefits, police career incentives, and a number

of school related items. For a complete copy of the Cherry Sheet Manual or the actual Cherry Sheet Local Receipts and/or Assessments go to: <http://www.mass.gov/dor/docs/dls/cherry/cherrysheetmanual.pdf>

School Aid - Chapter 70 school aid is based on a complex formula that takes into account: (1) statewide average cost per pupil; (2) local district pupil counts, with weighing factors to reflect varying costs among programs such as special education or vocational education, and (3) municipal fiscal "ability to pay" for education, as measured by equalized valuation per capita as a percent of statewide averages.

For FY2023, the preliminary Chapter 70 amount for the City of Salem is \$26,184,942 an increase of \$248,340.

### Chapter 70 (Education Aid)

## Charter School Reimbursement

**Local Aid** - The major non-school state aid items are Charter School Tuition Reimbursement and Unrestricted General Government Aid (UGGA). These funds are unrestricted and can therefore be used by the municipality for any municipal purpose.

**Charter Tuition Reimbursement** - Under Chapter 71, Section 89, 2004 Chapter 46 of the Acts of 1997 provides for the reimbursement sending districts for the tuition they pay to Commonwealth charter schools. It is a reimbursement for those students that elect to attend a charter school. Sending districts are reimbursed a portion of the costs associated with

pupils attending charter schools beginning with the second quarterly distribution. There are three levels to the reimbursement; 100% of the tuition increase in the first year, 60% of the tuition increase in the second year, and 40% of the tuition increase in the third year. In addition, the reimbursement covers 100% of the first-year cost of pupils at charter schools who attend private or independent schools in the previous year.

The reimbursement also covers 100% of the cost of any sibling students whose tuition brings a district above its statutory assessment cap of 9% of net school spending. The reimbursement is subject to appropriation in the final budget for the Commonwealth. This is a preliminary number based on school enrollment figures available at this time.

### Charter School Reimbursement

### Unrestricted General Government Aid (UGGA)

**Unrestricted General Government Aid (UGGA)** - In FY 2010 the state eliminated the Lottery Aid, General Fund Subsidy to Lottery, and Additional Assistance revenue and replaced it with this revenue called 'Unrestricted General Government Aid'. The FY 2006 to FY 2009 combines the three revenue sources no longer used (lottery, subsidy to lottery, &

additional assistance). The FY 2023 amount, based on the Governor and House FY2023 budgets, is anticipated to be \$7,786,285, an increase of \$204,703. The Senate is still finalizing its budget and appropriated \$7,990,987. The final amount allocated to Salem will not be determined until after the state finalizes its FY2023 budget.

### Unrestricted General Government Aid (UGGA)

### Veterans Benefits

**Veterans' Benefits** - Under Chapter 115, Section 6 municipalities receive a seventy-five percent (75%) State reimbursement on the total expenditures made on veterans' financial, medical and burial benefits.

The state anticipates a -31.4% (\$99,796) decrease in reimbursement for FY 2023 based on prior fiscal year actual reimbursement submissions.

### Veterans Benefits

### State Owned Land

**State Owned Land** – This revenue is to reimburse communities for for-gone tax revenues due to certain types of tax-exempt state-owned land.

Eligibility for reimbursement depends on land use and the state agency with jurisdiction over the property as specified in the legislation.

### State Owned Land

### Exemptions - Vets, Blind, Spouses & Elderly

**Exemptions: Vets, Blind, Surviving Spouses, and Elderly** - The State Cherry Sheet reimburses the City for loss of taxes due to real estate abatements to veterans, surviving spouses and the legally blind. The abatement categories are authorized by the State. The City is not empowered to offer abatements in other categories. Under Chapter 59, Section 5, of the General Laws, municipalities are reimbursed for amounts abated in excess of \$175 of taxes of \$2,000.00 in valuation times the rate, whichever is greater.

Qualifying veterans or their surviving spouses receive an abatement of \$175 or \$2,000 in valuation times the tax rate, whichever is the greater. Chapter 59, Section 5, Clause 17d, of the General Laws, as amended by

Section 2, Chapter 653 of the Acts of 1982, provides a flat \$175 in tax relief to certain persons over seventy, minors, and widows/widowers. Chapter 59, Section 5, Clause 37a, of the General Laws as amended by Section 258 of the Acts of 1982 provides an abatement of \$500 for the legally blind. Chapter 59, Section 5, Clause 41c, of the General Laws as amended by Section 5, of Chapter 653 of the Acts of 1982, qualifying persons over seventy years of age are eligible to receive a flat tax exemption of \$500.

In FY 2010 the state combined the elderly exemption with the veterans, blind and surviving spouse’s exemptions. In previous years, the elderly exemption was budgeted separately. FY 2023 shows a decrease of \$559.

### Exemptions - Vets, Blind, Spouses & Elderly

### Offsets Receipts - School Choice Receiving Tuition

**Cherry Sheet Offsets for Direct Expenditure** – The state provides receipts that are paid directly to departments through state granting agencies, and are not part of the City’s General Fund Cherry Sheet Revenue. These revenues are for School Lunch and Public Library as shown in the charts below. For a description of Offset Receipts go to [http://](http://www.mass.gov/dor/docs/dls/cherry/cherrysheetmanual.pdf)

[www.mass.gov/dor/docs/dls/cherry/cherrysheetmanual.pdf](http://www.mass.gov/dor/docs/dls/cherry/cherrysheetmanual.pdf). The school lunch offset from the Cherry Sheet by DOR is an education offset that has no impact on the tax rate setting process. The Library Offset receipt, based on the amount allocated in the House FY2023 budget, was increased by \$3,437 for FY 2023.

### Offsets Receipts - Library Aid

### Offsets Receipts - Library Aid

## Total Cherry Sheet Revenue (Net of Offsets)

**Total Estimated Cherry Sheet Revenue (Net of Offsets)** – The total of all cherry sheet revenue is listed below.

## School Construction - School Building Authority (SBA)

### SCHOOL BUILDING AUTHORITY (SBA) REIMBURSEMENTS

**School Construction** - The School Assistance Act, as amended, provides for the reimbursement of school construction projects that involve any of the following: The replacement of unsound or unsafe buildings; the prevention or elimination of overcrowding; prevention of the loss of accreditation; energy conservation projects, and the replacement of, or remedying of, obsolete buildings. The law also provides formulas (involving equalized valuation, school population, construction costs, and interest payments) for reimbursement of costs that include fees, site development, construction, and original equipping of the school.

In July of 2004, the governor signed Chapter 208 and Chapter 210, of the Acts of 2004 into law, which makes substantial changes to the School Building Assistance (SBA) program. This legislation transfers responsibility for the SBA program from the Department of Education to the Massachu-

sets School Building Authority (MSBA), under the Office of the State Treasurer. The authority is a new and independent governing body comprised of seven members. The legislation under Chapter 210 dedicates 1 percent of the sales tax receipts to help fund School Building projects. For more information go to [www.mass.gov/msba](http://www.mass.gov/msba)

The City of Salem still receives some payments under the old SBA program and also receives monthly reimbursements for ALL eligible costs for the ongoing Collins and Saltonstall Schools under the new MSBA program. FY 2014 saw a significant reduction in SBA reimbursement of \$1.8M (71.1%) due to the payoff of the Bowditch, Saltonstall and part of Bates bonds. The only project the SBA is still reimbursing is the reduced amount on the Bates school. The SBA reimbursement chart is later in this section. Reimbursements stop in FY2020.

### School Construction - School Building Authority (SBA)

## Indirect Costs from Enterprise Funds Intergovernmental & Interfund Transfers

**Enterprise Fund Transfer** - The Water and Sewer Enterprise Funds, financed by water and sewer usage charges, provide reimbursements for direct and indirect costs associated with a variety of City services, provided by Finance, Treasury, Human Resources, and other City Departments. Additionally, enterprise funds provide reimbursements to the general fund for all employee benefits (including fringe benefits) of those employees who work for the water and sewer departments, as well as costs for the maintenance of the Water and Sewer accounting and billing system. Finally, a portion of the City's assessments for property/casualty insurance,

unemployment and worker's compensation are also captured in the indirect costs of the enterprise funds of the water and sewer departments. The Trash Enterprise Fund is subsidized by the General Fund and therefore no indirect costs are reimbursed back to the General Fund from the Trash Enterprise Fund.

Starting in FY2015 the City began to steadily reduce the amount of indirect costs transferred to the General Fund in response to the recommendation of the City's outside auditors to more accurately calculate indirect costs. In FY2018 we began to increase the indirect costs based on a new methodology of calculating indirect costs that has been approved by the auditors.

**Indirect Costs from Enterprise Funds**

## Receipts Reserved for Appropriations

### OTHER FINANCIAL SOURCES

**Receipts Reserved for Appropriation** – The City of Salem has three Receipts' Reserved for Appropriation Funds for Harbormaster, Golf Course, and Witch House. The revenue earned from these activities is credited to each of these special revenue funds. At the request of the Mayor, that money is appropriated by the City Council to the General Fund to cover both direct and indirect costs of each department in December for purposes of the certification of the City's tax rate by the Massachusetts Department of Revenue, as well as periodically throughout the year at the request of the department head of the Golf Course, Witch House, or Harbormasters Office to cover unforeseen or extraordinary expenses. We anticipate an increase of \$382,247 over FY2022 due to increases in associated departmental budgets as well as new Receipts Reserved accounts for the Forest River Pool and Charter Street Cemetery. These increases will partially offset increases in associated expenditures.

### Other Receipts Reserved – Not Budgeted

The City has three other receipts reserved accounts – Sale of Lots, Sale of Vaults, and Salem Common. The first two can only be used for the care and maintenance of graves in the City's cemetery, and the Salem Common money can only be used for care and maintenance of the Salem Common. This money is transferred to the General Fund by appropriation from the City Council as needed.

Other Sources of Revenue – The City of Salem has in the past used Free Cash, Stabilization, and overlay (abatement and exemption reserve) to balance the budget. In FY2023, we anticipate using \$1,000,000 to mitigate increases in taxes.

### Receipts Reserved for Appropriations

## Other Budgeted Items Voted by Council

### **Retirement Stabilization Trust Fund – Included in General Fund Budget**

This trust fund was established in FY2009 in accordance with Massachusetts General Law – Chapter 46 sections 14 and 50 and Chapter 140 sections 19 and 137 of the Acts of 2003. The purpose of this trust fund is to fund retiring employees’ accrued sick and vacation buybacks as established by City Policy and contractual agreements.

In FY2023 the budget in the general fund to be transferred to the Retirement Stabilization Trust Fund is \$600,000. We may also transfer free cash at the end of FY2022 into this fund to cover retirements.

### **Salem 2026 – 400 Anniversary Fund– Included in General Fund Budget**

In FY2014 the Mayor established a special revenue fund to help fund the City’s 400th anniversary celebration. We budgeted \$50,000.00 this year to help prepare for events in 2026.

### **Revolving Funds – Separate Vote - Not in Budget**

The Revolving Funds are submitted to the City Council as a separate order as a supplemental part of the annual budget process. Revolving funds are voted pursuant to the provisions of Massachusetts General Law Chapter 44, Section 53E ¾. Expenditures from these funds shall not exceed the amount of the funds received in the respective funds or the budget amount voted by council. A complete explanation of revolving funds can be found at <http://www.mass.gov/legis/laws/mgl/44-53e.5.htm> . A complete listing of all revolving accounts voted by council can be found in the following pages.

# Revolving Funds - Overview & Detail

A departmental revolving fund is a place to set aside revenue received, through fees and charges, for providing a specific service or program. The revenue pool is, in turn, a source of funds available to use by a department without further appropriation to support the particular service or program.

Most frequently, cities and towns create general departmental revolving funds under M.G.L. Ch. 44 Sec. 53E¾ (see below). The fund is created with an initial city council or town meeting authorization that identifies which department's receipts are to be credited to the revolving fund and specifies the program or purposes for which money may be spent. It designates the department, board or official with authority to expend the funds and places a limit on the total amount of the annual expenditure. To continue the revolving fund in subsequent years, annual approval of a similar article is necessary. Managers are also required, each year, to report on the fund and program activities.

## **MGL - Section 53 E ¾**

Notwithstanding the provisions of section fifty-three, a city or town may annually authorize the use of one or more revolving funds by one or more municipal agency, board, department or office which shall be accounted for separately from all other monies in such city or town and to which shall be credited only the departmental receipts received in connection with the programs supported by such revolving fund. Expenditures may be made from such revolving fund without further appropriation, subject to the provisions of this section; provided, however, that expenditures shall not be made or liabilities incurred from any such revolving fund in excess of the balance of the fund nor in excess of the total authorized expenditures from such fund, nor shall any expenditures be made unless approved in accordance with sections forty-one, forty-two, fifty-two and fifty-six of chapter forty-one.

Interest earned on any revolving fund balance shall be treated as general fund revenue of the city or town. No revolving fund may be established pursuant to this section for receipts of a municipal water or sewer department or of a municipal hospital. No such revolving fund may be established if the aggregate limit of all revolving funds authorized under this section exceeds ten percent of the amount raised by taxation by the city or town in the most recent fiscal year for which a tax rate has been certified under section twenty-three of chapter fifty-nine. No revolving fund expenditures shall be made for the purpose of paying any wages or salaries for full time employees unless such revolving fund is also charged for the costs of fringe benefits associated with the wages or salaries so paid; provided, however, that such prohibition shall not apply to wages or salaries paid to full or part-time employees who are employed as drivers providing transportation for public school students; provided further, that only that portion of a revolving fund

which is attributable to transportation fees may be used to pay such wages or salaries and provided, further, that any such wages or salaries so paid shall be reported in the budget submitted for the next fiscal year.

A revolving fund established under the provisions of this section shall be by vote of the annual town meeting in a town, upon recommendation of the board of selectmen, and by vote of the city council in a city, upon recommendation of the mayor or city manager, in Plan E cities, and in any other city or town by vote of the legislative body upon the recommendation of the chief administrative or executive officer. Such authorization shall be made annually prior to each respective fiscal year; provided, however, that each authorization for a revolving fund shall specify: (1) the programs and purposes for which the revolving fund may be expended; (2) the departmental receipts which shall be credited to the revolving fund; (3) the board, department or officer authorized to expend from such fund; (4) a limit on the total amount which may be expended from such fund in the ensuing fiscal year; and, provided, further, that no board, department or officer shall be authorized to expend in any one fiscal year from all revolving funds under its direct control more than one percent of the amount raised by taxation by the city or town in the most recent fiscal year for which a tax rate has been certified under section twenty-three of chapter fifty-nine. Notwithstanding the provisions of this section, whenever, during the course of any fiscal year, any new revenue source becomes available for the establishment of a revolving fund under this section, such a fund may be established in accordance with this section upon certification by the city auditor, town accountant, or other officer having similar duties, that the revenue source was not used in computing the most recent tax levy.

In any fiscal year the limit on the amount that may be spent from a revolving fund may be increased with the approval of the city council and mayor in a city, or with the approval of the selectmen and finance committee, if any, in a town; provided, however, that the one percent limit established by clause (4) of the third paragraph is not exceeded.

The board, department or officer having charge of such revolving fund shall report to the annual town meeting or to the city council and the board of selectmen, the mayor of a city or city manager in a Plan E city or in any other city or town to the legislative body and the chief administrative or executive officer, the total amount of receipts and expenditures for each revolving fund under its control for the prior fiscal year and for the current fiscal year through December thirty-first, or such later date as the town meeting or city council may, by vote determine, and the amount of any increases in spending authority granted during the prior and current fiscal years, together with such other information as the town meeting or city council may by vote require.

At the close of a fiscal year in which a revolving fund is not reauthorized for the following year, or in which a city or town changes the purposes for which money in a revolving fund may be spent in the following year, the balance in the fund at the end of the fiscal year shall revert to surplus revenue unless the annual town meeting or the city council and mayor or city manager in a Plan E city and in any other city or town the

legislative body vote to transfer such balance to another revolving fund established under this section.

The director of accounts may issue guidelines further regulating revolving funds established under this section.

## Revolving Funds FY2023

### FY 2023 Revolving Funds

Dept.	Fund Name	Fund #	Programs & Purposes	Type of Receipts Credited	Authorization for Spending	FY 2023 Budget Request Maximum Annual Expenditures
COA	COA Programs	2374	To defray program costs including instructors, presenters, entertainment, decorations, food, etc.	Revenues and fees charged for programs	COA Director and Mayor	<b>40,000.00</b>

# Superintendent’s Budget Message

A Message from Superintendent Dr. Stephen Zrike:

I am pleased to share the Salem Public Schools (SPS) recommended budget for the 2023 fiscal year. The recommended budget of \$68,747,963 represents an increase of 3.2%% from FY2022. This budget was designed with our district vision, values, and priorities at the forefront so that we can deliver on our promise to create a culture of belonging for all students that allows them to be locally engaged, globally connected, and fully prepared to thrive in a diverse and changing world.

We are anchored and guided by our district’s newly adopted core values:

- **Belonging:** We believe all members of our community are valued and that our relationships are built on empathy and respect.
- **Equity:** We believe in promoting social justice to ensure an inclusive school community where all members are empowered and engaged.
- **Opportunity:** We believe all students should receive a personalized experience to achieve academic success, find joy in their learning, and have multiple choices for their post-secondary plans.

Coupled with these values are the priorities, initiatives and measurable outcomes that have emerged from our strategic plan. As part of our current 2-year strategic plan, we have established four priority areas- support and grow the best adults for our students, strengthen the pre-K to post-secondary experience, effectively meet the social/emotional needs of all students and create a vision for engaging their families and design and implement efficient and equitable systems. Each of these priorities are accompanied by a series of initiatives that will drive our work on behalf of students and families in Salem. This will allow us to be more focused and targeted in our efforts to realize game changing results for Salem’s children during this critical moment in public education. Our priorities and initiatives are as follows:

	<b>1. The best educators &amp; leaders</b>	1A. Build a diverse workforce	1B. Cultivate culturally & linguistically responsive teaching	1C. Empower leaders as the unit of change
	<b>2. Academic excellence for all</b>	2A. Expand high-quality Pre-K	2B. Develop independent learners	2C. Shared, equity-driven vision for high school
	<b>3. Support Systems for SEL &amp; Families</b>	3A. Empower all students	3B. Engage families as partners	3C. Align structures for SEL supports
	<b>4. Strategic &amp; Accountable Plans</b>	4A. Strategic resource allocation	4B. Strong systems of accountability	4C. Effective data systems

We have made critical decisions and allocated our finite resources in accordance with these values, priorities and initiatives. More specifically, during our three budget forums, we have solicited input on the best way to continue to direct resources in alignment with our strategic plan. This feedback proved invaluable as we developed our operating budget proposal and in planning how to best utilize our local and federal grant funding. We worked aggressively to invest in programs, materials and positions that are responsive to the voices of our constituents and serve to positively impact the SPS student learning experience.

To fund these essential priorities and maintain other critical services, the Salem Public Schools are relying on a slight increase in the Commonwealth's funding, the continued and generous support from the city of Salem and one-time revenue in the form of federal and state grants. While this one-time COVID relief resources allows us to make strategic investments in Fiscal Year 2023, we must continue to be thoughtful and judicious as it will be challenging to sustain these funding levels in future years. Given this context, we are already working to shift mission critical staff and programs to the operating budget and discussing how to avoid a fiscal cliff.

In submitting this strategic budget, I want to extend my gratitude to our Assistant Superintendent for Finance and Employment Engagement, Ms. Mary Delai, the SPS Finance Sub-committee, the SPS executive team, department heads, school-based administrators, SPS staff and stakeholders who offered feedback throughout our extensive budget engagement process. We appreciate the continued support of our students, families, educators, School Committee members, Mayor Driscoll, elected officials, and Salem taxpayers to provide the young people of Salem with the educational experience they deserve.

Sincerely,

Stephen Zrike

Salem Public Schools

FY'2023 Recommended Budget

10

## FY2023 Recommended Budget Overview

### Budget Process and Highlights

The development of the FY2023 school department budget begins in the fall with the creation of a budget calendar and timeline. In October, we submit our October 1 enrollment to the MA Department of Elementary and Secondary Education (DESE) which is a critical driver of our state funding targets as well as state and federal aid. A comprehensive staffing analysis is performed in December, a process complicated this year by staff turnover and leaves of absences that continued long into the winter and spring. In January, budget development instructions and templates were distributed to school and district budget managers. School and district leaders collaborate with stakeholder groups such as school councils and advisory committees in developing budget priorities and requests, which were submitted to district leaders in February.

Figure 1. SPS Budget Process and Timeline

The foundation of the FY2023 Recommended Budget is the level service budget - the amount of funding and staffing necessary for the district to provide the same services to students and families, and the same level of support for educators and staff as in the current year. The Level Service Budget includes any known contractual obligations and increases including step and column adjustments, and cost of living adjustments. Increases in non-personnel expenses include special education out of district tuition, homeless and out of district transportation, and contractual rate increases for existing contracts. For FY2023, the SPS Level Service Budget increases by 3.9% - this is the minimum amount necessary to maintain current staffing levels, fund essential services, and purchase necessary supplies and materials.

During mid-year “step-back” reviews, school and district leaders evaluate the progress made toward achieving school and district improvement goals. This mid-year reflection allows leader to make mid-course corrections, and to formulate budget priorities for the following year based on assessment of student need. These budget priorities, grounded in the school and district improvement plan goals, then inform budget requests for the 2022-23 school year.

An additional \$2.94 million in requests, beyond the level service budget, were submitted by school and department leaders to arrive at a FY2023 Requested Budget of \$72.1 million, an increase of 8.2%. Funding requests for FY2023 included 36.4 additional staff, over \$219,000 in supplementary funding for stipends and additional compensation, and \$1.6 million in non-personnel expense requests. **The detailed list of FY2023 school and department budget requests can be found in Appendix A.**

Recognizing that an 8.2% increase is beyond the financial means of the City, the Superintendent and leadership team reviewed each of the new requests and made recommendations to the Finance Subcommittee as to which should be funded. Priority was given to requests that are: necessary to address required services, essential to school and/or district improvement efforts, investments in the aforementioned strategic priorities (e.g., pre-school expansion, dual language expansion, and career vocational technical programs), or budget neutral or expected to result in operational savings. Reducing all but these priority requests results in a reduction from 8.2% to 4.6%. Further relief to the FY2023 Recommended Budget request is provided by using FY2022 operating surplus to prepay FY2023 special education tuition obligations as permitted by law. Those operational surpluses stemmed from an unprecedented level of vacancies during the 2021-22 school year, a decrease of 21 students placed out of district, and savings in material and supply lines as a result of the infusion of ESSER dollars. The result is an FY2023 Recommended Budget of \$68,747,963, an increase of 3.2%, or \$2.15 million, over the FY2022 Adopted Budget.

## Budget Guidelines

The FY2023 Budget development process was informed by a set of budget guidelines. These serve as our key guiding principles, our true north. Our theory of action is that by adhering to these guidelines, we will produce a spending plan that is best aligned to our mission, vision, and values. For FY2023, these guidelines include:

- **Keep students’ needs at the center** and prioritize students with the highest need as we return from a pandemic year of learning.
- **Use data and evidence** to support budget decisions.
- Ensure **transparency** and **alignment to strategic priorities** and initiatives.
- Allocate resources **equitably**.
- Invest in initiatives that have proven to be **effective**.
- Invest in **building the capacity** of our staff to meet the needs of diverse student populations in SPS.
- Ensure that our budget reflects **constituent input and feedback**.

## Budget Drivers

### District Enrollment

A critical part of the budget process is the reporting of our October 1 enrollment to the MA Department of Elementary and Secondary Education (DESE). That enrollment is used to determine our state mandated funding target, known as the Foundation Budget. It also impacts federal and state entitlement grant funding amounts awarded to Salem Public Schools.

Over the past decade, enrollment in Salem Public Schools has declined by nearly 900 students from a high of nearly 4,500 students ten years ago, to this year's enrollment of 3,665. Next year's projection calls for a decline of another 35 students to 3,630. The factors that are influencing Salem's declining enrollment include a decline in birth rates (20% decline over the last decade), families moving out of Salem, or families choosing other schooling options including charter, choice, and homeschool alternatives.

Based on 2019 census estimates, since the 2010 Census, the number of children under the age of 5 has decreased by 3% and the number of children ages 5 - 19 has decreased by 13% in the District. The number of adults ages 65 and over has increased by 32%. Of the 18,000 households in Salem, approximately 22% have school aged children. Looking into the future, the census predicts that the population of children in Essex County between ages 5 and 18 will drop by another 4% in the next five years.

Figure 2. Salem Public Schools Historical October 1 Enrollment, by Grade Span

Salem Public Schools

FY'2023 Recommended Budget

13

**Class Size**

Salem Public Schools seeks to maintain an average elementary class size of no more than 25 with no elementary class exceeding 28 students. Grade span targets are 21 students for Grades K and 1, 23 students in Grades 2 and 3, and 25 students in Grades 4 and 5. At the secondary level, the district aims for class sizes of between 20 and 30 students. Class sizes in SY2022-23 are anticipated to remain well within those guidelines.

Enrollment declines at the secondary level have been particularly persistent over the last decade. On average, 16% of students leave Salem Public Schools after Grade 5, and 17% of students leave after Grade 8. Many students leave Salem Public Schools to attend Salem Academy Charter School or Essex North Shore Agricultural Technical School. Students also attend schools in other districts through the School Choice program, and a small number of families elect to home school their children. In total, over twenty percent of Salem families choose private, charter, or vocational placements or homeschool over Salem Public Schools.

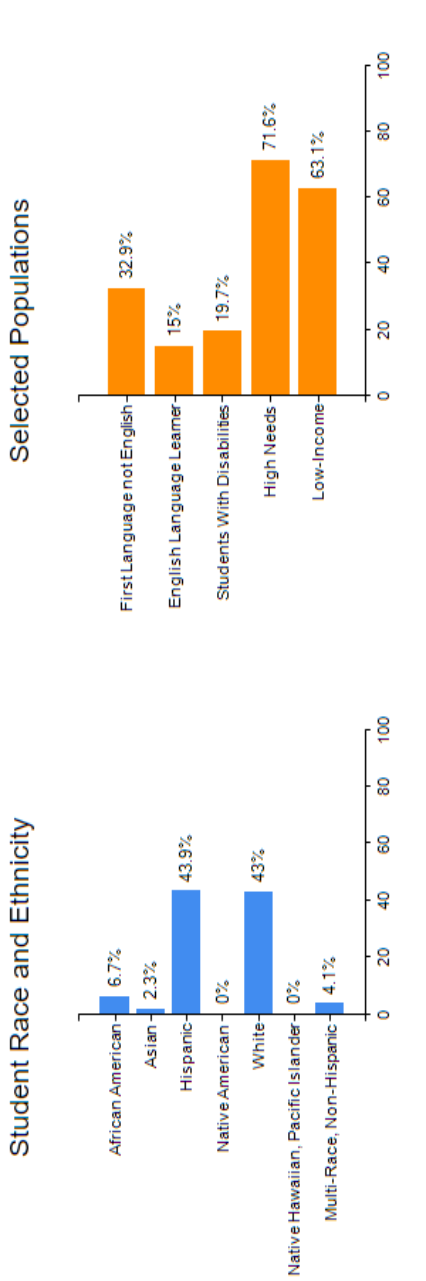

Figure 4. FY2023 Projected Secondary Enrollment

School	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Total

**Student Demographics**

Salem Public Schools is racially and ethnically diverse, with 57% of our student body being classified as non-white. Hispanic students comprise 43.9% of the student population, while African American students account for 6.7%, multi-racial, non-Hispanic 4.1%, and Asian students comprising 2.3%. Students classified as white make up 43% of the student body. Salem is also a high needs district with over 71.6% of our students classified in at least one of four categories of need: students who are low income (63.1%), students whose first language is not English (32.9%), students with disabilities (19.7%), and students who are English Learners (15%). With respect to student outcomes, 34% of Grade 3-8 students are meeting or exceeding expectations in ELA while 16% are meeting or exceeding expectations in math (note that this data is from the 2021 MCAS administered during the pandemic).

Figure 5. 2021-22 Demographic Profile of SPS Students

**Educator Demographics**

Salem Public Schools has a substantial teacher workforce made up of over 500 employees, the largest single employee group in the City of Salem, and 55% of school department permanent employees. Sixty-five percent of teachers have ten or more years of experience, with fourteen percent having twenty or more years of service with Salem Public Schools. Thirty-five percent of teachers have less than ten years of experience, with 32% having fewer than three years, the threshold in Massachusetts for Professional Teacher Status.

As the largest employee group in our district, educator salaries are a significant driver of the personnel budget, which comprises 79% of the district budget. The Figure below shows the distribution of educators on the current salary schedule. Over 80% of Salem teachers hold at least a master’s degree. Fifty-four percent of educators are on Step 13 (also known as “top step”), while 46% remain eligible for step increases, which averages 3.5% for Salem teachers.

Figure 6. Step and Column Distribution of Salem Teachers

In addition to educator experience and degree attainment, another important demographic to consider is the race and ethnicity of our staff. Given our diverse student population, it is essential that our workforce, particularly educator workforce, reflect the racial, cultural, and linguistic diversity of our students. A large and growing body of evidence demonstrates that representation in the classroom matters and that there are strong positive impacts when students learn from teachers of the same race or ethnicity. Our current workforce demographics do not correlate strongly to our student demographics. While 53% of our students are non-white, only 16% of our total workforce and 8% of our educators are non-white.

**Local, State and Federal Revenue**

The availability of revenue from local, state, federal, or private sources is a significant driver of our budget. Local revenue is the single largest contribution to the school department budget, comprising 64% of our funding. The state contributes 27% of what is expended by the school department through the Chapter 70 funding formula. Seven percent of our funding comes from state and federal grants, while the remaining 2% comes from private grants and other local school department receipts.

One of the City's major sources of educational funding is Chapter 70 aid. The state funding formula evaluates the City's perceived wealth (as measured by income and property value) to determine what portion of the state mandated foundation budget should be funded by the municipality and what share should be funded by the state. The foundation budget is driven by enrollment while state aid targets are based on

wealth. The decline in Salem’s enrollment over the past several years, along with increasing wealth, as measured by the state, has significantly dampened state aid increases that were predicted as part of the 2019 Student Opportunity Act. The FY2023 Preliminary Chapter 70 Funding Formula, based on the Governor’s budget, is \$26.1 million, an increase of just over \$124,170, or 0.48%. The proposed House budget does increase that amount by estimated \$150,000.

This is the lowest increase among any of the Gateway communities this year, despite Salem having the highest per pupil spending of any of these districts. The average increase for the Gateway cities in the FY2023 Preliminary Chapter 70 proposal was 12.95%, excluding Salem. Salem’s target aid share has dropped from 40.9% in FY2016 to 29.3% in FY2023, with the City’s share increasing to 70.7%, up from 59.1% in FY2016. In essence, there is a recognition that Salem’s schools have significant needs (hence the 4.61% increase in the foundation budget), but the state is shifting more of the burden for funding these needs onto the City.

Figure 7. School Department Revenue Sources, FY2020

**Federal COVID-19 Grant Funding to Schools**

Over the past two years, Salem Public Schools has been awarded over \$15 million in pandemic-related federal stimulus funds. These federal dollars are intended to help school districts across the nation address the unique challenges associated with educating children in a pandemic and post-pandemic world. While the impact on student learning and growth are yet to be fully understood, we all agree that the interruption to student learning and in-person schooling has led to learning and opportunity gaps that, if unaddressed, could have significant adverse impacts on students’ academic achievement and social and emotional wellbeing.

To date, the district has received and expended close to \$6 million of this \$15 million in federal funding or 38%. In the current school year, we are funding 52.7 additional positions using ESSER Funds. These monies have been used to fund some of the following expenses:

- Teachers, paraprofessionals, behavior specialists, tutors and building substitutes necessary to address the needs of in-person learners while meeting social distancing requirements and to support the delivery of hybrid and remote instruction
- High dosage tutoring support from third party vendors
- Comprehensive anti-racism training modules for SPS staff
- New elementary curriculum materials
- Staffing to expand Pre-K classes in the district with four additional classes currently being offered at two elementary schools
- Chromebooks, wireless access points, and wireless service to ensure all students have access to remote learning
- Additional instructional technology for teachers and support staff to allow for delivery of effective instruction
- Instructional supplies and materials to ensure that each student has the resources necessary to access and engage with lessons
- Software licenses and purchases necessary to support the delivery of remote and hybrid instruction
- Additional custodial support to allow for enhanced cleaning, sanitizing, and disinfecting of buildings
- HVAC Technician to ensure optimal ventilation and maintain a safe and comfortable teaching and learning environments for all students and staff
- Repairs, upgrades, and enhancements to ventilation and control systems to ensure optimal ventilation
- Personal protective equipment for staff and students including masks, gloves, hand sanitizer, gowns, face shields, desk shields, way pointing signage, and sanitizing equipment and supplies
- Additional transportation expense necessitated by bus capacity restrictions due to social distancing requirements

Figure 8. Salem Public Schools Federal COVID-19 Grant Supports

Grant Name	Amount Awarded	Start Date	End Date	Expended	Balance Remaining	% Expended
ESSER I (CARES)	\$1,096,282	12-Mar-20	30-Sep-22	\$1,077,612	\$18,670	98%
ESSER II (CRRSA)	\$4,124,098	1-Apr-21	30-Sep-23	\$3,469,566	\$654,532	84%
ESSER III (ARP)	\$9,239,679	1-Oct-22	30-Sep-24	\$1,417,404	\$7,822,275	15%
<b>Total LEA Allocation</b>	<b>\$15,800,411</b>			<b>\$5,964,582</b>	<b>\$8,495,477</b>	<b>38%</b>

To date, all ESSER I funds have been expended or obligated as have 85% of ESSER II funds. While the deadline for spending ESSER II funds is September 30, 2023, we anticipate that grant being fully expended by September 30, 2022. The ESSER III allocation is available to the district to use in SY2021-22, SY2022-23 and SY2023-24. During the current school year, the district has expended 15% of its ESSER III funds, leaving potentially, \$3.9 million available in each of the two upcoming school years. A significant portion of that is projected to be used to continue expanded preschool programs within SPS and community partners. The annual cost for expanded preschool classrooms is estimated to be \$1.2 million per year, representing 31% of the projected annual ESSER III allocation noted above.

The ability of the district to fund these programs and initiatives beyond the 2023-24 school year will be dependent upon the willingness and ability of federal and state agencies to provide financial support or our ability to absorb mission critical work in our operating budget (this has started with this budget). We continue to be mindful of the need to begin to decrease our reliance on this one-time infusion of grant support so that we avert the so-called “funding cliff” that might otherwise occur in FY2025.

## FY2023 Recommended Budget Detail

### FY2023 Budget Summary

The FY2023 Recommended Budget of \$68,747,963 represents a 3.2% increase over the FY2022 Adopted Budget, an increase of \$2,150,044.

Figure 10. FY2023 Budget Summary

	FY2020 Actual	FY2021 Actual	FY2022 Adopted	FY2023 Recommended	\$ Change	% Change

### School and Districtwide Allocation

Sixty-eight percent of school department funds are allocated to our 11 schools. Figure 11 shows the distribution of the FY2023 Recommended Budget by district and school.

Salem Public Schools

FY'2023 Recommended Budget

21

Figure 11. Allocation of District Resources, FY2023 Recommended Budget

Districtwide supports comprise 32% of the FY2023 Recommended Budget and includes district administration; district level regular education; district level special education; district level student and family support; district level multilingual learner education; instructional technology; and operations and maintenance, which includes transportation. The largest cost center in the Districtwide allocation is Special Education, at 31%, followed by Operations and Maintenance which comprises 28%.

Figure 12. Allocation of Districtwide Supports Budget

**Personnel and Non-Personnel Allocation**

Personnel resources account for 80% of the school district budget, with non-personnel expenses comprising 20%. Wage increases, therefore, are a major driver of the district budget. Over 46% of our staff are eligible for an average increase of 3.5% each year due to collectively bargained step increases. Those wage adjustments alone result in a 2.3% increase in the district’s operating budget each year.

**Personnel**

Personnel expenses, as noted above, represent 80% of the district’s budget. Of that 80%, nearly three quarters is allocated to instructional staff. Teaching staff make up 65% of the personnel budget, with instructional support staff (paraprofessionals, tutors, and behavior specialists) comprising another 7%. Included in the teaching category are all early childhood, elementary, middle school and high school teachers and specialists. Also included are district assigned teaching and related services providers including instructional coaches, full-time academic coordinators, board certified behavior analysts, occupational therapists, reading specialists, speech and language pathologists and teachers of the visually impaired.

Figure 13. Allocation of Personnel Resources by Category

The major driver of the personnel budget this year was negotiated salary increases. The cost of living increase (COLA) for Salem Teachers Union members was 2.75% for individuals on top step (Step 13 of the salary schedule), and 1.75% for teachers on steps 1-12. The negotiated COLA increase for FY2022 exceeded the amount budgeted so the cost of living adjustment reflected in the FY2023 budget is 3.5% for teachers on top step and 2.5% for teachers on steps 1-12. Teachers on steps 1-12 also receive a step increase which averages 3.5% on the STU salary schedule. Therefore, 54% of the 500 STU members receive a 3.5% salary increase in FY2023, while the remaining 46% receive, on average, a 6.0% salary increase.

The paraprofessionals also settled a three-year contract last year with significant restructuring and re-classification of staff. The paraprofessional unit, now renamed the Paraprofessional and School Related Personnel (PSRP) unit, was expanded to include permanent building substitutes, full time tutors, behavior specialists, family engagement facilitators, speech and language pathology assistants, and certified occupational therapy assistants. The salaries of family engagement facilitators increased by over 30% partly due to an extension of their contractual year. They had also not received any salary adjustments for a number of years. Instructional paraprofessionals also received a significant salary adjustment of 8.7% which impacts about one-quarter of the PSRP unit, which now includes 190 members.

Negotiations are currently underway with AFSCME and the School Administrators Association. Salary adjustments for these units would come from the salary reserve line of the budget, as will increases for non-union administrators and staff.

In addition to negotiated and anticipated contractual increases, the FY2023 recommended budget accommodates requests for 18.6 new positions. Eleven of those are offset with reductions in positions for a net increase to the budget of 7.6 positions.

**Non-Personnel**

Twenty percent of the FY2023 Recommended Budget is allocated to non-personnel expenses. Tuition, transportation, and utilities are the three largest categories of non-personnel expenses in the budget. Tuition and transportation (regular day, special education in district, special education out of district, and homeless transportation) each comprise 24% of the district's expense budget, or over 48% in total. Instructional supplies, materials and equipment make up 11% of the non-personnel budget with utilities comprising another 10%. Figure 15 below shows the allocation of non-personnel resources for the expenditure categories that account for 97% of the expense budget.

Figure 14. Allocation of FY2023 Non-Personnel Resources by Major Expense Category

### FY2023 Proposed Budget Summary by Cost Center

School Committee Policy establishes 18 cost centers that comprise the district budget. These cost centers, as well as the historical expenditures, budget detail, and full-time equivalent positions for each cost center, are listed in the figure below. The first 11 cost centers listed represent our schools, while the remaining 7 represent districtwide supports.

Figure 15. FY2023 Recommended Budget by Cost Center

	FY2020 Actual	FY2021 Actual	FY2022 Adopted	FY2023 Recommended	\$ Change	% Change

<b>Grand Total</b>	<b>58,479,049</b>	<b>61,505,479</b>	<b>66,597,918</b>	<b>68,747,963</b>	<b>2,150,044</b>	<b>3.2%</b>

The largest cost center, with respect to both personnel and budget is Salem High School, with a total of 165.1 employees (not including grant funded positions). The Salem High School Recommended budget (not including Athletics) represents 19% of the school department budget. When our other high school budgets (New Liberty and Salem Prep) are added, the total district High School budget is 22% of the school department budget. The next largest is districtwide Special Education representing 10% of the total budget. The districtwide Special Education Budget does not include

Salem Public Schools

FY2023 Recommended Budget

building-based special education positions, such as special education teachers and paraprofessionals, as these are captured within each school's cost center budget. The total special education budget – district and school allocations – equals 31% of the total district budget.

The chart below shows the historical adopted budgets and percent change from year to year. In 8 of the last sixteen fiscal years, school department budgets increased by over 4% and three of those times by over 5%. The average over that time period has been 4.1%. It is also important to note that the FY2022 personnel budget began the year in a structural deficit as contracts settled for higher increases than what was budgeted. That gap is just over \$500,000. The district has not requested a supplemental appropriation to cover that gap as we believe we have one time surplus in other accounts that can cover this deficit for the current year. Had we asked for and received a supplemental appropriation, the overall increase to the FY2023 Recommended Budget would have been 2.5%, well below the historical average of 4.1%.

Figure 16. Historical, Current, and Projected School Budgets and Budget Increases

Note: In 2020, the budget amount does not include funding for the Bentley Academy Charter School. The FY2021 budget includes the appropriation for the Bentley Academy Innovation School with the transition back to the school district. Also, the FY2021 budget amount includes a supplemental appropriation of \$852,000 that allowed the school to restore many of the salary concessions that employees made when there were expectations of significant revenue contraction.

We also want to emphasize that this budget includes a significant number of position reductions and increased use of revenue offsets to help limit the overall impact of the increases necessary to achieve our goals and objectives. This includes the reduction of 7.0 positions and salary differentials totaling \$533,625 in savings, \$1,021,229 in use of special revenue fund balances, \$450,000 in expense reductions, and the prepayment of \$550,000 in special education tuition using FY2022 operating surplus. This is total of over \$2.6 million in reductions and savings to support the FY2023 Recommended Budget. It's also important to note that another \$2.2 million in personnel expense is projected to be paid for using the school department's ESSER funds in FY2023.

Summary and detail information for the FY2023 Recommended Budget by cost center is provided in the sections below.

## FY2023 Recommended Budget Detail by Cost Center

### Districtwide Support Budgets - Summary

Districtwide support is comprised of the following cost centers:

- District Administration
- Regular Education
- Special Education
- Student and Family Supports
- Multilingual Learner Education
- Instructional Technology
- Operations and Maintenance

Personnel and non-personnel resources allocated at the district level provide critical supports to schools. Each of these cost centers seeks to ensure that school leaders receive the necessary support in the areas of regular education; special education; physical, emotional, social, and behavioral health and wellness; student and family engagement; instructional technology; and multilingual learner education. Operational supports in the form of transportation, buildings & grounds management, human resources and benefits, school business services (budget development, financial reporting, payroll administration, accounts payable and receivable, procurement, and grants management), regulatory compliance, and public relations and communications further strengthen school success.

The total FY2023 Recommended Budget for Districtwide Supports is \$22,738,413 which represents a decrease of 0.9% from the FY2022 Adopted Budget, or \$207,168. As the figure below shows, most of the additional resources requested in the FY2023 Recommended Budget are for the direct benefit of schools.

Figure 17. FY2023 Recommended Budget, Districtwide Supports compared to School-based Budgets

**District Administration Cost Center**

This cost center consists of the following functional areas: School Committee, Superintendent, Deputy Superintendent, Business and Finance, and Employee Engagement.

Salem Public Schools

FY'2023 Recommended Budget

- School Committee – expenses and school committee member reimbursements
- Superintendent
  - Personnel include Superintendent, Chief of Public Relations, and Executive Assistant to the Superintendent. An additional position of Chief of Operations and Response is assigned here but paid for from the ESSER Grant.
  - Expenses include consulting, coaching, professional development, and legal services
- Deputy Superintendent
  - Personnel include Deputy Superintendent and Executive Assistant to the Deputy Superintendent
  - Expenses include supplies and materials to support the office
- Business and Finance
  - Personnel include the Assistant Superintendent for Finance & Operations, Grants Manager, Payroll Manager, Finance Coordinator, Grants Bookkeeper, Payroll Assistant, Benefits Coordinator, Business Office Assistant
  - Expenses include insurance; auditing, legal, and accounting services; postage; printing; Medicaid billing; software licenses; and equipment leases
- Employee Engagement
  - Personnel include the Executive Director of Employee Engagement and Executive Assistant to the Director. An additional position of Recruiting Manager is assigned here but paid for from the ESSER Grant.
  - Expenses include recruiting, advertising, pre-employee physicals, software licenses, legal and consulting services

**Priorities and Opportunities**

- Continue to develop the leadership capacity of school and district leaders to support, develop, and elevate staff in these challenging times
- Assertively pursue workforce diversification strategies and build the supports to retain and develop diverse staff
- Ensure that data systems support rather than hinder the work of school and district leaders
- Enhance accountability by better leveraging software tools and implementing best practice processes

Figure 22. District Administration FY2023 Budget Priorities

Description	SIP /DIP Goal(s)	Resources Requested	Funding Request
<b>Budget Priority 1:</b> Ensure sufficient staffing to address the current day needs of a comprehensive office of employee engagement, properly support and strengthen workforce diversification and pipeline development work	1A - Diversity the workforce	1.0 Recruiting Manager position	\$75,000 (ESSER Funded)
	1B - Cultivate culturally and linguistically responsive, social justice-driven staff 1C - Position schools as the unit of change	Consulting services and expanded support to improve recruiting and hiring practices	\$10,000
<b>Budget Priority 2:</b> Enhance our communication with families and build a strong positive identity for Salem Public Schools	3B - Engage families 4B - Create strong systems of accountability	Promotional supplies and materials, graphic design and consulting services	\$10,000

<b>Budget Priority 3:</b> Grow leader capacity to drive improvement and change at the school and classroom level	1C - Position schools as the unit of change	Coaching, leadership and professional development expense	\$15,000
<b>Budget Priority 4:</b> Improve accessibility of financial, human resource and operational data for all staff	4A - Allocate resources strategically 4C - Develop effective data systems	Consulting and implementation expense for critical accounting system functions (e.g. position control)	\$15,000

<b>Grand Total</b>	<b>2,701,855</b>	<b>2,631,606</b>	<b>3,339,155</b>	<b>3,181,536</b>	<b>(157,619)</b>	<b>-4.7%</b>

Personnel increases are driven primarily by cost of living increases for all non-union district administration employees, assumed to be 2.5%. Increases beyond the 2.5% are the result of FY2022 salaries that are higher than originally budgeted, or due to market adjustments when benchmarking position salaries to comparable districts.

Increases to non-personnel expense lines correlate to the budget priorities listed above, including coaching, leadership and professional development under district leadership, consulting supports for employee engagement and finance, and promotional materials for public relations. The most significant increases, however, are to the Insurance line and a new Other Fixed Charges account. We experienced a 5.6% increase in our insurance premiums last year, resulting in a \$35,000 shortfall in this line in FY2022. After correcting for that deficit, and adding another 5.6% increase for next year results in a 10.8% increase in Insurance premiums. The increase has been in large part due to payroll growth (having added over 50 positions to our staffing through ESSER). The Other Fixed Charges line is a new budget item that covers the cost of the Medicaid claiming contractor that assists in ensuring we receive all the reimbursement we are entitled to. This expense had previously been offset by the Medicaid Revenue received by the City but this practice was discontinued last year and SPS must now include this expense within its own budget.

Figure 25. District Administration Staffing

	FY2022 FTE	FY2023 FTE	CHANGE IN FTE	FY2023 COMPENSATION
Superintendent	1.0	1.0	-	223,450

<b>Grand Total</b>	<b>16.0</b>	<b>16.0</b>	<b>-</b>	<b>1,544,815</b>

There are no proposed changes to district administration staffing levels in FY2023.

Figure 26. Grant Funded Positions, District Administration

	FY2022 FTE	FY2023 FTE	CHANGE IN FTE	FY2023 COMPENSATION
District Administration	1.0	1.0	-	120,233
<b>Grand Total</b>	<b>1.0</b>	<b>1.0</b>	<b>-</b>	<b>120,233</b>

There is presently one grant funded position assigned to District Administration. That position is anticipated to be funded through ESSER in the year ahead as well.

## Regular Day Cost Center

This districtwide cost center includes the following functional areas: curriculum, instruction, and assessment; teacher and leader development; and out of school time. This year and next, the regular day cost center is also where our general education pre-kindergarten program is classified. Our integrated preschool program is a separate cost center and location. But with the nascent expansion into general education pre-kindergarten, and with the program being located at two different schools (2 classrooms at Bates, and 2 at Horace Mann), this is currently classified as a districtwide regular education program.

### *Curriculum, Instruction, and Assessment*

#### Priorities and Opportunities

**Access to High Quality Curriculum Materials** – What we choose for instructional materials matters - it makes a difference for kids. The quality of the instructional materials has a direct impact on student learning outcomes.

- We seek to maintain and expand student access to high quality digital and print curriculum materials.

**Vacation Academies, Expanded OST and Summer Programming** – Out-of-school time programming offers students opportunities for deeper learning, SEL growth and valuable peer interactions beyond the school day.

- We aim to provide greater access to out-of-school activities.

**Tutors & Tutoring** – Recent research studies of intensive tutoring interventions found that tutoring increased achievement by roughly an additional 3- 15 months of learning across grade levels.

- In the coming year, we recommend maintaining a cadre of classroom tutors who can assist with small group instruction; we also recommend continuing high-dosage tutoring aimed at mitigating unfinished learning.

#### Budget Priorities

	FY23
<b>Personnel</b>	
District Early Literacy Coordinator	\$ 105,000 ESSER
District Tutors (non-Catapult)	\$ 324,000 ESSER

<b>TOTAL</b>	<b>\$ 1,846,551</b>	

**Teacher & Leader Development**

**Priorities and Opportunities**

**Retention** – We have emerging systems to support retention of teachers. We want to expand these supports.

- New Teacher University
- Teacher induction & mentoring programs
- High quality professional growth opportunities

**Pipeline Development** – We cannot wait for diverse candidates to come to us. We have to actively and strategically create advancement pipelines and cultivate opportunities from within.

- Increase the number and types of university fellows
- Defray costs associated with obtaining licensure
- Support educators on emergency licenses or waivers as this tends to be a culturally and linguistically diverse group of professionals

**Support the Growth of Existing Educators and School Leaders** – We seek to maintain structured, high-quality growth opportunities for our leaders through partnerships with the Equity Imperative, Lynch Leadership Academy, School Empowerment Network, etc.

- Provide coaching and leadership development

- Provide high quality professional learning opportunities

Teacher Pipeline		FY23
Fellow Teacher of Record Support		\$2,250
CAP supervisors		\$15,000
Endicott Fellows		\$57,900
SSU Fellows / Interventionists		\$193,000

SSU Leader Fellows	\$12,000
<b>Total: Membership Teacher Development</b>	<b>\$17,400</b>
<b>Total</b>	<b>\$1,109,304</b>

**Out of School Time**

The goal of the OST Program is to continue to build on and extend the academic and social emotional goals of our school day. The program targets traditionally marginalized students in order to increase access to high quality out of school opportunities through programming and connections to community resources. Out of school offerings include summer programs, after school programs, and vacation academies. Much of the cost associated with our OST programs are funded through grants, most notably the 21<sup>st</sup> Century After School Programs Grant.

**Budget Priorities**

	FY23
<b>Staffing</b>	<b>FY23</b>
OST coordinator	\$51,000.00
OST program stipends	\$120,000
<b>Total: Staffing</b>	<b>\$171,000</b>

<b>Total: Transportation</b>	<b>\$40,000</b>
<b>Total OST Budget</b>	<b>\$314,500</b>

Salem Public Schools

FY'2023 Recommended Budget

**Preschool Program Expansion**

With the award of significant federal grant monies, Salem Public Schools was presented with a unique opportunity to invest in one of our most important strategic initiatives, the expansion of our pre-kindergarten program. The vision of the Pre-K program is to ensure that every three and four-year old in Salem has equitable access to high quality early education across the community that is developmentally appropriate, inclusive, and culturally responsive. We look to provide child-centered experiences grounded in play and guided by state and national learning standards that lay the foundation for their future learning and help them achieve their highest potential.

Currently, the estimated number of 3 and 4-year old children living in Salem is 1,268. We are expecting approximately 580 of these children to enroll in Kindergarten in Salem Public Schools based on prior trends. The current preschool capacity across the community is 629 seats. The table below shows the current Preschool capacity, enrollment, and programs for the various categories of providers.

Figure 27. Preschool Program Capacity and Enrollment in Salem

Program Category	Preschool Capacity	Enrollment	Number of classrooms	Number of Programs
Center-Based	421	267	—	9
Family Child Care	—	17	30	30
Public School	208	167	13	5
<b>TOTAL</b>	<b>629</b>	<b>434</b>	<b>—</b>	<b>44</b>

**Priorities and Opportunities**

Support a mixed delivery system of program offerings that address the diverse needs of families in Salem (public school, center-based and family child care)

Sustain the level of pre-k currently offered through Salem Public Schools

- Currently offer approximately 200 seats

Sustain the pre-k alignment with community programs (approx. 60 seats) through

- Multi-year classroom grants to community based providers
- Classroom subsidy to support quality improvements and program costs
- Tuition assistance for families
- Equitable salary scale for lead teachers with flexibility to ensure living wage for all staff

Salem Public Schools

FY'2023 Recommended Budget

<b>Total: After School Program</b>	<b>\$25,000</b>
<b>Total Preschool Budget</b>	<b>\$1,129,000</b>

Figure 28. FY2023 Recommended Budget, FY2023 Regular Day (Districtwide)

	<b>FY2020 Actual</b>	<b>FY2021 Actual</b>	<b>FY2022 Adopted</b>	<b>FY2023 Recommended</b>	<b>\$ Change</b>	<b>% Change</b>
<b>Regular Day</b>	<b>1,740,097</b>	<b>1,284,717</b>	<b>1,537,358</b>	<b>1,537,819</b>	<b>461</b>	<b>0.0%</b>
Personnel	1,311,633	1,058,050	1,170,824	1,185,131	14,307	1.2%
Expense	428,463	226,667	366,534	352,688	(13,846)	-3.8%
<b>Professional Development</b>	<b>251,909</b>	<b>94,613</b>	<b>164,910</b>	<b>204,410</b>	<b>39,500</b>	<b>24.0%</b>
Personnel	119,427	44,799	73,910	73,910	-	0.0%
Expense	132,483	49,814	91,000	130,500	39,500	43.4%
<b>OST/Partnership</b>	<b>201,480</b>	<b>140,000</b>	<b>230,000</b>	<b>353,154</b>	<b>123,154</b>	<b>53.5%</b>
Personnel	-	-	-	168,654	168,654	0.0%
Expense	201,480	140,000	230,000	184,500	(45,500)	-19.8%
<b>Grand Total</b>	<b>2,193,486</b>	<b>1,519,330</b>	<b>1,932,268</b>	<b>2,095,383</b>	<b>163,115</b>	<b>8.4%</b>

While the total increase for the FY2023 Regular Day cost center budget shows an increase of 8.4%, this is in large part due to the misclassification of the OST personnel and non-personnel expense budgets to Student & Family Supports in the FY22 budget. Essentially, the only true increase is to the PD expense line, and that is to fund the recently negotiated tuition reimbursement benefit for PSRP unit members in the new collective bargaining agreement.

Figure 29. FY2023 Regular Day (Districtwide) Staffing

	FY2022 FTE	FY2023 FTE	CHANGE IN FTE	FY2023 COMPENSATION
Director Teacher & Leader Development	1.0	1.0	-	120,037
Director OST and Community Partnerships	1.0	1.0	-	117,654
Early Learning Coordinator	1.0	1.0	-	91,752
OST Coordinator	0.0	1.0	1.0	51,000
Social Studies Coach	2.0	2.0	-	173,061
Music Teacher	5.4	5.0	(0.4)	390,282
<b>Grand Total</b>	<b>10.4</b>	<b>11.0</b>	<b>0.6</b>	<b>943,785</b>

The OST position is new to the OST budget but is offset by a corresponding decrease in contract services. The music teacher decrease is the shift of the 0.4 music position from the district to Bates Elementary School to ensure sufficient staffing given the additional PK classrooms at that school.

Figure 30. Grant Funded Positions, Regular Day (Districtwide)

	FY2022 FTE	FY2023 FTE	CHANGE IN FTE	FY2023 COMPENSATION	
Regular Day	Director of Curriculum, Instruction, and Assessment	1.0	1.0	-	121,287
	Science Coach	1.0	-	(1.0)	-
	Tutor	0.5	0.5	-	14,850
<b>Grand Total</b>		<b>2.5</b>	<b>1.5</b>	<b>(1.0)</b>	<b>136,137</b>

One Science coach position is shifted from the Read Trust to the operating budget in FY2023.

## Special Education (Districtwide) Cost Center

It is the mission of Salem's Special Education Department to ensure that all students with differing abilities thrive within their learning environment by providing equal access to high-quality services that support student achievement and engagement. The **goal** of special education is to ensure students with disabilities have access to a standards-based curriculum that aligns with their learning abilities and develops their capacity for **independence. Specifically, the purpose of special education services is to:**

- **Support students** who meet the federal and state criteria for a disability and require specialized instruction and/or accommodations through an IEP and 504s
  - SPS provides educational services in the **least restrictive environment**
- **Promote an inclusive setting**
  - By partnering with parents, guardians, support agencies, and community partners
  - By providing specialized instruction that includes academic, social-emotional, and related services
- **Promote equity, respect, and student engagement**

We strive to address the following goals in all IEPs:

- Learning strategies
- Celebration of strengths
- Promotion of self-advocacy
- Improvement of current levels of performance
- Development of a post-secondary transition plan
- Budget recommendations are proposed based on student needs and IEP requirements

Our strategy for providing the highest quality services for our students in the year ahead includes:

- Making investments in district-based programming and resources in order to provide high-quality, cost-effective opportunities to educate students with all forms of specialized needs in the Least Restrictive Environment within the Salem Public Schools as appropriate.
- Providing equitable access to resources to improve outcomes for students with disabilities
- Providing high quality professional development that builds the capacity of educators. Each child with special needs will receive a high-quality education in an environment that fosters their ability to develop skills and build on their strengths.

Figure 31. Special Education Students, by Disability Category

Figure 32. Special Education Students by School and Placement

Salem Public Schools

FY'2023 Recommended Budget

Figure 333. Trends in Special Education Referrals

As the chart above shows, there has been a dramatic increase in the number of referrals for students to potentially receive special education services. In order to meet the growing needs of students in the year ahead, we require additional staff at Collins Middle School and the Early Childhood Center. In addition, the district will need to increase staffing for our students with visual impairments.

**Budget Priorities**

Budget Priority	District Priority	Resources Needed	Funding
CMS – Substantially Separate ASD Classroom	Priority 2:B. Focus on developing independent learners.	<ul style="list-style-type: none"> <li>Teacher</li> <li>Paraprofessional</li> </ul>	\$69,210 \$30,466
Increase Staffing for Teacher of the Visually Impaired	Priority 4:Allocate resources strategically to improve outcomes for students.	<ul style="list-style-type: none"> <li>0.2 FTE TVI</li> </ul>	\$18,602
Additional Nurse - Preschool Program	Priority 2:B. Focus on developing independent learners.	<ul style="list-style-type: none"> <li>1.0 FTE Nurse</li> </ul>	\$81,805

Among the challenges we face is the increasingly complex educational, behavioral, and/or medical needs of students which sometimes require placement in a specialized program outside of Salem Public Schools. Predicting which students will need to be outplaced and the associated budgetary resources necessary to support those program costs is often difficult.

Figure 34. Out of District Placement Trends

While we have seen significant declines in the number of outplaced special education students over the past several years, we are expecting an increase next year due to the complexity of student need and the significant increase in the number of special education referrals this year (an increase of almost 100 referrals). As a result of the known, anticipated, and projected increase in out of district special education placements this year, the out of district tuition budget for FY2023 increases by \$1.0 million.

Fortunately, due to the significant decline in students over the past two years, the district has seen budget savings which has allowed us to carry forward the full balance of our circuit breaker funding for the past two years. The state special education reimbursement program, also known as the “circuit breaker” program provides additional funding to districts for high cost special education students. The threshold for eligibility is set at four times the state average foundation budget per pupil as calculated under the Chapter 70 program, with the state paying 75% of the costs above that threshold. Circuit breaker reimbursements are for the district’s prior year expenses. Each summer, districts submit their circuit breaker eligible claims to DESE listing the types and amounts of services provided to special education students during the previous fiscal year. Payments are then made to districts in the subsequent fiscal year, on a quarterly basis, as a reimbursement for those prior year costs.

By law, circuit breaker reimbursements must be deposited into a special education reimbursement account. These funds may be expended in the year received, or in the following year. Unexpended balances in the account can be carried forward into the subsequent fiscal year, but must be expended prior to the close of that year and before expending any funds received in the current year. The Division of Local Services advises communities to work toward building a balance in their special education circuit breaker accounts in year-end actual costs compare favorably with the budget so that in years when costs increase unexpectedly or the circuit breaker reimbursement drops, there is known revenue to support

unforeseen expenses. Building a circuit breaker balance is a good management practice and exists in many school districts. Salem has only recently implemented this best practice and, as result, we enter FY2023 in a very favorable position.

Figure 34. Historical Special Education Tuition Expense - All Funding Sources

The figure above shows historical special education expenses from the different sources. The thick dotted line represents the special education tuition amount included in the school department’s operating budget for each of the prior ten years. The bars represent the total amount of tuition paid. As the chart shows, Salem’s out of district tuition spiked in FY2019, approaching nearly \$7 million, while the budgeted amount was about \$3.75 million. This unexpected increase resulted in the need to use a significant amount of current year (the gray portions of the bars) circuit breaker receipts, leaving little available to carryforward to stabilize the subsequent year’s budget, a trend that increased in each of the year’s prior to FY2019.

Out of district placements began to decline from the FY19 peak of 93 students, down to 83 in FY20, 71 in FY21, and currently stands at 50 students in FY22. You can see a corresponding drop in the total tuition amounts from FY19 to FY20 and FY21, with a slight increase in the current fiscal year. However, you can see that in FY21, no current year circuit breaker funds were spent (gray bar) and the entire balance was carried forward into FY22 (orange bar). In the current fiscal year, we see substantial savings in our special education tuition budget given the availability of the entire balance of the FY21 circuit breaker receipts. This leaves us in a favorable position for next year and even though tuition is expected to increase by \$1.3 million, we have a known balance in our FY22 circuit breaker account of \$1.9 million. Those dollars more than offset the anticipated increase, allowing us to reduce our FY2023 special education tuition budget request by \$300,000. In addition, operating surplus in the FY2022 budget will

allow us to prepay \$550,000 in special education tuitions, as permitted by law, allowing for further reduction to the FY2023 special education budget.

A noticeable decline in the districtwide teaching and administrative personnel lines is due to a more accurate accounting of staffing at the building level. In prior years, staff who worked at more than one building were often charged and reported as districtwide staff, rather than allocating the staff expense in the budget for the buildings to which they are assigned or expected to be assigned. Therefore, unlike the special education tuition, the savings in the personnel lines are not real savings but rather reallocated expense.

Similarly, the decrease in contract services was actually a reallocation of expenses from special education (previously pupil services) to student and family supports, as those services are now managed by that department.

Currently, there are three districtwide special education staff positions charged to grants. This is anticipated to continue in FY2023.

## Multilingual Learner Education Cost Center

An increase in new ML students immigrating to Salem is an exciting opportunity for us to develop all of our educators to become better at differentiating instruction for all students. Currently, the biggest request from teachers across schools in Salem is to receive greater support and guidance with teaching MLs, especially for the 63 (and counting) newcomer students we welcomed into the Salem Public Schools this year. In order to equitably meet the needs of our students and teachers, we require a focus on adding ML staffing where needed and providing coaching and Professional Development to our current teachers to be able to better serve our MLs.

While the district as a whole is seeing a decrease in enrollment, the ML Department is actually seeing an increase in Multilingual Learners enrolling at every school. On March 1st, 2021, we had 526 MLs enrolled. On March 1st, 2022, we saw that number rise to 621 MLs enrolled, an increase of 95 students, which is a difference of more than four class sizes. This reflects the current trend in Salem, that more ML families are choosing to immigrate to Salem and enroll in our schools. Enrollment has continued to increase throughout the year, and we currently have 623 MLs in our district.

### **Budget Priorities**

<b>Budget Priority</b>	<b>SIP/DIP Goal(s)</b>	<b>Resources Needed</b>	<b>Funding</b>
Third Multilingual Learner Teacher at Bates Elementary School	Priority 1: Build a robust talent development system for all staff.	1.0 ML Teacher	\$66,158
Shift the NLIS position from 0.6 to 1.0 and have this staff member serve at NLIS and Saltonstall	Priority 1: Build a robust talent development system for all staff.	Additional 0.4 FTE ML Teacher	\$34,895
RETELL Training for all non-SEI endorsed staff	Priority 1: Build a robust talent development system for all staff.	Stipends for 2 RETELL instructors	\$10,000

**Third ML Teacher at Bates:** Bates had 40 Multilingual Learners at the start of the 2021-22 SY. Enrollment has since increased by 22 students, about one whole class size. Currently the two Bates ML teachers are unable to adequately service all 62 students in the 6-hour Bates school day. Twelve students are newcomers, 34 are beginners, and 46 require 90 minutes of ELD time. As a result of this increase, the district hired a third temporary ML teacher from February to June to meet the increased need. Bates currently has the largest ML student to ML teacher ratio (31:1). The funding for the Bates teacher can be found in the Bates Elementary Cost Center Budget, under the school-based MLE budget.

**Increase NLIS position to 1.0 and assign to Saltonstall (0.6) and NLIS (0.4):** The current model of a part-time NLIS teacher is inefficient, as that staff member is only servicing 4 students and is unable to service other students around the district due to being 0.6 and needing to provide 90 minute ELD blocks to two students, and 45 minute ELD blocks to the other two students. Since Saltonstall could benefit from an additional part-time teacher given that it is challenging for their two ML teachers to provide services across nine grade levels, we are proposing to increase the NLIS staff member to a 1.0 FTE and having that position service both schools.

**RETELL Stipends:** We are currently running RETELL with 40 staff members who do not have their SEI endorsement. We expect that we will hire more staff members next year who will also require RETELL to obtain their SEI endorsement. RETELL will make all of our educator's better teachers of our Multilingual Learners.

There are no increases to districtwide ML staffing, however, the salary for one districtwide coach who had been erroneously classified to a building-based position has been transferred back to the districtwide ML budget. All other increases to the districtwide ML budget are contractual increases, with the exception of the \$10,000 increase in RETELL stipends discussed above.

## Student Services and Family Supports Cost Center

The Student Services and Family Supports cost center oversees the following functional areas: districtwide health and wellness services, school adjustment and city connects counselors, social emotional learning support, behavior specialists, attendance services, family engagement, and the parent information center. This is the first year that this department has operated as a separate unit, having previously been part of a larger department of pupil services. Commencing this school year, special education and student and family supports are now two separate departments and cost centers.

With the return of full time in person learning this year, we have seen firsthand the tremendous impact COVID has had on the social and emotional development of our students. At every level, students have struggled with the transition back to the routines, demands, and expectations of a typical school day. Having spent a great deal of time across all schools this year, we have observed regression in age appropriate social skills, peer interactions, and with difficulties in self-management and relationship skills. This budget proposal has been developed to address these challenges and to strengthen our tiered levels of social/emotional supports in classrooms and schools. Additionally, we have experienced a significant increase in families from Brazil including many newcomer students. Our PIC staff and Family Engagement staff are working hard to sufficiently meet the needs of families upon first point of entry when enrolling new students.

### *Challenges and Opportunities*

The Student Support Department has gathered data from a wide range of sources including the Panorama Survey, SEL Task Force Survey, school and classroom observations, and discussions with staff and students at all levels. The analysis of this data has informed our budget priorities to focus on strengthening universal Tier 1 SEL and Mental Health strategies across all settings. Consistent feedback from staff has indicated a desire for increased PD, relevant instructional materials, and ongoing coaching and support to meet the SEL and mental health needs of our students. This includes helping our staff differentiate between and respond to lagging social/emotional learning skills and emerging mental health challenges.

The opportunity in 22-23 is to reimagine the school day in terms of integrating academic and social emotional learning while attending to the overall health and wellness of our students and staff. Foundational work is underway this current year to align our strategy and practices across each level to ensure a strong start in September. This includes leveraging our school schedules, staffing, and resources to create structures and systems that provide a preventative and relational model to supporting academic, social, and emotional learning.

### *Budget Priorities*

Salem Public Schools

FY'2023 Recommended Budget

The decrease in the Administrative Personnel and the Salaries-Full Time accounts are due to the misclassification of staffing to the Student & Family Supports cost center last year. Some adjustment counselors who are assigned to special education programs were erroneously budgeted here rather than to special education. Also, the OST and Community Partnerships Director was charged here rather than to districtwide Regular Education.

Figure 41. Student and Family Supports Staffing

The Family Engagement Manager position is currently funded through ESSER and will remain on the ESSER grant in FY2023. The remaining grant funded staff support the Parent Child Home Visitor program that Salem participates in with Peabody Public Schools as the lead agency.

### Health Services Department

The student services and family supports cost center also includes the districtwide health services department. Our nursing and health services staff were the bedrock upon which our successful COVID response and mitigation efforts were built and the district is eternally grateful for their unwavering commitment and hard work. Three budget priorities exist for this department including additional nursing support at the Collins Middle School, increasing the medical and surgical supply lines to reflect the current realities and expanded programs being offered, and to create and fund an equipment line.

Additional Nursing Support at Collins Middle School: Collins Middle (CMS) is an exceptionally large building just under 200,000 square feet. To provide nursing assessment and/or first-aid to students, the school nurse can be called to the gym, the cafeteria, outside, to the Jackson St. playground, to Bertram Field, and to areas on all four floors. With over 600 students currently enrolled, including several medically fragile students, a single nurse responsible for all students and staff in a setting of this size requires thoughtful consideration of safety. Further, CMS houses 17.3 % of all SPS students, 46% of who are Hispanic. With nearly half of all students Spanish speaking, a bi-lingual nurse is unquestionably necessary. To ensure safe and equitable health outcomes for CMS students, health information must be able to be communicated to all families in the most efficient way possible.

Between the start of school through early February, there were a total of 3,300 office visits at CMS, an average of 32 per day. During that time 270 medical procedures were performed as well as administration of 500 medications. To date, there have been an average of 45 nursing encounters per day at CMS. This need will be filled by permanently assigning the current 0.6 district float nurse to CMS, leaving one float nurse remaining for the district, in addition to a nurse case worker. This can be shown in the budget by a decrease in districtwide nurses and a corresponding increase in the CMS building-based Health Services personnel line.

**Budget Priorities**

Budget Priority	DIP Goal(s)	Resources Needed	Funding
Full-time bilingual nurse at CMS	<b>DIP Goal #1A:</b> Diversify the workforce by building a strategic approach to talent. <b>DIP Goal #1B:</b> Cultivate culturally and linguistically responsive, social justice-driven staff.	0.6 Nurse	\$45,000
Increase Medical Surgical Supplies (additional preschool, vacation and summer programming)	<b>DIP Goal #4A:</b> Allocate resources strategically and operate efficiently: Leverage our resources, assets, and operational practices to improve outcomes for students	\$1.00 per student increase from \$2.46 to \$3.46 per student	\$3,665

Salem Public Schools

FY'2023 Recommended Budget

## Instructional Technology Cost Center

The Salem Public Schools Instructional Technology Department is entering its third year of operation in FY2023. The department continues to evolve to execute ideal ways to support teaching and learning. Part of this involves a managing a budget that will streamline the deployment of, access to and support of technology for students, teachers, support staff and families. Technology should be a tool that makes stakeholders functions simpler, not a source of stress. In support of this mission, a few challenges exist that the FY2023 budget can help solve:

- Continued access for students to a well-functioning device for their daily school tasks
- Predictable replacement cycles for staff technology to maintain continuous technology usage
- Timely support for staff technology to minimize downtime
- More efficient data integrity and professional report creation and analysis
- Flexible online registration option for families

### Challenges and Opportunities

#### Challenges

- Performing data mining tasks with too much existing work
- Lack of expertise in data analysis and presentation
- Taking on the hardware support of 1,000 staff members and 450 classrooms
- Running a student help desk program
- Unbudgeted recurring costs of our student 1:1 program

#### Opportunities

- Reorganizing our data and applications personnel into a unified team structure to better distribute work
- Adding a data strategist to absorb data requests via staff trade
- Transfer of personnel from City IT to SPS IT to support staff and classroom hardware support or staff trade

### Budget Priorities

Budget Priority	SIP/DIP Goal(s)	Resources Needed	Funding
Support our 1:1 Chromebook program by providing devices to incoming 6th and 9th graders.	2B: Developing Independent Learners 3A: Empower students	Chromebooks for rising 6th graders and rising 9th graders	\$288,000 (requested from capital funds)
Provide technology to every staff member that is less than five years old.		219 staff laptop devices	\$171,820 (requested from capital)

Salem Public Schools

FY'2023 Recommended Budget

57

Continue transition from City IT to SPS IT and maintain speedy fulfillment of work orders for staff			1.0 FTE Senior Technology Support Specialist position	\$60,000 (from City operating budget)
Staff to create, analyze, present regular and requested data reports to district & school leaders	4C: Develop effective data systems		1.0 Data Strategist position	\$0 (reallocation of existing DLC position)
Improve registration process and allow for operational cross-functionality and ease of access	3B: Engage families as partners 4C: Develop effective data systems		Funding for Aspen's Online Registration Module	\$15,000

The budget priorities listed above are reflected in the IT cost center table below. The decrease in the districtwide teaching line represents the elimination of one digital coach position (shifted to Collins Middle School). Under technology support, the increases represent the requested 1.0 Senior Technology Support position, as well as the 1.0 Data Strategist position. An offset of \$60,000 from the Footprint funding that the district receives each year is used to help offset the additional expenses for the IT department.

## Operations and Maintenance Cost Center

Operations and Maintenance includes the following functional areas: Buildings and grounds maintenance, and transportation and traffic control (crossing guards). Each of these departments provides critical operational services to ensure that students arrive to and from school and home in a safe and efficient manner, and to provide a safe, healthy, and clean teaching and learning environment for staff.

### Buildings and Grounds Maintenance Department

The primary objectives of the buildings and grounds maintenance department are to provide a safe and clean environment for students and staff, to optimize facility conditions to best support teaching and learning, and to operate our facility assets efficiently, effectively, and sustainably. A lean staff of 30 custodians, 2 grounds maintenance employees, one general maintenance and one licensed maintenance employee, are responsible for cleaning and maintaining 1.3 million square feet of building space, and over 60 acres of grounds, as well as all of the assets contained within those properties. This department has born the impact of prior year budget reductions which sought to preserve instructional resources, but at the cost of operational support. In this budget, we look forward to a continuation of the progress made to date and the investments that allowed us to begin the shift from a reactive to a proactive approach to facility maintenance.

### Challenges and Opportunities

#### Challenges

- School custodians can reasonably clean 40,000 square feet per shift while SPS custodians are asked to clean 78,000 sq. ft. per shift - almost 2x the industry average.
- Industry standard maintenance staffing ratios are 1 FTE per 100,000 sq. ft. Our 2 maintenance staff maintain over 1 million sq. ft. or 1 FTE per 500,000 sq. ft.
- Using outside maintenance contractors is 2 - 3x what insourcing costs.
- Several facility accounts, including overtime, preventative maintenance, and grounds maintenance, have been historically and consistently underfunded.
- The renovation and expansion of the Bertram Field facility has created the need for more daily support to maintain the additional 30 restroom stalls, and to ensure proper maintenance of the field and surrounding areas, including the parking lot and electric charging stations.

#### Opportunities

- Building on the progress made with the significant investments in our HVAC systems that resulted from the need to meet more rigorous ventilation standards as a result of the pandemic.
- New motorized cleaning equipment purchased through ESSER will allow staff to work smarter not harder.
- Significant capital investments in our buildings will allow us to continue to improve building conditions for students and staff.
- A soon to be completed facility master plan and an investment grade energy audit will guide our investments in the future.

Salem Public Schools

FY'2023 Recommended Budget

60

**Budget Priorities**

Budget Priority	DIP Goal	Resources Needed	Funding
Budget Priority 1: Ensure adequate staffing to provide a safe and healthy learning environment for all students	4A. Allocate resources strategically and operate efficiently (and effectively)	1.0 HVAC Technician ( <i>currently funded thru ESSER</i> )	\$75,764
Budget Priority 2: Provide adequate funding for preventative maintenance and building security expenses	4B. Create strong systems of accountability	1.0 Grounds Maintenance Staff (0.5 Bertram field and 0.5 general grounds or custodial support)	\$51,400
Budget Priority 3: Appropriate sufficient funding to cover non-facility related custodial detail expense		\$50,000 for comprehensive preventative maintenance program \$15,000 for security software licenses and infrastructure	\$65,000
		Funding for custodial detail (overtime) for school events, athletic practices and games, and extracurricular activities.	\$30,000

**HVAC Technician:** In the FY2023 Recommended Budget we propose to shift the HVAC technician position from the ESSER grant to the operating budget. This has been a critical position that has made a significant impact on the ability of our department to address building needs internally, in a more cost effective and efficient manner. We believe a gradual shift of positions into the operating budget will help to ensure the positions remain and that there is no disruption to operations as a result of the eventual expiration of the grant funding.

**Grounds Maintenance Staff:** As mentioned above in the challenges, the recent renovation and expansion of Bertram Field has created a new demand for custodial, maintenance, and field maintenance services. The 2.0 FTE grounds maintenance staff have been unable to regularly and consistently attend to the needs of that complex as they are responsible for maintaining over 30 acres of school property each day.

**Preventative Maintenance and Security:** The district has made significant headway in shifting from a reactive to a preventative maintenance operation. This progress came in large part due to the investments needed to meet the ventilation recommendations issued by the CDC and DESE during the pandemic. We are hopeful that the additional dollars requested will allow us to continue to contract with reliable vendors to perform regular preventative maintenance tasks, beyond what our staff are able to complete. In addition, we have significantly expanded our security and access control infrastructure this year. We've added card readers to numerous doors at every building and issued access cards (smart badges) to all employees that will allow them access in accordance with the building schedules they are assigned to. We have also added numerous cameras as well as vape detection devices throughout our middle school and high school building. These systems, the software that operates them, and the hardware will all require regular maintenance and updating, as well as annual licensing fees.

**Custodial Detail:** Our school custodians are called upon every week to provide additional building coverage beyond the school day or work week for such things as athletic practices and games, school events, performances, or other events. The overtime incurred for these events has historically been charged to the buildings and grounds overtime line. That line, however, is intended to address the overtime needs of the department (maintenance tasks that need to be performed outside the regular school day, snow removal, contractor coverage, etc.), not of schools or other departments such as athletics or performing arts. Those departments certainly need that custodial coverage but we are recommending that a

separate detail line be created and funded so that we can be sure to track, monitor, and properly budget for those expenses. In FY2023, this \$30,000 request will be funded by using receipts from the rental of school facilities.

### Transportation and Traffic Control

Salem Public Schools provides regular day transportation services to 1,400 – 1,700 students per day. Regular day, fixed route transportation services are provided through a competitively bid contract with North Reading Transportation (NRT). This year, we contracted with NRT for 14 buses despite having only budgeted for 11 vehicles. A change in school start times reduced the amount of tiers that each bus could cover, thereby requiring the additional bus. Each additional bus costs the district \$85,000 for the school year so the total additional cost this year was over \$250,000. Also, in most years we have bus monitors on some but not all of our buses. This year, almost every regular education bus has a monitor assigned.

In FY2023, with the transportation policies codified and informing our procedures, we are better equipped to manage capacity in the year ahead. We are also being cognizant of transportation impacts as we schedule school start and end times so that we can provide the necessary services within budgeted means. In FY2023 we are projecting the need for 12 regular education buses, an increase of 1 from historical numbers, but less than the current 14 buses operating in FY2022.

The transportation department is managed by a full-time Transportation Supervisor, and a full-time Transportation Clerk. Supplemental clerical support is provided in the weeks leading up to and after the start of the school year. Salem Public Schools currently employs 3.0 bus drivers, two who are assigned to in-district special education fixed routes, and one permanent substitute driver (who is currently assigned to a full time route for

Salem High School and Salem Academy Charter School). In addition, we employ 5.0 bus monitors all of whom are assigned to in-district special education routes. As these positions become vacant, the intent is to transfer those remaining fixed routes to NRT. Those positions, however, may be retained and filled with 7D or other commercially licensed van drivers (subject to negotiations with AFSCME members) that will help the district to address many of the non-traditional, non-fixed route transportation needs such as internships and cooperative education opportunities, early college or dual enrollment classes, student activities or athletic travel for smaller groups or teams, or late attendance runs. In fact, the district has recently purchased two new vehicles to enhance supports to students including a 6-passenger, wheelchair accessible 7D van, and a multifunction school activity bus (MFSAB) that can be driven by any employee (but cannot be used for fixed route transportation). The MFSAB was purchased through the generous support of the Read Trust.

Salem Public Schools also employs crossing guards to ensure safe passage of all our students at intersections and places where they are deemed necessary. Salem Public Schools works with the Salem Police Department to identify priority areas for assigning crossing guards. Salem has twenty-one crossing guard positions, although several went unfilled for the majority of the current school year due to COVID staffing shortages. We hope to be fully staffed for the next school year to address all of the priority locations.

Figure 51. FY2023 Recommended Budget, Transportation and Traffic Control Department

CLERICAL	50,117	51,792	50,831	52,229	1,398	2.7%
OVERTIME	1,679	223	2,000	4,000	2,000	100.0%
<b>Expense</b>	<b>598,364</b>	<b>729,962</b>	<b>937,137</b>	<b>1,094,146</b>	<b>157,009</b>	<b>16.8%</b>
PUPIL TRANSPORTATION	526,034	700,030	862,137	1,048,786	186,649	21.6%
VEHICLE REPAIR AND M	72,330	29,931	75,000	30,000	(45,000)	-60.0%
CONTRACTED SERVICES	-	-	-	15,360	15,360	0.0%
<b>Grand Total</b>	<b>932,565</b>	<b>1,132,385</b>	<b>1,282,517</b>	<b>1,431,405</b>	<b>148,888</b>	<b>11.6%</b>

While the Pupil Transportation expense line increases by \$186,649, that increase is offset by a decrease in transportation salaries (based on the position changes that went into effect this year, but were not budgeted in FY22) and vehicle repair and maintenance expense (as our fleet has decreased by 60%). The remainder of the increase is due to the assumed increase from 11 regular education buses to 12 in FY2023, as well as the cost of additional monitors reflecting the current staffing pattern.

Figure 52. Transportation and Traffic Control Department Staffing

	FY2022 FTE	FY2023 FTE	CHANGE IN FTE	FY2023 COMPENSATION
Transportation Supervisor	1.0	1.0	-	73,000
Senior Clerk	1.0	1.0	-	52,229
Bus Driver	1.0	1.0	-	32,250

## Salem Early Childhood Education Center

25 Memorial Drive, Salem, MA 01970

Principal: Leanne Smith

FY2022 October 1 Enrollment: 110

FY2023 Projected Enrollment: 143

The Salem Early Childhood Center (ECC) provides an integrated comprehensive preschool experience to Salem’s youngest students, beginning at age 2.9. Programming is designed to meet the needs of 3-, 4-, and 5-year-old students with and without disabilities. Peer partners and children with special needs learn side-by-side and the implementation of specialized interventions are embedded into the typical school day, without disrupting the curriculum, social, or educational routines of the classroom.

Children progress at their own pace and achieve success on an individual basis. Creativity, natural curiosity, and cultural awareness are emphasized throughout the curriculum. Integrating children with special needs with age appropriate, typically developing peers has important positive implications for both groups of children according to research. All students learn acceptance and sensitivity as well as positive social interactions and play behavior. Students learn to work and play together in a school community that reflects the real world. The Early Childhood Center also receives financial support through grants.

One of Salem Public School’s strategic initiatives is to expand access to high-quality early childhood education. The primary goals of the ECC in SY2022-23 are to expand enrollment of typically progressing peers, provide more opportunities to service students with high needs, including our low income and ML students. In addition, the ECC seeks to ensure that students have the skills necessary to be successful in Kindergarten.

Currently, ECC programming includes 1 full day integrated developmental kindergarten classroom (5-year old students) and 2 full-day integrated PK classrooms (4-year old students), five days per week. In addition, there are 3 integrated full-day preschool classrooms (3-year and 4-year old students) and 3 intensive integrated half-day preschool classrooms each operating 4 days per week for general education students. Students with disabilities attend an additional half day on Friday. There is also one full day substantially separate program that operates five days per week.

Salem Public Schools

FY’2023 Recommended Budget

66

Next year, in an effort to ensure equity and opportunity, the district will be expanding the early childhood program to offer four full-day integrated PK classrooms, doubling the FD integrated PK programming. There will still be three integrated intensive preschool programs with half day options for peer models, and full day opportunities for students with disabilities. These preschool programs will now be available five days per week (instead of four). In addition, there will still be one substantially separate PK/Preschool program at the ECC offered five days per week.

These program changes will necessitate additional funds as a significant number of paraprofessional staff will be necessary to staff the Friday afternoon programming. This will require the investment of nearly \$42,000 in FY2023. We believe this investment is mandatory as it addresses prior inequities and loss of opportunities for Salem children. These investments are also necessary to effectively address our students' learning challenges. Data shows that students are performing low on initial district literacy assessments. This necessitates more small group targeted instruction. These language acquisition skills are key to determining students' future reading success.

**Budget Priorities**

Budget Priority	SIP /DIP Goal(s)	Resources Needed	Funding Requested
Enrollment	Stable enrollment and attendance	Extend paraprofessional hours on Fridays to increase PK and Preschool M-F classroom capacity	\$41,895
Instruction	Ensure that all students have access to high quality curriculum and are assessed on a regular basis.	Instructional Supplies for centers and small group learning to address low scores on literacy.	\$10,000 <i>(offset by reduction in DW SPED budget)</i>
		Instructional Leadership Team Stipends	\$6,000 <i>(increase of \$4,500)</i>
		Contracted Services for PD to enhance educators' knowledge of language acquisition especially students whose first language is not English.  PD to support staff to better manage challenging behaviors.	\$10,000 <i>(offset by reduction in DW SPED budget)</i>

The funding associated with these priorities can be seen in the budget summary below. In addition, we would note that some of the increases in the personnel lines reflect more adequate accounting of building based staff. For example, the administrative line now includes the Principal and the team chair. The team chair had previously been classified in the districtwide cost center. Similarly, related service providers who had been budgeted in the districtwide special education budget last year are now captured here in the ECC school budget (districtwide

teaching) as this more accurately reflects their assignment and where they are providing services. This is also where the additional 1:1 nurse appears in the ECC budget, a position necessitated by the move in of a medically fragile child. This is in addition to a position that had to be added in the current year but which had not been included in the FY2022 adopted budget. A similar situation exists with paraprofessional staffing where there is an increase of 1.0 FTE not included in the budget priorities above. This new position was created and filled in the spring of FY22 due to the move in of a student whose IEP entitled them to these services. This position, however, was not included in the FY2022 budget.

FY'2023 Recommended Budget

## Bates Elementary School

53 Liberty Hill Avenue, Salem, MA 01970

Principal: Gavin Softic

Assistant Principal: Susan Faria Smith

FY2022 October 1 Enrollment: 354

Bates has seen significant enrollment growth in the current school year with 31 new students arriving after October 1; twenty-one of those students are multilingual learners. As the table below indicates, we are projecting that we will retain those students and receive more at the start of the school year. Class sizes are all projected to remain within guidelines without the need for additional general education staff. However, this year's increase in ML enrollment (from 13.3% of enrolled students to 17%) did require adding a temporary ML teacher midyear. That position is added as a permanent position in the FY2023 Recommended Budget as it is necessary to fulfill the required services to which our ML students are entitled.

FY2023 Projected Enrollment: 391

Bates	PK	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Total
Projected Enrollment	36	50	48	62	61	64	70	391
Total # of Homerooms	2	3	3	3	3	3	3	20
Average Class Size	18	17	16	21	20	21	23	19
Available Seats	0	13	15	7	8	11	5	59

### Challenges and Opportunities

- As we started the 21/22 SY we had 40 Multilingual Learners enrolled at Bates. We currently have 62 Multilingual Learners, an increase of 22 students (39 of these students require 90 minutes of instruction per day).

Salem Public Schools

FY'2023 Recommended Budget

70

- Most recently the two Bates teachers are unable to adequately service all 62 students in the 6-hour Bates school day; we've hired a third ML teacher from February to June to meet the needs of these emergent multilingual students.
  - In grades 3-5, emergent multilinguals SGP in ELA MCAS were 49.9 in 2019.
  - In grades 3-5, emergent multilinguals SGP in Math MCAS were 49.6 in 2019.
- The addition of the third ML teacher has provided students with the necessary services to make progress and allow Bates to create an equitable and sustainable schedule that provides for additional ML students to enroll and succeed at Bates.
- Bates added two pre-K classrooms in 21/22; this has and will continue to necessitate an increase in specialist coverage which we propose to address by shifting 0.4 of a current districtwide music teacher to the Bates, making this a budget neutral adjustment.
  - Great opportunity to provide Pre-K SPS students with foundational skills in literacy, math and SEL using play based learning models.

**Budget Priorities**

Budget Priority	SIP Goals	Resources Needed	Funding
<b>Equity</b>	Increase how often students learn about, celebrate, and discuss race, culture and diversity and confront issues of racism and discrimination in our communities. Increase favorability	Continue work with Equity Imperative	District funded initiative
<b>Student Attendance</b>	Ensure all staff have the skills and mindsets to dismantle systems of oppression, address biases, and implement culturally and linguistically responsive practices.	Continue work with Equity Imperative	District funded initiative
<b>Student Achievement</b>	Engage students and their families in the Bates community through a multi-tiered support system of equitable and culturally responsive practices	Maintain 1.0 FTE ML Teacher Shift .4 of Music teacher from DW to Bates to covers PK Specials	\$57,578 \$24,588 (budget neutral – transfer from DW regular day)

# Bentley Academy Innovation School

25 Memorial Drive, Salem, MA 01970

Principal: Elizabeth Rogers

Assistant Principal: Jill Tully

FY2022 October 1 Enrollment: 314

FY2023 Projected Enrollment: 311

The Bentley is home to the district's only Dual Language program. The Dual Language program has allowed students starting in kindergarten to become biliterate and bilingual in both English and Spanish. In FY2023, Bentley Academy Innovation will continue its journey toward being a full dual language school, with Grades K and 1 consisting of all dual language sections, and adding two dual language sections to Grade 2, while reducing the number of general education sections from 3 to 2. This program expansion requires the addition of three new teaching positions and one new paraprofessional positions including two new Grade 2 dual language teachers, one additional Grade K dual language teacher, and one Grade K dual language paraprofessional. These changes are, however, all budget neutral as they are funded through reductions and reallocation of other positions.

Bentley	PK	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Total
Projected Enrollment	0	54	53	60	52	45	47	311
Total # of Homerooms	0	3	2	3	3	3	3	17
Average Class Size	0	18	27	20	17	15	16	19
Available Seats	0	9	-11	9	17	30	28	82

One of the significant reductions that will occur is due to the change in the length of the school day. Bentley staff voted recently to reduce the length of the student school day to 7 hours, which we believe assists with the social, emotional, and behavioral challenges that students are experiencing as a result of the longer day. That reduction results in over \$100,000 in savings with the reduction in the extended learning time

Salem Public Schools

FY'2023 Recommended Budget

75

stipend from 12% down to 8%. Some of this savings is used to offset the program expansion, as well as staffing for an opt-in early morning program to assist families who need an earlier school drop-off time.

**Challenges and Opportunities**

**Behavior & Staff Retention**

- The significant transitions that have occurred at Bentley over the past three years have been disruptive, including the transition from charter to innovation, and then the challenges of educating students during the pandemic
- Reducing the length of the school and work day is an opportunity to improve student behavior and staff retention

**Academic Performance**

- The transition from charter to innovation has required a significant amount of curriculum alignment, as well as professional development and coaching for staff
- As as a school, we are actively working to improve Tier 2 instruction and interventions

**Dual Language**

- Demand for dual language programming is high
- There have been significant staffing and expertise challenges across the state to meet the growing demand

**Enrollment**

- While there has been a general decline in general education enrollment, dual language enrollment has been strong

**Budget Priorities**

Budget Priority	SIP /DIP Goal(s)	Resources Needed	Funding
Reduce Day Length by 35 minutes	2: Behavior/SEL	N/A	(\$109,104)
Add 3 DL Teachers (1.0 Gr. K, 2.0 Gr. 2)	3: Anti-Racism 4: Continuous Improvement	\$214,353	Reallocation of Existing Positions
Add 1 DL Paras (Gr. K)	3: Anti-Racism 4: Continuous Improvement	\$26,936	Reallocation of Existing Positions

Improve Enrichment Program	2: Behavior/SEL 3: Anti-Racism	\$20,000	Reallocation of Existing Positions

Two specialist positions were added in FY2022 to accommodate the PK classrooms that were added at Bates and Horace Mann after staffing and scheduling had been completed. Both schools were able to make adjustments for next year with budget neutral increases, so the two specialist positions will be shifted to Bentley and ECC where there has been significant need over the past year. These are the 2.0 FTE increases that are shown in the Figure above showing grant funded positions.

Salem Public Schools

FY'2023 Recommended Budget

79

**Carlton Innovation School**

10 Skerry Street, Salem, MA 01970

Principal: Bethann Jellison

Assistant Principal: Lauren Weaver

FY2022 October 1 Enrollment: 236

FY2023 Projected Enrollment: 252

Student Race and Ethnicity

Selected Populations

While Carlton’s October 1 enrollment was low this year, their innovation model allows them to accept students during the course of the year. Subsequently, their enrollment has increased to over 250 students. Next year, we are projecting enrollment of 252 students as shown below.

Carlton	PK	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Total
Projected Enrollment	0	42	45	39	46	37	43	252
Total # of Homerooms	0	2	2	2	2	2	2	12
Average Class Size	0	21	23	20	23	19	22	21
Available Seats	0	0	-3	7	0	13	7	24

**Challenges and Opportunities**

Math has been a challenge for the Carlton for a while. We have worked hard to create curriculum that allows them to meet students where they are in their learning. Our challenge is a lack of adequate support for small group instruction and independent work. Our mini lessons are solid; it is the small group instruction that needs work. While the district was unable to fund a requested math coach to support this work, an innovative solution will be implemented using existing staff as well as additional professional development funding that is being provided in the FY2023 Recommended Budget.

One current intensive special education paraprofessional is being funded through the FY2021 IDEA grant which will expire at the end of this school year. This position will need to be moved to the FY2023 operating budget, as shown in the staffing tables above.

**Horace Mann Lab School**

79 Willson Street, Salem, MA 01970

Interim Principal: Scarlett Grandt

Interim Assistant Principal: Meghan Correll

FY2022 October 1 Enrollment: 293

FY2023 Projected Enrollment: 297

Student Race and Ethnicity

Selected Populations

The Horace Mann Laboratory School (HMLS) benefits from a unique and long-standing relationship with Salem State University. Faculty at both schools collaborate regularly to design innovative and enriching learning experiences, while maintaining a true sense of community within the school. Horace Mann is also a laboratory school for SSU students pursuing a degree in education. The school hosts an average of 5-6 student fellows each year which provide additional instructional support to students while offering future educators hands-on instructional experience.

Enrollment at Horace Mann is expected to remain relatively unchanged in FY2023, with an overall increase of 4 students. In addition, Horace Mann will continue to offer to PK classrooms each staffed with a teacher and a paraprofessional. Those four positions will continue to be funded through ESSER in FY2023.

Horace Mann	PK	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Total
Projected Enrollment	36	35	35	47	47	51	46	297
Total # of Homerooms	2	2	2	2	2	3	2	15
Average Class Size	18	18	18	24	24	17	23	20
Available Seats	0	7	7	-1	-1	24	4	40

**Challenges and Opportunities**

Students at HMLS have demonstrated significant growth this year in literacy (as evidenced by the STAR assessment). These gains have been the result of intensive focus on small group structures and interventions, with built in intervention time being supported by reading specialists, tutors, SSU fellows, and paraprofessionals. Horace Mann looks forward to building on this model by expanding teachers’ instructional capacity by focusing on differentiation and using data to inform instructional practice. While a request to add a 0.5 math interventionist and a 0.5 reading interventionist could not be fulfilled in the FY2023 budget, an increase has been included to enhance our ability to attract highly qualified fellows who can help provide this additional support. The proposed rate of pay for SSU fellows for FY2023 is increased from \$12,000 to \$19,300, and increase of \$7,300 per fellow, or \$36,500 total for the five anticipated fellows.

A request for additional content professional development in the area of math will be addressed through districtwide math coaching supports being provided at all schools next year.

**Budget Priorities**

Budget Priority	SIP/DIP Goal(s)	Resources Needed	Funding
Small group instruction	Literacy & Math - 100% of students will make at least one year’s growth	Fellows	\$36,500

## Witchcraft Heights Elementary School

1 Frederick Street, Salem, MA 01970

Principal: Susan Carmona

Assistant Principal: Nicole Brunelle

FY2022 October 1 Enrollment: 473

FY2023 Projected Enrollment: 457

Student Race and Ethnicity

Selected Populations

With birthrates and declining enrollment in Salem, Witchcraft Heights has also seen a decline in student enrollment over the past several years from over 500 students to 473 as of the start of this school year. Enrollment is projected to decline slightly next year, by 16 students.

Witchcraft Heights	PK	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Total
Projected Enrollment	0	74	73	62	84	73	91	457
Total # of Homerooms	0	4	4	4	4	4	4	24
Average Class Size	0	19	18	16	21	18	23	19
Available Seats	0	10	11	30	8	27	9	95

### Challenges and Opportunities

Literacy trend data show students at Witchcraft Heights are making gains. However, there are still many students below the 50% benchmark, particularly in Grades 2 and 5 which can be seen in the Figure below. Building a strong Tier II intervention model that incorporates all staff is key to moving students' literacy growth. Requests for additional literacy supports in the form of a specialized reading teacher will help us make greater progress in this area. This request is budget neutral as we look to prioritize reading supports by reducing non-instructional supports.

**Saltonstall K-8 School**  
 211 Lafayette Street, Salem, MA 01970

Principal: Michael Lister  
 Assistant Principal: Sonia Lowe

FY2022 October 1 Enrollment: 378  
 FY2023 Projected Enrollment: 380

Student Race and Ethnicity

Selected Populations

Saltonstall is a tight-knit community and the only school in Salem serving students in kindergarten through eighth grade. The school is home to the district’s program for students with language-based learning disabilities. Saltonstall is one of our three extended learning time schools with a school day that is 45 minutes longer than a typical 6-hour school day. Saltonstall enrollment is projected to remain virtually unchanged in the year ahead with an increase of two students. Class sizes are all well within class size guidelines at every grade level.

Saltonstall	PK	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Total

Available Seats	0	6	8	6	6	6	5	4	10	7	58

**Celebrations, Challenges, and Opportunities**

Saltonstall has much to celebrate this year. By midyear, we saw higher growth for our Hispanic student subgroup on the STAR Reading assessment – 1.1 years of growth compared to 8 months for all students. Midyear math results on STAR showed commensurate growth between the Hispanic student subgroup and all students with 6 months’ worth of growth.

Salem Public Schools

FY’2023 Recommended Budget

Challenges this year included our inconsistent academic performance with only some students performing well on state assessments. Seventy-five percent of Hispanic students did not meet standards in ELA and 83% fell below that target in math. We believe that this challenge can best be addressed with additional ML support so that our students are not missing core content instruction due to the scheduling challenges from two few ML educators.

We attribute much of our growth this year to having an explicit school wide focus on these challenges and our small group instruction model that leverages all staff in the building to deliver just right instruction at the opportune times. Our hope is to ensure that no ML students miss content instruction during the next school year.

One of the other challenges this year has been meeting the growing mental health and behavioral needs of our students, which are increasing in both number and complexity. We have worked hard to strengthen our school culture by providing students with expanded supports. Examples include:

- Our work with the equity imperative to become an anti-racist organization has the opportunity to impact our students of color in terms of attendance, growth, performance and belonging.
- Maintaining our Behavior/Engagement specialist position. (ESSER)
- Health teacher position to allow counselors to spend more time doing proactive counseling. (ESSER)
- Artful Life – The introduction of Art therapy through layered painting.

**Budget Priorities**

Budget Priority	SIP/DIP Goal(s)	Resources Needed	Funding
Academics	Goal 1	<ul style="list-style-type: none"> <li>• 0.6 ML Teacher</li> <li>• Retain Tutors</li> </ul>	\$49,497 (\$68,296 - ESSER Funded)
Anti-Racism	Goal 2	Equity Imperative	(District Funded Initiative)
Attendance	Goal 3	Behavior/Engagement Specialist	(\$37,838 - ESSER Funded)

FY2022 October 1 Enrollment: 633

Student Race and Ethnicity

Selected Populations

FY2023 Projected Enrollment: 624

School	Grade 6	Grade 7	Grade 8	Total
Collins	204	210	210	<b>624</b>

The Collins Middle School is an extended learning time school that enables students in grades 6-8 expanded time in their core classes, and enhanced access to electives. CMS includes specialized programs for students with Autism Spectrum Disorder, language-based learning disabilities, and cognitive and developmental disabilities. Collins leverages its extended learning time model to provide students the ability to delve deeply into core subject matter and crucial opportunities for experiential learning in science, technology, engineering, and mathematics.

**Challenges and Opportunities**

Big Rock #1: Scholar Growth

*Empower scholar growth through multi-tiered quality instruction and scholar empowerment*

While Math assessment scores indicate students are on track to meet performance targets, Collins students are not performing as strongly as hoped in ELA. To address these challenges, next year CMS teams will:

Salem Public Schools

FY'2023 Recommended Budget

99

- Continue building the CMS Teaching & Learning playbook
- Continue refining Mastery Block
- Build a shared CMS belief of how students learn

**Big Rock #2: Race & Equity**

*Elevate student voices to celebrate race & culture and create a sense of belonging*

Progress in this area is on track and we look forward to continuing and diving deeper into important practices including:

- Continue commitment to Equity Imperative PD
- Continue equity conversations in homerooms
- Continue team & cluster structures
- Go deeper with skill-building and student advocacy

**Big Rock #3: Attendance**

*Ensure every scholar wants to be at Collins every day: empowerment, belonging, relationships*

This has been an area of struggle for Collins Middle School based on attendance and student survey data. To address these challenges next year CMS teams will:

- Continue: Attendance team action planning
- Continue & Assess: SEL block
- Continue & Build: Tier 1 SEL strategies
- Continue: Building upon cluster system to implement Shark Huddles

**Budget Priorities**

Budget Priority	SIP /DIP Goal	Resources Needed	Funding
Substantially Separate ASD Classroom	SIP Goal 1. Scholar Growth Priority 2:B. Focus on developing independent learners.	1.0 ASD Teacher 1.0 ASD Paraprofessional	\$69,210 \$30,466
Team Leader Stipends	SIP Goal 1. Scholar Growth SIP Goal 2. Race & Equity SIP Goal 3. Attendance	Stipends, formerly paid from ELT Grant	\$13,000

An additional budget priority presented in the Health Services Cost Center priorities was the increase of nursing services at CMS from 1.0 to 1.6. This request is shown in the budget summary below. Please note that the FY2023 Recommended Budget for Collins does not include any funding for extended learning time as we are hopeful that this will continue to be funded through the state ELT grant next year. If that were not to happen, either extended time would have to be reduced or eliminated, or the district would have to fund some or all of the costs associated with ELT which in

Salem Public Schools

FY'2023 Recommended Budget

FY2022, totaled over \$600,000. This includes funding for extended day differentials for teachers (projected to be \$423,000 in FY2023) as well as 3.0 teaching positions currently being paid for from the ELT grant.

As the budget detail above shows, there is a decrease in the Middle School Teacher line due to the reduction of two positions at Collins Middle School due to declining and shifting enrollment. One position is transferred to New Liberty Innovation School who will welcome 7<sup>th</sup> and 8<sup>th</sup> grade students to their program next year. The decrease in the Adjustment Counselor line is not a decrease in service but a more accurate classification of a school psychologist whose salary had been budgeted to the adjustment counselor line last year.

Assistant Principals: Shamus Mruk, Lynne Mullen, Andrew Bubb (Interim)

FY2022 October Enrollment: 803

Student Race and Ethnicity

Selected Populations

FY2023 Projected Enrollment: 870

School	Grade 9	Grade 10	Grade 11	Grade 12	Total
Salem High	214	249	208	199	870

One of the district's strategic priorities is to strengthen the pre-K to post-secondary experience of students in Salem Public Schools, with a strategic initiative focused on creating a shared vision for the high school experience with equity at the center. Aligned to these is one of budget priorities that emerged as one of the top ten for both staff and community members, specifically, to increase student access to workforce development and career/technical programming. To that end, Salem High School has requested significant funding in FY2023 to support expansion of the early college and dual enrollment programs, and to increase student access to robust workforce development and career vocational technical programs.

Salem High also seeks to continue development of tiered systems of support for academic and social emotional needs of students. Funding has been requested to support a third year of implementation of the BARR model, a strengths-based approach that proactively addresses the non-academic reasons why students fall behind and identifies resources necessary for them to thrive. This work, along with continued professional development focused on connection and relationship building, cultural competency, anti-racism, and dropout prevention will increase student engagement, improve attendance, and ultimately improve outcomes for students.

**Challenges and Opportunities**

Big Rock #1: High quality programming for all students that provide credentials beyond high school prior to graduation

This year, moderate progress has been made with 100 new students enrolled in a CTE course. Early college participation grew by 54 students, and students taking advanced coursework increased by 7%. Given the increasing demand for CTE courses and programs, key investments must be made in our CTE staffing and our CTE infrastructure. The FY2023 Recommended Budget includes 4 new CTE positions to meet the increasing popularity of our automotive, carpentry, medical assisting, and culinary arts programs.

Big Rock #2: Four-year graduation plans for all students

A four-year plan has been developed and monthly benchmarks are set through weekly Crew lessons. Key investments must be made to provide access and opportunities to students to goal set and design their pathway to post high school success.

Big Rock #3. High quality social-emotional and academic learning

Salem High has made moderate progress, with 74% of freshmen on track as of this spring. We must continue to provide high quality student engagement activities for students that bring meaning and definition to Salem Witches, and through more effective use of Crew.

**Budget Priorities**

Budget Priority	SIP/DIP Goals	Resources Needed	Funding
Expand CTE Offerings	Goal 1	1.0 Automotive Teacher 1.0 Carpentry Teacher 1.0 Medical Assisting Teacher 1.0 Culinary Arts Teacher Offset with reduction in 1/8 <sup>th</sup> differentials	\$78,804 \$78,804 \$78,804 \$78,804 (109,494)
Enhance CT infrastructure and equipment	Goal 1	Additional program supplies and instructional software necessary to meet CTE frameworks	\$92,050
Continue to provide expanded supports to students through community office, summer school, vacation academies; support staff wanting to do summer curriculum development work.	Goal 2 & 3	Blueprint course at NSCC for CTE students	\$10,000
		Stipends for staff	\$57,072
High quality social emotional learning and support	Goal 3	Continued Funding for BARR Model, LEAP, Recovery High	\$67,065

## Athletics and Student Activities

Athletics Director: Scott Connolly

Salem High School has a strong athletics program, that offers 24 different team sports across three seasons. Salem is part of the Northeast Conference of the Massachusetts Interscholastic Athletic Association and competes against teams from Beverly, Danvers, Gloucester, Lynn, Marblehead, Masconomet, Peabody, Saugus, Swampscott, and Winthrop.

Thirty percent of Salem High School students participated in at least one sport this year.

Unlike many surrounding districts, there are no fees for Salem athletes to participate in our sports programs. Salaries and expenses for the athletics program are funded entirely through the district's budget. Additional support is generously provided by many of Salem's athletic booster groups.

**New Liberty Innovation School**

2 East India Square, Suite 200, Salem, MA 01970

Principal: Jennifer Winsor

FY2022 October 1 Enrollment: 50

FY2023 Projected Enrollment: 61

Grade	7	8	9	10	11	12	Total
Anticipated Enrollment	5	5	7	12	12	20	61
SPS Students	5	5	7	11	8	14	50
School Choice Students	0	0	0	1	3	6	11

New Liberty Innovation School (NLLS) provides a small, supportive environment for students who are at risk of not completing high school. The competency-based model allows students to demonstrate their skills and knowledge acquisition through a variety of formats and mediums. In the 2018-19 school year, NLLS began to accept students through School Choice, and through that option, enrollment at NLLS continues to increase.

Our demographics have remained stable over the last few years. Our population mirrors the district in terms of the racial makeup of our students. However, we do have more females than males, we have a higher percentage of special education students than the rest of the district at 32% (vs 22.9% for the district), a higher percentage of economically disadvantaged youth (70% vs 55%), and fewer MLs (10% vs 13.7%). We continue to serve more 11th-12th graders than 9th-10th graders. As we welcome middle school students next year, our demographics will shift younger.

NLLS continues to work toward increasing attendance and graduation rates, engaging diverse learners and increasing the academic rigor of the program of study. NLLS aims to engage families and provide opportunities for staff to deepen their relationships with and understanding of the students at the school and continuously improves innovative systems of student support, with a focus on college and career readiness.

***Successes and Areas of Growth***

Panorama survey results from the Fall of 2021 showed that 85% of our students feel that the school is a safe place for them, and 81% report having supportive relationships with a member of the NLLS staff. Seventy-eight percent of students feel that there is cultural awareness and action to develop this awareness. Seventy percent feel that the school has rigorous expectations.

Staff panorama survey data indicated 97% of staff feel that there is cultural awareness and action, 93% reported feeling a sense of belonging, and professional growth, with 74% feeling a sense of well-being. Seventy-two percent responded favorably to the professional learning offered about equity.

New Liberty students continue to struggle with attendance. While the school's attendance rate is 72%, there is a 75.3% rate of chronic absenteeism. Approximately 25% of students dropped out during the school year. The rate of competency completion for students is 42% per marking period, on average. Student engagement will continue to be a big focus in the upcoming school year.

***Budget Priorities***

<b>Budget Priority</b>	<b>SIP /DIP Goal</b>	<b>Resources Needed</b>	<b>Funding</b>
Provide art or music instruction to students	Increase Student Engagement	Contract services for outside provider of art or music instruction	\$4,000
Work with at risk students at a younger age	Increase Student Engagement	1.0 Teacher for self-contained 7-8 classroom	\$66,000 (reallocation of CMS position)
	Increase Student Independence	Instructional Supplies for new classroom	\$1,000

Salem Prep is a highly structured, intensive therapeutic learning day school for students with a history of social-emotional disabilities who have experienced difficulty within a large public high school. The program is highly structured, safe, and focused on academic achievement, social/emotional growth, and vocational skill development. Students have multiple opportunities to experience success, reduce their emotional vulnerability, and grow socially within their community and school district.

The focus of Salem Prep is on a strong academic, standards-based curriculum: English, math, science, social studies, and health with specially designed instruction to address individual learning challenges. The curriculum supports preparation for MCAS and provides ample opportunities for academic and social success. Students have opportunities to integrate into classes at Salem High School as deemed appropriate.

***Challenges and Opportunities***

Salem Prep had a goal this year of keeping the dropout rates at or lower than 5%. The school has struggled to achieve that benchmark with a rate of 9% in November, increasing to 14% as of January. Early successes to address these challenges have included updating our care team model, connecting students with CTE programs at Salem High School, and our partnership with the Disability Resource Center (DRC) at the Massachusetts Rehabilitation Commission (MRC). There have also been successes with the percent of students participating in advanced and other coursework. The benchmark that was set was 20% and by January, the percent had increased to 23%.

One of the challenges we have faced is addressing the mental health needs of students with reduced clinical support staff. At the start of the current school year, Salem Prep had been assigned a full time school adjustment counselor and a full time school psychologist. With the resignation of the school psychologist, the position was reduced to a 0.4 FTE part time school adjustment counselor. In the FY2023 Budget, we request that this position be increased to a 1.0 school adjustment counselor. In addition, it has been challenging for staff to connect with and build relationships with our internship, externship, and community based work experience providers. In the FY2023 budget, we seek to address this by providing a stipend to a staff member to be able to do this work outside the regular school day.

***Budget Priorities***

<b>Description</b>	<b>SIP/DIP Goal(s)</b>	<b>Resources Needed</b>	<b>Funding</b>
Trauma Informed Care	Increase attendance, 4 year graduation rate, reduce dropout rate	0.6 Adjustment Counselor to restore to previous 2.0 clinician support	\$43,155
Anti-Racist Practice	Increase attendance, 4 year graduation rate, reduce dropout rate	Employment Relations Specialist Stipend	\$4,000
Trauma Informed Care & Anti-Racist Practice	Increase 4 year graduation rate, reduce dropout rate	Modern Classroom PD and implementation support	\$3,000

## Concluding Section

Salem Public School's FY2023 Recommended Budget is a statement of the values that guide our work of educating our future citizens. The unique challenge we faced this year was to determine the funding necessary to meet the needs of our diverse learners and provide strong supports to our faculty and staff while being respectful of sustainability and our fiscal responsibilities to the citizens of Salem.

While we are grateful for the gains made in the current year, including the full return of our students and staff to our schools and classrooms, there is still much work to be done. Meeting the needs of the whole child in the current national and global climate is a challenge.

In times like this, we rely on our values, mission, and vision to guide our work, including our allocation of resources. Ensuring that student needs are at the center of all our decisions has been our true north throughout this process. We have used our strategic objectives and initiatives as the road map for developing our spending plan, not just for our local dollars but the significant federal funds to be invested over the next two to three years. We have demonstrated how our investments align to those strategic objectives and initiatives. Finally, we have addressed the critical desire to ensure a transparent and participatory budget process, a reflection of our desire to be a truly inclusive school district that proactively engages constituents and addresses the aspirations of those we serve – students, staff, and all members of the Salem community.

We do not take lightly the impact of a \$2.15 million increase to the citizens of Salem. It is important to understand that the most significant driver of this increase is the salary and wage increases that we negotiated with our educators, paraprofessionals and school related personnel. As a district, we believe that our educators need to be compensated fairly. Their talents are our most valuable assets. Nearly 70% of the requested increase is driven by this increased investment in our staff. However, it did result in a structural budget deficit which is what is driving the current fiscal reality.

In FY2022, the COLA increase used to arrive at the budget projection was 2.0%. The settled contract awarded teachers a 1.75% increase for those on step 1-12 (46%), and 2.75% for teachers on top step (54%). It also granted a 1% increase effective June 30, 2021 – effectively an additional 1% for FY22. The increase for 54% of our teachers in FY2022 was actually 3.75%, with the remaining 46% receiving a 2.75% increase. The end result is a structural deficit in the FY2022 budget of nearly \$500,000. The School Department has not requested a supplemental appropriation to offset this deficit preferring to try to absorb the impact within its own budgeted means. However, had such a supplemental been requested and granted, the budget increase for FY2023 would have been 2.5%, rather than the 3.2%, far below the historical averages of 3.0% to 4.0%.

The 3.8% increase for FY2023 mirrors the average teacher salary increase of 3.785% for FY2023 based on the negotiated contract. As mentioned in previous sections, with 80% of the school department budget consisting of compensation to our school personnel, and with our STU and PSRP members making up the majority of our personnel, their salary increases drive our budget. As we know and as has been elevated over these past two years, our committed staff give life to our schools.

We hope that this document has provided readers with the context, background information, and budgetary detail necessary to understand how taxpayer dollars will be invested in our schools. We encourage constituents to reach out to us if there are questions we can answer or additional information we can provide. Questions or requests for additional information can be emailed to [budget@salemk12.org](mailto:budget@salemk12.org).

# Budget Overview-Enterprise Funds

# Enterprise Fund Overview

## What is an Enterprise Fund?

An enterprise fund establishes a separate accounting and financial reporting mechanism for municipal services for which a fee is charged in exchange for goods or services. Under enterprise accounting, the revenues and expenditures of the service are segregated into a separate fund with its own financial statements, rather than commingled with the revenues and expenses of all other governmental activities. Financial transactions are reported using standards similar to private sector accounting. Revenues are recognized when earned and expenses are recognized when incurred, under a full accrual basis of accounting. An enterprise fund provides management and taxpayers with information to measure performance, analyze the impact of financial decisions, determine the costs of providing a service and identify any subsidy from the general fund in providing a service.

Enterprise accounting allows a community to demonstrate to the public the portion of total costs of a service that is recovered through user charges and the portion that is subsidized by the tax levy or other available funds, if any. A community may choose to recover total service costs through user charges, but it is not required.

## History

The enterprise fund statute, MGL Ch 44 § 53F ½ (formerly Chapter 41 § 39K), was enacted in 1986. Before that time, communities used special revenue funds authorized under various general laws or special acts in order to separately account for their business type services. These special revenue funds were limited, however, with regard to the services and costs covered. The funds were most commonly authorized for water, gas and electric utility departments and used primarily to account for annual operating costs, not the indirect costs, capital expenditures or fixed assets of the service. The purpose of the enterprise fund statute was to give communities the flexibility to account separately for all financial activities associated with a broader range of municipal services.

As part of the FY 2014 budget process the Mayor requested and the City Council approved the adoption of the Massachusetts Department of Revenue Division of Local Services Bulletin 2012-02B (page 3/7) which allows for the combining of water and sewer enterprise funds voted under MGL Ch 44 §53F ½ into a single water-sewer fund. The combined funds will be treated the same as the individual funds were and will have only one certi-

fied retained earnings. For operational and accounting purposes the water and sewer enterprise funds will remain separate and distinct funds but will be combined for the purpose of certifying retained earnings and for reporting on the annual Tax Recapitulation report which sets the annual tax rate. This will allow the City to use the Sewer Fund Balance to help offset Water revenue deficits and to help keep the water and sewer rate increases lower for rate payers.

## Basis of Accounting

Proprietary fund revenues and expenses are recognized on the accrual basis. Revenues are recognized in the accounting period in which they are earned and become measurable; expenses are recognized in the period incurred, if measurable.

The following major proprietary funds are classified as Proprietary funds and audited as such:

- The Sewer Enterprise fund is used to account for the Sewer activities.
- The Water Enterprise fund is used to account for the Water activities.
- The Trash Enterprise fund is used to account for the Trash activities.

The following major proprietary funds are classified by the City as Special Revenue Funds but are audited and reported as proprietary funds:

- The Golf Course Enterprise fund is used to account for the Golf Course activities.

The following major proprietary fund is budgeted and revenue collected as part of the General Fund but is audited and reported as proprietary funds:

- The Parking Department Enterprise fund is used to account for the Parking activities.

## Enterprise Fund Revenue Detail & Graphs

In FY 2013 the City Council voted to combine the water and sewer enterprise funds as allowed by the Department of Revenue as outlined in Bulletin 2012-B (page 3/7). The water and sewer funds will remain in separate funds for accounting and budgeting purposes within the City. But they will be combined for reporting purposes on the City's annual financial statements (CAFR) and for calculating Retained Earnings by the Department of Revenue.

Revenues for enterprise funds are derived from the following sources:

- **Charges and Fees** – Amounts paid by those who use the service. These include late charges, fees and interest incurred in the collection process.
- **Other Revenue Sources (OFS)** – Includes all other receipts such as state funding, grants, surplus from South Essex Sewer District (SESD) & the Salem Beverly Water Supply Board (SBWSB) and monies from apportioned and un-apportioned betterments and special assessments relating to the enterprise fund.
- **Retained Earnings** – The operating surplus of the enterprise fund. Based on the submission of a June 30 balance sheet, the retained earnings of an enterprise may be used for appropriations only after the Bureau of Accounts certifies it as a surplus. This sur-

plus may be used for capital projects or to offset the operating budget, which effectively reduces the user charges, rates, or general fund subsidy. Like free cash and other general fund reserves, the surplus must be appropriated before the subsequent June 20. After July 1, no appropriation can be made from the surplus until after it is certified by the Director of Accounts.

- **General Fund Subsidy** – Any revenue deficits in an enterprise fund can and should be funded by the general fund, either during the initial budgeting process (if anticipated) or raised on the Recap after year end.

The City of Salem uses the following sources to fund each enterprise fund:

- **Sewer** – User fees, penalties and interest, sewer liens, other miscellaneous revenue and any fund balance surplus at the South Essex Sewerage District (SESD). SESD surpluses are the result of our assessment payment being more than the actual costs of running SESD.
- **Water** – User fees, penalties and interest, water liens, sale of water meters, backflow testing and revenue from shutoffs.
- **Trash** – User fees, penalties and interest and general fund subsidy.

## Sewer Enterprise Revenue

**Sewer Revenue** – The sewer revenues consist of penalties & interest, sewer rates revenues, sewer liens revenue, sewer backflow tests, and miscellaneous revenue. We also request on an annual basis that SESD send us any fund balances that they may be holding in our behalf.

In FY 2023 the City is requesting an increase in sewer rates of 2.35%.

Sewer	Current Rate	% Increase	New Rate
Residential	7.41	2.35%	7.58
Commercial	11.22	2.35%	11.48
>25K Usage	14.37	2.35%	14.70

### Sewer Enterprise Revenue

## Water Enterprise Revenue

**Water Revenue** – The water revenues consist of penalties & interest, water rates revenues, water liens revenue, backflow testing revenue, and miscellaneous revenue.

In FY 2023 the City is requesting an increase in water rates of 2.35%.

Water	Current Rate	% Increase	New Rate
Residential	3.64	2.35%	3.72
Commercial	4.92	2.35%	5.04

### Water Enterprise Revenue

## Solid Waste Enterprise Revenue

**Trash Revenue** – The trash revenues consist of penalties & interest and trash fee revenue. The general fund subsidizes 73% of the trash fund expenditures. In FY 2016 the City contracted with Waste Management to take over for North Side Carting due to North Side Carting’s inability to fulfill their contractual obligations. The Solid Waste Collection line increased in FY 2016 due to the change in vendor but leveled out in FY 2017 due to

mandatory recycling which leveled out the solid waste disposal costs. In FY2023, the City is requesting an increase of 2.5%, commensurate with the increase in the solid waste management contract. In FY 2023 we anticipate approximately level funding in the General Fund Subsidy to the Trash Enterprise Fund.

**Solid Waste Enterprise Revenue**

## General Fund Subsidy to Solid Waste Enterprise Fund

**General Fund Subsidy to Solid Waste Enterprise Fund**

# Financial Forecasts, Plans, Policies and Debt

# Five Year Financial Forecast

## Executive Summary

The five-year financial forecast for the City of Salem is used as a budget tool that enables municipal officials to review operating needs, identify fiscal challenges and opportunities, and help develop long term budgeting policies as part of an overall strategic plan. The five-year financial forecast is invaluable in identifying key areas that the City needs to focus on such as rising health insurance costs, retirement assessments, and collective bargaining agreements. It also helps the City plan for its capital budget, debt service management, and long-term sustainability.

Financial forecasting is the process of projecting revenues and expenditures over a five to ten-year period. Factors that affect forecasting are current and future economic conditions, collective bargaining agreements, future operating and capital scenarios, and other factors that affect future revenues and expenditures.

The five-year financial forecast is also used as a communication tool for both the City Council and the public. The forecast is always evolving and is constantly updated as information becomes available.

## Revenues

*Tax Levy: \$114,458,526*

The tax levy is the City's primary revenue source, comprising approximately 60% of the City's total general fund revenues to be raised in FY2023. Residential property values currently pay 73.16% of the total property taxes, while commercial, industrial, and personal property values pay 26.84%.

The City realizes an automatic 2.5% increase to the tax levy under Proposition 2 ¾, plus any increase due to "new growth" in the City. New growth includes new development, condominium conversions, and renovations/expansions to existing properties, to name a few. The City has typically averaged approximately \$1,000,000 per year in new growth; however, the final new growth number for FY22 was \$2,053,113. For FY2023, new growth is expected to be closer to historical amounts at \$1,000,000. For forecasting purposes, the average of \$1,000,000 is used.

*Local Receipts: \$16,856,168*

Local receipts are locally generated revenues other than real and personal property taxes. Examples include motor vehicle excise, investment income, hotel/motel tax, fees, rentals, and charges. The City is seeing a healthy recovery from COVID-19, particularly in its meals and hotel/motel excise taxes. Salem is projecting an increase of \$556,000 (3.41%) in Local Receipts over FY2022. Categories can be variable and the financial fore-

cast notes the percentages that are used to project into future years based on trends.

*Cherry Sheet Revenue (State Aid): \$35,870,164*

Named for the cherry-colored paper on which it was originally printed, the Cherry Sheet is the official notification by the Commissioner of Revenue to municipalities and regional school districts of estimated state aid to be paid and charges to be assessed over the next fiscal year. Cherry Sheets are usually issued each spring, following enactment by the Legislature of the state budget for the following year.

This year, the Legislature (based on the House budget) has increased the estimated state aid to the City of Salem by approximately \$431,657 from the FY2022 amount. This included a decrease in Veterans Benefits reimbursement of \$99,796. The Chapter 70 appropriation would be increased from \$25,936,602 in FY22 to \$26,184,942 in FY23, a 0.957% increase. Also, FY2023 will see an increase in Unrestricted General Government Aid (UGGA) by \$204,703 or 2.7%.

It is difficult to gauge the amount that the Commonwealth will allocate to the 351 municipalities due to the volatile economy. Nevertheless, we need to assume a figure for purposes of completing the five-year financial forecast. Therefore, it is predicted that the State will increase the FY2023 appropriation by 1% each year through FY2027. We hope that this is a conservative estimate; however, it could be the opposite.

*School Building Assistance: \$0*

The Massachusetts School Building Authority (MSBA) administers the school building assistance program that reimburses cities, towns, and regional school districts varying percentages of their school construction costs depending on the wealth of the community or district and the category of reimbursement. The City of Salem was lucky enough to receive 90% reimbursement for all its building projects. The City is not anticipating any School Building Assistance funds in FY2023.

*Enterprise Fund Revenue: \$18,223,027*

An enterprise fund, authorized by MGL Chapter 44, Section 53F ¾ is a separate accounting and financial reporting mechanism for municipal services for which a fee is charged in exchange for goods or services. It allows a community to demonstrate to the public the portion of total costs of a service that is recovered through user charges and the portion that is subsidized by the tax levy, if any.

The City of Salem has three Enterprise Funds; water, sewer, and solid waste. The water and sewer enterprise funds, with estimated revenues of \$5,854,891 and \$10,723,742 respectively, strive for full cost recovery,

including indirect costs that are appropriated in the general fund. Water and sewer enterprise fund revenues are estimated to have various increases over the next three fiscal years depending on the costs of assessments from the Salem Beverly Water Supply Board and the South Essex Sewer District, as well as the debt service from some of the major projects underway in the City, including the completion of the water meter project, the reconstruction of several water mains, rehabilitation of the Folly Hill storage tanks, South River Basin upgrades, Canal Street Upgrades Phase II and water meter replacements.

In FY 2013, the City Council voted to combine the water and sewer enterprise funds for FY 2014, as allowed by the Department of Revenue as outlined in Bulletin 2012-B (page 3/7). Historically, the Water Enterprise fund revenue was not being sufficient to cover expenses and we have had to appropriate free cash to cover the deficits. By combining the funds, the City now utilizes sewer revenue to help offset the water deficit.

The water and sewer funds will remain in SEPARATE funds for accounting and budgeting purposes within the City. But they will be COMBINED for reporting purposes on the City's annual financial statements (CAFR) and when calculating Retained Earnings by the Department of Revenue.

For FY23, the administration is recommending a water and sewer rate increase of 2.35%.

The Solid Waste Enterprise fund, established in FY08, does not recoup all operating costs. However, the \$953,144 estimated revenues will cover approximately 24% of the total cost of \$4,015,663 in FY2023.

*Other Financial Resources – Recurring: \$1,743,442*

The City currently has three “receipts reserve” accounts; Harbormaster, Witch House, and Golf Course. The budget proposes adding two new accounts – Charter Street Cemetery and Forest River Pool. Receipts reserve accounts are accounts in which proceeds are earmarked by law and placed in separate accounts for appropriation for particular purposes. The City treats these accounts similar to Enterprise Funds, by which the fees charged cover the expenses of the particular program. It is estimated that the revenues generated will increase each year by 2.5% to keep up with rising costs of running each of the three departments.

**Expenses**

*General Government: \$9,760,620*

Departments under General Government include all of the financial offices and overhead support functions, including Mayor, City Council, Finance, Assessing, Legal, Treasury, Collector, Purchasing, and the City Clerk/Elections.

The expense increase for FY23 is 6.4%. This amount includes the impact of collective bargaining agreement settlements, increases for exempt staff,

and initiatives supported by the Mayor's office. The estimated increases for FY2023-2025 is projected at approx. 3%

*Public Safety: \$23,760,206*

Departments under Public Safety include Police, Fire, Inspectional Services, Electrical and Harbormaster. The estimated expense increase for public safety for the City will be 3% for police and fire and 3% for inspectional services, electrical and harbormaster for FY2023 through FY2025. These increases are expected due to the historical costs of collective bargaining agreements for police and fire, including minimum staffing levels, as well as the rising costs of utilities for both electrical and harbormaster departments and public safety resource needs resulting from increases in tourism.

In FY2023, Public Safety is a 2.98% increase. This amount includes addressing academy training needs resulting from multiple projected retirements.

*Public Works and Facilities: \$4,321,670*

Departments under Public Works and Facilities include Public Services, Engineering, Snow and Ice Removal and the Parking Department. Estimated expense increase for public services is expected to increase at 3% per year through FY2025.

The FY2023budget reflects an 5.46% increase for public works, reflecting increases in Tree maintenance and other initiatives identified to improve services through the City. Engineering and Parking operating expenses are expected to increase by 3% per year through FY2025, and the Snow and Ice budget will be level funded through FY2025.

*Human Services: \$1,800,728*

Departments under Human Services include the Health Department, Council on Aging, and Veteran's Services. Although the benefits of veterans decreased this year due to less veterans applying for benefits, expenses in human services are still projected to increase by 3% per year due to normal increases in salaries and expenses, needs of an aging population, and the uncertainty of the number of veterans returning from war.

*Cultural and Recreation: \$3,382,603*

Departments under Cultural and Recreation include the Library, Park and Recreation, Golf Course, Witch House, Winter Island, Pioneer Village, and the Historical Commission. Expenses in Culture and Recreation are projected to increase by 3% per year due to normal increases in salaries and expenses.

*Fixed Costs: \$33,016,269*

Fixed costs are costs that are legally or contractually mandated such as health insurance, retirement assessment, Medicare, worker's compensation, unemployment, and several other items. Fixed costs continue to be the biggest challenge in municipal budgets. Each fixed cost has its own projected increase over the five-year forecast that reflects the average costs municipalities are seeing in each category. The projected increases through FY2025 for each fixed cost are as follows:

*Fixed Costs – Debt Service: \$8,391,659 (Long Term - \$7,744,556 & Short Term - \$557,102.51)*

Debt service is the repayment cost, usually stated in annual terms and based on an amortization schedule, of the principal and interest on any particular bond issue. The overall debt service for the City is scheduled to decrease for existing debt; however, as part of our capital planning and the anticipated interest rate increase, we estimating a 3.5% increase in the total cost of debt service so that we can actively manage the replacement of vehicles and machinery, maintenance on existing buildings and infrastructure, and construction of new facilities.

*Assessment – Essex Technical Vocational High School: \$2,599,910*

The assessment to the City of Salem reflects the number of students attending the school and the associated costs. The assessment decreased in FY2023 resulting from lower enrollment numbers. To be conservative these assessments are projected to decrease -2.58% through FY2025.

*Education - Salem School District: \$68,747,963*

The School Committee oversees the budget process for the schools, and it has a bottom-line budget of \$66,597,919 for FY22, an increase of 4.96% from FY21.

For financial forecasting purposes, we expect that the cost of education will increase the general fund budget by 2.5% per year in both personnel and non-personnel expenses. The City's finance director and the School's business administrator continue to work on cost saving measures and shared services to ensure that the level of staff at the SPS will be adequate to provide quality education to its students.

*Enterprise Fund Expenses: \$19,791,499*

Expenses in the enterprise fund represent personnel, expenses, contracted services, assessments, and debt service costs for the three enterprise funds of the City: water, sewer, and solid waste. Expenses in the funds are projected to rise from FY2024 to FY2027 as follows:

*Cherry Sheet Assessment: \$9,749,456*

Named for the cherry-colored paper on which it was originally printed, the Cherry Sheet is the official notification by the Commissioner of Revenue to municipalities and regional school districts of estimated state aid to be paid and charges to be assessed over the next fiscal year. Cherry Sheets are usually issued each spring, following enactment by the Legislature of the state budget for the following year.

The categories of charges include mosquito control projects, RMV non-renewal surcharge, MBTA, and tuition assessment.

It is projected that the Cherry Sheet assessment from the Commonwealth will increase 6% from FY2024 to FY2027.

*Other Expenditures: \$2,060,052*

## **Conclusion**

The City of Salem, like all municipalities throughout the Commonwealth, continue to struggle with rising fixed costs and contractual obligations that make balancing budgets very challenging. In most cases, Proposition 2 ¾, the law that regulates the increases a municipality can increase its property taxes, does not allow for property tax revenue to keep up with the costs of doing business.

The five-year financial forecast is a tool that helps us best manage the challenges. It is a tool that uses reasonable estimates in both revenue and expenditure trends while considering the overall economic picture of the current times. The goal is to project revenues and expenditures up to five years into the future which will help the administration analyze where current trends are leading and estimate if money will be available for discretionary spending such as capital purchases, collective bargaining settlements, and new municipal program. It also will help identify those "budget buster" items that need reform from the local or state government.

The five-year forecast, combined with the capital improvement program and FY2023 budget will continue to be the basis for all future financial planning for the City of Salem.

# Financial Reserve Policies & Graphs

## Stabilization Fund

A **stabilization fund** is a fund designed to accumulate amounts for capital and other future spending purposes, although it may be appropriated for any lawful purpose (MGL Ch. 40 B5B). Communities may establish one or more stabilization funds for different purposes and may appropriate into them in any year an amount not to exceed ten percent of the prior year's tax levy. The total of all stabilization fund balances shall not exceed ten percent of the community's equalized value, and any interest shall be added to and become a part of the funds. A two-thirds vote of the city council is required to establish, amend the purpose of, or appropriate money from the stabilization fund.

The City has set a target level for minimum Stabilization fund of 5% of the City's current general fund operating budget. The stabilization fund shall be funded by appropriations from free cash, operating budget appropriations when available, and other one-time non-recurring revenues that become available for appropriation per M.G.L.

The stabilization fund should only be used for the following circumstances:

Stabilization Fund

**Retirement Stabilization Fund (Budgeted)**

The Retirement Stabilization Fund was created in FY 2008 to fund all appropriations for sick and vacation time earned by an employee as regulated by collective bargaining agreements or City of Salem policy for non-union and management employees. When budget season begins, the finance department will request each department to determine if there are any employees in their department who may be retiring. Departments (including Salem Public Schools) will submit list of employees and the anticipated amounts of each employee’s retirement buyout.

In FY 2013 the Commonwealth of Massachusetts created Massachusetts General Law Chapter 40 Section 13D which authorizes the creation of a retirement stabilization account to fund future payment of accrued liabilities for compensated absences. A council order was submitted to the City Council on May 23, 2013 to adopt this legislation.

The Finance Department will calculate the cumulative amount of anticipated retirement dollars needed for the following year’s budget and incorporate the amount into the Mayor’s recommended budget submitted to Council. There is line item within the Budget Transfers Out to account for retirement anticipations. This line item will be reviewed and voted on by the City Council as it does with other budgets.

Once Council approves the budget, the funds are then booked into the Retirement Stabilization Fund as voted. Appropriations both into and from the Retirement Stabilization Fund require a 2/3 vote of the City Council.

Any appropriations that are not used during the fiscal year will be carried over into the next fiscal year as a fund balance. All employees who are on the list will then be compensated at retirement for their accrued sick, vacation, and other benefits that they are entitled once approved by both Human Resources and the Department Head.

If an employee retires and was not budgeted for in the Retirement Stabilization Fund, the department head shall submit a request to the human resource department who will verify the buyback amounts and forward the request to the Finance Department. The Finance Director will consider the request and fund it from surplus Retirement Stabilization funds or other available funds. It is the policy of the City to build up an adequate reserve in the retirement anticipation fund to cover those retirements that were not anticipated.

At the end of FY 2022 we may transfer some free cash into this fund to cover FY 2023 retirements. In FY 2023 we are budgeting 600,000 to be transferred to this fund.

**Retirement Stabilization Fund (Budgeted)**

### Other Post-Employment Benefits (OPEB) Fund

The City is mandated by the Governmental Accounting Standards Board (GASB) to start accounting for Other Post Employment Benefit (OPEB) as outlined in statement 45. In FY 2011 the City Council voted to establish an OPEB Stabilization Fund. We anticipate funding this account through annual appropriation from certified free cash (10%) as we do for our Capital Project and our Stabilization fund.

In FY 2015 the Mayor modified the policy to move 5% of free cash to OPEB and 5% of free cash to the Retirement Board to help offset the pension

liability. Five percent (5%) of free cash certified will be allocated to the OPEB Reserve Fund for the future liability of current worker’s post-employment benefits (other than retirement pension). This includes the cost of health, life, and dental benefits. The amount to be funded for GASB 45 is to be determined by an actuarial study that is to be performed by an actuary that the City chooses (perhaps in conjunction with actuarial studies done by the Salem Contributory Retirement System).

**Other Post-Employment Benefits (OPEB) Fund**

### Capital Project Fund - Short Term

The City of Salem uses a capital project fund to supplement the short-term capital needs of the City.

or repairs as needed, or for those items that don’t meet the CIP criteria (value > \$25,000 and a life expectancy of 5 or more years).

These funds are used during the fiscal year for to supplement the Capital Improvement Plan (Section 7) for unanticipated or emergency equipment

**Capital Project Fund - Short Term**

**Free Cash**

Free cash is the remaining, unrestricted funds from operations of the previous fiscal year including unexpended free cash from the previous year, actual receipts in excess of revenue estimates shown on the tax rate recapitulation sheet, and unspent amounts in budget line-items. Unpaid property taxes and certain deficits reduce the amount that can be certified as free cash. The calculation of free cash is based on the balance sheet as of June 30, which is submitted by the community's auditor, accountant, or comptroller. Free cash is not available for appropriation until certified by the Massachusetts Director of Accounts. Free cash is the term used for a community's funds that are available for appropriation. Once free cash is certified, it is available for appropriation by City Council.

Free cash may be used for any lawful municipal purpose and provides communities with flexibility to fund additional appropriations after the tax

rate has been set. Free cash balances do not necessarily carry forward to the next fiscal year (July 1st); the Director's certification expires on June 30th at the end of the fiscal year.

The City's policy is to use free cash for reserves, capital, and special uses in accordance with the policies set forth by the Mayor and Finance Director as stated above. Any free cash available after funding the above may be used to augment trust funds related to fringe benefits and un-funded liabilities related to employee benefits, Workers' Compensation Fund, Unemployment Fund, and any health benefits payable through Police and Fire operating budgets (111f settlements). Free Cash available may also be used to augment general fund appropriations for expenses that increased due to extraordinary and/or unforeseen events as detailed by the department head of the affected budget.

**Free Cash**

## Water-Sewer Retained Earnings

Retained Earnings is the portion of Net Assets Unrestricted that is certified by the Department of Revenue as available for appropriation. Certification requires submission of a June 30 balance sheet accompanied by all information necessary to calculate free cash in the General Fund. Once certified, retained earnings may be appropriated through the following June 30 and no appropriation may be in excess of the certified amount.

Retained earnings may be appropriated to:

The City of Salem generally uses Water & Sewer retained earnings to fund capital improvements that may come up during the fiscal year as well as emergency repairs needed due to water or sewer main breaks or other related repairs. Some capital equipment may be funded during the year from these as well.

In FY 2013 the Mayor submitted a council order to request that the water and sewer enterprise funds be combined for FY 2014 as allowed by the Department of Revenue as outlined in Bulletin 2012-B (page 3/7). The

Water Enterprise fund revenues had been insufficient to cover expenses and the City had to appropriate free cash to cover the deficits. Part of the problem was the one time use of retained earnings in FY 2012 to supplement the revenue. That funding was not used in FY 2013 and the rate increases were insufficient to cover expenses. In FY 2013 we had to raise \$218,738 on the General Fund RECAP to cover the FY 2012 deficit. We also had to appropriate Free Cash to cover the June 30, 2013 deficit of \$307,522.50. By combining the funds we can use sewer revenue to help offset the water deficit. We may be requesting an increase on both water and sewer rates for FY 2019 to cover increased debt expenses.

The water and sewer funds will remain in separate funds for accounting and budgeting purposes within the City. However, they are combined for reporting purposes on the City's annual financial statements (CAFR), when calculating Retained Earnings by the Department of Revenue, and when filing the City's annual Tax Recapitulation (RECAP).

The following are the Sewer and Water COMBINED retained earnings.

**Water-Sewer Retained Earnings**

### Trash Retained Earnings

The Trash Enterprise fund is not a fully self-supporting fund but has generated retained earnings.

# Investment Policies

## Section I - The investment of General Funds, Special Revenue Funds, Enterprise Funds, and Capital Projects Funds.

### Scope

This section of the policy applies only to short term operating funds such as general funds, special revenue funds, enterprise funds, and capital project funds. Section 2 will deal with trust funds, bond proceeds, and any other funds with special circumstances such as stabilization funds. A separate Contributory Retirement Board, either local or county, is responsible for the investment of the pension funds.

### Objectives

Massachusetts General Laws, Chapter 44, section 55B requires the municipal/district treasurer to invest all public funds except those required to be kept un-invested for purposes of immediate distribution. Modern banking systems enable the public treasurer to maintain even these funds in interest bearing form until the date a disbursement order clears through the banking system.

The state law further requires that invested funds are to be placed at the highest possible rate of interest reasonably available, taking account of safety, liquidity and yield. Therefore, these guidelines are intended to further the objective of securing the highest return that is consistent with safety of principal while meeting the daily cash requirements for the operation of the entity's business.

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital through the mitigation of credit risk and interest rate risk. The diversification and prudent selection of investment instruments and choice of depository shall mitigate these risks. Credit risk is the risk of loss due to the failure of the security issuer or backer. Interest rate risk is the risk that the market value of the security will fall due to changes in general interest rates.

Liquidity is the next most important objective. The overall investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. Since all possible cash demands cannot be anticipated, the treasurer shall carry out investment activities in a manner that provides for meeting unusual cash demands without the liquidation of investments that could result in forfeiture of accrued interest earnings, and loss of principal in some cases.

Yield is the third, and last, objective. Investments shall be undertaken so as to achieve a fair market average rate of return, taking into account safety and liquidity constraints as well as all legal requirements.

## Investment Instruments

The Treasurer may invest in the following instruments:

1. Massachusetts State pooled fund: Unlimited amounts (Pool is liquid)

The Massachusetts Municipal Depository Trust (MMDT), an investment pool for state, local, county and other independent governmental authorities, is under the auspices of the Massachusetts State Treasurer and currently managed by Fidelity Investments. It invests in Bankers Acceptances, Commercial Paper of high quality, Bank Certificates of Deposit, Repurchase agreements (Repos), and U. S. Treasury Obligations. It has Federal Deposit Insurance Corporation (F.D.I.C.) pass-through insurance on the CD's and takes delivery on the Repos and Treasuries. Under Government Accounting Standards Board Regulation (GASB III), it is not considered an uncollateralized product.

2. U. S. Treasuries that will be held to maturity: Unlimited amounts (Up to one-year maturity from date of purchase)

3. U.S. Agency obligations that will be held to maturity. Unlimited amounts (Up to one-year maturity from date of purchase)

4. Bank accounts or Certificates of Deposit, hitherto termed CD's. (Up to one year) which are fully collateralized through a third party agreement: Unlimited amounts

5. Bank accounts and CD's (Up to one year) fully insured by F.D.I.C. and in some cases also Depository Insurance Fund of Massachusetts (D.I.F.M): \$250,000 limit all bank accounts and CD's in one institution are considered in the aggregate to receive the \$250,000 insurance coverage.

6. Unsecured bank deposits of any kind such as other checking, savings, money market, or Certificates of Deposit accounts at Banks that do not fit the above categories. These investments are subject to the following limitations: These investments will be limited to no more than 5% of an institution's assets and no more than 10% of a municipality's cash. Their credit worthiness will be tracked by Veribanc, Sheshunoff, or other bank credit worthiness reporting systems. They will be diversified as much as possible. CD's will be purchased for no more than three months and will be reviewed frequently.

7. Money Market Mutual Funds that are registered with the Securities and Exchange Commission that have received the highest possible rating from at least one nationally recognized statistical rating organization and as otherwise referenced in the MGL 44 Section 55.

## Risk Tolerance

Credit Risk is the risk that an issuer or other counterparty to an investment neither will fulfill its obligations. The City will manage credit risk several ways. There will be no limit to the amount of United States Treasury and United States Government Agency obligations, as they carry an AAA rating. In regards to other investments, the City will only purchase investment grade securities with a high concentration in securities rated A or better. The City may invest in the Massachusetts Municipal Depository Trust (MMDT) with no limit to the amount of funds placed in the fund.

Custodial Risk is the risk for deposits that in the event of the failure of a depository financial institution, a municipality will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a municipality will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City will review the financial institution's financial statements and the background of the advisor. The intent of qualification is to limit the city's exposure to only those institutions with a proven financial strength, capital adequacy of the firm, and the overall affirmative reputation in the municipal industry. Further all securities not held directly by the city will be held in the city's name and tax identification number by a third party custodian approved by the Treasurer and evidenced by safekeeping receipts showing individual CUSIP numbers for each security.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City will minimize concentration of credit risk by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized or not exist.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. The City will manage interest rate risk by managing duration in the account.

Foreign Currency Risk is the risk that changes in foreign monetary exchange rates will adversely affect the fair value of an investment. The City will not invest in any instrument exposed to foreign currency risk.

## Diversification

Diversification should be interpreted in two ways: in terms of maturity as well as instrument type and issuer. The diversification concept should include prohibition against over concentration of maturities as well as concentration in a specific institution. With the exception of U.S. Treasury obligations or investments fully collateralized by U.S. Treasuries or agencies, and State pools (MMDT), no more than 10% of the Town's investments shall be invested in a single financial institution.

## Authorization

The Treasurer has authority to invest municipality/district funds, subject to the statutes of the Commonwealth cited above.

## Ethics

The Treasurer (and any Assistant Treasurers) shall refrain from any personal activity that may conflict with the proper execution of the investment program or which could impair or appear to impair ability to make impartial investment decisions. Said individuals shall disclose to the Chief Executive Officer any material financial interest in financial institutions that do business with the City. They shall also disclose any large personal financial investment positions or loans that could be related to the performance of the town's investments.

## Relationship with Financial Institutions

Financial institutions should be selected first and foremost with regard to safety. Municipalities/Districts should subscribe to and use one or more of the recognized bank rating services, such as Veribanc or Sheshunoff. Brokers should be recognized, reputable dealers.

The Treasurer shall require any brokerage houses and broker/dealers, wishing to do business with the municipality, to supply the following information to the Treasurer:

- Audited financial statements
- Proof of National Association of Security Dealers certification
- A statement that the dealer has read the municipality's investment policy and will comply with it
- Proof of credit worthiness (minimum standards: at least five years in operation and a minimum capital of 10 million dollars)

## Section II - The Investment of Trust Funds and Bond Proceeds

This section of the policy applies only to funds that could be invested long term, i.e. trust funds, stabilization funds and bond proceeds. For issues subject to arbitrage rebate, an arbitrage tracking system such as those available at banks and Mass Municipal Depository Trust (MMDT) will be used to track expenditures of and interest earned on borrowed funds. Alternative tracking systems should be approved by and used under the advice of Bond Counsel.

## Arbitrage Regulations

Tax free debt may be issued by cities, towns, and districts, which means that they are able to borrow at rates well below market rates. At the same time, the federal government has issued regulations to prevent them from issuing debt with the goal of investing the borrowed funds at a higher rate

of interest than that at which the money was borrowed, or committing arbitrage. If the federal regulations are not followed, there are fines and penalties, but even worse, the tax free status of the debt could be jeopardized. The following arbitrage regulations will be followed:

Unless debt is issued as a “small issuer,” that is, an entity issuing less than \$10 million of tax exempt debt in a calendar year, the proceeds shall be used within certain prescribed time frames, or be subject to fines and penalties as described above.

Following are the general rules and time frames for spending borrowed funds in order to avoid having to pay a rebate to the Federal government on investment income earned on the borrowed funds. All funds must be used according to the following schedules or sooner:

**CONSTRUCTION DEBT**

First six months:	10%
First year:	45%
Eighteen months:	75%
Two years:	100%

**CAPITAL EXPENDITURES DEBT OTHER THAN CONSTRUCTION PROJECTS**

First six months:	15%
First year:	60%
Eighteen months:	100%

**ALL OTHER MUNICIPAL PURPOSE DEBT**

First six months:	100%
-------------------	------

**Trust Funds**

Trust Funds may be co-mingled and invested in any instruments allowed by the Legal List issued by the Banking Commissioner each July. Each trust fund must be accounted for separately.

**Stabilization Funds**

The Stabilization Fund shall not exceed ten per cent of the equalized valuation of the city or town, and any interest shall be added to and become a part of the fund. The treasurer may invest the proceeds in the following:

- National Banks
- Savings Banks
- Cooperative banks or trust companies organized under Massachusetts laws
- Securities legal for savings banks ( i.e. those on the Legal List described above)
- Federal Savings and Loan Associations situated in the Commonwealth
- Massachusetts Municipal Depository Trust

**Reporting Requirements**

On a regular basis (quarterly, semi-annually, or annually), a report containing the following information will be prepared by the Treasurer and distributed to the Chief Executive Officer, Town Manager, and/or Finance Committee, as appropriate. The quarterly report will include the following information, as a minimum requirement:

- A listing of the individual accounts and individual securities held at the end of the reporting period.
- A listing of the short-term investment portfolio by security type and maturity to ensure compliance with the diversification and maturity guidelines established in the “Diversification” section of this Investment Policy.
- A summary of the income earned on a monthly basis and year to date basis shall be reported.
- The municipal treasurer shall include in the report a brief statement of general market and economic conditions and other factors that may affect the City’s cash position.

The report should demonstrate the degree of compliance with the tenets set forth in the Investment Policy.

# Debt Policies

## Bond Ratings – Upgraded

### Standard & Poor's Rating Services

On June 08, 2018 the City of Salem received notification from Standard and Poor's that they City's bond rating remains at AA/Stable based on their view of the City's financial management procedures and sound budgeting practices. The bond rating helps decrease the City's borrowing costs and sends a positive message regarding the City's approach to budgeting both operational and capital needs. S&P assigned the 'AA' long-term rating to the city's series back in 2016 and the City has maintained that rating. The outlook is stable.

The bond rating is a great acknowledgement of all of the City's management of its finances. This is a confirmation Salem is managing its resources as well as it can.

Reasons for the rating cited by Standard and Poor's reflects their opinion of the city's:

- Very strong economy, with access to a broad and diverse metropolitan statistical area (MSA);
- Strong management, with “good” financial policies and practices under our financial management assessment (FMA) methodology;
- Strong budgetary performance, with a slight operating surplus in the general fund and operating surplus at the total-governmental – fund level in fiscal 2017
- Strong budgetary flexibility, with an available fund balance in fiscal 2017 of 9.5% of operating expenditures;
- Very strong liquidity, with total government available cash at 15.9% of total governmental fund expenditures and
- 5x governmental debt service, and access to external liquidity we consider strong;
- Adequate debt and contingent liability position, with debt service carrying charges at 3.2% of expenditures and net direct debt that is 35.8% of total governmental fund revenue, as well as low overall net debt at less than 3.0% of market value, but a large pension and other postemployment benefit (OPEB) obligation and the lack of a plan to sufficiently address the obligation; and
- Strong institutional framework score.

### Capital Improvement Projects

When the city finances capital projects by issuing bonds, it will pay back the bonds within a period not to exceed the expected useful life of the project. Total net debt service payments from general obligation debt will

not exceed five (5) percent of total annual operating budget as listed on part 1a of the annual tax rate recapitulation as submitted to the Department of Revenue. Per the total amount to be raised on the FY22 Tax Rate Recapitulation Sheet - \$191,199,145 this limit would be \$9,559,957. Debt will only be issued for capital that is valued greater than \$25,000 and has a depreciable life of five (5) or more years. A cash flow statement will be required for each project funded with long term debt. Total general obligation debt will not exceed the limits provided in the state statutes.

Whenever possible, the city will use special revenue funds, special assessments, or other self-supporting bonds, instead of general obligation bonds. The city will not use long-term debt for current operations unless otherwise allowed via special legislation.

The city will maintain good communications with bond rating agencies about its financial condition. The city will follow a policy of full disclosure on every financial report and bond prospectus.

### General Information on Debt Authorization and Legal Limit

Notes and notes including refunding notes are generally authorized on behalf of the City by vote of two-thirds of all the members of the City Council with the approval of the Mayor. Provision is made for a referendum on the filing of a petition bearing the requisite number of signatures. Borrowings for certain purposes require state administrative approval. When serial bonds or notes have been authorized, bond anticipation notes may be issued by the officers authorized to issue the serial bonds or notes. Temporary loans in anticipation of certain state and county reimbursements are generally authorized by majority vote but provision is made for temporary loans in anticipation of current revenues and federal grants and for other purposes in certain circumstances without City Council authorization.

The general debt limit of the City consists of a normal debt limit and a double debt limit. The normal debt limit is 5 percent of the valuation of taxable property as last equalized by the State Department of Revenue. The City can authorize debt up to this amount without State approval. It can authorize debt up to twice this amount (the double debt limit) with the approval of the State's Municipal Finance Oversight Board. Based on the City's equalized valuation (EQV) of \$6,641,110,700 effective January 1, 2021, its normal debt limit is \$332,055,535 and its double debt limit is \$664,111,070.

There are many categories of general obligation debt which are exempt from and do not count against the general debt limit. Among others, these exempt categories include revenues anticipation notes and grant anticipation notes; emergency loans exempted by special laws, bonds for water (limited to 10 percent of equalized valuation), housing, urban renewal and economic development (subject to various debt limits) and

electric, gas, community antenna television systems, and telecommunication systems (subject to separate limits. Revenue bonds and water pollution abatement revenue bonds are not subject to these debt limits. The general debt limit and the special debt limit for water bonds apply at the time debt is authorized. The other special debt limits generally apply at the time the debt is incurred.

The amount borrowed in each fiscal year by the issue of revenue anticipation notes is limited to the tax levy of the prior fiscal year, together with the net receipts in the prior fiscal year from the motor vehicle excise and certain payments made by the Commonwealth in lieu of taxes. The fiscal year ends on June 30. Notes may mature in the following fiscal year, and notes may be refunded into the following fiscal year to the extent of the uncollected, unabated current tax levy and certain other items, including revenue deficits, overlay deficits, final judgments and lawful un-appropriated expenditures, which are to be added to the next tax levy, but excluding deficits arising from a failure to collect taxes of earlier years. In any event, the period from an original borrowing to its final maturity cannot exceed one year.

### **Types of Obligations**

**General Obligations** - Massachusetts cities and towns are authorized to issue general obligation indebtedness of the following types:

**Serial Bonds and Notes** - These are generally required to be payable in equal or diminishing annual principal amounts beginning no later than the end of the next fiscal year commencing after the date of issue and ending within the terms permitted by law. Level debt service is permitted for bonds and notes issued for certain purposes including self supporting enterprise purposes, certain state aided school projects and for projects for which debt service has been exempted from property tax limitations. The maximum terms vary from one year to 40 years, depending on the purpose of the issue. Most of the purposes are capital projects. Bonds or notes may be made callable and redeemed prior to their maturity, and a redemption premium may be paid. Refunding bonds or notes may be issued subject to the maximum term measured from the date of the original bonds or notes. Serial bonds may be issued as "qualified bonds" with the approval the state Municipal Finance Oversight Board consisting of the Attorney General, the State Treasurer, the State Auditor, and the Director of Accounts, subject to such conditions and limitations (including restric-

tions on future indebtedness) as may be required by the Board. Qualified bonds may mature in not less than 10 or more than 30 years from their dates and are not subject to the amortization requirements described above. The State Treasurer is required to pay the debt service on qualified bonds and thereafter to withhold the amount of the debt service from state aid or other state payments. Administrative costs and any loss of interest income to the State are to be assessed upon the city or town.

**Bond Anticipation Notes (BAN)** . These generally must mature within two years of their original dates of issuance but may be refunded from time to time for a period not to exceed five years from their original dates of issuances, provided that (except for notes issued for certain school projects that have been approved for state school construction aid) for each year that the notes are refunded beyond the second year they must be paid in part from revenue funds in an amount at least equal to the minimum annual payment that would have been required if the bonds had been issued at the end of the second year. The maximum term of bonds issued to refund bond anticipation notes is measured from the date of the original issue of the notes, (except for certain school projects).

**Revenue Anticipation Notes (RAN)** . These are issued to meet current expenses in anticipation of taxes and other revenues. They must mature within one year but, if payable in less than one year, may be refunded from time to time up to one year from the original date of issue. (Such notes may be extended beyond fiscal year end in an amount not exceeding current receivables.)

**Grant Anticipation Notes (GAN)** . These are issued for temporary financing in anticipation of federal grants and state and county reimbursements. Generally they must mature within two years, but may be refunded from time to time as long as the municipality remains entitled to the grant or reimbursement.

**Revenue Bonds** - Cities and towns may issue revenue bonds for solid waste disposal facilities and for projects financed under the Commonwealth's Water Pollution Abatement or Drinking Water Revolving Loan Programs and for certain economic development projects supported by tax increment financing. In addition to general obligation bonds and notes, cities and towns having electric departments may issue electric revenue bonds, and notes in anticipation of such bonds, subject to the approval of the State Department of Telecommunications and Energy.

# Anti-Fraud Policies

The City of Salem is committed to protecting its revenue, property, information, and other assets from any attempt, either by members of the public, contractors, vendors, agents or its own employees, to gain by deceit, financial or other benefits at the expense of the taxpayers.

City Officials and employees must, at all times, comply with all applicable laws and regulations. The City will not condone the activities of officials or employees who achieve results through violation of the law or unethical business dealings. The City does not permit any activity that fails to stand the closest possible public scrutiny.

This policy sets out specific guidelines and responsibilities regarding appropriate actions that must be followed for the investigation of fraud and other similar irregularities.

In FY 2015 the City hired the auditing firm of Melanson & Heath to conduct a fraud risk assessment covering accounts receivable, accounts payable and payroll. Melanson & Heath will provide the Finance Director with a comprehensive report outlining how each department is performing in these areas and make recommendations as to what we can do to further protect the City's assets. This will be an ongoing project with annual reviews and updates.

## Definitions

**Occupational fraud** is defined by the Association of Certified Fraud Examiners as the use of one's occupation for personal enrichment through the deliberate misuse or misapplication of the employing organization's resources or assets. There are three major categories of occupational fraud.

**Asset Misappropriations** – Theft or misuse of an organization's assets.

### Cash

- Fraudulent Disbursements – Perpetrator causes organization to disburse funds through some trick or device (e.g. submitting false invoices/time card/sheets, expense reimbursement schemes, check tampering, etc.)
- Skimming – Cash is stolen from an organization before it is recorded on the organization's books and records.
- Cash Larceny – Cash is stolen from an organization after it has been recorded on the organization's books and records.

### Inventory and all other assets

- Misuse – Misuse of an organization's inventory or assets for personal use (e.g. City vehicles, computers, supplies, etc.)

- Larceny – Inventory or other assets are stolen from an organization.
- Corruption – Wrongfully use influence in a business transaction in order to procure some benefit for themselves or another person, contrary to duty to employer or the rights of another.
- Conflicts of Interest – An undisclosed economic or personal interest in a transaction that adversely affects the employer.
- Bribery – The offering, giving, receiving, or soliciting of anything of value to influence an official act or business decision.
- Illegal Gratuities – A party who benefits from an official act or a business decision gives a gift to a person who made the decision. An illegal gratuity does not require proof
- Economic Extortion – An employee demands that a vendor/contractor/etc. pay to influence an official act or a business decision.
- Fraudulent Statements – Falsification of an organization's financial statements.

**Other similar irregularities** is defined as any activity involving questionable behavior or business dealings by members of the public, contractors, vendors, agents or government employees, that put government revenue, property, information and other assets at risk of waste or abuse.

## Applicability

This policy applies to all Elected Officials and employees of the City of Salem as well as any business or individual doing business with the government.

## General Policy and Responsibility

It is the government's intent to fully investigate any suspected acts of fraud or other similar irregularity. An objective and impartial investigation will be conducted regardless of the position, title, and length of service, or relationship with the government of any party who might be or becomes involved in or becomes/is the subject of such investigation.

Each Elected Official, Department Head, Commissioner and Manager is responsible for instituting and maintaining a system of internal control to provide reasonable assurance for the prevention and detection of fraud, misappropriations and other irregularities. Management should be familiar with the types of improprieties that might occur within their area of responsibility and be alert for any indications of such conduct.

- The Finance Director has the primary responsibility for the investigation of all activity defined in this policy.
- The Finance Director will notify their Independent Auditing Firm and the Mayor of a reported allegation of fraudulent or irregular con-

duct upon the commencement of the investigation to the extent practical. Throughout the investigation the Mayor will be informed of pertinent investigative findings.

- In all circumstance where there are reasonable grounds to indicate that a fraud may have occurred, the Finance Department and/or Independent Auditor, subject to the advice of Mayor and City Solicitor, will contact the office of the District Attorney and/or the Salem Police.
- Upon conclusion of the investigation, the results will be reported to the Mayor and others as determined necessary.
- The City Solicitor will pursue every reasonable effort, including court ordered restitution, to obtain recovery of the City's losses from the offender, or other appropriate source.

## **Procedures**

### **All Employees**

Any employee who has knowledge of an occurrence of irregular conduct, or has reason to suspect that a fraud has occurred, shall immediately notify his/her supervisor. If the employee has reason to believe that their supervisor may be involved or does not feel comfortable reporting the occurrence to their supervisor, the employee shall immediately notify the OTA.

Employees have a duty to cooperate during an investigation. Employees who knowingly make false allegations will be subject to discipline and possible termination of employment.

### **City Management/Elected Officials/Board Members**

Upon notification from an employee of suspected fraud, or if management has reason to suspect that a fraud has occurred, they shall immediately notify the Finance Director.

### **Office of the Mayor**

Upon notification or discovery of a suspected fraud, the Finance Director and/or Independent Auditor will promptly investigate the suspected fraud. In all circumstances, where there are reasonable grounds to indicate that a fraud may have occurred, the Finance Director or Independent Auditor will inform the Mayor. Subject to the advice of the City Solicitor, the Finance Director or Independent Auditor will contact the Office of the District Attorney and/or the Salem Police.

### **Contacts/Protocols**

After an initial review and a determination that the suspected fraud warrants additional investigation, the Finance Director or Independent Auditor will notify the Mayor. The Finance Director or Independent Auditor

will coordinate the investigation with the Mayor and appropriate law enforcement officials.

## **Security of Evidence**

Once a suspected fraud is reported, the Finance Director or Independent Auditor, in consultation with the City Solicitor, shall take immediate action to prevent the theft, alteration, or destruction of relevant records. Such actions include, but are not necessarily limited to, removing the records and placing them in a secure location, limiting access to the location where the records currently exist, and preventing the individual suspected of committing the fraud from having access to the records. The records must be adequately secured until the Finance Director or Independent Auditor obtains the records to begin the audit investigation.

## **Personnel Actions**

If a suspicion of fraud is substantiated by the investigation, disciplinary action shall be taken by the Mayor, in consultation with the Personnel Director and the Finance Director or Independent Auditor.

## **Whistle-Blower Protection**

Under Massachusetts General Law Chapter 149, paragraphs 148A, 185 and 187, no employer or person acting on behalf of an employer shall:

- Dismiss or threaten to dismiss an employee
- Discipline or suspend, or threaten to discipline or suspend, an employee
- Impose any penalty upon an employee; or
- Intimidate or coerce an employee because the employee has acted in accordance with the requirements of this policy. The violation of this section will result in discipline up to an including dismissal in accordance with the applicable federal, state, and local administrative laws.

## **Media Issues**

Any City employee or elected official contacted by the media with respected to an audit investigation shall refer the media to the Mayor's Office at 978-619-5600. The alleged fraud or audit investigation shall not be discussed with the media by any person other than the through the Mayor's Office.

If the Finance Director or Independent Auditor is contacted by the media regarding an alleged fraud or audit investigation, they will consult the Mayor, before responding to a media request.

Neither the Finance Director nor Independent Auditor will discuss the details of any ongoing fraud investigation with the media that may compromise the integrity of the investigation.

## **Documentation**

At the conclusion of the investigation, the results will be reported to the Mayor and others as determined necessary. If the report concludes that the allegations are founded, the report will be forwarded to the Office of the District Attorney and/or the Salem Police.

## **Completion of the Investigation**

Upon completion of the investigation, including all legal and personnel action, any records, documents and other evidentiary material will be returned by the Finance Director or Independent Auditor to the appropriate department.

## **Training**

New employees are trained at the time of hiring about the City's Code of Conduct and Fraud Policy. This training explicitly covers expectations of all employees regarding

- Their duty to communicate certain matters;
- A list of the types of matters, including actual or suspected fraud, to be communicated along with specific examples; and
- Information on how to communicate those matters.

# Capital Improvement Program

# Capital Improvement Program Mayor's Message

## Goals of the Capital Improvement Program (CIP)

The City of Salem relies on a capital improvement program and capital budget to ensure that capital needs are being addressed in a responsible manner based on priority and thoughtful planning. A capital improvement program is a critical component of the capital improvement budget and the overall budget strategy. By formalizing a capital plan and capital budget, the City of Salem has the ability and knowledge to address deferred maintenance issues that have been postponed and ignored in prior years, as well as plan for the future needs of the City.

When considering funding items in the Capital Improvement Program, the City strategically pursues available options from grants at the state and federal levels, and also utilizes monies available from water and sewer retained earnings to avoid the issuance of long term debt for certain projects that can be covered in full by such retained earnings. From a financing perspective, priority is given to projects with grant revenues or other matching funds to offset the costs of borrowing.

Addressing capital needs when appropriate will assist the City in reaching many of its longer-term goals such as reducing fuel consumption, decreasing deferred maintenance costs, reducing heating and electricity expenses, and creating efficiencies by means of technological advances and automation. As important, a sound capital improvement program will continue to ensure that our facilities, equipment and vehicles are safe, energy efficient and operable at all times to deliver top-notch services to the City's residents.

## Goals of the Mayor – FY2023 Capital Improvement Program (CIP)

The Mayor's main goals are to improve the overall planning and budget process for addressing capital needs and to ensure accountability as it relates to implementation of capital work projects. Our early efforts focused on overhauling and renovating neglected parks, playgrounds and recreational spaces, as well as a full assessment of roadway, sidewalk and utility infrastructure conditions which enabled us to begin implementation of a comprehensive strategy to address long overdue maintenance needs in these areas. Priority is given to projects that can use grant funds to help offset overall costs of projects, or in some cases, fund an entire project. Otherwise, projects are ranked based upon priority as well as the ability to stabilize long term operational costs.

## FY2023 Capital Improvement Program (CIP) – highlights of proposed CIP and FY2023 Capital Budget

For FY2023, the Mayor and Finance Director have created a capital plan that is fiscally responsible and transparent. The plan includes a particular focus on asset preservation, replacement of apparatus and equipment, and continued improvements to the City's historic infrastructure.

The FY2023 capital improvement plan reflects a continued commitment to addressing aging infrastructure and improving the appearance of our City overall. Investments in playground upgrades, traffic calming, parking infrastructure, roadway improvement, technology initiatives, also including computer hardware, various departmental vehicles and equipment, as well as building repairs and maintenance.

# Capital Improvement Program Overview

A capital improvement program (CIP) is a blueprint for planning a community's capital expenditures. A CIP is typically a multi-year plan identifying capital projects and equipment to be funded during the planning period. A CIP is composed of two parts, a capital program and a capital budget. The capital program is a plan for capital expenditures that extends out past the capital budget. The capital budget is the upcoming year's spending plan for capital items.

Developing a CIP that will ensure sound financial and capital planning requires effective leadership and the involvement and cooperation of all municipal departments. A properly developed CIP will help the City in many ways such as enhancing a community's credit rating, stabilizing debt service payments, and identifying the most economical means of financing capital projects. It will also help increase opportunities to obtain federal and state aid and help avoid duplication by overlapping governmental units.

The City has several ways to finance its CIP, including state and federal grants, appropriations from the City's Capital Outlay account, capital leases, and long-term borrowing. Depending on the cost and the useful life, the Finance Director will make recommendations to the Mayor for funding the City's capital needs.

Capital leases are often three years or less and are built into the operating budget. Capital leases are often used for items such as school buses, office equipment, and other items that may not last five years in useful life. The City's Capital Outlay account typically funds items under \$25,000 but can be used to fund items over \$25,000 if it is deemed prudent. Funding cap-

ital improvements through the Capital Outlay account is beneficial because there is no borrowing or interest costs; you simply pay for the item in the year that it is purchased. Many of the City's capital items over \$25,000 require long-term borrowing as authorized by a 2/3rd vote of the City Council upon recommendation of the Mayor. Long term bonding helps spread the costs of expensive capital improvements over their full useful life (per MGL Chapter 44/7 and Chapter 44/8).

The CIP dovetails into the City's five-year financial forecast for planning purposes. The CIP has to be worked into the operational part of the budget so that both the operational and capital needs of the municipal departments are met on a year-to-year basis. Oftentimes the CIP suffers as fixed costs such as health insurance and retirement assessments continue to rise which places further pressure on the operational budget. However, it is incumbent upon the Mayor and Finance Director to ensure that both the operating budget and CIP are reasonable and attainable to ensure fiscal stability within the limitations of Proposition 2 ¾.

## What is a Capital Asset?

Capital items are tangible assets or projects with a value of \$25,000 or more and must have a depreciable life of five (5) or more years.

Examples of Capital Assets are DPW equipment, Buildings (purchase or major renovations), water and sewer infrastructure. Items that are NOT capital assets include services, painting rooms or buildings, books, field maintenance, routine building maintenance.

## City wide aerial imagery and software that documents changes in parcels

**Department:** Assessor

**Project Number:** 23069

**Division:** Gov't/Finance/IT

**Location:** Citywide

**Street or Building:** 93 Washington St.

**Strategic Goals:** Economic Development  
Affordable Housing

**Description:** Aerial images captured with 3 plane flyovers per year to track and identify changes to parcels and historical dataset. This will assist with capturing growth and non permitted changes along with help conducting virtual inspections that are more common due to pandemics and property owners refusing inspections that are mandated by the state. A great benefit of this program is it could also be used by other departments such as Police, Fire, Health, DPS, Engineering, Planning and Building Dept (the Planning department along with IT and the GIS administrator are supportive of NearMap and are in talks for future city wide use with possibly Engineering Dept providing for that portion of the cost with their budget). There are over 60 municipalities in MA that are using the software programs (Nearmap and Pushpin). Neighboring municipalities all swear by it and have told me they have captured hundreds of thousands in value growth. Even the Local Assessment Bureau Chief at the Department of Revenue swears by this software when he was the Assessor for the town of Melrose.

**Request Type:** New

**Category:** Other

**Useful Life:** 10+

**Phase:** 1 - Concept

**Total Cost:** \$12,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$12,000	\$0	\$0	\$0	\$0

## Just appraised software for entering deeds.

**Department:** Assessor  
**Project Number:** 23070  
**Division:** Gov't/Finance/IT  
**Location:** Downtown  
**Street or Building:** 93 Washington St.  
**Strategic Goals:** Improved Maintenance  
 Sustainability

**Description:** Just appraised software is used to enter and code out sales transactions in our CAMA system. This will save our staff time and correct any manual inaccuracies while coding out the non-arms length transactions that are used when doing the sales analysis every year.

**Request Type:** New  
**Category:** Annual Maintenance  
**Useful Life:** 10+  
**Phase:** 1 - Concept  
**Total Cost:** \$14,800

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$14,800	\$0	\$0	\$0	\$0

## ADA Compliance and Associated Improvements

**Department:** Building

**Project Number:** 21241A

**Division:** Gov't/Finance/IT

**Location:** Downtown

**Street or Building:** Various Building Dept.

**Strategic Goals:** Accessibility

Improved Maintenance

Historic Preservation

Sustainability

**Description:** This is based upon the Facility Dude condition analysis & ADA assessment that were conducted in the last 5 years. This would provide annual funding for small repairs, upgrades, furnishings and replacements for City Hall and City Hall Annex. This is for both ADA and non-ADA related items that are associated with an ADA compliance project. Should be completed by FY24, estimated \$50-60k to finish small compliance issues.

**Request Type:** Repair/Maintenance

**Asset Condition:** Fair

**Category:** Annual Maintenance

**Useful Life:** 10+

**Phase:** Annual

**Total Cost:** \$110,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$70,000	\$30,000	\$30,000	\$0	\$0	\$0

# Annual Priority Small Repairs, Upgrades, FF&E & Associated Improvements

**Department:** Building

**Project Number:** 22900A

**Division:** Gov't/Finance/IT

**Location:** Downtown

**Street or Building:** City Hall

**Strategic Goals:** Improved Maintenance

Historic Preservation

Sustainability

**Description:** This would provide money for small repairs and improvements identified in previous studies, as well as funds for emergencies and studies for larger emergent projects. This also includes funds for office reconfigurations, improvements, and upgrades at City Hall and City Hall Annex, including Sustainability, Engineering, Treasurer and others as needed. FY23 is higher to address office reconfigurations.

**Request Type:** Repair/Maintenance

**Category:** Annual Maintenance

**Useful Life:** 10+

**Phase:** Annual

**Total Cost:** \$250,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$75,000	\$25,000	\$50,000	\$50,000	\$50,000

## City Hall Phased Short Term Priority Improvements

**Department:** Building  
**Project Number:** 23566P  
**Division:** Gov't/Finance/IT  
**Location:** Ward 2  
**Street or Building:** City Hall  
**Strategic Goals:** Improved Maintenance  
 Historic Preservation  
 For All Ages

**Description:** Existing carpets, paint, plaster, shades and office furniture (cubes, counters, etc.) are in poor condition in some areas of City Hall. This request would include plaster, paint, shades, and some other improvements. It is expected that this may be phased over several years, depending on other projects at City Hall such as MEP work.

**Request Type:** Replacement  
**Asset Condition:** Poor  
**Category:** Building Project  
**Useful Life:** 10+  
**Phase:** 1 - Concept  
**Total Cost:** \$135,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$85,000	\$55,000	\$0	\$0	\$0

# City Hall Long Term Restoration Study

**Department:** Building

**Project Number:** 23567P

**Division:** Gov't/Finance/IT

**Location:** Ward 2

**Street or Building:** City Hall

**Strategic Goals:** Accessibility  
 Improved Maintenance  
 Historic Preservation  
 Sustainability  
 For All Ages  
 Increased Safety

**Description:** This would be a study to determine the scope and cost of larger renovations. Electrical and mechanical renovations would be studied within the comprehensive energy project, however, this study will complement it concerning architectural renovations. Spatial review, architectural, and coordination with other consultants.

**Request Type:** Replacement

**Asset Condition:** Fair

**Category:** Building Project

**Useful Life:** 20+

**Phase:** 1 - Concept

**Total Cost:** \$400,000

**Five Year Capital Plan**

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected

## High Speed Scanner for Voting and Multilanguage Software

**Department:** Clerk  
**Project Number:** 23053  
**Division:** Gov't/Finance/IT  
**Location:** Citywide  
**Street or Building:** City Hall  
**Strategic Goals:** Accessibility

**Description:** Will be used to process all absentee/early voting ballots for early opening and depositing for when vote-by-mail becomes permanent, includes funding for updated program software. Municipalities are now required to have multi-language resources including but not limited to bilingual poll workers.

**Request Type:** New  
**Asset Condition:** Does Not Exist

**Category:** Equipment  
**Useful Life:** 5+

**Phase:** 1 - Concept  
**Total Cost:** \$32,000

### Five Year Capital Plan

## Vital Records Books - Preservation

**Department:** Clerk  
**Project Number:** 23569P  
**Division:** Gov't/Finance/IT  
**Location:** Ward 2  
**Street or Building:** City Hall  
**Strategic Goals:** Historic Preservation  
 For All Ages  
**Description:** Funding to repair or rebind old vital record books for preservation and future use. This will be funded through CPA and other grants.  
**Request Type:** Repair/Maintenance  
**Asset Condition:** Poor  
**Category:** Other  
**Useful Life:** 5+  
**Phase:** 1 - Concept  
**Total Cost:** \$30,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$15,430	\$0	\$0	\$0	\$0

## ADA walk signal buttons

**Department:** Electrical

**Project Number:** 21236A

**Division:** Public Safety

**Location:** Citywide

**Street or Building:** various

**Strategic Goals:** Accessibility  
Improved Transportation

**Description:** This is an annual appropriation to support the installation of ADA Walk signals at various locations around the City. The current priorities are: (1) MBTA station at Washington St./Bridge St.; (2) Mill Hill at Canal St./Washington St.; (3) New Derby St. at Washington St./Normal St.; (4) Margin St. at the Post Office crosswalk; and other identified annually.

**Request Type:** Replacement

**Category:** Life Safety

**Phase:** Annual

**Total Cost:** \$125,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$10,000	\$20,000	\$25,000	\$25,000	\$25,000	\$25,000

## FORD F 650 AREAL/BUCKET TRUCK

**Department:** Electrical

**Project Number:** 22026E

**Division:** Public Services /Infrastructure

**Location:** Citywide

**Street or Building:** Electrical Dept.

**Strategic Goals:** Accessibility  
 Improved Transportation  
 Increased Safety

**Description:** Replacement of current, aging bucket truck; current vehicle is a 1992 model, and parts are not available. Replacement takes at least a year to deliver once ordered.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Category:** Transportation

**Useful Life:** 20+

**Phase:** 1 - Concept

**Total Cost:** \$175,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$175,000	\$0	\$0	\$0	\$0

## Citywide Seawall Improvements and Studies

**Department:** Engineering Municipal  
**Project Number:** 10235  
**Division:** Public Services /Infrastructure  
**Location:** Citywide  
**Street or Building:** N/A  
**Strategic Goals:** Improved Maintenance  
 Historic Preservation  
 Resiliency  
 Economic Development  
 Affordable Housing  
 Recreation  
 Wildlife

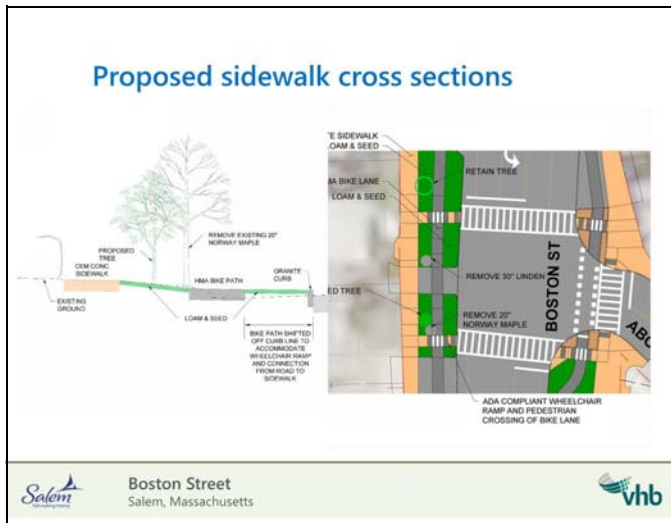

**Description:** These funds are for repairs and small improvements to seawalls. It can also be used for preliminary studies for larger projects to help develop cost estimates and apply for grants. This includes assessment for Lead Mills structures.

**Request Type:** Preventative Maintenance  
**Asset Condition:** Fair  
**Category:** Annual Maintenance  
**Useful Life:** 20+  
**Phase:** Annual  
**Total Cost:** \$1,800,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$300,000	\$50,000	\$100,000	\$100,000	\$100,000	\$100,000

# Boston Street Complete Upgrade - Design

**Department:** Engineering Municipal

**Project Number:** 17078

**Division:** Public Services /Infrastructure

**Location:** Ward 4

**Street or Building:** Boston Street

**Strategic Goals:** Accessibility

Complete Streets

Sustainability

Improved Transportation

Economic Development

Affordable Housing

Recreation

Increased Safety

**Description:** This street is in very poor condition, near failure. Currently, the project is in design, which is funded by the City to keep the project on the State Transportation Improvement Program ("TIP") list. Construction is expected to be funded by the state once approved. Construction is in a separate row.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Category:** Transportation

**Useful Life:** 20+

**Phase:** 4 - Design

**Total Cost:** \$2,000,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$842,000	\$210,000	\$948,000	\$0	\$0	\$0

## Essex Street Roadway & Townhouse Sq.

**Department:** Engineering Municipal

**Project Number:** 17086

**Division:** Public Services /Infrastructure

**Location:** Downtown

**Street or Building:** Essex Street

**Strategic Goals:** Accessibility

Complete Streets

Improved Maintenance

Improved Transportation

**Description:** The project has started, however, due to the escalation in construction costs, the contingency funds are low and additional funding is required. This will allow the City to address unforeseen conditions.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Category:** Transportation

**Useful Life:** 20+

**Phase:** 6 - Implementation

**Total Cost:** \$2,150,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$2,125,000	\$200,000	\$0	\$0	\$0	\$0

# Transfer Station Clean Up Phase 2 Capping

**Department:** Engineering Municipal

**Project Number:** 17091

**Division:** Public Services /Infrastructure

**Location:** Ward 3

**Street or Building:** Transfer Station

**Strategic Goals:** Resiliency

Economic Development

Wildlife

**Description:** The transfer station is under a DEP Administrative Consent Order for clean up. Contamination is the result of former operations by the City. This project is finalizing design at this time. The City is currently evaluating options for future use of the site.

**Request Type:** Major Renovation

**Asset Condition:** Failed

**Category:** Other

**Useful Life:** 30+

**Phase:** 4 - Design

**Total Cost:** \$5,750,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$2,250,000	\$2,200,000	\$0	\$0	\$0	\$0

## McGrath Park Soils Remediation -

**Department:** Engineering Municipal

**Project Number:** 18101

**Division:** Park/Recreation /Community Service

**Location:** Ward 4

**Street or Building:** McGrath Park

**Strategic Goals:** Improved Maintenance

Economic Development

Affordable Housing

Wildlife

Increased Safety

**Description:** Phase 1 of this project was to remediate the main parcel. However, additional contamination was found along the boundaries with other properties; additional funding is required in order to complete the project.

**Request Type:** Replacement

**Asset Condition:** Failed

**Category:** Other

**Useful Life:** 30+

**Phase:** 4 - Design

**Total Cost:** \$4,500,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$1,900,000	\$300,000	\$1,300,000	\$0	\$0	\$0

# Citywide Roads, Sidewalks, and Crosswalk Improvements (Non-Chapter 90)

**Department:** Engineering Municipal  
**Project Number:** 20105  
**Division:** Public Services /Infrastructure  
**Location:** Citywide  
**Street or Building:** N/A  
**Strategic Goals:** Improved Maintenance  
 Resiliency  
 Improved Transportation  
 Economic Development  
 Recreation  
 Increased Safety

**Description:** Pavement, sidewalk, and road improvements throughout the City included in pavement management plan. This fund is also used for other road/sidewalk related needs that occur during the year. Other funds come from National Grid mitigation related to trench restoration.

**Request Type:** Replacement  
**Asset Condition:** Fair  
**Category:** Transportation  
**Useful Life:** 10+  
**Phase:** Annual  
**Total Cost:** \$7,500,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$2,300,000	\$1,686,000	\$1,500,000	\$1,500,000	\$1,500,000	\$1,500,000

## Citywide Roads, Sidewalks, and Crosswalks (Chapter 90)

**Department:** Engineering Municipal  
**Project Number:** 201055  
**Division:** Public Services /Infrastructure  
**Location:** Citywide  
**Street or Building:** N/A  
**Strategic Goals:** Accessibility  
 Complete Streets  
 Improved Maintenance  
 Art/Culture  
 Sustainability  
 Resiliency  
 Improved Transportation  
 Economic Development  
 Recreation  
 Increased Safety

**Description:** This is the annual appropriation from the State for roads, sidewalks and crosswalks. A paving and sidewalk schedule is used each year.

**Request Type:** Replacement  
**Asset Condition:** Fair  
**Category:** Transportation  
**Useful Life:** 10+  
**Phase:** #NO MATCH  
**Total Cost:** \$3,480,000

\$0	\$197,000	\$0	\$0	\$0	\$0

## Riley Plaza Median Strip

**Department:** Engineering Municipal

**Project Number:** 23572P

**Division:** Public Services /Infrastructure

**Strategic Goals:** Resiliency  
 Improved Transportation

**Description:** This is a CDBG funded project to improve this area of the parking lot.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Useful Life:** 20+

**Phase:** 3 - Study

**Total Cost:** \$25,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$25,000	\$0	\$0	\$0	\$0

## SSES Report Implementation (eliminate I/I sources citywide)

**Department:** Engineering Sewer  
**Project Number:** 10237  
**Division:** Public Services /Infrastructure  
**Location:** Citywide  
**Street or Building:** N/A  
**Strategic Goals:** Improved Maintenance  
 Sustainability  
 Resiliency  
 Wildlife

**Description:** Funds are for the removal of sources of infiltration and inflow (I/I) from the sewer collection system is required as part of the City's actions in the Sanitary Sewer Evaluation Survey (SSES). Unnecessary conveyance of I/I reduces the capacity of the sewer collection system and increases the cost to treat wastewater.

**Request Type:** Preventative Maintenance  
**Asset Condition:** Fair  
**Category:** Water/Sewer  
**Useful Life:** 10+  
**Phase:** Annual  
**Total Cost:** \$5,500,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$900,000	\$600,000	\$600,000	\$600,000	\$0	\$0

# Citywide Drain & Sewer cleaning, inspection, replacement, engineering, GIS, construction

**Department:** Engineering Sewer

**Project Number:** 16025

**Division:** Public Services /Infrastructure

**Location:** Citywide

**Street or Building:** N/A

**Strategic Goals:** Improved Maintenance  
 Resiliency  
 Economic Development  
 Affordable Housing

**Description:** This is for upgrades, repairs, assessments, studies, and other work related to the City's sewer and stormwater system.

**Request Type:** Preventative Maintenance

**Asset Condition:** Fair

**Category:** Water/Sewer

**Useful Life:** 5+

**Phase:** Annual

**Total Cost:** \$9,250,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$1,750,000	\$400,000	\$400,000	\$400,000	\$400,000	\$400,000

# Ocean Ave Stormwater Pump Station

**Department:** Engineering Sewer

**Project Number:** 21034P

**Location:** Ward 5

**Street or Building:** Ocean Avenue

**Strategic Goals:** Improved Maintenance  
Resiliency  
Economic Development

**Description:** The Ocean Ave Stormwater Pump Station is in poor condition and needs replacement. The project has been submitted to the state for SRF loan approval. This funding is for early design costs.

**Asset Condition:** Poor

**Category:** Water/Sewer

**Useful Life:** 30+

**Phase:** 2 - Initiated

**Total Cost:** \$9,000,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$150,000	\$370,000	\$0	\$8,500,000	\$0	\$0

## Derby St. Interceptor Sewer Cleaning and Evaluation

**Department:** Engineering Sewer

**Project Number:** 22043A

**Strategic Goals:** Improved Maintenance  
Resiliency

**Description:** This project would evaluate the Derby Street Sewer interceptor. This matches funds provided by private developers to offset costs.

**Phase:** 3 - Study

**Total Cost:** \$250,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$250,000	\$0	\$0	\$0	\$0

## Point Area Neighborhood Catch Basin Screening & Improvements

**Department:** Engineering Sewer

**Project Number:** 22048P

**Strategic Goals:** Improved Maintenance  
Resiliency

**Description:** City has purchased catch basin "inserts" to reduce trash/debris from entering the drainage system and ultimately the receiving water body. These inserts would be installed in the catch basins in the Point neighborhood under this project.

**Phase:** 1 - Concept

**Total Cost:** \$100,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$100,000	\$0	\$0	\$0	\$0

## Palmer Cove Park Drain Outfall Installation of Stormwater Treatment

**Department:** Engineering Sewer  
Sustainability

**Project Number:** 23077  
23077  
Park/Recreation /Community Service  
Citywide  
Various

**Strategic Goals:** Improved Maintenance  
Recreation  
Wildlife  
Sustainability  
Recreation  
Wildlife  
Education

**Description:** Outfall does not meet water quality criteria of MS4 general permit. This project would provide an inline treatment device. City has completed prior inspections and repairs but has been unable to track and eliminate the source of the contamination.

This is annual funding, to be matched with grants and volunteer labor, to support replacing existing environmental signage or add signage. Existing signs that need replacement are at the North River. Sites for additional signage include other parks, bike paths, or other areas of Salem that have an opportunity for environmental education.

Replacement  
Art, Culture, Historic Preservation  
10+

**Phase:** 1 - Concept  
Annual

**Total Cost:** \$100,000  
\$50,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$100,000	\$0	\$0	\$0	\$0
\$0	\$7,500	\$7,500	\$7,500	\$7,500	\$7,500

## Water Distribution Main System Improvements

**Department:** Engineering Water

**Project Number:** 10026

**Division:** Public Services /Infrastructure

**Location:** Citywide

**Street or Building:** N/A

**Strategic Goals:** Sustainability  
 Improved Transportation  
 Economic Development

**Description:** This is for major infrastructure improvements to the City water system, focused on the distribution system within the City. This includes studies, project management, and construction.

**Request Type:** Preventative Maintenance

**Asset Condition:** Fair

**Category:** Water/Sewer

**Useful Life:** 20+

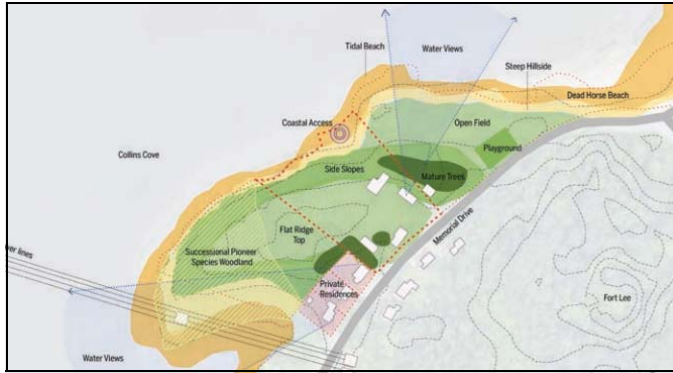

**Phase:** Annual

**Total Cost:** \$4,635,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$1,100,000	\$800,000	\$800,000	\$800,000	\$800,000	\$800,000

# Pioneer Village Relocation and Expanded Facility Phase 1: Sewer/Water/Stormwater

**Department:** Engineering Water  
 Park & Recreation

**Project Number:** 10217

**Division:** Park/Recreation /Community Service

**Location:** Ward 1

**Street or Building:** Camp Naumkeag

- Strategic Goals:** Accessibility  
 Improved Maintenance  
 Art/Culture  
 Historic Preservation  
 Sustainability  
 Resiliency  
 For All Ages  
 Economic Development  
 Recreation  
 Education

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$300,000	\$0	\$0	\$0	\$0
\$2,230,000	\$820,000	\$100,000	\$0	\$0	\$0

**Description:** The water and sewer infrastructure at the existing site is significantly deteriorated. In addition, there is no drainage systems. The site infrastructure needs investment in order to be used. This request funds assessments and capital costs associated with replacing and installing these systems.

The project will renovate the site to move the Pioneer Village to new location, including trails, interpretive signage, and other amenities. The Pioneer Village is in fair conditions, but is vulnerable to climate threats. This project would also create opportunities to expand programming to include indigenous peoples and more updated interpretations. Includes design of Phase 2 as the design of the new site needs to consider opportunities for expansion and integration with other assets in the Willows. A portion has been allocated in FY24 for FF&E/Cameras (\$100k). A portion of this (\$300k) is funded in separate CIP Water and Sewer lines for water/sewer/drainage improvements associated with the project.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Category:** Park & Recreation

**Useful Life:** 30+

**Phase:** 4 - Design

**Total Cost:** \$300,000  
 \$3,200,000

# Citywide Flushing, Valve Repair/Maintenance, Leak detection, GIS

**Department:** Engineering Water

**Project Number:** 20083

**Division:** Public Services /Infrastructure

**Location:** Citywide

**Street or Building:** N/A

**Strategic Goals:** Improved Maintenance  
 Sustainability  
 Resiliency

**Description:** This is for upgrades, repairs, assessments, studies, and other work related to the City's water system.

**Request Type:** Preventative Maintenance

**Asset Condition:** Fair

**Category:** Annual Maintenance

**Useful Life:** 5+

**Phase:** Annual

**Total Cost:** \$2,000,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected

\$0	\$300,000	\$0	\$0	\$0	\$0
\$2,230,000	\$820,000	\$100,000	\$0	\$0	\$0

**Description:** The water and sewer infrastructure at the existing site is significantly deteriorated. In addition, there is no drainage systems. The site infrastructure needs investment in order to be used. This request funds assessments and capital costs associated with replacing and installing these systems.

The project will renovate the site to move the Pioneer Village to new location, including trails, interpretive signage, and other amenities. The Pioneer Village is in fair conditions, but is vulnerable to climate threats. This project would also create opportunities to expand programming to include indigenous peoples and more updated interpretations. Includes design of Phase 2 as the design of the new site needs to consider opportunities for expansion and integration with other assets in the Willows. A portion has been allocated in FY24 for FF&E/Cameras (\$100k). A portion of this (\$300k) is funded in separate CIP Water and Sewer lines for water/sewer/drainage improvements associated with the project.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Category:** Park & Recreation

**Useful Life:** 30+

**Phase:** 4 - Design

**Total Cost:** \$300,000  
 \$3,200,000

## Court/Field and Associated Renovations

**Department:** Park & Recreation

**Project Number:** 21242A

**Division:** Park/Recreation /Community Service

**Location:** Various

**Street or Building:** N/A

**Strategic Goals:** Improved Maintenance  
Recreation

**Description:** Funding to upgrade courts/fields in city parks, including turf, repaving, painting, irrigation, etc.

**Request Type:** Preventative Maintenance

**Asset Condition:** Fair

**Category:** Park & Recreation

**Useful Life:** 10+

**Phase:** Annual

**Total Cost:** \$500,000

**Five Year Capital Plan**

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected

## Neighborhood Interpretive Signs

**Department:** Planning

**Project Number:** 22040P

**Location:** Citywide

**Street or Building:** Salem Willows, Greenlawn Cemetery, Bridge Street, Forest River Park,

**Description:** This project would continue an effort first started in 2012, when the City received a grant from the Massachusetts Historical Commission (MHC) for the design of 13 interpretive sign panels with historic images and meaningful narratives to highlight the historic significance of specific neighborhoods in Salem. Since that time, the City has installed 6 of the 13 signs through a combination of grant, CDBG and construction project funding. We are now seeking CIP funding to fabricate the remaining 7 signs. The cost of fabrication is approximately \$2,000 per sign panel for a total of \$14,000 for seven signs. This is the only cost associated with the project as the designs and bid specifications for the panels were

funded through the 2012 MHC grant. The project consists of bidding the work, awarding the contract, and proofing the sign mock-up. The signs will be installed by DPS. The project will be completed within four months of the funding.

New signs to be installed: Salem Willows, Bridge Street Neck, Greenlawn Cemetery, North Salem, Blubber Hollow, Forest River Park Neighborhood and Castle Hill

**Request Type:** New

**Asset Condition:** Does Not Exist

**Category:** Art, Culture, Historic Preservation

**Useful Life:** 15+

## Artists' Row Roof Repair

**Department:** Planning  
**Project Number:** 23021  
**Division:** Public Services /Infrastructure  
**Location:** Downtown  
**Street or Building:** Old Town Hall and Artists' Row  
**Strategic Goals:** Improved Maintenance  
 Art/Culture

**Description:** The roofs on 3 of the 6 buildings that make up artists' row are currently known to have multiple leaks. Sheet metal is rusting and pulling away from building; gutters, downspouts, and soffits are all part of the roof construction as one piece and many are rotting and falling off. Maintenance/replacement is needed to all 6 buildings' roofs in an immediate manner to prevent further dilapidation and damage to interiors. Based on on-site verbal quote from contractor we are estimating repair costs of approximately \$10,000 per roof. Written quote still pending.

**Request Type:** Repair/Maintenance  
**Asset Condition:** Failed  
**Category:** Art, Culture, Historic Preservation  
**Useful Life:** 15+  
**Phase:** 1 - Concept  
**Total Cost:** \$60,000

## Charlotte Forten Memorial Project

**Department:** Planning  
**Project Number:** 23022  
**Division:** Public Services /Infrastructure  
**Location:** Downtown  
**Street or Building:** Charlotte Forten Park  
**Strategic Goals:** Art/Culture  
 Resiliency

**Description:** The project will commission, fabricate, and install a traditional bronze figurative sculpture memorializing the life and legacy of Charlotte Forten, poet, educator, abolitionist & more; as well as an artist-designed shade structure featuring poems and writings by Charlotte, to be located in, around, & above the city park recently dedicated in her honor. The shape of this project has been forged through multiple robust community engagement endeavors which ultimately pointed us to the bronze media chosen for the monument itself. We view this process as an opportunity to both celebrate a famous Black leader in Salem’s history with the same weight and magnitude as that afforded to white men of history; as well as celebrate the larger narrative of Salem’s strong abolitionist history that often goes untold. We believe this project serves as a crucial intervention towards building collective knowledge and empowerment for Salem’s diverse community in the past, present, and the future.

**Asset Condition:** Good  
**Category:** Art, Culture, Historic Preservation

## Historic Cemetery Headstone and Tomb Conservation

**Department:** Planning

**Project Number:** 23075

**Division:** Park/Recreation /Community Service

**Location:** Various

**Street or Building:** various

**Strategic Goals:** Historic Preservation

**Description:** Salem has five historic cemeteries with a collection of slate, marble and granite headstones in varying degrees of condition (tilted, broken, fallen, delaminated). Without conservation, the city’s historic headstones may be irreparably damaged resulting in the loss of historic and cultural resources, blighted conditions in cemeteries that serve as public open spaces, and diminished respect for the memorialization of past Salem residents. Headstone conservation was identified as priority needs in the recent Broad Street Cemetery Preservation Plan and the Greenlawn Cemetery Master Plan. In addition, previous plans for Charter Street Cemetery, Howard Street Cemetery and Friends Cemetery all cited significant needs for headstone conservation.

Work to be undertaken in a phased approach with 100 headstones (\$550/headstone) targeted for conservation each year. Request for \$55,000 annually. This includes tomb restoration at Broad.

**Request Type:** Repair/Maintenance

**Asset Condition:** Poor

## Police/Fire Radio Communications

**Department:** Police

**Project Number:** 20011

**Division:** Public Safety

**Location:** Citywide

**Street or Building:** N/A

**Strategic Goals:** Improved Maintenance

Resiliency

Improved Transportation

Economic Development

Increased Safety

**Description:** This is an integrated system of towers, receivers, mobile equipment and other devices that coordinates communication for Police and Fire. Existing system is not supported anymore, cannot easily get parts. System is intermittent and sporadic which disables communications during public safety, public health, and other emergency response.

**Asset Condition:** Poor

**Category:** Equipment

**Useful Life:** 20+

**Phase:** 5 - Procurement

**Total Cost:** \$4,800,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$300,000	\$2,500,000	\$2,000,000	\$0	\$0	\$0

## Vehicle Replacement Plan - Patrol and Non Patrol -

**Department:** Police

**Project Number:** 20038

**Division:** Public Safety

**Location:** Citywide

**Street or Building:** Police Headquarters

**Strategic Goals:** Sustainability

Improved Transportation

Increased Safety

**Description:** Annual investment, including various Dept. vehicles. This is for 5 total vehicles, a number of which are hybrid.

**Request Type:** Replacement

**Asset Condition:** Poor

**Category:** Transportation

**Useful Life:** 5+

**Phase:** 6 - Implementation

**Total Cost:** \$1,000,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$400,000	\$187,000	\$200,000	\$300,000	\$200,000	\$300,000

## Cameras - Community/Police

**Department:** Police  
**Project Number:** 20039  
**Division:** Public Safety  
**Location:** Citywide  
**Street or Building:** Various  
**Strategic Goals:** Historic Preservation  
 For All Ages  
 Economic Development  
 Recreation  
 Increased Safety  
**Description:** Acts of vandalism in locations where the City has invested funds has occurred with no information for successful prosecution. Additionally, equipment will provide visual oversight for evidence for the integrity of drugs, guns, money & other valuables brought into our possession.  
**Request Type:** New  
**Asset Condition:** Does Not Exist  
**Category:** IT  
**Useful Life:** 10+  
**Phase:** Annual  
**Total Cost:** \$200,000

### Five Year Capital Plan

## Police Headquarters - Flooring replacement

**Department:** Police

**Project Number:** 23030

**Division:** Public Safety

**Location:** Ward 3

**Street or Building:** Salem Police Department Headquarters

**Strategic Goals:** Improved Maintenance  
Increased Safety

**Description:** Salem Police Headquarters was built 30 years ago and consists of rooms and spaces for administrative, auxiliary, technical, patrol and criminal investigative divisions spanning over 31,000 square feet. Due to the building being utilized 24/7, extensive wear and tear to the flooring (linoleum tile and carpeting) has occurred and it is in need of replacing. Particular areas of concern are the stairwells and other high traffic areas such as the locker rooms and hallways.

**Request Type:** Replacement

**Asset Condition:** Poor

**Category:** Building Project

**Useful Life:** 30+

**Phase:** 1 - Concept

**Total Cost:** \$190,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$150,000	\$0	\$0	\$0	\$0

## PSGP 2020 Harbor Security Camera Project Expansion

**Department:** Police

**Project Number:** 23033

**Division:** Public Safety

**Location:** Ward 1

**Street or Building:** Blaney Street Wharf

**Strategic Goals:** Accessibility  
 Increased Safety

**Description:** Funding would support the purchase of twelve harbor security to increase domain awareness, detection, response, and recovery capabilities. Eight of the cameras will be replacing existing antiquated equipment that was previously owned by a natural gas converted coal-fired powerplant and four cameras will be new installations along the recently acquired shipping berth adjacent to the Harbor. These cameras will be integrated into the existing 2005 PSGP funded Harbor camera network. Funds will cover the 25% required match (\$32,500).

**Request Type:** Replacement

**Asset Condition:** Poor

**Category:** Equipment

**Useful Life:** 10+

**Phase:** 3 - Study

**Total Cost:** \$130,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$32,500	\$0	\$0	\$0	\$0

## Small ADA Compliance and Associated Repairs

**Department:** Police

**Project Number:** 23239A

**Division:** Public Safety

**Location:** Ward 3

**Street or Building:** Salem Police Headquarters 95 Margin Street

**Strategic Goals:** Accessibility

Improved Maintenance

Sustainability

For All Ages

Increased Safety

**Description:** This funding is for small improvements and repairs as well as building FF&E at the Police station, and includes funding for studies for capital improvements.

**Request Type:** New

**Asset Condition:** Does Not Exist

**Category:** Building Project

**Useful Life:** 20+

**Phase:** Annual

**Total Cost:** \$30,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected

## ADA Improvements and Associated Repairs- DPS & Cemeteries

**Department:** Public Services

**Project Number:** 23234A

**Division:** Public Services /Infrastructure

**Location:** Various

**Street or Building:** DPS and Greenlawn

**Strategic Goals:** Accessibility

Improved Maintenance

Sustainability

Resiliency

Increased Safety

**Description:** This funding is for ADA and associated repairs at DPS facilities.

**Request Type:** Repair

**Asset Condition:** Poor

**Category:** Annual Maintenance

**Useful Life:** 10+

**Phase:** Annual

**Total Cost:** \$40,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$20,000	\$20,000	\$0	\$0	\$0

## Architectural/Interior, Site Repairs, Upgrades, Studies Schools

**Department:** School

**Project Number:** 20049

**Division:** Education

**Location:** Citywide

**Street or Building:** Schools

**Strategic Goals:** Accessibility

Improved Maintenance

Sustainability

For All Ages

Education

Increased Safety

**Description:** Includes general repairs and improvements to include carpet repairs, flooring, playgrounds, Saltonstall masonry, signage, and other improvements. This includes FF&E and studies related to school capital facility needs. Estimated based upon industry wide cost estimates of maintenance for schools and sq. ft. over 5 year period.

**Request Type:** Repair

**Asset Condition:** Fair

**Category:** Annual Maintenance

**Useful Life:** 20+

**Phase:** Annual

**Total Cost:** \$1,250,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$265,000	\$75,000	\$200,000	\$200,000	\$300,000	\$400,000

## ADA and Associated Repairs Schools

**Department:** School

**Project Number:** 20049A

**Division:** Education

**Location:** Citywide

**Street or Building:** Schools

**Strategic Goals:** Accessibility

Improved Maintenance

Sustainability

For All Ages

Education

Increased Safety

**Description:** This is the cost associated with the smaller ADA improvements in the schools as identified in the IHCD report (escalated for labor, construction escalation, and design costs)

**Request Type:** Repair

**Asset Condition:** Fair

**Category:** Annual Maintenance

**Useful Life:** 20+

**Phase:** Annual

**Total Cost:** \$1,500,000

## Replace Failed SHS Ventilation Rooftop Units

**Department:** School

**Project Number:** 23050

**Division:** Education

**Location:** Ward 3

**Street or Building:** Salem High School

**Description:** These units have failed, and provide ventilation to the auditorium. Without fixing these unit, the auditorium does not get fresh air. Numerous events are held in this space. Only 1 unit works out of 4. The team is investigating which units can be repaired versus replaced, which would bring the cost down. However, these units are no longer made, so repair is difficult. Funding would come from ESSER or ARPA grant funds.

**Asset Condition:** Failed

**Category:** Building Project

**Useful Life:** 20+

**Phase:** 1 - Concept

**Total Cost:** \$500,000

### Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$500,000	\$0	\$0	\$0	\$0

## New Liberty and Salem Prep Schools Facility

**Department:** School  
**Project Number:** 23579P  
**Division:** Education  
**Location:** Citywide  
**Street or Building:** TBD

**Strategic Goals:** Accessibility  
 Improved Maintenance  
 Sustainability  
 Education

**Description:** The existing facility is in the Museum Place Mall and costs \$330k per year in lease costs. These successful programs do not have the right space for their needs. The plan is to relocate these facilities and provide the right space for the needs, which will save the City lease costs also.

**Request Type:** Replacement

**Asset Condition:** Poor

**Category:** Building Project

**Useful Life:** 20+

**Phase:** 1 - Concept

**Total Cost:** \$1,700,000

**Five Year Capital Plan**

# Community Wide Climate Change/Watershed Model Studies Future Neighborhoods

**Department:** Sustainability

**Project Number:** 23047

**Division:** Public Services /Infrastructure

**Location:** Citywide

**Street or Building:** Citywide

**Strategic Goals:** Improved Maintenance

Historic Preservation

Sustainability

Resiliency

Improved Transportation

Economic Development

Affordable Housing

Recreation

Wildlife

Access to Food

**Description:** This request is for future climate change deep dive models, similar to that done for the Point, for other neighborhoods. The goal of each is to conduct intensive neighborhood outreach and combine coastal and rain related flooding, to come up with various alternatives to mitigate impacts. Instead of looking at each Seawall, this takes a neighborhood approach. The plan is to conduct one study every two years, with the alternate year used to finalize design for the solutions. There are at least 8 coastal areas that should get a deeper dive: Danvers River/Kernwood Area, North River (including Franklin Street and Bridge Street/MBTA), Collins Cove, Willows/Winter Island, Derby Street/South River, Point/South River (underway), South Salem/Forest River Park (to Marblehead line), Forest River Tidal (area upstream of tide gate off of Lafayette). Engineering has applied for a grant for the Collins Cove area, which if received this project would proceed.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Category:** Study Only

**Useful Life:** 30+

**Phase:** 1 - Concept

**Total Cost:** \$500,000

## Five Year Capital Plan

Previously Approved	FY23 Requested	FY24 Projected	FY25 Projected	FY26 Projected	FY27 Projected
\$0	\$200,000	\$50,000	\$0	\$75,000	\$0

## Climate Change Resiliency Project - Point - Design

**Department:** Sustainability

**Project Number:** 23048

**Division:** Public Services /Infrastructure

**Location:** Ward 1

**Street or Building:** Palmer Cove Park

**Strategic Goals:** Improved Maintenance

Sustainability

Resiliency

Economic Development

Increased Safety

**Description:** This project will continue the work of the Climate Change Deep Dive in the Point, selecting a priority project to continue into design. It is expected that CZM state grant funds will be used to supplement the project.

**Request Type:** Major Renovation

**Asset Condition:** Poor

**Category:** Other

**Useful Life:** 30+

**Phase:** 3 - Study

**Total Cost:** \$400,000

Health	Mack Park Community Farm Phase 3		\$ 94,105.00	Asset Preservation/Maintenance
IT	IT Lifecycle Management (City)	CIP Fund	\$ 190,000.00	Code Compliance
				No Impact

# Capital Improvement Policies

## Budget Policies

- The city will make all capital purchases and improvements in accordance with the adopted capital improvement program.
- The city will develop a multi-year plan for capital improvements and update it annually.
- The city will enact an annual capital budget based on the multi-year capital improvement plan. Future capital expenditures necessitated by changes in population, changes in real estate development or changes in economic base will be calculated and included in capital budget projections.
- The city will coordinate development of the capital improvement budget with the development of the operating budget. Future operating costs associated with new capital improvement will be projected and included in operating budget forecasts.
- The city will use intergovernmental assistance to finance only those capital improvements that are consistent with the capital improvement plan and priorities, and whos' operating and maintenance costs have been included in operating budget forecasts.
- The city will maintain all its assets at a level adequate to protect the city's capital investment and to minimize future maintenance and replacement costs.
- The city, as part of its capital planning process, will project its equipment replacement and maintenance needs for the next several years and will update this projection each year. From this projection, a maintenance and replacement schedule will be developed and followed.
- The city will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted to the City Council for approval.

- The city will determine the least costly financing method for all new projects.

## Debt Policies

- The city will confine long-term borrowing to capital improvements or projects/equipment that cannot be finance from current revenues.
- When the city finances capital projects by issuing bonds, it will pay back the bonds within a period not to exceed the expected useful life of the project.
- Total net debt service from general obligation debt will not exceed five (5) percent of total annual operating budget as listed on part 1a of the annual tax rate recapitulation as submitted to the Department of Revenue.
- Debt will only be issued for capital that is valued greater than \$25,000 and has a depreciable life of five (5) or more years.
- Total general obligation debt will not exceed that provided in the state statues.
- Whenever possible, the city will use special revenue funds, special assessments, or other self-supporting bonds, instead of general obligation bonds.
- The city will not use long-term debt for current operations unless otherwise allowed via special legislation.
- The city will retire bond anticipation debt within six months after completion of the project.
- The city will maintain good communications with bond rating agencies about its financial condition.
- The city will follow a policy of full disclosure on every financial report and bond prospectus.

# Departmental Budgets

# Mayor

## Mission Statement

### Why We Exist

The Mayor is the Chief Executive Officer and administrative head of the City of Salem. In that capacity, she appoints department staff and board members, submits the annual budget to the City Council, approves all financial instruments and contracts, recommends bond issues, legislation, and orders to the City Council, and represents the City with other governmental entities. As the general administrator of all City departments, she is responsible for the operations of City government in carrying out the people's work and ensuring the City's overall welfare. The Mayor serves as

Chair of the School Committee, the Board of Public Library Trustees, the Salem Harbor Port Authority, the Board of Trust Fund Commissioners, and the North Shore Coalition. The Mayor also serves on the Commonwealth's Seaport Economic Advisory Council and the Salem Housing Authority. The Office of the Mayor ensures that Salem's residents, businesses, and visitors receive the highest quality services and assistance that is available to them within the Mayor's jurisdiction. The Mayor's Office is accountable to all individuals and municipal employees within the City of Salem and provides constituent services in a concise and business friendly manner.

The goals of the Mayor's Office are closely aligned to the City's overall strategic plan goals. As the most frequently utilized portal to local government by constituents, the Mayor's Office places a high priority on customer service, responsiveness, and transparency. By seeking to reduce response times to constituent inquiries the Office aims to improve communication and maintain a high level of responsiveness and accessibility.

The Office remains deeply engaged in the City's COVID-19 response efforts. The Office is also actively involved in the implementation of performance measurement and evaluation programs, transparency and resident engagement, and other improvement initiatives. Communication and transparency are also achieved through the Neighborhood Improvement Advisory Council (NIAC) and the Salem State University Neighborhood Advisory Council (SSUNAC), which are made up of residents and are chaired by the Chief of Staff. It is also met through the deployment of innovative platforms and tools, such as SeeClickFix and the BuildingSalem public information initiative. The Mayor's Office includes the City's Latino Affairs Coordinator and LGBT Liaison, and oversees the Salem for All Ages initiative, the Mayor's Homelessness Task Force, the Scholarship and Education Committee, the Board of Trust Fund Commissioners, and the Problem Properties Task Force. The Mayor's Office develops the Mayor's annual budget and seeks to annually develop, in partnership with the Finance Department, an on-time, balanced budget and five-year capital plan that meet the GFOA's highest standards. The Mayor's Office prepares and files the Mayor's policy proposals to the City Council, including Orders, Ordinances, Resolutions, and Appointments/Reappointments. The Mayor's Office help communicate critical public information about City services, programs, projects, and other time sensitive notifications to the public.

### Goals and Objectives

- Continue and broaden efforts to address issues of housing affordability and home insecurity.
- Continue to work with the City Council on a pro-active agenda to professionalize local government and lead Salem forward.
- Continue comprehensive school improvement process for Salem Public Schools.
- Continue to enhance the management of Haunted Happenings and other special events in the City.
- Continue efforts to improve and enhance Salem's waterfront activity, parks and open spaces, residential neighborhoods, and downtown.
- Continue oversight of concurrent and planned public and private capital projects.
- Continue to offer the highest quality customer/constituent services and responsiveness.
- **How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals**

The Mayor and her staff work to advance the City's housing and economic growth goals, implementation of all City plans, and the development of new policies and projects to advance housing affordability goals to ensure Salem remains livable and welcoming to all. The Mayor and her team are very involved in the planning and execution of special events, including July 4th celebration, Heritage Days, Haunted Happenings, and other com-

community events that positively impact the local economy and build civic pride and engagement. As the chief executive officer for the City the Mayor oversees all administrative functions of the City, as carried out by departments and department heads, with the support of her office staff, including, among other work areas, human resource and hiring, contract negotiations, finance and accounting, procurement, legal and licensing, permitting and inspections, project prioritization, planning, organizational management, diversity and equity initiatives, and more. Finally, the Mayor takes an active role in ensuring public infrastructure and facilities projects are advanced; these especially include roadway improvement projects, park and open space improvements, capital facilities planning and buildings, infrastructure work, complete streets upgrades, and climate change adaptation strategies and projects.

### Significant Budget & Staffing Changes For FY 2023

None.

### Recent Accomplishments

#### COVID-19 Response

- Continued the Salem Together initiative to connect residents to community resources and coordinate volunteers.
- Launched the City's ARPA initiative, to gather public feedback and prioritize use of federal recovery funds in as effective a manner as possible.
- Continued to provide free COVID testing with both PCR and rapid test distribution for residents.
- Coordinated multiple vaccine clinics opportunities, both City-sponsored and privately organized, for residents.
- Continued innovative wastewater surveillance testing to provide advance surveillance of increased case numbers.
- Continued and strengthened one of the first pooled testing programs for schools in the nation.
- Continued daily and weekly data dashboard with between 40 and 60 metrics on cases, transmissions, deaths, vaccinations, testing, economic recovery, and community wellness, and daily update on case numbers.
- Published dedicated City websites for COVID data, health information, testing information, links to resources, and vaccination appointments.
- Created and updated continuity of municipal operations plans and safe office re-opening policy.
- Distributed thousands of pieces of free PPE to Salem businesses and seniors, as well as free rapid tests.
- Continued Economic Recovery Task Force to support and bolster small businesses through grants, technical assistance, information sharing, collaborative marketing, and more, distributing over \$1 million in direct and indirect financial assistance and in-kind aid to help the local economy.
- Helped to successfully implement the Board of Health's proof of vaccination requirement during the Omicron surge, reducing impact to local hospitals from COVID, increasing in new vaccinations, and ending in a faster reduction in new cases than the statewide rate, all of which allowed the requirement to be lifted.

- Completed Comprehensive Annual Financial Report (CAFR) in accordance with GFOA standards.
- Held City spending to 4.6% growth.
- Continued historically low change in average tax bills.
- Received twelfth Distinguished Budget Presentation Award.
- Continuation of City's 5-year financial forecast.
- Continuation of comprehensive Capital Improvement Plan.
- Reconfirmation of bond rating upgrade by Standard & Poor's to AA, the highest level on record for the City.
- Improving Government
- Continuation of Neighborhood Improvement Advisory Council, Scholarship and Education Committee, and Board of Trust Fund Commissioners.
- Completed the work of the Race Equity Task Force in publishing the City's first Race Equity action plan, resulting in a new permanent Race Equity Commission and the hiring of the City's first Director of Diversity, Equity, and Inclusion.
- Continued support and promotion of the Salem Tree Fund, Salem Athletics Fund, and the Salem Relief Fund for residents facing economic distress after disasters, including from the pandemic.
- Continued the work of the Salem Affordable Housing Trust Fund Board on affordable housing policies and projects.
- Continued participation in joint Salem/Beverly Homelessness Task Force and Salem's local Homelessness Task Force.
- Continued internal Problem Properties Working Group and participation in the Attorney General's Abandoned Housing Initiative.
- Continuation of the Salem for All Ages Task Force and Leadership Council, which completed Year 5 implementation of the Salem for All Ages action plan.
- Continued Salem for All Ages website, social media presence, and updated resource guide, which is mailed to all Salem residents when they turn 65 years old.
- Continued the Building Salem public information initiative.
- Updated *New Resident Guide* in English and Spanish and continued regular mailing to new Salem homeowners.
- Continued transparency initiative of posting of board and committee vacancies weekly on the City website, in English and Spanish.
- Continued transparency initiative of posting Mayor's filings with the City Council on website before every regular City Council meeting.
- Continued annual online Resident Survey in English and Spanish and compiled/analyzed results.
- Continued the *FYI Salem* newsletter of City updates and information.
- Continued the *FYI Salem* podcast.
- Encouraged broader civic engagement through appointments to City boards and commissions.
- Continued preparing for relaunch to the Salem Stat program to collect and analyze performance measures in various departments.
- Participated again in the Human Rights Campaign's Municipal Equality Index, scoring 100 for another year in a row.
- Continued planning for achieving Welcoming City status.
- Continued tools for capital planning, facility maintenance, and tracking accessibility projects.
- Continued and grew official City of Salem accounts on Facebook, Twitter, Instagram, Nextdoor, and LinkedIn.
- Continued implementation of SeeClickFix work order and CRM tool for City workers.
- Advanced plans for 3-1-1 service through piloting of online A.I. chatbot tool.
- Published online GIS tools for neighborhood traffic calming data, coyote information, and other public information.
- Updated online Snow Emergency webpage with maps, guides, contact information, and other resources.
- Continued *Imagine Salem* visioning initiative in anticipation of the 400th Anniversary in 2026 and the Signature Parks initiative.

- Continued advocacy for South Salem MBTA commuter rail station.
- Working with community stakeholders developed next round of City CPA applications.
- Continued process of reuse of vacant state court buildings and SSU South Campus to ensure productive reuse for the community.
- Continued the on-demand "Salem Skipper" City shuttle service.
- Oversaw repaving of multiple City streets.
- Continued study on future options related to the DPW building and the Transfer Station site.
- Completed improvements to Bertram Field and Forest River Park.
- Continued implementation or planning for improvements to Salem Willows, Palmer Cove, and Mansell Field.
- Completed complete streets project to improve Bridge Street/Boston Street area and finalized plans for Essex Street project and North Street project.

- Secured MassWorks grant for major road and sidewalk improvements in the Point neighborhood.
- Continued design phase for Boston Street Roadway Improvement Project.
- Worked with MassDOT on design phase of upgrades to Route 107/Highland Avenue.
- Continued neighborhood traffic calming program.
- Completed major capital upgrades to City parking facilities, including waterproofing, stairwells, elevator repair, and security/safety systems.
- Cleaning of storm water/sewer siphons, completion of planned leak detection and valve exercising to address water infrastructure challenges.
- Continued installation of bicycle infrastructure and launched Salem Bluebikes bike share program.
- Continued Salem PowerChoice electrical aggregation program, saving Salem residents on their electric bills and reducing the community's carbon footprint.
- Other Accomplishments
- Supported job creation and retention through private business expansion and job readiness programs.
- Continued implementation of the Point Vision and Action Plan, Salem for All Ages Plan, Historic Preservation Plan, Public Art Master Plan, and Open Space and Recreation Plan.
- Co-chaired participation in the By All Means education initiative through Harvard's Graduate School of Education and continued the Our Salem, Our Kids initiative.
- Continued chairing the Salem Children's Cabinet.
- Continued Mayors for Equality to combat discrimination against LGBTQ individuals.
- Continued efforts to support and grow Mack Park Food Farm and other food security, urban agriculture, and healthy eating initiatives.
- Completed Salem Safe Routes to Schools project supporting the Bates Elementary School community.
- Worked with Salem Chamber of Commerce and Main Streets to organize and promote the Salem Farmers Market and other community and business events.
- Managed safe and successful Haunted Happenings.
- Continued harbor planning process and convened Harbor Plan Committee.
- Began planning efforts for the Vineyard Wind offshore wind marshaling site project.

- Launched new Charter Street Cemetery Welcome Center in partnership with PEM as part of completion of the Charter Street historic preservation and landscape improvement project.
- Worked with the Salem Housing Authority to plan for capital improvements to Lee Fort Terrace and Pioneer Terrace.
- Convened a stakeholder group to help provide feedback to Shetland Park owners regarding the redevelopment of that private property.
- Continued public investments in the Salem Common, Salem Willows, Forest River Park, Palmer Cove Park, and Camp Naumkeag/Pioneer Village in fulfillment of the Signature Parks initiative goals.
- Received numerous grants for programs, public safety, recreation, parks and playgrounds, transportation and infrastructure needs, historic preservation, planning, energy initiatives, and more.
- Established the City's new Department of Sustainability, Energy, and Resilience and advanced ordinances to green municipal buildings, foster more urban agriculture, and increase alternative transportation and renewable energy options for residents.
- Advanced housing agenda measures to help Salem meet its community housing goals, including launching the Housing Road Map, successfully passing an accessory dwelling unit ordinance, and advancing the first steps for a new tenant protection/condominium conversion ordinance.

## City Council

### Mission Statement Why We Exist

As Clerk of the City Council attends all regular, special and public hearing meetings, serves as parliamentarian, records the action taken by the City Council, roll call votes, prepares and distributes agendas using experienced and discretion regarding proper form, Completes Minutes as well as posting and indexing of Council minutes, advertising of all ordinances as required by City Charter, processes and forwards Council matters to proper departments and agencies in accordance with the votes of the City Council. Maintain all minutes of the Council Committees. Prepare paperwork for all committee and scheduling of all Committee meetings with invitations to invitees. Prepares and Posts all meeting notices and Agendas.

### Goals and Objectives

- Researching Agenda and Minutes Management Software. Have had virtual meetings with two companies, Civic Plus and Escribe who offer this service and received quotes from both. The last demonstration from Prime Gov will take place on Monday, March 14, 2022.
- Working with IT to obtain city owned laptops for Councillors when begin hybrid meetings.
- Setting up shared drives with the Committee Chairs and Councillors to access the documents when needed.
- Researching transcription services for meeting minutes i.e., Temi, Trint, Revcom
- Continue to place similar council orders together to reduce time and number of roll call votes to be taken.
- To continue to restore and repair Council Furniture. Second Life has submitted a proposal to restore additional chairs and tables in the Council Chambers used by the public.

- Review ordinances pertaining to licenses/permits/applications to see if any need updating to reflect current times, changes and to speed up the licensing time frame.
- Reduce paper copy supplements for ordinances book since they can be found on-line with newly adopted ordinances as they are passed.
- Continue to archive Council records for safe keeping.
- To preserve older Council Books by having them rebound and restitched if necessary.
- Continue to digitize current Council minutes to make accessible to the public to research.
- To re-organize Council Records in the upstairs and downstairs vault for easier accessibility.
- Place additional applications and forms online.
- Researching the ability to add the City Council sub-committee meetings audio recordings to the website.
- Sending all Ordinances to Municipal Code as they are passed so the website reflects the most up to date information.
- Keeping up to date on all Council Meeting Minutes.
- Continue to add information and documentation on agendas and in the minutes in order to improve transparency with citizens.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- Purchasing new agenda software will reduce the amount of time it takes to put the agenda together and should allow for the flow of items after the meeting to be processed quicker.
- Councillors having access to laptops will allow for less paperwork to be generated and to be able to view the agenda documentation and

backup simultaneously and also at the time the agenda matter is in front of them.

- Setting up shared drives will allow the Committee Chairs to keep organized and also allow all Councillors access to documentation.
- Using either minutes software or a transcription service will allow for minutes to be produced quicker and placed on the website sooner.
- Consent agendas will help reduce the amount of time and roll call votes for City Council Meetings.
- To restore the antique furniture in the Council Chambers will bring back the splendor of this room. And will keep the public safe from injuries.
- Reviewing ordinances to update will help streamline some processes and make it quicker for licenses to be acquired.
- Reducing number of hard copy supplements will reduce costs, carbon footprint, and save space.
- Maintaining and Archiving Council Records will preserve them for the future.
- Digitizing current and future Council meetings will allow for the public to search and access what they need without having to come into City Hall.
- More licenses on-line will make it more accessible and convenient for customers to download applications. Help to deliver city services more efficiently and effectively through the use of technology.

- Adding audio recording of Council & Subcommittee Meetings to the website and/or SATV will allow the public to acquire audio own their own. By improving this technology will improve citizen access to information more efficiently and effectively.

### **Significant Budget & Staffing Changes For FY 2023**

Five new Councillors were elected in November 2021. The Inauguration was held remotely on January 3, 2022. Councillor Patricia Morsillo was elected Council President for the calendar year 2022. The chairpersons of the standing subcommittees are as follows: Councillor McCarthy, Chair of Administration & Finance, Councillor Dominguez, Chair of Community and Economic Development, Councillor Hapworth, Chair of Government Services, Councillor Riccardi, Chair of Ordinances, Licenses and Legal Affairs, and Councillor Prosniewski, Chair of Public Health, Safety & Environment.

### **Recent Accomplishments**

- Due to the spike in the Coronavirus Pandemic, had to pivot three times while planning the Inauguration of the Elected Officials. Worked with the Mayor, members of her staff and incoming President Councillor Morsillo to discuss the logistics of the Inauguration before deciding to go fully remote. Despite not being in-person, it went very well.
- Informed newly elected Councillors of upcoming trainings I found that may be of interest to them including, In-Person MMA Newly Elected Councillor Training, Zoom training on Open Meeting Laws held by the Attorney General's Office (since I contacted them to do one in person which they did not do at the time), Zoom training on Campaign Finance Reports.

- Attended the in-person Newly Elected Councillor Training in Marlborough, MA on Dec. 4, 2021. Five of our Councillors also attended.
- Organized a Parliamentarian Workshop by first researching persons who may qualify. This workshop was held on December 5, 2021 for all Councillors. Ten of our Councillors came to the class. Hired Joanna Gonsalves who works at SSU as a Professor of Psychology & Interim President. She was previously Alderman-at-Large on the Woburn City Council for eight years and was an active member of the Massachusetts Municipal Association's Committee on Regional and Municipal Administration.
- Worked with IT to set up new email addresses for the newly elected and to remove old email addresses.
- Worked with IT and SATV in order to move to hybrid meetings going forward in order to keep accessibility and transparency to the public. Worked on various audio and visual issues until resolved.
- Sending SATV the zoom subcommittee videos to put on their YouTube page.
- Added a link to the City Council Webpage to bring you to SATV's YouTube page.
- Demonstration of Agenda Management Software to implement for future use. As of today, two of three companies have given a demonstration of their product in order to make a decision.
- The 10 City Council Desks in the Chambers along with their Council Chairs were repaired, restored and preserved to their natural beauty
- The City Council Website is in ADA compliance.

# City Clerk

## Mission Statement Why We Exist

The position of City Clerk in the Commonwealth of Massachusetts was originally modeled after a similar position in England. City Clerks are required to exercise wide authority and have extensive responsibilities. The City Clerk holds department head status, and serves as custodian of city records, supervision of the recording and reporting of vital statistics (births, deaths, and marriages). The Clerk certifies copies of records and ordinances. Supervises the issuances of permits and licenses in accordance with State Laws and Ordinances, such as marriage intentions and licenses, dog licenses, Auctioneer, Beano, Contract Operator, Drainlayer, Public Guide, Junk Dealer, Pawnbroker, Photographer, Raffles, Seaworms, Second Hand Valuable, Secondhand Clothing, Taxi Operator, Taxicab, Limo, Pedi Cab, Horse-drawn Carriages, Trolleys and Yard Sales. Administers the oath of office to elected and appointed City officials for all City Departments, Boards and Commissions and attests all official documents of the City with the City Seal. The City Clerk is a member of the Board of Registrar of Voters and Chief Election Official for all elections. In addition, other duties and responsibilities under the City Clerk include maintaining and processing Non-Criminal citations, filing cash report to Treasurer. Processes Claims and maintains tracking form for Council Committee. Sends letters to claimant on approved or denied claims. Notifies Solicitor’s office of claims.

## Goals and Objectives

- Continue using on-line marriage software to allow couples to complete their marriage intentions without coming into City Hall. This software

will also allow for my staff to create a marriage license and marriage certificate from their computer as well eliminating the need to type these forms.

- Will work with IT to add additional licenses and applications involving fees to View Permit.
- Continue to update and maintain information on the city's website in reference to the City Clerk's office.
- Continue to archive all vital records to preserve them permanently.
- Updating the City Manual for publication.
- Upload more forms, applications, and information on-line and to make sure these postings are accessible.
- Promote the City Clerk's Office by attending city functions.
- Attend more MA City Clerk's Conferences and Meetings either by zoom or in person.
- Repairs to City Clerk's offices i.e., painting, rugs, pipes, ceilings, walls, etc.
- Purging of additional records per MA retention laws.
- Creating a Face Book Page or other social media for the City Clerk's office within our policies and laws.
- Continue to provide courteous and accurate information to customers.

**How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals**

- By adding licenses to view permit will allow the public to fill out the required forms and pay online without having to come into city hall.
- The online marriage software will reduce the time the couple has to spend in city hall, they will be able to do it on their own time and reduce the time the staff must spend with them. A marriage license and certificate will all be down from this information provided without us having to create it saving time and less errors will be made by not having to re-type information.
- Increasing accessible information on the website will allow the public to search and obtain information quicker.
- Repairing of Office walls, ceilings, rugs, painting will make the rooms healthier and safer for the employees.

- Promotion of City Clerk's Office will help all residents learn what we do and feel more comfortable to interact with our offices.
- Using Social Media will help get information pushed out to the public instead of them searching for information.

**Significant Budget & Staffing Changes For FY 2023**

Increase in pay for City Clerk & Assistant City Clerk. – Council

Seeking one Part-Time employee to help with maintaining and updating website for City Council, City Clerk and Elections and other social media outlets to also help with elections and City Council agenda and processing.

**Recent Accomplishments**

- Distributed the Annual Conflict of Interest Summary Law and on-line ethics training to all Department Heads this year by email as well as to all Staff Liaisons to distribute to their board and commission members.
- Able to hire 2 full time Asst. Registrars due to vacancies acquired by a retirement and a lateral move.
- By obtaining remote access for the staff, they were able to keep up on processing vital records and other licenses and matters.
- Website is in ADA compliance.

## Elections & Registrations

### Mission Statement Why We Exist

The City Clerk serves as the Clerk to the Board of Registrars of Voters, officiates elections and establishes procedures to be followed by election officials at each precinct, oversees registration of voters, prepares computer reports on election returns and prepares election materials of voting precincts. Also organizes the set-up of precincts and maintains handicapped accessibility of all voting locations, supervises staff, issues nominations papers to local candidates, certifies signatures of voters signing nomination papers and initiative petitions for state ballot questions. We are also responsible for the mass mailing of the citywide census, maintaining the database and notifying mailing non-respondents voter confirmation cards.

### Goals and Objectives

- To purchase new voting equipment and reporting software. Our current Accuvote machines were purchased in 1998 and replacement parts are no longer being produced. Demonstration from LHS and ES & S on their newest equipment were held.

- To purchase or lease a high-speed scanner to use for Early Deposit and on Election Day to tabulate mail in ballots, especially since VBM is on the verge of becoming permanent
- To make our voter database as accurate as possible by finding ways to increase the return of City's Annual census forms by getting the word out and possible doing a second mailing if fiscally able.
- To research and find a new polling location for Ward 2. Alternate location looking at is the Community Life Center or Carlton School.
- Continue recruiting new poll workers including bilingual and student age groups by working with the Supt. of Schools, YHouth Build, NSCDC and other organizations.
- Continue Training for poll workers by using the mock election scenario or separate training for Wardens/Clerks/Asst. and then for remaining Inspectors/Translators and/or Producing a poll worker training video-tape.
- Continue to meet with the following organizations: LLC, WLW, SSU Civic Engagement and Commission on Disabilities and to continue meeting and improving on ADA compliance, diversity, and non-english speaking residents and voters.
- To conduct additional voter training & education, as well as, holding voter registration drives at the high school and other locations
- To attend more Naturalization Ceremonies in person when they occur in Salem.
- Placing past election results on line
- Continue to purge certain documentation per retention schedule.
- Promote the importance of the Census, place Census Drop Boxes throughout the city for convenience to our residents

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- Purchasing new voting equipment will allow for the replacement of the current machines that are over 20 years old and which are no longer being produced.
- By purchasing new reporting software will upgrade the way results are produced and presented to the public.
- By increasing Staff will allow more work to be done in house and will be more cost effective than hiring seasonal employees
- By having a central tabulator facility and equipment for Early Voting will be beneficial in reducing the amount of time to process the ballots at the polling location and less problems with the equipment at the polls
- A new Ward 2 location that is a larger and newer location will give voters and workers a much safer and healthier environment.
- Positive Working Relationships with outside organizations will lead to better communication, feeling of inclusivity, less tensions, etc. in order to better accommodate and realize needs of people with disabilities.
- The purchase of 14 poll pads will allow our Election Office to transition quickly from paper voting lists to electronic means once the State certifies them to be used on Election Day itself. This will make the check-in process on Election Day more efficient, less errors and better reporting at the end of the night.
- Producing online poll worker training documents and/or video will free up time for me and my staff to not have to organize a date and to run a training course and it will allow poll workers to access the training when convenient to them.
- Placing past election results on-line will be an efficient and effective way for the public to obtain this information.
- Working collaboratively with outside organizations to recruit student aged poll workers will help foster relations and hope this age group stays for future elections.

### **Significant Budget & Staffing Changes For FY 2023**

Seeking one full-time Assistant Registrar - Step 1

Increasing pay of Part-Time from \$15/hr. to \$17/hr. which is currently vacant

Recent Accomplishments

- The Municipal Local Primary and General Elections were held on September 14, 2021 and November 2, 2021. Due to the Coronavirus Pandemic, many of the new elections law provisions passed in July of 2020 continued for local elections including Vote By Mail and In Person Early Voting.
- Held one day of In-Person Early Voting for the September primary on Thursday, September 9, 2021 and 5 days of In-Person Early Voting for the November 2, 2021 Election including 1 Saturday.
- Developed a great rapport with the Salem Post Office Supervisors, Walter, Chris and Mark. Delivered ballots daily to them. They had them stay in house and given to the mail carriers without having to go to the central processing facility in Woburn and then back to us.
- Continued to use drop boxes for vote by mail ballots
- Completed an Adverse Impact Report in order to move Ward 2 Polling Location to the Community Life Center. All the other precincts returned to their original polling locations.
- Conducted a successful recount for the office of Ward 2 City Councillor. The recount results remained the same as election day results.
- Reprecincting of Ward and Precinct Boundary Lines due to the 2020 Federal Census. Was able to move W/P lines with the least amount of impact the voters. Worked with the State and our own IT/GIS Department to develop map to reflect these changes. New W/P Boundary Line Ordinance was passed without debate. Map and Boundary Lines were accepted by the Commonwealth of MA Local Election District Review Commission without any issues.
- Salem became required to provide Election Related Material in Spanish including Ballots. Issued Press Release in English and Spanish
- Worked with outside Vendor to quickly add Spanish to our Census Forms before mailing.
- Updated and Revised Poll Worker Training Power Point Presentation
- Held in-person poll worker training in 2021 since COVID.
- Held demonstrations on New Voting Equipment before purchasing
- Issued 44 Nomination Packets for 2021 Municipal Election
- Completed successful 2021 annual census program even though no drop off locations due to COVID

# Assessors

## Mission Statement Why We Exist

The duties and responsibilities of the Assessing Department remain essentially the same from year to year. The Assessors are required by Massachusetts General Law to value all real and personal property as well as prepare tax-billing commitments for both motor vehicle and boat excise tax. The Assessing Department also receives and processes several hundred exemption requests and tax abatement applications. The office is open to the public and the staff is required to maintain the extensive databases needed to accomplish its mission.

## Goals and Objectives

- To establish assessed values for Fiscal year 2023 on taxable and personal property that meet or exceed the standards of uniformity and equity established by the Commissioner of Revenue.
- Ensure that every effort is made to make every taxpayer’s dealings with the Assessing Department friendly and efficient.
- To enhance our portion of the City of Salem website with more online information available for the public.
- Address the recent changes noted in commercial and industrial properties focusing on income and sale changes.
- Continue our close working relationship with the Council on Aging to enhance the awareness of the Work Off program and existing exemptions available to our senior population.
- To have our FY2023 valuations certified by the end of September and be prepared to have our classification hearing in November.

## How FY 2023 Departmental Goals Relate to City’s Overall Long- & Short-Term Goals

- The Assessor’s and Clerks in the office continue to work closely with the Council on Aging to keep the elderly population aware of all exemptions and the Tax reduction program via time working for the City.
- The Assessors seek to provide additional information to the Public via an enhanced Assessor’s section of the Salem website.
- Producing high quality work and implementing and conducting an aggressive database maintenance program remain our principal tasks. Since these elements are essential in maintaining the level of professionalism expected by Department of Revenue, the City and the public

at large, it is the primary objective and continuous goal of the Department to achieve both.

- The Assessing Department plans to digitalize maps, documents, applications and forms as to keep up with modern means of accessing and retaining nonpublic and public requests and entries in accordance with the Public Record Laws. Foreseeable use of cutting-edge software and online databases will help utilize the staff more efficiently and will provide the City with a return on investment in the form of growth and transparency.

### **Significant Budget & Staffing Changes For FY 2023**

With a newly appointed Director of Assessing and a vacant Assistant Assessor position, we have contracted assistance with the sales analysis and tax

bill process. Also, in preparation for the change in staffing, we have requested a budget for software programs that will assist with identifying and entering growth.

### **Recent Accomplishments**

- A smooth certification process and classification hearing was completed in the fall of 2021 for Fiscal Year 2022.
- We have implemented an annual re inspection plan to inspect approximately 750 to 1,000 properties per year beyond the annual sales verification and building permit inspection already in place in preparation for Department of Revenue 10 year inspection cycle. We are well on our way to accomplishing this goal with the staff coordination and the inspection process managed by the whole office.
- We had each department member step up and carry more tasks due to the Assistant Assessor position vacancy. During this challenging time, we have remained productive and efficient.
- Our return of Personal Property Form of Lists and Commercial Income and Expense Forms continue to climb with continued outreach by our staff.
- Work in progress with Harbormaster, Collector, and Finance Departments to implement a revised Mooring/Boat billing and abatement program that has proper checks and balances and monthly reconciliations of fees collected and abated, as well as proper documentation of those boats that have been bought and sold.

### Expenditure by Department

Outcomes and Performance Measures	Actual FY 2019	Actual FY 2020	Actual FY 2021	Estimated FY 2022	Estimated FY 2023

# Collector

## Mission Statement Why We Exist

The Collector’s Office serves as the portal for all revenues billed and received by the City of Salem . All bills for Real Estate & Personal Property Taxes, Motor Vehicle Excise Taxes, Personal Property Taxes, Boat Excise Tax, Water and Sewer Bills, Trash fees, City Ordinance tickets, and all other receivables committed by the Board of Assessors are the responsibility of the Collector. Parking tickets are also paid at the Collector’s Office. Upon receipt of a written request and the applicable payment, the Collector’s office will research and produce a Municipal Lien Certificate (MLC). The Collector’s Office also processes Passport Applications and issues and tracks resident parking stickers and processes slip and mooring payments on behalf of the Harbormasters Office.

## Goals and Objectives

- Maintain high collection rate.
- Continue to promote online payment system and continue to provide public education to increase usage of the system and encourage the e-billing option.
- Maintain quality service.
- Continue educating members of the Collector’s Office.

- Collector continues to attend annual school to maintain certification.
- Assistant Collector earned certification continues schooling.
- Received passport re-certification for four members in the office.
- Assisted with the implementation of GIC-Cloud based harbor management system.

### **Significant Budget & Staffing Changes For FY 2023**

The Collector's office anticipates no significant changes for FY 2023.

## Finance

### Mission Statement Why We Exist

The mission of the Finance Department is to present a complete and accurate statement of the City's financial condition. It is responsible for all financial and accounting activities in the City of Salem. Many of these activities are prescribed by Massachusetts General Laws to ensure the fair assessment and collection of revenues and the proper disbursement of funds to meet approved expenditures. These activities are guided by the City Charter and Ordinances, sound financial and accounting business practices, and adherence to the Massachusetts General Laws.

### Goals and Objectives

- Implement personnel budgeting in MUNIS and provide training to departments in preparation for next year budget preparation.
- Ensure timely and accurate reporting relevant to the city's ARPA allocation.
- Assess options for improved Fixed Asset tracking and management.
- Continue training programs for department staff in best practice use of MUNIS.
- Continue to improve the GFOA budget as per recommendations by GFOA review committee.

- Work collaboratively with the School Department, Business Manager, to address and implement new procedures to improve internal controls.
- Continue to review all departmental revenues with departments to make recommendations to the Mayor for potential revenue enhancements.
- Continue to review departmental expenditures with each department and to identify areas for potential cost savings.
- Continue to enhance new procedures and formats in tracking the status of capital projects and management of debt borrowing and reporting.
- Continue to address Management letter recommendations offered by the audit firm.
- Ongoing collaboration with Human Resources and City Departments to enhance training and continuing education program for all Financial departments staff.

### How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals

- The Finance Department will continue to work with the Mayor to implement sound fiscal policies and procedures, including adherence to the City's funding of the Stabilization, OPEB Liability and Capital Improvement Fund to ensure long term sustainability.
- The Finance Department will work with departments to conceptualize ways to regionalize services with other communities with the goal to create synergies and improve delivery of services to all.
- The Finance Department will work closely with the School department on all financial matters to ensure all requirements are met in a responsible manner.

- The Finance Department will work with all departments in developing and implementing Capital Improvement Programs that will not only maintain and upgrade City buildings, infrastructure, and vehicle fleet, but also maximize the use of grant dollars and other cost offsetting opportunities to ensure all City's assets are maintained and preserved.

### **Significant Budget & Staffing Changes For FY 2023**

The Finance Department continues to experience understaffing due to significant staffing turnover in late FY2021 and early FY2022 but anticipates welcoming a Deputy Finance Director at the end of FY2022. Additional funds are requested for contract services to continue providing temporary

coverage where needed during year-end close and to transition to the new Deputy Finance Director.

### **Recent Accomplishments**

- Closed out the CARES Act COVID-19 grant, maximized federal reimbursement opportunities through FEMA, and implemented an accounting and reporting structure for the city's American Rescue Plan Act (ARPA) allocation.
- Implemented the use of MUNIS software for budget development and provided training to city departments and school to improve process efficiency and reduce potential error.
- Updated the annual budget book document to reflect recent GFOA requirement updates and enhance the understandability of the budget document.
- Collaborated with the Information Technology Department, as well as other core financial departments to implement a major upgrade (from version 11.3 to 2019) to the city's accounting system (MUNIS).
- Reviewed and identified MUNIS processes, began training and implementation to improve on quarterly grant and account reconciliations.
- Began process of drafting step by step training manuals for financial support processes.
- Received the GFOA Distinguished Budget Presentation Award for the FY2022 budget (14th year awarded to the city).
- Received the GFOA Certificate of Achievement for Excellence in Financial Reporting (ACFR) FY2021 budget (14th year awarded to the city).
- Increased the City's stabilization fund to \$14.19 million dollars through sound fiscal policy.
- Collaborated to improve the Capital Improvement Project reporting, scheduling, and budgeting process.
- Worked with the School Business Manager to improve financial procedures as they related to internal controls and adherence to M.G.L.
- Reviewed and made suggestions in identifying areas to increase Revenues Sources.
- Continuing to develop, implement and execute new procedures and policies related to Accounts Payable and Purchasing, to ensure adherence to M.G.L. As part of this effort, additional training has been developed and offered to all City Departments.
- Worked toward addressing management letter recommendations.

## General Admin

### Mission Statement Why We Exist

The Purchasing Department is responsible for ensuring compliance with federal, state, and local law in the procurement and disposition of all goods, services, and real property. The Department helps other departments achieve their goals by procuring goods and services for the best value to the City. The Department also drafts and administers City contracts, oversees vendors, reports to state and federal authorities, and approves requisitions for goods, services, and construction-related activities.

### Goals and Objectives

- Transition management of mobile devices to IT Department by July 31, 2022.
- Update City bid forms and contracts for goods, services, and construction to modern document formats by September 30, 2022.
- Develop supplier diversity standards and program for all capital projects by September 30, 2022.
- Assist the Finance Office in reviewing City's property, casualty, and automotive insurance policies and schedules by October 31, 2022.
- Through maintaining electronic procurement files, efficiently share

- Achieve MCPPO certification for Purchasing Assistant by December 31, 2022.
- Create a master list of bids, contracts, and leases by December 31, 2022.
- Conduct training for local businesses on taking advantage of supplier diversity opportunities with the City and State by March 30, 2023.
- Update Department website to provide more information, including bid results and current contracts, by June 30, 2023.
- With Treasury and IT, implement electronic funds transfers for vendor payments and employee reimbursements by June 30, 2023.

### How FY2023 Departmental Goals Related to City's Overall Long- & Short-term Goals

- Maintain a high level of accessibility to and responsiveness for City Departments.
- Continue to make improvements to the layout and contents of the website making information more accessible.
- Notify vendors and constituents electronically of bidding opportunities and will maintain a page of bid results and current contract available for viewing via the Department website.
- Maintain an online registration form for procurement solicitations which populates an automated plan holder list. Addenda to solicitations are now automatically e-mailed out to all plan holders when added to the department webpage.
- Deliver City services more efficiently and effectively through the use of technology.  
information among departments and with the public.

- Expand the use of electronic purchase orders.
- Implement regionalized services where applicable to better utilize tax dollars.
- The Department has engaged in, and will continue to seek, collective purchasing options with other communities and/or purchasing groups, including state and federal contracts.

### **Significant Budget & Staffing Changes For FY 2023**

New Chief Procurement Officer: Anthony P. Delaney

New Purchasing Assistant: Cindy Theriault

### **Recent Accomplishments**

- Streamlined purchase order and vendor update process, reducing paperwork and staff time for routine maintenance operations.
- With IT department, updated requisition and purchase order workflows for greater efficiency.
- Transitioned to Munis 2019 and conducted Citywide training on both new software features and procurement best practices.
- Moved offices to a more central and accessible location on the second floor of City Hall.
- Participated in cooperative bidding opportunities and other collective purchasing arrangements, including state and federal contracts.
- Signed up more departments to make online purchases with Amazon Business for greater savings through their products purchased under the national purchasing cooperative of U.S. Communities.
- Updated City's master list of bids/contracts/leases.

**Expenditure by Department**

Outcomes and Performance Measures	Actual FY 2019	Actual FY 2020	Actual FY 2021	Estimated FY 2022	Estimated FY 2023

## General Admin

### Mission Statement Why We Exist

The primary function of the Treasurer's Office is to preserve, protect and manage the financial resources of the City. The Treasurer is responsible for the receipt, deposit and disbursement of City funds, the accurate accounting and prudent investment of City funds in order to maximize yields while maintaining adequate liquidity and ensure compliance with Massachusetts General Laws, with the Charter and Ordinances of the City of Salem. The Treasurer prepares and submits quarterly employment tax forms to the State and Federal governments. The Treasurer undertakes continual maintenance of the City's operating and investment funds and completes a monthly reconciliation of the City's bank and cash accounts. The Treasurer in conjunction with the Finance Director negotiates municipal borrowings (both long and short term) for capital related projects. The Department is also responsible for accounts and properties in the Tax Title process, and for the public auction of foreclosed properties. The Treasurer for the City of Salem is also the Treasurer for the Salem Contributory Retirement system and the Salem/Beverly Water Supply Board.

### Goals and Objectives

- Continue to upgrade on-line banking and employee deduction reporting systems for vendors.
- Strive to maintain quality fiscal management and reporting.

- Continue to train staff, and to take advantage of professional training and education when available and practical.
- Continue to maximize investment earnings by working with current and new financial institutions.
- Review debt management policies and make recommendations and updates as needed.
- Continued to improve efficiencies and controls.
- Review tax title accounts and identify if they would generate funds to the City of Salem.
- Address gaps in the process to best utilize staff expertise and contribute to sustaining positive staff morale and productivity.
- To work in conjunction with IT to implement Vendor Self Service and electronic check processing.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- The Treasurer's Office will work with the Mayor and Finance Department to maintain or possibly increase the City's bond rating.
- The Treasurer's Office will oversee the management of the City's Stabilization, OPEB Liability and Capital Improvement investments.
- The Treasurer's Office will reconcile and manage cash accounts resulting in accountability and transparency.
- Promote integrity, transparency, and accountability by ensuring that all financial transactions in the Treasurer's Office are clearly documented.
- Ensure all expenditures are accounted for within the Treasurer's budget.

## Significant Budget & Staffing Changes For FY 2023

Anticipated Retirement of City Treasurer

### Recent Accomplishments

- Continued to supervise and enhance the Payroll Coordinator position.
- Supervised payroll functions for weekly and bi-weekly payroll.
- Continued to streamline the paying of various employee deductions.
- Prepared monthly reconciliation for the GIC Health Insurance previously completed by a consultant.
- Maximized Investment Earnings.
- Participated in the Cities review process resulting in an upgraded bond rating from Standard & Poors.
- Oversaw E-Payables with Bank of America for electronic vendor payments resulting in a rebate of \$21,041.15.
- Worked in conjunction with IT to successfully implement View Permit Cloud.
- Initiated participation in the Massachusetts COVID-19 Emergency Paid Sick Leave (MEPSL), received \$140,641 as of March 2022 and anticipates an additional \$30,000 to \$40,000.
- Assisted with the implementation of GIC - Cloud based harbor management system.
- Participated in the refinancing of October 2010 bonds resulting in an overall savings of \$310,340. Savings in FY 2022 is \$27,415 and for FY 23 the savings is \$54,900.

## Long Term Debt Service

### Mission Statement

#### Treasurer – Long Term Debt Service

This expenditure covers the cost of the principal and interest payments of the City's General Fund bonded debt. Short-term debt service and Water & Sewer Enterprise Fund debt service appear separately in the Treasurer's budget.

In FY 23 the City's total long-term debt service is \$11,847,942. This includes principal payments of \$7,704,443 and interest payments of \$4,143,499. The debt service is broken down as follows:

Water Enterprise Fund principal \$1,599,572 - Water Enterprise interest \$650,021

- Sewer Enterprise Fund principal \$1,025,694- Sewer Enterprise Fund interest \$828,098
- General Fund capital improvements and equipment principal \$4,949,177- General Fund capital improvements interest \$2,795,379

In FY 22 the City's total long-term debt service was \$10,570,317. This includes principal payments of \$7,106,880 and interest payments of \$3,463,437.

The debt service is broken down as follows:

- Water Enterprise Fund principal \$1,621,880 - Water Enterprise interest \$547,428
- Sewer Enterprise Fund principal \$1,108,000- Sewer Enterprise Fund interest \$822,488
- General Fund capital improvements and equipment principal \$4,395,000 - General Fund capital improvements interest \$2,075,521

In FY 21 the City's total long-term debt service was \$10,642,540. This includes principal payments of \$7,324,368 and interest payments of \$3,318,172.

- The debt service is broken down as follows:
- Water Enterprise Fund principal \$1,773,165 - Water Enterprise interest \$644,424
- Sewer Enterprise Fund principal \$975,269- Sewer Enterprise Fund interest \$807,276

- General Fund capital improvements and equipment principal \$4,580,934 - General Fund capital improvements interest \$1,861,472

In FY 20 the City's total long-term debt service was \$10,373,264. This includes principal payments of \$7,561,904 and interest payments of \$2,811,360.

The debt service is broken down as follows:

- Water Enterprise Fund principal \$1,636,904 - Water Enterprise interest \$624,792
- Sewer Enterprise Fund principal \$935,000- Sewer Enterprise Fund interest \$674,001
- General Fund capital improvements and equipment principal \$4,990,000 - General Fund capital improvements interest \$1,512,567

In FY 19 the City's total long-term debt service was \$8,887,320. This includes principal payments of \$6,434,490 and interest payments of \$2,452,830.

The debt service is broken down as follows:

- Water Enterprise Fund principal \$1,564,490 - Water Enterprise interest \$564,000
- Sewer Enterprise Fund principal \$650,000- Sewer Enterprise Fund interest \$436,669
- General Fund capital improvements and equipment principal \$4,220,000 - General Fund capital improvements interest \$1,452,161

In FY 22 the City refinanced the October 15, 2010, bonds (the remaining, non-called portions). Based on market rates the refunding produced approximately \$373,548 in budgetary savings over the remaining life of the bonds being refunded, which is 8.98% on a present value basis. (The standard threshold for refunding transactions is to have present value savings of at least 3% of refunded principal). The refunding bonds totaling \$3,527,790 were included in the 11/19/21 \$29,010,000 bond issue. A premium of \$2,859,160 was received and used to paydown debt service. The long-term debt bond proceeds were used to pay a \$27,482,818 BAN.

Per the Municipal Finance Oversight Board of the Commonwealth of Massachusetts the City in accordance with provisions of Chapter 44A of the General Laws is entitled to issue state qualified bonds from time to time in increments not to exceed sixty-two million twenty-four thousand eight hundred fifty-nine dollars (\$62,024,859)

# Short Term Debt Service

## Mission Statement Treasurer – Short Term Debt Service

The expenditure covers the cost of the City's Short-term borrowing, including principal and interest on any Bond Anticipation Notes, Tax Anticipation Notes, Revenue Anticipation Notes, Grant Anticipation Notes and State Aid Anticipation Note.

Note: A Bond Anticipation Note (BAN) is a short-term debt instrument used to generate cash for initial project costs and with the expectation that the debt will be replaced later by permanent bonding. Typically issued for a term of less than one year, BANs may be reissued for up to five years, provided principal repayment begins after two years (MGL Ch. 44 S17). Principal payments on school-related BANs may be deferred up to seven years if has an approved project on the Massachusetts School Building Authority (MSBA) priority list. BANs are full faith and credit obligations.

Expenditure by Department

## Essex Tech & Voc Assessment

### Mission Statement

#### Treasurer - Essex North Shore Agricultural & Technical School District

A portion (23%) of the funding for the ENSTAD comes from the State through Chapter 70 School Aid and Regional Transportation

Reimbursement. The majority (77%) is made up by assessments from each of the 17 member communities in the school district. The amount of a community's assessment is determined by the size of its enrollment. As of October 2021, Salem had 190 students in the regional system. There will be debt service principal and interest payment in FY23 included in the assessment.

## Contributory Retirement

### Mission Statement

#### Treasurer – Contributory Retirement

The Salem Contributory Retirement System includes employees of the City of Salem, the South Essex Sewer District, the Salem/Beverly Water Supply Board, the Essex North Shore Agricultural and Technical High School and

the Salem Housing Authority. It provides pension and annuity payments to 633 retirees, 99 survivors, and 16 quadros. The retirement system collects pension contributions from 1088 active employees, a decrease of 73 from FY 21, and there are 199, incomplete or on leave members as of March 17, 2022. There were 22 transfers, 27 refunds, 1 death refund and 8 rollovers.

## Medicare

### Mission Statement Treasurer – Medicare

The Medicare budget calculation is based on prior year number of employees and is adjusted for inflation and contract settlements. There is no indication that there will be enough of a change in the employment level for FY23, thus FY23 is based upon actual FY 21 plus 4%.

### Budget Summary

## Traffic & Parking Department

### Mission Statement Why We Exist

The mission of the Traffic and Parking Department is to provide an efficient, reliable, multimodal transportation system throughout the City of Salem, designing and building complete streets that accommodate all users – pedestrians, bicyclists, transit riders, and drivers – and to provide pleasant and secure parking services to residents, businesses, and visitors while maintaining courteous and helpful assistance to the general public.

An efficient, reliable, and well-maintained transportation and parking system of choice is critical to the quality of life for Salem residents and for the overall economic prosperity of the city. As such, the Traffic and Parking Department aims to coordinate efforts with other relevant departments to prioritize and implement projects that improve safety, connectivity, mobility, and accessibility at the local and regional level for persons of all ages and abilities. The Department has overseen the introduction of the Salem Skipper, a city-wide on-demand rideshare service, re-introduced a bike share program by joining the BlueBikes regional program and will be launching a community car share program where individuals can rent a vehicle on an hourly basis. Investments in technology and infrastructure are also being made that improve traffic safety and parking capacity, and which provide extensive data collection opportunities to track the effectiveness of various initiatives and better plan projects to meet current and future needs throughout the city.

### Goals and Objectives Transportation/Traffic Goals & Objectives

- Continue to evaluate and implement measures to enhance safety as part of the Neighborhood Traffic Calming Program.

- Continue to build ridership and partnerships with the Salem Skipper service.
- Finalize implementation of a community car share program by Spring 2022 which offers residents an opportunity to rent vehicles, owned by the city, at an affordable hourly rate.
- Continue implementation of items identified in Bicycle Master Plan.
- Continue to implement items identified in the city's updated ADA Transition Plan.
- Support efforts to expand BlueBikes bike share program.
- Continue to implement complete streets measures when roads are reconstructed or repaved through coordination with the Engineering Department.

### **Parking Goals & Objectives**

- Begin developing design plans in FY23 for the Sewall St lot to improve circulation and drainage as well as replace older parking meters with multi-space payment kiosks.
- Begin activities to repave Crombie St and Salem Green parking lots which may involve the addition of electric charging stations and improved drainage systems.
- Develop scope of work and put out bid in FY23 seeking vendors to provide license plate recognition software to assist with administration and enforcement of resident permit parking.
- Continue to assess current resident and visitor parking policies and procedures to identify recommendations for improvement that will create a more equitable program that more accurately reflects neighborhood boundaries/zones.
- Continue evaluating the introduction of a Parking Benefit District for the Downtown.
- Continue efforts to implement structural repairs to other levels of the Museum Place Garage as well as put into action some preventative maintenance measures.
- Develop plans to address additional maintenance issues in the South Harbor Garage.

### **How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals**

#### General Government

- Improve communication and transparency with citizens, including social media and online tools, software, and more.
- To maintain a high level of accessibility to and responsiveness by City departments and employees.

- Look for ways to deliver City services more efficiently and effectively through the use of technology and performance management, including development of Salem 311.
- Implement regional services where applicable in order to better utilize tax dollars.
- Continue efforts to address climate change and plan to mitigate carbon footprint through the Green Communities program, energy efficiency goals, the climate change action plan, and more.
- Strengthening City's reputation as a welcoming, accessible, and inclusive community for all.

#### Public Safety

- Improve traffic and parking enforcement.
- Enhance use of technology in public safety.

#### Economic Development

- Collaborate with project partners on implementation of offshore wind infrastructure development at the former Salem Harbor Station Power Plant site that helps create green jobs, supports alternative/renewable energy, and grows the local economy and tax base, while managing impacts on the surrounding neighborhoods.
- Support the growth of new and existing private businesses, including enhanced recruitment efforts.

#### Parks and Recreation

- Launch and carry out Signature Parks program for Willows, Winter Island, Pioneer Village/Camp Naumkeag, Forest River Park, and Salem Common.
- Finalize and implement plans for improvements at Palmer Cove, Bertram Field, and Gallows Hill Park.

#### Travel and Tourism

- Continue to improve upon management of Haunted Happenings & other community events.

#### Public Service – Engineering – Traffic and Parking

- Reorganize staff to more efficiently and effectively deliver services and respond to requests.
- Maintain and upgrade City roads, sidewalks, open spaces as reflected by the City's complete streets policy, open space plan, and road and sidewalk master plan.
- Continue to advance Essex Street, Derby Street, Highland Avenue, North Street, and Boston Street improvement projects and the Boston/Bridge intersection project.
- Continue residential traffic calming program.

- Continue advocating for South Salem MBTA commuter rail stop.
- Continue implementation of complete streets policy and encouragement of alternatives to car use, including micro-mobility, the new on-demand shuttle service, and community car share pilot.

### Significant Budget & Staffing Changes For FY 2023

Staffing for the Department grew in FY22 with the hiring of two full-time parking enforcement personnel to provide ongoing Sunday staffing hours as well as improve enforcement of resident parking areas, downtown meter locations and the Salem Willows. A new Assistant Transportation Director was hired after a resignation and a new position, Transportation Planner, was filled both to assist with implementation of the city's neighborhood traffic calming program and complete streets projects. The FY23 budget reflects these staffing level changes as well as requests additional funding for a full and part time supervisor to cover shifts at the South Harbor Garage and the Commission clerk to attend more meetings through-

out the year. Changes to the Department's operating budget are related to additional maintenance measures for the city garages in part to maintain the significant repairs completed in the Summer of 2020 and Spring 2022 as well as funds to support the operations of the car share and bike share programs as well as investing in new technology to migrate the City's Resident Permit Parking Program to a license plate-based system that improves admin and enforcement capabilities.

### Recent Accomplishments

- Worked collaboratively with Health Department, City Solicitor, and Public Services on pandemic-related activities, including expanded outdoor dining program, 15-minute curbside pick-up/drop-off parking, extended sidewalks for social distancing.
- Awarded a \$250,000 MassDOT Shared Streets grant to establish a Blue-Bikes bike share program.
- Worked with Engineering Department to complete final installation of roundabout at intersection of Summer/Norman/Chestnut.
- Awarded \$50,000 grant from MassDEP to upgrade and install electric charging stations at both City garages.
- Expanded Salem Skipper service hours in October 2021. Since launching in December 2020 users have taken over 43,200 rides (as of 2/15/2022).
- Coordinated efforts with Engineering & Planning Departments to successfully win two MassWorks grants for infrastructure improvements in the Point neighborhood and a North St connector study adjacent to the commuter rail station.
- Began improvements to South Harbor Garage which include replacement of both stairwells, installation of security cameras, and constructing public bathrooms.
- Implemented Safe Routes to School improvements at intersection of Broad and Jackson adjacent to Collins Middle School.
- Began ADA, drainage, and structural improvements to the roof of the Museum Place Garage as well as installing security cameras throughout the facility.
- Ongoing planning efforts to evaluate the North Street corridor with the goal of improving safety and enhancing multi-modal options.
- Implemented traffic calming elements along eight streets throughout the city.
- Installed new parking meters along Washington Street, Gedney Street and Holyoke Square.

## General Admin

### Mission Statement Why We Exist

The Office of Information Technology provides and supports the resources which facilitate the flow of information within and between departments and expands the reach and usefulness of technology to staff, residents, and the public schools. This includes the enterprise network, telephone system and wireless access across 28 city & school sites, as well as all essential business systems and hardware.

### Goals and Objectives

- Expand self-service time off requests to include senior staff and at least 5 departments by October 2022.
- Implement Laserfiche Forms in at least 2 departments by October 2022.
- Establish city-wide internal operations dashboard by December 2022.
- Develop plan for upgrade of SPS wireless and switch infrastructure by December 2022.
- Deploy internal network monitoring solution by February of 2023.
- Expand use of Laserfiche system to include Assessing & Police by March 2023.

- Add supplemental (.gov) email and website address by May 2023.
- Complete upgrade to MS Windows 11 by June 2023.
- Upgrade Munis financial system by June 2023.
- Implement Vendor Self Service by June 2023.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- The department remains committed to the City's overall goal to be a healthier place to live, work, and do business in. To that extent, we have implemented as many "green" initiatives as possible with the digitization and preservation of city records & e-delivery of documents providing excellent examples.
- The department supports the mission to provide open, honest, and proactive services effectively and efficiently, focusing on the needs of today with a vision for the future by pursuing and implementing improvements such as competitive, high speed Internet for all businesses and residents.
- The department continues to pursue all means to provide a secure environment, protecting critical systems, data, and infrastructure from bad actors.

### Significant Budget & Staffing Changes For FY 2023

Support Specialist John Ankiewicz was promoted into the role of Network Administrator following the retirement of E. Bergengren. Taking over for John is our newest staff member, Stuart Talbot. A Business Systems Analyst role remains open which we hope to fill before this summer. A new position, Cloud Services Administrator, is proposed to support the tremendous shift to cloud-based storage and related systems by boards, committees, and staff city-wide. Budget changes reflect increases associated with the expansion of Munis in SPS, streamlining of the city's budget process, and necessary GIS investments.

### Recent Accomplishments

- Designed and implemented a COVID-19 vaccination & test recording system to support a safe and healthy workplace.

- Partnered with the PEM to launch welcome center operations at the Pickman House.
- Launched a city-wide Innovation Team and reinvigorated Salem Stat operations analysis.
- Implemented new records management and reporting platform in the Fire Department.
- Engaged with Finance to streamline the budget process and optimize transparency.
- Transitioned management of federal E-Rate services supporting the School Department to internal staff, eliminating consulting services.
- Joined with the Mayor's office and DPS to launch a website chatbot.
- Led the upgrade of the City's financial system, incorporating a thorough restructuring of access levels.
- Deployed operating system upgrades to more than 200 laptops in the school department.
- Completed transition of public safety and critical decision makers to the secure FirstNet mobile network.
- Expanded use of the online licensing and permitting system to include street performers, animal licenses, and others.
- Implemented new data center technologies, replacing aging infrastructure and substantially improving survivability.
- Partnered with the Police department to deploy body camera technology.
- Strengthened cybersecurity posture including internal controls, active monitoring, and staff training.
- Piloted the use of employee self-service time off requests in several departments.
- Developed and implemented paperless personnel actions (PAF's).
- Restructured telephone services to improve up-time and scalability.
- Partnered with the Fire Department to enable Computer Aided Dispatch (CAD) using the same platform as Police.
- Implemented 311 service allowing residents and businesses to call in to one easy number for all questions/issues related to the City of Salem.
- Implemented video-conferencing solutions in six (6) meeting rooms across the city, supporting business operations and essential public meetings.
- Extended access to the financial system for all school principals and secretaries, improving budget access and oversight.
- Implemented an upgrade to the document management portal (Laserfiche) improving access for departments and members of the public.

- Expanded the online document portal to include more than 1.3 million items.
- Secured .gov domain and began planning for migration of services.
- Upgraded point-of-sale system at Olde Salem Greens aligning with systems at Winter Island, the Witch House and Pickman House.

## Solicitor & Licensing Board

### Mission Statement

#### Why We Exist

The Solicitor's office is responsible for providing representation and advice to the City and its officials in numerous areas including but not limited to zoning issues, employment law, collective bargaining, civil rights, civil service, contract actions, real estate, workmen's compensation and tort actions involving personal injury and property damage claims. Members of the legal department regularly attend and provide advice at meetings of the City Council and sub-committees thereof and to several City boards and commissions. In addition to drafting ordinances and other legal documents, numerous verbal and written opinions are rendered to the City Council and Department Heads.

The Licensing Board issues and oversees licenses for the following activities: auto dealerships, fortunetelling, liquor, vending, common victualer, lodging houses, street performers and entertainment.

### Goals and Objectives

#### FY 2023

- Goal: Successfully defend claims against city and its officers  
 Objective: Maximize resources, including insurance coverage to defend claims
- Goal: Revise existing ordinances to address any inefficiencies  
 Objective: Conduct quarterly review of Ordinance with Department Heads
- Goal: Address local needs/neighborhood concerns  
 Objective: Create or amend Ordinances to provide tools to address needs/concerns
- Goal: Maximize MIIA rewards programs  
 Objective: Assign staff to attend monthly programs
- Goal: Assist Licensing Board in regulating licenses  
 Objective: Create specific regulations for the board within six months

- Goal: Improve vendor management and offerings  
 Objective: Work as part of a team to improve quality of vendors
- Goal: Ensure all liquor licenses are fully utilized  
 Objective: Work with Boards, businesses and Chamber of Commerce annually
- Goal: Redevelop Transfer Station Site  
 Objective: Develop DEP approved plan to see site is remediated by 2023
- Goal: Redevelop municipally controlled properties  
 Objective: Assist in redevelopment of properties
- Goal: Have an inclusive workplace, prevent discrimination suits and promptly address complaints  
 Objective: Work with HR and others to provide training and promptly address complaints
- Goal: Improve process for identifying and reducing the number of problem properties  
 Objective: Work with team to step up enforcement, collect data and take legal action when necessary
- Goal: Conduct performance appraisals for union staff  
 Objective: Negotiate/implement inclusion of performance reviews with unions
- Goal: Ensure success of new Diversity, Equity and Inclusion office  
 Objective: Work with new DEI director to ensure annual training and change in policy to increase equity and diversity

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

The Legal Department's goals include several of the short and long-term goals of the City. These shared goals include:

- 1) encouraging responsible private development and new growth opportunities, including the courts buildings;
- 2) continuing to improve upon management of Haunted Happenings and other community events;

- 3) maintaining a high level of accessibility to and responsiveness to the public;
- 4) overseeing successful disposition and remediation of the transfer station site, 5 Broad St., and other sites; and
- 5) strengthen city's reputation as a welcoming, accessible, and inclusive community through work of new DEI role and Licensing Board policy and regulation.

### **Significant Budget & Staffing Changes For FY 2023**

A new position of Director of Diversity, Equity and Inclusion was added to the department in 2022. Salary adjustments made to reflect survey results and added responsibilities.

### **Recent Accomplishments**

- Prepared multiple amendments to the City's Ordinances
- Prepared multiple Zoning Ordinance amendments
- Advised various boards and commissions regarding state and local laws as well as case law
- Prepared contracts, license agreements and mutual aid agreements
- Prepared Opinions for boards and commissions
- Managed claims against city
- Defended lawsuits against the city and its Boards
- Worked with various departments on solicitations for bids and requests for proposals
- Served as part of team to interview prospective senior staff
- Advised HR and department heads on various personnel matters
- Advised School Department on various personnel and policy matters
- Investigated and advised departments on personnel infractions and prepared disciplinary documents
- Drafted various easements and rights of entry agreements
- Prepared legal documents for disposition of city property
- Prepared deed restrictions for CPA-funded projects
- Prepared various home rule petitions
- Assisted the Licensing Board in conducting hearings and establishing policy

**Expenditure by Department**

## General Admin

### Mission Statement Why We Exist

The City of Salem Human Resources Department (HR) is a department of four full-time employees. Along with myself, we have an Office Manager, Alicia Brady, a Personnel Aide, Amy O’Keefe, and a Benefits Manager, Jim Taliadoros. The part-time switchboard operator, Joe Freitas also falls under our Department. HR is responsible for posting vacant positions, scheduling and conducting interviews, hiring full/part-time/temporary/seasonal employees, participating in negotiations and administering various collective bargaining agreements (CBAs). We are also called upon to interpret agreement language and review/hear various grievances, and draft and enforce personnel policies and procedures. The Department works well together, and we interact with every City Department. We work closely with our Finance Department and our Treasury to ensure new and existing employees are processed and paid correctly, and we ensure all personnel actions are made in accordance with applicable laws, policies, and collective bargaining agreements.

Along with MIIA, we oversee our workers’ compensation plan and utilization for the City and the Salem Public School Department. HR monitors and administers all City and School unemployment claims, develops programs and procedures to ensure the City’s compliance with the ADA, and the Director is the liaison to the Commission on Disabilities. HR is also responsible for administering health, dental, and life insurance benefits to all benefit eligible City employees (including those at MassHire formerly known as the North Shore Workforce Investment Board) retirees (all City and School) along with a host of many other voluntary plans. We also seek out specific trainings for individual departments and City-wide staff on a regular basis.

The Department is also a confidential resource for employees, and the Director acts as a liaison, mediator, and facilitator with employees, their supervisors and co-workers to address and resolve any matters, as needed.

## Goals and Objectives

### FY 2023

- Streamline our recruitment process. Since the 'Great Resignation' brought on by COVID, we have seen hiring difficulties unlike anything we have ever seen. We have had to think outside the box to recruit, and attract talent to our team, only to have many candidates refuse employment or start with us and shortly return to their prior employment for a higher salary.
- Stay current on salaries to ensure that we can retain our current talent.
- Work with DEI Director to ensure our practices are in compliance.
- Offer Conversational Spanish Classes to employees.
- Continue the partnership with MassHire and my North Shore Colleagues to offer educational incentives for our DPS employees to obtain license while they are employed with us. CDL B licenses and trainings can be costly and time consuming; offering this in house will be a welcome benefit.
- Offer a Benefit Educational Session for our employees in the Fall.
- Educate and communicate! We will continue to educate employees about the GIC and assist new employees as they navigate the health care system of the GIC. I cannot overstate the importance of this.
- Work even more closely with our EAP provider to offer options for wellness and work-balance trainings and activities. Wellness activities are beneficial to all employees, and any assistance we can offer (free!) is always valuable.
- Continue to maintain salary schedule for non-union and union employees current on an annual basis and as employees leave to ensure that we can attract the best candidates for vacant positions.
- Work with the Commission on Disabilities to continue to wisely use the funds generated from the Handicap Violations. As a member of the Commission's subcommittee for this purpose, I am in the position to ensure purchases in compliance with the statute allowing the Commission to utilize these funds.
- Work with our MIIA Risk Manager and seek out trainings through MIIA to assist us in earning rewards towards our Workers' Compensation Insurance Premium on a regular basis by solidifying our Risk Committee to ensure we are doing all we can to minimize our financial risks with regards to Workers' Compensation, and our Property and Casualty premiums.
- Continue with review of our city policies, write new ones, and negotiate implementation as required.
- Continue with memorializing an onboarding process to ensure employee inclusivity; this will include more comprehensive orientation and likely training for Department Heads in adding a new employee to their staff.
- Develop Departmental Procedure Manual, for this Department.
- Implement the Employee Evaluation Process/Assessment with our bargaining units and non-union staff and follow up with training for management staff in conducting performance appraisals.
- Seek out and encourage training for various topics, departments, and positions.
- Continue to focus on employee relations and good will, which will include quarterly gatherings and check-in with new staff.
- Apply for the Massachusetts Office on Disability grants. This new funding will assist us with ensuring accessibility city-wide. We were very disappointed our request for accessibility work at the Mack Park Food Farm. We have since learned the amount of available funding from MOD was much less this year, while the requests were higher than ever; however, as our plans for the work were tied to our ADA Transition Plan recommendations, the denial was still disappointing. We will apply again this year.
- Work with the IT and Payroll department to automate our onboarding and internal personnel actions and offer MUNIS training to all end users.
- How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals
- July 1, 2022 will be the start of our final contractual year with the GIC. This past year we requested our data from the GIC to help us determine our plan for health care for FY'23 and beyond. Due to internal issues at the GIC, all municipalities with expiring contracts were allowed to stay with the GIC for one more year. We accepted that offer and along with our PEC we are aggressive pursuing all options for our health insurance coverage post-FY'23. We'll solicit bids, and together with the PEC, and our consultant, we'll determine our health care future. If we exit the GIC, we must be out for three years. Our PEC is dedicated to the memberships they represent. This process clearly ties into the Mayor's long-term goal of continuing to provide affordable and quality healthcare to our employees and retirees.

- I would like to put out an RFP for our voluntary benefits as well. Many options are available to employees, and things can just get too confusing, resulting in people not enrolling in voluntary plans that may be of value to them. One provider would streamline that process and offer quality benefits to our employees.
- We will again be looking to offer more in house training this coming year, from trainings geared to front line staff as well as department heads. The Mayor is very supportive of staff development, and as such, we will be taking advantage of opportunities to ensure all staff members are as effective as they can be in the City. As stated in my narrative earlier, some of these training will require additional funding, and some are offered free to us through MIIA.
- Finally, our dedication to a productive and efficient workforce begins with employee morale. Once an employee is hired, we need to foster the individual's growth in the workplace. The Mayor is committed to strong employee relations and partnerships, and as such, this goal is directly related to the City's long and short-term goals.

**Significant Budget & Staffing Changes For FY 2023**

Budget increases this year for HR are seen in a few of our expense lines, insurance lines and in salary lines. From office supplies to job postings, from various coverages to preplacement physicals, and in our efforts to keep our current employees on staff, we want to stay competitive. Our current staff size is sufficient. Another area I see important for a budget increase from last year to remain intact is within the education line. In FY'20 we offered a workplace-based-conversational Spanish class to employees, and the program was a huge success. COVID prevented us from offering this class in FY '21 and FY'22 however, we'd like to offer this FY'23. Each department's needs are different with respect to the specific services provided, and as such, being able to empower employees with

the ability to converse with our increasing population of non-English speaking constituents was and will still be a win-win for everyone.

**Recent Accomplishments:**

- They say time flies when you are having fun, and that clearly holds true for us in HR.
- Conducted weekly and biweekly staff meetings in HR to keep up to date on retirements, new hires and daily operations. After the last couple of year, we have all learned that communication is important.
- Developed and implemented an employee referral program and sign on bonus program. We have to stay competitive!
- We routinely promoted our Employee Assistance Program from MIIA, a completely free and confidential program for all employees. The EAP is a resource for employees with any number of needs for assistance.
- Implemented weekly check-in meetings with SPS to discuss unemployment claims,
- Participated in the hiring process for new patrol offices of the Salem Police Department, as well as the Salem Fire Department. As these are key positions within the City of Salem, I am pleased to be on the hiring committee in these areas.
- Successfully produced our 1095Cs and submitted verification of the same without errors to the IRS for calendar year 2021.

Since July 1, 2021, we have hired or been involved in the hiring of many new full-time and part-time employees, for an approximate total of 250. This number is higher this year, as we processed over 100 part time employees for the elections work this past year.

Nearly all Departments have seen new full-time employees join their teams:

Legal, Police, Fire, Planning, Electrical, DPS, Engineering, Finance, Parking/Transportation, and MassHire.

- Conducted several exit interviews as employees left the City for either retirement or to pursue other opportunities. This process allows us to have a meaningful dialog with a departing employee to not only wish him or her well, but also learn of any matters relative to the department we may not have been aware of or receive suggestions and critique for investigations and improvement.
- Participated in a Best Practices Hiring Webinar Presentation with my North Shore Colleagues for MIIA.
- Attended two job fairs (MassHire and Salem High School) to promote municipal government and what we can offer for a career path.
- Implemented the FFCRA and the State COVID leave policies to affected employees.

- Implemented the City's vaccination policy for the City, and along with the Assistant City Solicitor, facilitated the accommodation requests for exemptions.
- Worked with Department heads as they faced COVID related situations with their staff.
- Held two Saturday AM Job Fairs at the Department of Public Services. Using our Labor Service List, we called in nearly thirty applicants for first level-assessments and second interviews. While we are continually updating Updated our Labor Service Listing, the local version of Civil Service, this process allowed us to meet many qualified individuals and extend conditional job offers as of this date. Our Labor Service List is now healthy and up to date, and the job fairs have resulted in many new hires.
- Continued to implement performative exercises as part of the interview process to ensure we hire the most qualified candidates for our open positions. These exercises are a valuable tool in our evaluation of candidates for employment. Depending upon the position, we can determine the candidate's ability to either drive our vehicles and trucks or examine an AP batch for accuracy.

**Expenditure by Department**

## Workers' Comp

### Mission Statement

Having an insurance carrier for administering this important City responsibility is invaluable. Once a claim is filed, the decision-making is not left to staff here at the City, rather, an insurance company looking out for our best interests follows the claim and maintains communication with us all along the way. Our relationship with MIIA has allowed us to minimize our premium increases. WC is not inexpensive; however, in-house administration and oversight of this process is a less desirable alternative.

Additionally, our involvement with the MIIA Rewards Program has enabled us to keep our other premiums somewhat affordable as our internal practices (best practices, policies, procedures and trainings) earn us credits towards our premiums.

We meet with our WC rep. from MIIA on a regular basis and have numerous discussions over the phone to monitor the progress of our injured employees. We encourage MIIA to pursue all claims aggressively to assist our employees in returning to work in a timely manner.

Conducted two in-house trainings with twenty two (22) supervisory staff on the Workers' Compensation process. Tracking a claim from the onset of the injury is key. Accurate claim filing starts the process, and it's important for supervisors to be aware of the injury, investigate it, gather information about it, determine witnesses, take remedial steps to prevent it from recurring, and properly inform MIIA about it through HR.

### Goals and Objectives

- Continue to train supervisory staff trainings to staff regarding claim reporting and tracking. Timely claim reporting is key in staying on top of our claims to ensure our injured employees are provided the most effective and efficient care and treatment.

- Meet with MIIA and the new leadership at the School Department to promote training to prevent on the job injuries that ultimately affect our premium rates.
- Preschedule employees for as many MIIA trainings as allowable to maximize the MIIA Rewards Program to obtain the highest possible percentage off our annual premium. This means attending leadership trainings and continuing with our timely processing of claims to MIIA.
- Promote the MIIA Rewards Program via MIIA sponsored safety trainings, which will help keep employee injuries to a minimum, which will ultimately and hopefully influence our annual premium with MIIA.
- Work with our Risk Manager to establish a strong safety/risk committee to assist in minimizing our physical risk factors within the city and the schools.
- Work with the Police Chief and the Fire Chief to retain a carrier for 111F coverage for our Public Safety employees.
- Work with Department Heads to offer and implement light duty restrictions for employees returning to work after an injury. Allowing an employee to return to work just makes sense as we budget for salary, and indemnity costs will affect our premiums.

### Significant Budget & Staffing Changes For FY 2023 Overview and Recent Accomplishments

Having an insurance carrier for administering this important City responsibility is invaluable. Once a claim is filed, the decision-making is not left to staff here at the City, rather, an insurance company looking out for our best interests follows the claim and maintains communication with us all along the way. Our relationship with MIIA has allowed us to minimize our premium increases. WC is not inexpensive; however, in-house administration and oversight of this process is a less desirable alternative.

Additionally, our involvement with the MIIA Rewards Program has enabled us to keep our other premiums somewhat affordable as our internal practices (best practices, policies, procedures and trainings) earn us credits towards our premiums.

We meet with our WC rep. from MIIA on a regular basis and have numerous discussions over the phone to monitor the progress of our injured employees. We encourage MIIA to pursue all claims aggressively to assist our employees in returning to work in a timely manner.

## Employee Insurance Benefits

### Goals and Objectives

- We have already begun the process to secure affordable health care for FY'24 and beyond. The goal is to conduct a transparent process with the assistance of our PEC. Our Public Employee Committee has played an integral role in this process, as they've been involved with our health care discussions since 2012 when we first decided to move to the GIC. Made up of union representatives and a retiree representative, this dedicated group has worked tirelessly for their memberships' while keeping the City's best interests in mind.
- While we are in the last year of our GIC coverage, we will continue to explore ways to minimize health care costs for employees through educational sessions during the year, not just at open enrollment. Questions come up all the time, whether they be about mail order prescriptions, bills, deductibles, or how to get reimbursed for a co-pay, there are always ways to assist our employees with rising health care costs. We'll continue to do emails to all employees about a health care topic. Whether it is a reminder to submit for a fitness reimbursement or to be more aware of an 'Explanation of Benefits' form to ensure employees are paying only for services they are responsible for, we think it is important to have consistent communication with employees about their health care benefit.

### Significant Budget & Staffing Changes For FY 2023

As of April 30, 2022, the City of Salem had 1835 enrollees in our health insurance plans. All but 577 of those enrollees are administered in the HR department. We are in an extended final year with the GIC. We started our first contract in July 2012 in which all employees and retirees, includ-

ing retired municipal teachers, were enrolled in health insurance plans under the Group Insurance Commission. At the time it was a difficult process for many employees and retirees, given that it was so different than our prior health insurance offering. However, given our utilization and trends with rate increases, I am still confident that our moving to the GIC has been the best move for the City of Salem with regards to health insurance. It has not been without its challenges; however, the coverage we offer is excellent in quality. The process can be confusing for some, if not many, and that is why my office is always helping with all phases of health care issues. We are used to the process, and the 'insurance language' lingo and processes that are confusing to others, so we help whenever we can.

We are pleased the final numbers from the GIC regarding rate increases were not as high as we initially anticipated, and no plan design changes were rolled out for FY'23. Our increases over the years with the GIC have been minimal, and we have been fortunate. Additionally, we are fortunate the GIC has a mandated threshold regarding rate increases they cannot exceed. Plus, rate increases are tied to utilization. Encouraging wellness and carrier sponsored programs will assist our employees and retirees in staying healthy. We educate employees about these changes. As always, we will stay on top of this year-round.

We have secured a better dental plan for active employees, Altus Dental. The network is much larger, the annual maximum is twice what Guardian was, and the premium is lower. We are looking forward to promoting this new plan for FY'23.

<b>19141 Group Insurance-Personnel Total</b>	<b>16,022,048</b>	<b>16,532,273</b>	<b>16,482,273</b>

**Fire**

**Mission Statement  
Why We Exist**

The primary mission of the Salem Fire Department is to provide a range of programs designed to protect the lives and property of the citizens of Salem from the adverse effects of fire, sudden medical emergencies, or exposure to dangerous conditions created by either man or nature.

**Goals and Objectives**

- **Fire Prevention:** Fire Prevention is an integral part of the fire department and it is a primary objective.

- Code enforcement: code enforcement and inspections are a critical part of any modern fire department. The Covid 19 pandemic presented challenges over the last two years but we still completed inspections and code enforcement as required and will continue to do so. Good code enforcement is the key link to public safety and the fire service.
- Education: the continued education of vulnerable groups has suffered as a result of the pandemic – education has always been a priority for our fire prevention division and this year we will double our effort to make up lost ground - fire education within the elderly community will be expanded to include multiple residential locations and different housing developments - we will continue to focus on educating the youth of our community in the schools, at afterschool programs, camps and other organizations and events for children.
- New Construction: growth in our community is still increasing and it is the responsibility of the fire department to ensure builders comply with today's engineering standards ensuring the best fire protection available. As always, existing buildings will be routinely checked by our firefighters to ensure regulations are followed and all buildings are safe.

- **Emergency Medical Services:**

- Modern-day emergency medical services are one of the most important parts of a modern fire department's mission. Firefighters in Salem respond to more than 2600 medical calls annually - 90% of all firefighters in Salem are EMTs - many with more than 20 years of experience in the emergency medical field. Fire apparatus are primarily equipped the same as an ambulance minus the transport capability. Covid 19 has put a strain on the medical service in the entire country - fewer people are willing to enter the profession - never has there been a greater need for firefighter EMTs.

- **Special Operations:**

- Firefighters deal with so much more than fires and medical calls – every department member is trained to fill many roles including vehicle extrication, electrical emergencies, alarm system troubleshooting, forcible entry, elevator rescues, just to name a few. On occasion, department members are called to perform very specialized tasks to affect a rescue or mitigate a challenging scene - The Salem Fire Department Special Operation Team expands on the departments' ability by training for high-risk, low frequent emergency incidents. These might include but are not limited to confined space rescues and high and low angle rescues. Team members take part in up to three annual full-day training events at regional industrial sites funded by private partners with equipment provided by these same private community partners. This specialized skill set is then brought back to the department and shared with the remaining department members through daily training and drills. Special Operation Team members are evenly spread throughout the depart-

ment's four divisions to make this specialized skill set always available to the department.

- **Building Maintenance:**

- The city of Salem has 5 active fire stations: these buildings require a substantial amount of maintenance and repairs annually. Since many of the buildings are more than a hundred years old, some upkeep is very challenging. The department is committed to not only making repairs as needed but continually working to modernize the buildings whenever possible. Last year saw a substantial amount of completed projects.
  - Crews completed replacing the entire roof on the main three-story section of the Fire Headquarters building along with the two-story administrative wing and Electrical Department. This project coincided with repairs to the guy wires/support cables attached to the 60' antenna which is located on the Headquarters portion of the roof. The cables were original to the structure and dated back to 1972. The antenna is now safely secured for years to come.
  - A major exterior property renovation was completed at fire headquarters; The paving project at the rear included new drainage - the installation of a handicap ramp for access to the administration wing - the expansion of the parking area on the side of the building and Klop Alley - sidewalks along Lafayette Street were repaired, and trees and landscaping installed. The project greatly improved the appearance of the entrance side of the building and made the entire area safer and more accessible for everyone.
  - The exterior of the living quarters at Station 2 on North Street was re-flashed, bricks were repointed & sealed, and the entire attic was insulated, reducing heating costs significantly.
  - The entire VOC alarm notification system for 5 buildings was completely modernized and digitized - it now operates entirely on the city fiber-optic network increasing clarity and reliability. The VOC alarm system is a series of speakers in all the stations connected directly to fire dispatch – this network is how firefighters are dispatched to calls and is a crucial part of the department. The Same Fiber optic link will connect all stations to the new CAD display system.
  - Firefighters take great pride in the department and have worked tirelessly to complete many projects in the stations including new laundry facilities, new bathrooms, shower rooms, kitchens, painting, and holiday decorating. Without the generous efforts of the firefighters, many of these projects would not be possible.
- **Upcoming Building projects**
  - A major exterior renovation is planned for Station 5 on Loring Ave; this will include a new front ramp and driveway in the rear - new sidewalks, new entry stairs and railings - a new building sewer line to replace a failed line - exterior lighting, and better handicap access and parking.

- Roof repairs are scheduled to begin on Station 5 and Station 2 – work will be done to replace sections of the copper ridgeline - replace damaged slate and reflash as needed.
- Sections of the apparatus floor at Fire Headquarters on Derby Street will be resurfaced. Over the years some sections of the floor have deteriorated and must be resurfaced – this will significantly reduce a hazardous condition in the building.
- A sustainability project is underway to design new heating and lighting systems for all 5 fire stations. Four of the stations still rely on oil-fired steam boilers to heat the stations. Potential cost saving by upgrading these systems is huge - there is some public and private funding available for these types of projects and we will endeavor to secure any available funds.

● **Funding and Grant Writing:**

- Grants are a major source of funding for the Salem Fire Department. This year the department was very successful and awarded significant grant funding:
- FY2021/2022 FEMA Assistance to Firefighters Grant \$163,000 for new Department SCBAs
- FY2022 FEMA Assistance to Firefighters Grant \$160,000 for new department portable radios
- Mass Emergency Management Grant \$21,150 for thermal imaging cameras, scene lighting, a Connex emergency management equipment storage box, body armor for firefighters.
- Mass SAFE Education and Prevention Grant \$6000.
- Cares Act \$35,000 to fund an entirely new NEXGEN CAD system for fire alarm dispatch. CAD is a computerized dispatch platform that allows for the rapid sharing of dispatch information between agencies I. E. Police, Fire & Ambulance – it will significantly streamline communications and shorten dispatch time for all fire department calls.
- In FY 2022/2023 many other grant applications have already been filed – we are well qualified and hoping for some additional funding for the department. In addition to those shown below, we will be applying for the FY 2023 Mass emergency equipment grant - the Mass SAFE Education and Prevention Grant any other grant opportunities we can find.
- 2023 FEMA Assistance to Firefighters Grant application for \$50,000 to build a firefighter equipment decontamination station for firefighting gear and medical equipment
- 2023 FEMA Assistance to Firefighters Grant application for \$1,360,000 to purchase a new aerial ladder truck to replace ladder 1 which is 22 years old
- 2023 FEMA Assistance to Firefighters Grant application for \$927,000 to fully fund for three years the hiring of 4 additional firefighters for the department.

- FY 2023 CDDB \$150,000 for exterior upgrades and Station 5

● **Apparatus and Equipment:**

- In May Salem Fire will take delivery of a new 2022 Ferrara Fire Pumper. This truck will be the third truck purchased from Ferrara to replace an aging truck in our fleet - it will be stationed at Fire Headquarters and run as Engine 1 - it will be identical to our existing Engine 2 and Engine 5. There are many advantages to keeping the trucks all the same - we will significantly reduce the time for repairs - every effort will be made to keep an inventory of parts for these specific trucks – firefighters will be accustomed to one type of apparatus increasing safety and performance.
- Presently, Salem needs a new ladder truck to replace Ladder 1. This truck is 22 years old and must be updated as soon as funding allows.
- Alternative private funding was obtained to purchase three John Deere Gator UTVs - one for the Fire Department and two for the Police Department. These vehicles were delivered in March 2022. This fire UTV will be the second such unit in the fleet - it will be primarily used as a medical cart for the downtown during the busy tourist season and other needs such as woods fire operations, and other special events. The Police UTVs will be outfitted for their needs and will serve similarly in conjunction with the Fire Department during the busy tourist season.

● **Communications:**

- Major changes are underway in the Fire Department dispatch center to modernize call taking and synergize the dispatch effort with Police and private ambulance. The efforts underway will reduce the time from call inception to asset dispatch by 3-4 minutes on many calls. We already have good response times once they're on the road, now we will be able to get the trucks out the door quicker.
- Through a grant funding initiative, new software and computer equipment has been procured and is presently being installed to modernize dispatch – this includes a Computer Aided Dispatch (CAD) platform. A CAD system will enable call takers to share information and data in real-time regardless of location. This information will be instantaneously shared with responding assets including Fire, Police, and Ambulance.
- Salem Fire has replaced its National Fire Incident Reporting System (NIFIRS) with a modern efficient program. FirstDue is a robust program that replaces Fire House Software - FH has been discontinued. FirstDue will allow for efficient report writing, data storage, asset management, pre-fire planning, inspections, PTN files, and scheduling. FirstDue is designed to work seamlessly with the new NEXGEN CAD software. Information on FirstDue will also be available to the Police.
- Salem Fire and Police have started phase 1 of a project to replace the radio dispatch infrastructure for the city. 6 aging radio repeaters

will be replaced with two state of the art units which will serve the entire city - station receivers will be upgraded, and all infrastructure modernized to ensure a reliable radio network for the city for the foreseeable future. The new system will operate using microwave transmitters and fiber optics. While maintaining separate frequencies, police and fire will no longer have independent radio repeaters and networks – instead, both will share one system allowing for better reliability and significant savings.

● **Staffing:**

- Over the past three years, Salem Fire has seen a sizable shift in its workforce. There have been many retirements some resignations. We did experience hiring delays due to Covid 19 - fortunately, we have largely overcome the hiring challenges and are almost up to our full complement of firefighters. With a new younger workforce comes some challenges but many more advantages. These new department members are eager to learn and very eager to serve. The present group of firefighters and officers working for the department are well trained and very well suited to provide emergency services to the community - the future continues to look bright.

**FY 2023 Departmental Goals Relating to City’s Overall Long- & Short-Term Goals:**

- The Fire Department will continue to work towards modernizing everywhere we can: better technology will streamline operations, save money and further the capabilities of the department which will have a direct benefit for the community. In emergency services time is everything - technology saves time.
- A red and blue initiative between police and fire over the past year has shown how much more can be accomplished when agencies combine their efforts. Better communication between dispatch is inevitable with the new equipment and technology installed – better-combined training between both agencies will increase performance and safety - a spirit of teamwork between police and fire will help to create a better public safety work experience for all.
- Efforts have been successful to replace an aging fire pump and as soon as funding allows a new ladder truck will be purchased.
- Sustainability is an important goal for the city: The fire department has begun a design study to replace antiquated heating, lighting, windows, overhead doors, etc. - this will have a major impact on buildings efficiency and significantly reduce cost.

- The vehicles used by our inspectional services fleet are all scheduled to be replaced with hybrid or electric vehicles.
- Renovation of five vital fire stations will happen in phases - the ultimate end goal is low maintenance costs and preserving these structures for the future. Capital improvement will continue to be a focus of the department.
- Community involvement and partnerships have been an integral part of the departments’ overall plan. So often people and organizations are willing to get involved - our department will work to identify and use these available resources. We have always relied on funding for special operations teams, special vehicles, and equipment and we will continue to foster the relations necessary for their continued support. Community partnership is a two-way street; our department will continue to take part in special community events and activities all of which improve the overall city life experience.
- Training and special hazard preparation will continue to be one of the daily activities of this department. We are only as strong as our weakest link - a synergistic approach to training will be made to include all members of the department at all levels - consistency in training is essential.
- Quality equipment is essential to a modern-day firefighting/EMS force. With the recent purchase of new SCBAs, new radios, new dispatch equipment, and software our department is well-positioned to complete our mission successfully and provide the highest level of service to the community.

## SALEM FIRE DEPARTMENT

# Police

## Mission Statement Why We Exist

To protect the people of Salem and its visitors and to fairly uphold the law.

## Goals and Objectives

### Maintain a high level of public safety: Police and Fire

#### Objectives

(1) The Massachusetts Peace Officer Standards and Training (POST) Commission was established in 2020 and charged with creating a mandatory certification process for police officers, as well as processes for decertification, suspension of certification, or reprimand in the event of certain misconduct. In order to meet POST reporting requirements, the Salem Police Department has updated its record management system to better capture and report instances of officer misconduct and streamline the flow of required information to POST. The Department has met all POST reporting requirements for FY22 and will continue to adhere to POST mandates in FY23.

(2) The Massachusetts Police Accreditation Commission (MPAC) offers an accreditation process for police agencies across the Commonwealth. The accreditation process consists of two major components: (1) the establishment of a body of professional standards for police agencies to meet, and (2) a voluntary assessment process by which agencies can be publicly recognized for meeting those standards considered best practices for the profession. The Salem Police Department has been fully accredited by MPAC since 2013 and successfully underwent re-accreditation in 2016. We are preparing for re-accreditation, currently scheduled for April, 2022.

(3) In order to maintain a professional and responsive police agency, the Department must invest in training for its officers. In FY23, our requested training budget is \$55,700.00. In addition to mandated training requirements for currently serving officers, this line item includes training and associated fees for six (6) recruits to attend basic police academy training during FY23.

(4) In FY21, the Department secured a grant from the Metropolitan Area Planning Commission (MAPC) and Northeast Homeland Security Regional Advisory Council (NERAC) to design and conduct a tabletop exercise (TTX) to test our operational planning and response capabilities to a critical incident. The September, 2021 TTX brought together regional law enforcement and public safety agencies, state and federal partners and City departments for a day-long exercise. Lessons learned from the TTX were immediately incorporated into our operational plans for *Haunted Happenings 2021* and will be expanded upon in our planning for *Haunted Happenings 2022* and other large scale City-sponsored events.

(5) In FY22, the Department assigned a detective sergeant to the FBI-led North Shore Gang Task Force Safe Streets Task Force (SSTF). The mission of the SSTF is to identify and target for prosecution criminal enterprise groups responsible for drug trafficking, money laundering, crimes of violence such as murder and aggravated assault, robbery, and violent street gangs. Information sharing and the deployment of SSTF personnel has greatly assisted the SPD in the investigation of several high-profile criminal incidents and we plan on continuing our participation with the SSTF in FY23.

(6) The Department had received funding (\$32,000.00) for two Community Development Block Grants (CBDG) focused on community-policing activities for FY22. These grants place an emphasis on engagement (through directed patrols and community-building activities) in the Point Neighborhood and other low and moderate income (LMI) areas throughout the city. Activities covered under these grants include directed patrol coverage, bike and walking patrols, hosting community engagement events, the establishment of a Duty Captain program to oversee weekend activities and targeted engagement activities by our School Resource Officers and Special Police Officers, etc. The Department has applied for CBDG grant funding for FY23 to continue these initiatives.

(7) In an ongoing effort to enhance police-community relations, the Department, in collaboration with the Salem Fire Department and the Salem Department of Public Works, hosted a well-attended "Public Safety Day" on the Salem Common on August 3rd, 2021. This community-building event is part of our community engagement strategy and also included a series of "Coffee with a Cop", "Ice cream with a Cop" and "Pizza with the Police" events held throughout the City. In FY23 we will continue to host community-building events and plan to procure a "community resource dog" to aid in those efforts.

(8) The Salem Police Department will work to achieve full staffing levels for sworn personnel in Fiscal Year 2023. At the end of FY22, with anticipated retirements and attrition, it is anticipated we will have 56 patrol officers. This is well below the authorized complement of 68 patrol officers (City Ordinance Section 32-1). We will need to hire twelve officers during the remainder of FY22 and into FY23 to meet our authorized strength. In support of this objective, we will continue to work with community-based organizations, such as religious organizations, advocacy

groups, neighborhood associations and academic institutions in an effort to outreach to a more demographically diverse population of candidates.

## **Improve traffic and parking enforcement**

### Objectives

(1) Throughout FY22, the Department conducted selective enforcement operations in areas of the City where accidents are known to occur and where residents have reported ongoing traffic violations. In calendar year 2020, the Department conducted 175 selective enforcement operations to address these issues. 283 selective enforcement operations were conducted in calendar year 2021, a 61% increase. Motor vehicle traffic stops remained fairly consistent over the past two calendar years (5,866 in CY20 and 5,907 in CY21). Selective enforcement operations to address residents' concerns and identified traffic safety issues will be expanded upon in FY23.

(2) The Department currently maintains six (6) traffic data collection units that are deployed on City streets in response to resident complaints and in support of road improvement projects. These units collect data such as speed and time-of-day traffic counts, etc., and analysis of data, enables the Department, working in coordination with the Traffic and Parking Commission, to address issues and design solutions to address traffic problems. Deployment of the traffic data collection units will continue in FY23 in response to resident complaints and roadwork projects.

(3) To assist in traffic management and improve public awareness, particularly during major City events such as *Haunted Happenings* and during critical incidents, the Department received funding for one message board / speed detection unit in FY22 and we are completing the procurement process. We anticipate receipt and deployment of this unit during FY23.

(4) In the FY23 budget we are requesting funding to procure replacement of one automated license plate reader (ALPR) for a Traffic Division cruiser in the amount of \$14,500.00. The ALPR alerts on all CJIS "hotlist notifications" (such as stolen vehicles, wanted criminals, missing persons, uninsured/unregistered vehicles etc.). If approved, the ALPR will be procured and deployed during FY23.

(5) With the assistance of state funding, the Department began the procurement and installation of E-Ticket modules in all front line cruisers during FY22. The E-Ticket system enables patrol officers to issue motor vehicle citations electronically, negating the need to handwrite the citation, and immediately file the citation with the Registry of Motor Vehicles (RMV) and the Massachusetts Department of Transportation (DOT). In FY23, we plan on integrating the E-Ticket system with the Department's record management system (NEXGEN) which will further streamline the reporting process, capture more accurate citation data and preclude the necessity of paper record storage.

(6) The full complement of the SPD Traffic Division has historically been five personnel; one superior officer and four patrol officers. Due to retirements and the June, 2020 death of Officer Dana Mazola, the Division has been staffed with one superior officer and two patrol officers. With the anticipated hiring of new patrol officers, we plan to add one additional patrol officer to the Traffic Division in FY23.

### Enhanced use of technology in public safety

#### Objectives

(1) Recent high-profile cases involving police use of force have fueled ongoing local and national conversations about ways to improve police accountability, transparency, and legitimacy. Department leadership and City stakeholders believe that the use of body-worn cameras (BWC) advance these goals. Because BWCs provide an audio-visual record of police-public encounters that can be reviewed after an incident, the presence of BWCs may encourage both officers and community members to maintain a higher standard of behavior during an encounter. In addition to officer-safety considerations, the use of BWCs demonstrates that the Department is willing to be transparent and accountable for its actions. The Department has researched BWC packages and began a pilot project in FY22 and enacted a formal BWC policy in January, 2022. Developing a BWC program requires a significant investment; the FY23 budget includes a City budget request (\$90,000.00) and approximately \$240,000.00 in state and federal grant funding (which has been approved) to purchase eighty (80) BWCs and peripherals. Full implementation of the BWC program will be phased in during calendar year 2022.

(2) Crucial to the successful implementation of a BWC program is a digital evidence management system which includes the ability to store, review, redact and transmit to authorized users, the digital data recorded from body cameras. Digital evidence management will be under the direction of a superior officer, assisted by two part-time civilian staff, funding for which is included in the FY23 budget.

(3) The Salem Police Department serves as the City's Public Service Answering Point (PSAP) for incoming 9-1-1 calls. The current configuration of the Dispatch Center allows for three personnel to handle incoming calls for service, monitor the City camera system and perform the myriad of dispatching functions. Based on current and anticipated public safety needs, the Department has requested approval from the Massachusetts State 911 program for a fourth 9-1-1 answering position for FY23. If approved, funding will be provided through the existing 9-1-1 grant.

(4) The Department began procuring hybrid cruisers in FY21 and they have proven satisfactory for both patrol and administrative use. We currently operate five hybrid vehicles and the FY23 budget contains a request (\$317,739.26) to procure five additional hybrid or electric vehicles. We aim to reduce fuel costs by selectively phasing out gasoline fueled vehicles and replacing them with hybrids and/or electric vehicles.

(5) Expansion of the city-wide community camera program continued in FY22 with the installation of cameras at Bertram Field. Temporary cameras were installed at ballot drop boxes throughout the City in support of the 2021 elections. These cameras are monitored by the Dispatch Center and aid in crime prevention, investigation of vandalism and other criminal acts, traffic monitoring and assists in public safety planning and response during large scale public events and critical incidents. The FY23 budget contains a request (\$45,000.00) to upgrade and expand the existing camera system. If approved, new cameras will be installed at various locations throughout the City.

(6) Over the past decade the Department has been experiencing a continuing degradation of its radio system. The system, which supports Dispatch, cruiser and handheld radios, is almost thirty years old. The radio system also supports the Salem Fire Department and its communications requirements. Repairs have become increasingly difficult as replacement parts are no longer manufactured and many must be procured on the second-hand market. In FY22 the City funded an engineering study (\$45,760.00) to refine requirements and identify locations throughout the city for placement of antenna arrays and microwave repeaters to ensure optimum coverage. We are currently awaiting the results of the engineering study, which will determine funding requirements for the FY23 CIP.

### **Significant Budget & Staffing Changes For FY 2023 Personnel**

Lucas J. Miller was appointed Chief of Police on May 1, 2021.

Captain Marc Berube was appointed Executive Officer on July 12, 2021.

By City Ordinance (Section 32-1), the authorized staffing level of the Salem Police Department is 26 superior officers and 68 patrol officers for a total of 95 sworn personnel (including the chief of police). At the end of FY22, the patrol officer complement will be 56 patrol officers which is significantly below the authorized complement.

#### **FY22 Retirements**

Lieutenants: Stephen Bona and Brian Gilligan

Sergeants: Kate Stephens and Phillias Verrette

Patrol Officers: Jonathan Bedard, Frederick Dubiel, James Johnson, Michael Levesque, Edward Vaillancourt

#### **FY22 Resignations**

Captain: Dennis King (appointed chief of police, Marblehead Police Department)

Patrol Officers: Randy Canela, Jherderson Rosario, Jeffrey Soto and Iancy Gonzalez

#### **FY22 Promotions**

Captain: John Burke

Lieutenant: John Doyle and Kevin St. Pierre

#### **FY22 Provisional Promotions**

Patrol Officers Eric Connolly and Victor Ruiz promoted to provisional sergeants

#### **FY22 Academy Graduates**

Patrol Officers Cara Buckley, Juan Martinez-Rodriguez, Katherine Ortega, Jhonathan Rodriguez-Nunez and Dino LoConte

#### **FY22 Police Academy Cadet**

Cadet Justin Engdahl

#### **FY22 Special Police Officers**

Pursuant to Chapter 309 of the Acts of 2018, the Department maintains a cadre of special police officers, all of whom are retired SPD officers, who are available for police detail duty and special assignments; Thomas Brennan, Thomas Cunningham, James Johnson, Gary LeBrun, Michael Levesque, Kevin O'Donnell, Robert Phelan, Timothy Salvo, Edward Vaillancourt and Phillias Verrette

With the departure of officers through normal attrition, the Department will need to hire twelve (12) patrol officers during the remainder of FY22 and into FY23 to bring the Department in line with the authorized strength of 68 patrol officers in accordance with the City ordinance.

Assessment centers for the rank of captain (November, 2021), sergeant (February, 2022) and lieutenant (scheduled for May, 2022) were held during FY22.

Funding under the COPS Hiring Grant, which offset costs associated with four officers, ceased on June 30th, 2021 and will not be renewed.

### Expenditure by Department

Outcomes and Performance Measures	Actual FY 2019	Actual FY 2020	Actual FY 2021	Estimated FY 2022	Estimated FY 2023

# Harbormaster

### Mission Statement

#### Why We Exist

The primary mission of the Harbormaster Department is the preservation of life and protection of property in the waters and on the Islands of the City of Salem, including the enforcement of local, state, and in some cases, federal laws. Additionally, the department implements and maintains MTSA mandated security, provides management of the port area, public boating piers, gangways and floats as well as supervises the proper mooring of vessels and collection of associated fees within the jurisdiction.

### Goals and Objectives

- Improve efficiency of harbor management and enhance public access and safety utilizing newly implemented, cloud based administrative tool.
- Continue to work with the Salem Port Authority to ensure productive, thoughtful use of the Designated Port Area.
- Advise and assist with development of Off-Shore Wind opportunities for the Port of Salem.
- Work with maritime stakeholders as well as federal and state partners to advance necessary dredge projects to benefit both commercial and recreational waterway users.
- Coordinate personnel training requirements recently adopted by the Commonwealth of Massachusetts.
- Work collaboratively with the Commonwealths Department of Fishing and Game, Salem’s Park Commission and Salem’s Planning Department to commence construction of a new Willows Fishing Pier.

- Provided continuous input with Salem Municipal Harbor Plan Committee, Salem Planning Department, Consultants, and community stakeholders to assist with the submission of Salem Harbor Master Plan.
- Led Port through regulatory Annual Compliance Exam.
- Provided leadership during a busy marine emergency season resulting in favorable outcomes.
- Coordinated marine operations for a safe demolition and disposal of the Willows Pier structure.

### **Significant Budget & Staffing Changes For FY 2023**

The incremental increase to the state minimum wage and adopted mandated training will impact personnel scheduling and labor costs.

### **Recent Accomplishments**

- Implemented GIS-Cloud based harbor management program.
- Oversaw repair/stabilization of Deep-Water Berth.
- Coordinated removal, repair & re-installation of Salem Wharf North Berth.
- Completed construction & commissioning of Multi-Mission patrol/response craft utilizing PSG-FEMA funding.

## Building/Plumb/Gas Inspectors

### Mission Statement Why We Exist

The Department is responsible for receiving, reviewing, and issuing all Building, Plumbing and Gas Permits. Most of these permits require at least one inspection. The department also handles large amounts of complaints and inquiries regarding housing, zoning, and City Ordinance compliance.

### Goals and Objectives

- Will attempt to track numbers and source of calls made to the department.
- Additional coordination of annual inspections and enforcement actions.
- Will coordinate with health and Data Processing to select new software program that would tie all inspectional services together as well as much simplified reporting of activities.
- Will increase the 21D Ticket program for chronic offenders.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

This Department's goal is to continually update the new View Permit Cloud software. We also are updating hardware for plan review electronically as we strive to eliminate as much paper as possible.

We continue to support many Departments with projects and Handicap compliance issues.

### **Significant Budget & Staffing Changes For FY 2023**

No significant staffing changes for FY 2023.

### **Recent Accomplishments**

- Received and processed 1472 building permits with values of \$859,648 and collection of fees of \$256,435.
- Received and processed 1009 gas and plumbing permits, collecting \$ 100,906 in fees.
- Assisted Fire, Health, Police, Electrical and many other Departments with numerous inspections and miscellaneous problems.
- Performed inspections for 304 certificates, of which 67 were issued with \$6,790 in fees and 110 Inspections totaling 91 with fees of \$5,340.

### Expenditure by Department

## Zoning Board of Appeals

### Mission Statement

#### Why We Exist

The Building Department is responsible for reviewing and issuing Building permits and to inspect these projects for compliance with both the State Building Code as well as the Architectural Access Board Regulations. We also enforce Salem Zoning. Under this Department are our Plumbing and Gas Inspector and the part time Sealer of weights and measures. We frequently assist other Inspectional teams, (Electrical, Fire and Health as well as Salem P.D) on several life safety and quality of life issues. This Department also consults on construction projects throughout the City.

### Goals and Objectives

To continue the on-line applications and streamlining the process.

### Significant Budget & Staffing Changes For FY 2023

No significant changes.

### Recent Accomplishments

Online applications have recently become available.

## Health

### Mission Statement Why We Exist

The mission of the Salem Board of Health is to deliver public health services to residents, businesses, and visitors to benefit the culturally diverse population of the City of Salem. Public health includes preventing and monitoring disease, providing health education, and enforcing public health codes and regulations. This mission is accomplished through the core values of public health which are to prevent, promote, and protect.

### Goals and Objectives

- GOAL: Continue Community Health Improvement Plan geared towards reducing chronic disease risks within Salem.
- OBJECTIVE: The Health and Wellness Coordinator will evaluate programs to include in the Community Health Improvement plan throughout the year.
- OBJECTIVE: Maintain an inventory of vaccines and biologics for City
- GOAL: The Health and Wellness Coordinator will continue working on the Mack Park Food Farm improvement plan.
- OBJECTIVE: Through a variety of funding sources including donations and grants improvements to the Mack Park Food Farm throughout the year.
- GOAL: Continue ongoing Staff development to improve the service delivery to the community.
- OBJECTIVE: By attending educational seminars and trainings to increase staff development within the allotted budget. This will be ongoing.
- GOAL: Improve communication with residents to resolve citizen concerns.
- OBJECTIVE: Using technology to keep residents informed of public health activities throughout the year.
- GOAL: Improve deficiencies in complaint tracking, inspection, and enforcement.
- OBJECTIVE: Through the use of technology close gaps in complaint tracking and inspections. This will be ongoing throughout the year.
- GOAL: Limit the exposure and incidence of infectious diseases.
- OBJECTIVE: By using the MAVEN system and through ongoing detection, investigation, and prevention of communicable diseases in the community.
- GOAL: Continue working to reduce opioid related overdoses in the community.
- OBJECTIVE: Participate in opiate risk reduction programs with our regional partners.
- GOAL: Reduce the risk of communicable diseases in the community sponsored clinics.

- Distributed over 15,000 rapid at home COVID-19 tests.
- The Health and Wellness Coordinator continues to work on the Food Farm at Mack Park project with the installation of solar panels expected in late FY2022 or early FY 2023.
- The Health and Wellness Coordinator conducts Taste and Talk events at senior living facilities in the city.
- Responded to numerous emergency calls from Police and Fire Departments.
- Coordinates the Salem Overdose Awareness and Use Reduction Coalition, webpage [www.Salem.com/opiate](http://www.Salem.com/opiate).
- Provided a community Health information program including, Blog, Facebook, and Twitter presence.
- Provided vaccination clinics for influenza to seniors, city retirees, employees, and residents.
- Ensured compliance with conditions set for various developments and construction projects in the city.
- Ensured compliance with tobacco regulations.
- Enforced the State Sanitary Code for housing, food establishments bathing beaches, swimming pools and other permitted facilities conducting over 1600 inspections.
- Provided sanitary inspections for problem areas in neighborhoods throughout the city.
- Addressed increased complaints through "See Click Fix Tool".
- In conjunction with other North Shore communities and North Shore Elder Services participant in task force to handle hoarding issues in Salem.
- Coordinate a region wide Asthma reduction program that provides information on multi-unit housing owners on smoke free housing, Integrated pest management and smoking cessation programs.
- Participated in a reciprocal agreement with the City of Beverly to allow residents of both communities to participate in household hazardous waste collections twice per year. Collected hazardous waste from over 200 households.
- Conducts active surveillance and follow up of communicable disease reports through the state MAVEN online system.
- Participated in Youth Substance Abuse Prevention grant with Lynn, Marblehead and Swampscott that focuses on underage drinking and substance use prevention.
- Assisted local communities in communicable disease response, immunization clinics.

# Electrical

### Mission Statement Why We Exist

The Mission of the Electrical Department is to protect the safety and welfare of the City's residents and its visitors. More specifically, the department will enforce all laws, bylaws, and regulations in accordance with the City and State of Massachusetts Electrical Codes . The Electrical Department will assist our residents as to any concern that they might have about their safety and well-being. The Electrical department now maintains all the Roadway lighting in the City, Traffic signals and Fire Alarm System.

### Goals and Objectives

- Working with the Planning Department on Gallows Hill Park Improvements.

- Working on Phase two of a comprehensive traffic improvement plan to move traffic quicker and safely from Downtown heading west bound along New Derby Street to North and Essex Street then to North and Federal Street, North and Mason Streets, and through School and North Streets.
- Working with Engineering to Make Derby Street improvements. Lighting and Fire Alarm.
- To have all our traffic signals and hardware painted at all of our major intersections.
- To Keep building our Smart Traffic system and to become more ADA compliant. Citywide.
- To paint fireboxes in different locations through out the City.
- To install new Fire Alarm cable from Gardner Street to Holly Street.
- To complete all the pole transfers for the City's Street luminaires and Fire Alarm cable.
- To step up maintenance in potential problem areas with our Fire Alarm System and our traffic control system.
- Working with the Planning Department to light up our Statues.
- Working on completion of our Capital improvement projects.

- Working on a comprehensive short term and long-term plan to move people and traffic faster and safely throughout the City of Salem with the Smart traffic control system.
- We are looking into the future of traffic control. This is called Adaptive traffic control. This system adjusts the flow of traffic between intersections. It continuously monitors the traffic count. Everything we are doing on the smart signal program will get us ready for the next step which is adaptive traffic control. Currently Mass Dot is building a system on RTE 107 Highland Avenue.
- The Electrical Department has two LED rebuilding projects that need updating and they are North Street and Leslie Retreat Park. The First generation of LED luminaires are losing their output.

### Significant Budget & Staffing Changes For FY 2023

The Electrical department is asking that we replace 1 full-time employee and utilize Mr. Parent as a part time employee. The departments workload has increased significantly along with the City of Salem's growth. The number of streetlights, Roadway lights and traffic signals that have been added. The department also maintains The Fire Alarm System wiring throughout the City.

### Recent Accomplishments

- The Woodlands Road project has been completed and City of Salem, MA has its first Solar Powered Radio-Controlled Fire Alarm Street Box.

- Worked with Mass. Highway for Adaptive signals On RTE 107 Highland Avenue and the project is almost completed. It should be operational hopefully before fiscal 2023 begins.
- Installation of wireless technology to control our Emergency Snow light Beacons.
- The Traffic control smart system Phase one is completed.
- The Smart signal Phase 2 is still underway. We have installed concurrent signals at the intersection of School and North Streets and at Essex and North Streets. We are still working out details on this phase.
- Continue to assist Salem P.D. installing surveillance cameras throughout the City and moving them when required.
- The Installation of Fire Alarm and Street lighting at the Osborne Hills Development is complete.
- Installed new splice kits in the hand holes in Leslie Retreat Park for the Park lighting system.
- Maintaining lighting at Blaney Street .
- Maintaining lighting at the Salem Willows Park.
- The next phase of the smart signals will include North and Federal Streets, North and Mason streets.
- Maintaining lighting on the Bridge Street Bypass Roadway.
- Bridge Street, Boston Street and Flint Street Traffic Signal upgrades.
- Maintaining lighting on Route 107 Bridge Street.
- Rebuilt luminaires and maintaining them at the Common.
- Repairing Rapid Flashing signals at various locations for the Parking Department.
- Installed all new LED Luminaires from Riley Plaza to Congress Street as promised completed.
- Working with the Planning Department for Gallows Hill Park Lighting.
- Maintaining all our Roadway lighting.
- Working with Verizon to transfer the City's Fire Alarm Cables to the new poles being installed throughout the City.
- Holiday lighting throughout the City's business district and downtown has been maintained minimally.
- Continually maintaining our Traffic signals and controllers through out the City.
- The Electrical Department is maintaining all streetlights throughout the City.
- Continue to offer the highest quality customer/constituent services and responsiveness.
- Helped complete improvements to Forest River Park and Bertram Field.

## Conservation Commission

### Mission Statement

#### Why We Exist

The mission of the Salem Conservation Commission is to protect wetlands, waterways, and riverfront areas through the administration of the Wetlands Protection Act, the Rivers Protection Act, Stormwater Management regulations, and the local Wetlands Protection and Conservation Ordinance, and to promote conservation awareness and practice.

### Goals and Objectives

#### Goal – To improve application review

Objectives:

- Perform a thorough review of applications through site inspections, public hearings, and issuance of determinations of applicability and orders of conditions.
- Review applications and issue decisions in a timely manner.
- Inspect and resolve reported violations in a timely manner.

- Maintain expertise of Conservation Commission membership.
- Maintain expertise of the Conservation Agent by supporting attendance at appropriate workshops, seminars, certification courses, etc.

#### Goal – To protect wetlands

Objectives:

- Identify and plan for acquisition of key wetland and buffer properties.
- Identify ways to restore filled wetlands and provide natural floodplain protection.
- Identify the best path to strengthening the Salem Wetlands Protection and Conservation Ordinance and its associated regulations.

#### Goal – To protect open space

Objectives:

- Protect examples of Salem’s ecological diversity.
- Revise local land use regulations to address open space preservation and protection.
- Support establishment of “friends of” groups to help maintain open spaces.
- Participate in the long-range planning for protection of open spaces.
- To work with other departments to incrementally implement the goals and objectives of the Open Space and Recreation Plan.

#### Goal – To undertake consistent public outreach

Objectives:

- Participate in public education activities to inform the public of the responsibilities of the Conservation Commission.
- Provide information to the public regarding the City’s open spaces and land owned by the Conservation Commission, including but not limited to trail maps, open space maps, etc.

#### How FY 2023 Departmental Goals Relate to City’s Overall Long & Short Term Goals

- See Planning – General Administration

#### Significant Budget & Staffing Changes For FY 2023

In March 2021, Kate Kennedy replaced Brittany Dolan as Planner/Conservation Commission Agent.

#### Recent Accomplishments

- In accordance with the Commission’s mission, the Commission:
  - Issued 7 Determinations of Applicability;

- Issued 18 Orders of Conditions; and
- Issued 6 Certificates of Compliance.
- The Conservation Agent and Commission members attended various workshops throughout the fiscal year on topics related to wetlands protection and conservation of open space.
- Former Salem Conservation Commission Agent, Tom Devine, helped to lead the City in a successful approach to updating the Salem Wetlands Protection Ordinance. In June of 2021, the City partnered with environmental consultants Beals & Thomas to lead a working group and public engagement process while creating an updated local Ordinance under the Massachusetts Wetlands Protection Act. The ordinance and its implementing regulations provide substantial protections beyond what is currently in place through the state's Wetlands Protection Act and Salem's existing ordinance. They establish a new 25' no-disturb area as well as a 50' mitigation zone. Vernal pools and isolated vegetated wetlands are now protected resource areas. And by adding climate change adaptation and mitigation as a resource area value, the Conservation Commission for the first time will have the explicit authority to incorporate climate considerations into its review. The Ordinance will be considered by the City Council early in 2022.
- The Commission is working with Salem Sound CoastWatch in the Forest River Conservation Area to update the Volunteer Bridge that students annually engage with for fish count and ecosystem education.
- The Commission continued its contribution towards the City's membership to Greenscapes North Shore Coalition. Greenscapes educates homeowners about maintaining attractive lawns and gardens while protecting rivers, waterways, beaches, harbor and coast. As a member, Salem residents benefit

- The Commission continued its contribution towards the City's membership to Greenscapes North Shore Coalition. Greenscapes educates homeowners about maintaining attractive lawns and gardens while protecting rivers, waterways, beaches, harbor and coast. As a member, Salem residents benefited from free workshops, newsletters, and discounts on various plants from local nurseries.
- The Commission continues to work toward achieving goals of the Open Space & Recreation Plan. The Open Space and Recreation Plan will be updated in FY23.

## Planning Board

### Mission Statement

#### Why We Exist

To guide development in accordance with the Salem Zoning Ordinance, state statute and the subdivision regulations, review and comment on proposed zoning amendments, and to work on long-range community planning efforts to ensure that new development and redevelopment will promote the health, safety, convenience and welfare of the city.

### Goals and Objectives

#### Goal – To ensure that proposed private development projects are done in a manner that best protects the interests of the City Objectives:

- To professionally review development proposals and make recommendations to the Planning Board.
- To ensure compliance with state laws and local ordinances.
- To work closely with the Design Review Board on specific development projects to ensure that the architecture and site design is compatible with and enhances the historic character of the city.
- To effectively work with other local boards and commissions reviewing development projects.

#### Goal – To enhance the future development of the City Objectives:

- To work on long-range community planning efforts.
- To review and comment on proposed zoning amendments.
- To obtain training which can further the skills and knowledge of Board members, keep Board members up to date on current practices, and assist Board members in making effective land-use decisions.

#### How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals

- See Planning – General Administration

### Significant Budget & Staffing Changes For FY 2023

In October 2021, Elena Eimert replaced Mason Wells as Planner working with the Planning Board.

### Recent Accomplishments

Between July 1, 2020 and January 31, 2022, the Planning Board approved six (6) Site Plan Review (SPR) applications and amendments.

In May 2021, the Planning Board reviewed and approved an application for a Modification of a Definitive Subdivision Plan Form C and Cluster Residential Development Special Permit for the Osborne Hills Subdivision, located at 57 Marlborough Road. This approval applies to Phases 6-10 of the Subdivision, with Phases 1-5 approved by the same body in July 2006. The changes approved by the Planning Board increase the publicly available Open Space within the subdivision while diminishing the project's potential environmental impacts.

In August 2021, Massachusetts General Brigham Salem Hospital filed an application for a second Amendment to their previously approved Site Plan Review decision and Stormwater Management Permit for the North Shore Medical Center located at 81 Highland Avenue. This amendment increased pedestrian access and comfort at the site by enclosing an existing open-air space at the Davenport 4 entrance beneath the Surgi-Center, creation of a new indoor lobby, construction of a new canopy over the existing drop-off area, the relocation of a pedestrian walkway, and an increase of shade trees at the site. Work will be completed in 2022.

Also in August 2021, the Planning Board reviewed and approved an application for Site Plan Review and Special Permits under the under the North River Canal Corridor Neighborhood Mixed Use District and Flood Hazard Overlay District for a development at 4 Franklin Street. The site, currently an underutilized lot, will be developed into a business office and ambulance service facility. There will also be a harbor walk pathway along the North River, supporting pedestrian access to

the water and into downtown. The development shows climate-conscious design, with elements of the structure and pedestrian improvements elevated to promote safety in tidal flood conditions.

In January 2022, the Planning Board reviewed and signed off on an “Approval Not Required” plan concerning 373 Highland Avenue and 10 Cedar Road. This consolidation of land was the first step toward the expansion of Tropical Products’ manufacturing business here in Salem.

**Zoning Ordinance Changes:** Between July 1, 2020 and January 31, 2022, the board discussed and voted on recommendations to the City Council for the following zoning applications:

**Zoning Text Amendments:**

- 04/05/21 – recommended that the City council approve with modifications an amendment relative to accessory dwelling units in the following ways:
  - Amending Section 3.2.8 by deleting reference to additional parking requirements in its entirety.
  - Amending Section 3.2.8 by adding language stipulating that a net loss in measured caliper inches of private trees must be remediated through a payment to the Tree Replacement Fund at the prevailing rate set by the Tree Warden.

- Amending Section 3.2.8 by adding language to limit the gross floor area of an accessory dwelling unit to 50% of the gross floor area of the principal dwelling unit.
- Amending Section 3.2.8 by deleting the language restricting the number of Accessory Dwelling Units that can be located on a single lot to one (1).
- Amending Section 3.2.8 by adding language that stipulates utility cost be included in the rent of the Accessory Dwelling Unit.
- Amending Section 3.2.8 by deleting language that restricts the location of ingress and egress points of Accessory Dwelling Units.
- Amending Section 3.2.8 to lengthen the notice of termination from two weeks to thirty (30) days.
- 08/03/2021 – Recommended that the City Council approve an amendment to replace gender-specific nouns and pronouns in the City’s Zoning Code of Ordinances.
- 08/03/2021 – Recommended that the City Council not approve an amendment to establish a two (2) year moratorium on any construction within buffer zones of a wetland or on a floodplain.
- 12/03/2021 – Recommended that the City Council not approve an amendment to Section 8.6.3 (Table of Principle Uses) to list Planned Unit Development as a Non-Permitted Use in the Waterfront Industrial Overlay District.

## General Administration

### Mission Statement Why We Exist

To provide a strong, comprehensive approach for the future development of the city through a wide range of activities, including economic development, land use planning, housing policy, transportation projects, historic preservation, open space conservation, neighborhood improvement efforts, and art and culture initiatives.

### Goals and Objectives

Objectives:

- Maintain a high level of accessibility to and responsiveness by the Planning & Community Development Department.
- Look for ways to deliver City services more efficiently and effectively through the use of technology and performance management.
- Work with other City departments to continue efforts to address climate change and plan to mitigate carbon footprint through the Green Communities program, energy efficiency goals, and the Resilient Together Plan.
- Successfully implement the tenth year of the voter-approved Community Preservation Act.
- Keep the community informed and share information through full utilization of the City's website and other online tools.
- Continue to provide high quality technical assistance to the various land use boards and commissions.

Objectives:

- Leverage ARPA COVID-19 recovery funds and other state and federal funding to strengthen Salem's recovery from COVID-19, with a particu-

lar focus on investments targeted to those disproportionately impacted by COVID-19.

- Collaborate with project partners on implementation of offshore wind infrastructure development at the former Salem Harbor Station Power Plant site that helps create green jobs, supports alternative/renewable energy, and grows the local economy and tax base, while managing impacts on the surrounding neighborhoods.
- Work with Footprint Energy to ensure the successful redevelopment of the Salem Harbor Station Power Plant site and encourage appropriate economic development on the waterfront.
- Continue revitalization of Salem Harbor and the waterfront, downtown, and other economic centers and corridors.
- Encourage responsible private development and new growth opportunities.
- Oversee the preservation and redevelopment of the Superior Court buildings.
- Support the growth of new and existing private businesses, including enhanced recruiting efforts.
- Pursue policies and opportunities to add housing to meet demand, stabilize rents and prices, grow the tax base, and address housing insecurity issues.
- Advance policies and other measures to help Salem realize its community housing goals, including right-sizing supply and improving affordability and access.
- Support the thoughtful advancement of public, private, and public/private projects that will help Salem achieve its housing goals.

Objectives:

- Continue implementation of Salem for All Ages, the ADA Transition Plan, Historic Preservation Plan, and Open Space and Recreation Plan.

- Work with Park and Recreation to carry out the Signature Parks program for the Willows, Winter Island, Pioneer Village/Camp Naumkeag, Forest River Park, and Salem Common
- Work with Park and Recreation to complete the planning and implementation of improvements at Palmer Cove, Bertram Field, and Gallows Hill Park.
- Carry out CPA projects, historic preservation efforts as outlined in the historic preservation plan, and other community improvement projects

Objectives:

- Establish Salem as a dynamic year-round arts and cultural destination.
- Continue to improve upon management of Haunted Happenings and other community events.
- Continue working with the Chamber of Commerce, Salem Main Streets, and other partners on the successful execution of events and festivals that provide vitality to the city.
- Continue development and implementation of cruise port activities and marketing.
- Continue implementation of the Public Art Master Plan.

Objectives:

- Work with Engineering to upgrade City water and sewer systems.
- Work with Engineering to maintain and upgrade City roads, sidewalks, and open spaces.
- Work with Engineering to continue to advance Essex Street, Derby Street, Highland Avenue, and Boston Street improvement projects and the Boston/Bridge intersection project.
- Continue working with the Salem Partnership to advocate for a South Salem MBTA commuter rail stop.
- Work with Engineering and Traffic to continue implementation of complete streets policy and encouragement of alternatives to car use, including micromobility, the new on-demand shuttle service, and community car share pilot.
- Continue supporting the significant reuse and preservation of Old Town Hall.

**How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals**

- The Department's goal to maintain a high level of accessibility and responsiveness is a high priority for the City.
- The Department's goal to look for ways to deliver city services more efficiently and effectively through the use of technology and performance management is a medium priority for the City.

- The Department's goal to work with other City departments to continue efforts to address climate change and plan to mitigate carbon footprint through the Green Communities program, energy efficiency goals, and the Resilient Together Plan is a medium priority for the City.
- The Department's goal to leverage ARPA COVID-19 recovery funds and other state and federal funding to strengthen Salem's recovery from COVID-19, with a particular focus on investments targeted to those disproportionately impacted by COVID-19 is a high priority for the City.
- The Department's goal to collaborate with project partners on implementation of offshore wind infrastructure development at the former Salem Harbor Station Power Plant site that helps create green jobs, supports alternative/renewable energy, and grows the local economy and tax base, while managing impacts on the surrounding neighborhoods is a high priority for the City.
- The Department's goal to pursue policies and opportunities to add housing to meet demand, stabilize rents and prices, grow the tax base, and address housing insecurity issues is a high priority for the City.
- The Department's goal to advance policies and other measures to help Salem realize its community housing goals, including right-sizing supply and improving affordability and access is a high priority for the City.
- The Department's goal to support the thoughtful advancement of public, private, and public/private projects that will help Salem achieve its housing goals is a high priority for the City.
- The Department's goal to work with Footprint Energy to ensure the successful redevelopment of the Salem Harbor Station Power Plant site is a high priority of the City.
- The Department's goal to continue revitalization of Salem Harbor and the waterfront, downtown, and other economic centers and corridors is a high priority of the City.
- The Department's goal to encourage responsible private development and new growth opportunities is a high priority of the City.
- The Department's goal to oversee the preservation and redevelopment of the Superior Court buildings is a high priority of the City.
- The Department's goal to support the growth of new and existing private businesses, including enhanced recruiting efforts, is a medium priority of the City.
- The Department's goal to work with Park and Recreation to carry out the Signature Parks program for the Willows, Winter Island, Pioneer Village/Camp Naumkeag, Forest River Park, and Salem Common is a high priority of the City.
- The Department's goal to work with Park and Recreation to complete the planning and implementation of improvements at Palmer Cove, Bertram Field, and Gallows Hill Park is a medium priority of the City.

- The Department’s goal to carry out CPA projects, historic preservation efforts as outlined in the historic preservation plan, and other community improvement projects is a medium priority of the City.
- The Department’s goal to continue to improve upon management of Haunted Happenings and other community events is a high priority of the City.
- The Department’s goal to continue development and implementation of cruise port activities and marketing is a medium priority of the City.
- The Department’s goal to work with Engineering to maintain and upgrade City water and sewer systems is a high priority of the City.
- The Department’s goal to work with Engineering to maintain and upgrade City roads, sidewalks, and open spaces. is a high priority of the City.
- The Department’s goal to work with Engineering to continue to advance Essex Street, Derby Street, Highland Avenue, and Boston Street improvement projects and the Boston/Bridge intersection project is a high priority of the City.
- The Department’s goal to continue working with the Salem Partnership to advocate for a South Salem MBTA commuter rail stop is a high priority for the City.
- The Department’s goal to work with Engineering and Traffic to continue implementation of complete streets policy and encouragement of alternatives to car use, including micromobility, the new on-demand shuttle service, and community car share pilot is a medium priority of the City.

## Salem Together

Rental assistance from the City of Salem, administered by North Shore Community Action Programs

\$500 a month in rental assistance for 2 months

For income eligible renters in Salem who have been impacted by COVID-19

Have a gap between household income before COVID-19 and now

Salem Together Assistance & Recovery Toolkit

Support for renters.

### Significant Budget & Staffing Changes For FY 2023

In March 2021, Amanda Chiancola was promoted from Senior Planner to Deputy Director filling the vacancy created by Kathy Winn’s retirement. Cassie Moskos was subsequently hired to fill the Senior Planner position. In March 2021, Kate Kennedy was promoted from Planning Assistant to Planner/Conservation Agent, replacing Brittany Dolan. Beth Forrestal was hired to fill the vacant Planning Assistant position. In FY22, Elena Eimert and Daniel Laroe were hired as Planners, replacing Mason Wells and Lev McCarthy. Chelsea Titchenell joined the Department in FY22 as new part-time Planning Assistant. The volume and complexity of work in the Department continues to be high. For FY 2021, we requested the addition of one full-time planner position to support our economic development work, redevelopment projects, and planning studies. Due to the pandemic and budget uncertainties, the request was withdrawn. The work demands remain, however, and we are submitting the request for FY 2023. The Department strives to retain skilled talent and reduce turnover to effectively manage projects and planning initiatives. Our goal is to meet City needs while providing opportunities for planning staff advancement with appropriate compensation.

### Recent Accomplishments

#### COVID-19 Response

In addition to the department’s regular work, DPCD took on additional responsibilities in response to the COVID-19 pandemic. The DPCD worked on three main areas: economic response and recovery, housing assistance, and other assistance.

#### *Economic Response and Recovery*

In response to the COVID-19 pandemic, in March 2020 Mayor Driscoll convened several task forces to address specific community needs. One such task force, the Economic Development Recovery and Revitalization (EDRR) Task Force, has continued to meet since March 2020. The EDRR is managed by the DPCD Director and has worked on short- and long-term needs for the business community, strategized revitalization efforts, and served as a communication vehicle for the business community in terms of available opportunities and assistance. As of January

2022, members of the EDRR are Tom Daniel and Kate Newhall-Smith from the City of Salem, Beth Debski from the Salem Partnership, Laura Swanson from The Enterprise Center, Kate Fox from Destination Salem, John Andrews from Creative Collective, Kylie Sullivan from Salem Main Streets, Rinus Oosthoek from the Chamber of Commerce, and Lucy Corchado from the Point Neighborhood Association. The group has remained dedicated to their charge, meeting weekly to ensure that they stayed focused on their task. Since March 2020, the EDRR has accomplished the following:

Weekly meetings to touch base and continue to work toward goals.

- Business community outreach in the following ways:
- Using City COVID funds, organized and distributed over 200 Personal Protective Equipment (PPE) kits free to Salem businesses in June 2020.
- Created and managed a small business grant program funded through a combination of City COVID funds, reprogrammed Community Development Block Grant (CDBG) funds, and CDBG-CARES funds (from the Federal stimulus bill). DPCD staff granted approximately \$250,000 in grants ranging from \$2,000 to \$5,500 to 50 Salem businesses. Grant funds were used to help pay commercial rent, utilities, and payroll.
- Created, marketed, and managed public safety campaigns including the Stay Local Campaign to promote local commerce, the Mask Up campaign with graphics that were featured on national websites as being 'uniquely Salem', and the Salem Together Pledge.
- Members of the EDRR coordinated with municipal staff from the Traffic and Parking Department, the Licensing Board, the City Solicitor, and the Department of Public Services, and a private consultant, Creative Collective, to facilitate extended outdoor dining in 2020 and 2021. DPCD created an application process which was shared with adjacent municipalities who adopted the same form to kick start their own outdoor dining programs. The group expanded its focus in summer 2021 to include retailers in addition to restaurants.
- Supported Salem Main Streets in the management of the Downtown Ambassador program. The ambassadors continue to be the boots on the streets, educating visitors to the downtown on mask wearing and COVID safety precautions.
- Collaborated with The Enterprise Center to create a small business Technical Assistance program using \$60,000 in CDBG-CARES funding. This program matched small businesses to consultants to provide one-on-one technical assistance. Thus far, 24 businesses have been assisted.
- Convened a separate working group of volunteer consultants, Harvard graduate students, and staff from Congressman Moulton to strategize tools for economic response and recovery. The group conducted in-depth interviews with 56 businesses to assess needs and develop solutions. The work led to a grant application to the Economic Development Administration to support marketing, technical assistance, events, and

an economic diversification strategy. The \$662,922 grant was awarded in March 2021 and will support COVID recovery efforts through March 2023.

- EDRR members collaborated to create a new \$1 million Salem Small Business Loan Fund (see entry below).
- Organized and sponsored several business community webinars as follows:
- Created and administered an employee retention and hiring bonus program to incentivize employees, via \$500 bonuses, to remain working in Salem businesses during the 2022 winter season.

Members of the EDRR remain committed to continue working together to support the business community through recovery and in the new normal. Task force group members have begun to explore how to support Salem's creative economy and gig workers. A subcommittee was formed in January 2022 to focus on this task.

#### *Housing Assistance*

*Emergency Rental Programs: DPCD staff collaborated with the North Shore Community Action Program (NSCAP) as well as the Board of the Council on Aging and the Salem Housing Authority to develop emergency rental assistance programs for Salem residential renters who have been impacted my COVID-19.*

- NSCAP was engaged through four contracts to provide Emergency Rental Assistance to households unable to pay rent due to loss of work as a result of the pandemic. These contracts are funded with HOME (\$37,773), CDBG-CV (\$250,000), City COVID (\$50,000) and CPA (\$120,000) funds. Thus far, 108 households have been assisted.
- Through a collaboration with the Salem Council on Aging, the Salem Housing Authority was engaged (\$120,000) to provide transitional rental assistance to help low-income residents at risk of homelessness to fill a gap in funding needed to make rent. Thus far, 18 households have been assisted.

#### *Other Assistance*

In addition to City COVID funds, the City received an allocation of \$1,184,098 in Cares Act funds from HUD (CDBG-CV). Along with the Economic Development and Housing activities noted above, CDBG-CV funds have been used for the following accomplishments:

Collaborated with MassHire to provide an Employee Incentive Program that awarded gift cards as an incentive bonus to employees hired by restaurants, hotels, tourist attractions, and small retail establishments between June 1 and July 23, 2021 and remained for a minimum of six weeks. Additional gift cards were provided to those who remained at their job through October 31, 2021. \$30,000 in gift cards were provided to 52 new employees.

- Engaged North Shore Community Development Coalition to provide COVID-19 response in the Point Neighborhood using \$42,500 in CDBG-CV funds. Thus far, 1,192 Point Neighborhood residents have been assisted with activities including wellness checks made to low income families to provide connection to resources such as diaper banks, discounted WIFI services through Comcast, referrals to food pantries/free food, support on accessing P-EBT cards, rental assistance, and unemployment benefits. Over 417 care packages were delivered to families with essential items such as toothpaste, toothbrushes, toilet paper, deodorant, shampoo, face masks, activity books and crayons, and healthy smoothie kits. Resident ambassadors walked and knocked on doors to inform them of available rental assistance (along with helping with RAFT applications), free COVID testing and vaccines (along with help booking appointments), food resources, free haircuts and City resources such as SeeClickFix, CodeRed and the public meeting calendar. They also participated in a toy drive for Christmas and reached out to small businesses. Ambassadors supported the City Board of Health to distribute Market Basket gift cards to families most in need.
- Supported homeless day support and outreach during the pandemic with a \$11,960 grant award to Lifebridge to expand the day center from 3 days with one staff member to 5 days with 2 staff members in order to provide direct care and case management to homeless persons during the COVID-19 pandemic. They ended up operating 7 days a week and 24 hours a day several times through April. This was due to the number of people who had been couch surfing or living in their cars. Persons who had previously been staying with someone were no longer able to during the pandemic, so the day center was seeing 50-60 people per day and some days up to 75 people. They provided food, PPE, access to a warm location during inclement weather and access to virtual health appointments.
- Assisted with emergency food assistance through a grant to Haven From Hunger (\$40,000) assisting 1274 Salem residents, as well as two grants to Salem Pantry (\$9,400), assisting 363 Salem residents, and one underway (\$50,000), assisting 340 residents to date.
- Supported Healing Abuse, Working for Change (HAWC) with providing temporary relocation in order to effect social distancing and/or quarantine for families at their shelter. With 40,000, 31 persons were assisted.
- Funded emergency childcare for essential works through the Salem Y with \$40,000 in CDBG-CV funds, assisting 55 persons.
- Distributed self-care items to 500 isolated seniors through the Salem Council on Aging with \$8,000 in CDBG-CV funds. The bags were assembled by Council on Aging and Salem Police Department staff and were delivered to residents in Salem Housing Authority's low-income senior housing units and other senior residences. The effort was also a way to provide outreach and "check-in" on some of the most vulnerable senior residents.
- Engaged Creative Collection to plan, administrate and execute Salem's 2021 outdoor activations program, including but not limited to outdoor

dining and outdoor retail opportunities for businesses impacted by the pandemic. The consultant assisted each business with instituting the appropriate COVID-19 protocols in the provision of socially distant outdoor retail and/or dining options.

- Undertake pre-development costs with \$50,000 in CDBG-CV to undertake ADA upgrades, fire suppression, ventilation, mold/asbestos abatement, and other improvements to Old Town Hall. The process is currently underway.

## **Regular Work**

### *Plans, Studies, and Policies*

- Imagine Salem: In 2016, the City was awarded a \$30,000 Executive Office for Administration and Finance (EOAF) grant to support a city-wide visioning project. In 2017, the Imagine Salem project was launched and had more than 1,900 interactions with people. The Imagine Salem Progress Report summarizes the findings and lays the path for future work. DPCD continues to use the guiding vision and principles. The Imagine Salem wheel shows interconnections among multiple domains that are part of DPCD and the City's work.
- Shetland Park: In early 2022, DPCD staff began working with the community and Prime Group, owners of Shetland Park, on a framework plan for the site. The owners had developed their own plan in 2021; however, additional community involvement was needed. The current effort will have expanded community engagement and dialog. The goal is to have a shared framework that can advance the owner's and community's needs. It is anticipated working group, focus group, and community meetings will be held in the second half of FY2022.
- Housing Roadmap: In 2021, the City was awarded a \$40,000 grant from the State to support the creation and development of a housing production plan. This plan is an outgrowth from Imagine Salem and will help guide housing policy for the next several years. Between August 2021 and January 2022, City staff has been working with consultants at JM Goldson on outreach and information gathering. The planning effort will conclude in June 2022 with a presentation to the City Council.
- Resilient Together: El Punto: The City of Salem received funding from the Massachusetts Office of Coastal Zone Management (CZM) FY22 Coastal Resilience Grant Program to conduct a Climate Change Deep Dive Model, Alternative Analysis, and Targeted Outreach & Engagement project in the Point/Palmer Cove neighborhood. Through the priority actions identified in the Resilient Together climate action and resilient plan, this plan furthers the many assessments that Salem has done over the past decade to advance climate resilience for our most vulnerable communities. With the final Resilient Together plan's release in July 2021, this project is one of the first implemented from the 70+ actions to prepare for and reduce our impacts on future climate change projections.
- The Harbor Plan officially kicked off in July 2020 with the submission of a Request for Notice to Proceed with MCZM. The Harbor Plan update

will guide future development along Salem Harbor, most notably the reuse of the 42 acres of undeveloped land adjacent to the Footprint Power Plant as an offshore wind construction staging port. The plan is in development and is anticipated to be submitted for state review in spring 2022.

- **Highland Avenue Corridor Study:** In September 2020, DPCD commenced a corridor study for Highland Avenue. The goal of the study was to develop a vision for the future of the corridor from which other action can be taken to realize this vision within a context of market dynamics. DPCD staff managed the study, led the consultants on a site visit, held three working group meetings and two community meetings between October of 2020 and January of 2021. The final report was completed in April 2021.
- **South Campus:** The City partnered with Salem State University and DCAMM to develop a community vision for the redevelopment of the 21.5-acre site resulting from the University's consolidation to North and Central Campuses. Sasaki Associates facilitated the community process which was completed in April 2020. The parties have further collaborated in the development of DCAMM's request for proposals which will be released in February 2022.
- **Hazard Mitigation Plan:** In collaboration with the Engineering Department, the City received a grant of \$16,666 from the Massachusetts Emergency Management Agency (MEMA), to be used in FY19-20. Along with a City match, Salem used these funds to update its Hazard Mitigation Plan, including identifying vulnerabilities, mitigation goals, and action steps that may have changed since the previous plan update in 2011. This was completed in March 2020 and approved and adopted by the City Council in December 2020.
- **Bridge Street Neck Overlay District.** DPCD and its consultant, Metropolitan Area Planning Council (MAPC), worked with community members to develop an overlay zoning ordinance with design standards. The zoning regulations build off the Vision Update Study that was completed in April of 2020. A project website, <https://publicinput.com/bridgestreetneck> was created in July 2021 to share information about the project and receive comments through a survey. Two community forums were held and staff held office hours to receive community input. It is anticipated that the proposed zoning ordinance will be filed in March 2022.
- **Green Infrastructure Ordinance:** In 2021, DPCD staff drafted language to add solar energy systems to the zoning ordinance. This is a state exempt use, so adding this language allows the City to give some parameters to where and how these systems should be installed. Simultaneously, staff in Sustainability and Resiliency were drafting language to codify practices around EV charging stations, bike parking, and a new net zero energy plan. The departments came together to propose one ordinance that incorporated all the changes at one time. These items are scheduled for a joint public hearing in early 2022.
- **Wetlands Ordinance:** In 2021 and 2022, DPCD led the process to update the City's Wetlands Protection and Conservation Ordinance. Staff procured the services of an outside expert, convened a working

group, and led a series of public forums. The resulting draft ordinance enhances protection of Salem's wetlands and gives the Conservation Commission explicit authority to consider climate change in its permit review. Furthermore, the amendment modernizes administrative procedures and provides clarity and consistency to applicants.

- In 2017, the City was awarded a \$45,000 Executive Office of Energy and Environmental Affairs Grant for technical assistance for a comprehensive rewrite of the City's subdivision regulations, which were last updated in 1987. The update to the subdivision regulations will advance several strategies outlined in the City of Salem's successful Climate Change Vulnerability Assessment and Adaptation Plan. Strategies that will be advanced as part of the update include preventing or managing flooding through low impact development (LID) standards and expanding the urban forest. The regulations will also include design standards to support the city's complete street policy. The draft regulations are set for a public hearing and adoption by the Planning Board in 2022.
- **Demolition Delay Ordinance:** In 2020-2021, DPCD led the revision of the Demolition Delay Ordinance to increase the delay period in order to provide greater opportunity to seek preservation alternatives for threatened historically significant buildings and to more clearly define the review process for both the Commission and property owners. The Council approved the revised ordinance in 2021.

*Projects, Programs, and Initiatives*

- In September 2021, the City partnered with Crowley and Avangrid Renewables on the redevelopment of the 42 acres of waterfront land surrounding the power plant. The property will be used as a construction staging facility for offshore wind turbine installations south of Cape Cod, including the 1200MW Commonwealth Wind project, which was awarded to Avangrid in December 2021. The City continues to work closely with Crowley and Avangrid as they advance redevelopment plans toward a target completion date of January 2025.
- **Historic Courthouses and Crescent Lot:** In November 2020, the Salem Redevelopment Authority (SRA) selected Winn Development as the preferred developer. This selection was made after months of thorough and thoughtful consideration, critique, and discussion among members of the SRA, its staff and consultants, and with the development teams and the public over the course of ten public meetings. Since Winn's designation, the SRA has facilitated the following tasks:
- In September 2021, the City partnered with Crowley and Avangrid Renewables on the redevelopment of the 42 acres of waterfront land surrounding the power plant. The property will be used as a construction staging facility for offshore wind turbine installations south of Cape Cod, including the 1200MW Commonwealth Wind project, which was awarded to Avangrid in December 2021. The City continues to work closely with Crowley and Avangrid as they advance redevelopment plans toward a target completion date of January 2025.

- **Historic Courthouses and Crescent Lot:** In November 2020, the Salem Redevelopment Authority (SRA) selected Winn Development as the preferred developer. This selection was made after months of thorough and thoughtful consideration, critique, and discussion among members of the SRA, its staff and consultants, and with the development teams and the public over the course of ten public meetings. Since Winn's designation, the SRA has facilitated the following tasks:
  - As requested by the City Council, DPCD worked with the SRA on the disposition of 5 Broad Street. After review of the three proposals, in April 2019 the SRA recommended the City Council select Charing Cross Realty Trust as the designated developer for the property. Charing Cross proposed the purchase of the building at \$1.35 million, which is the full appraised value. The final proposal includes preservation of the exterior of the building, sixteen residential units with one unit designated as affordable, on-site parking in accordance with City regulations, an electric car charging station, a Zip Car parking space, bicycle storage for owners and visitors, and a \$5,000 contribution to the Salem Public Art Commission. The project is expected to begin permitting in 2022.
  - Salem welcomed a new addition to its roster of hotels, inns, and bed and breakfasts in October 2020 with the opening of the 113-room Hampton Inn. The mixed-use project includes 56 residential units, approximately 12,000 square feet of ground floor commercial space, and a 212-stall parking garage. DPCD remains in contact with the project manager and continues to refer potential commercial tenants to him.
  - Brix, the mixed-use project at 65 Washington Street, opened its doors to residents in 2021 with a ribbon cutting held on December 14, 2021.
  - DPCD worked with the SRA on the review of several significant downtown projects including the redevelopment of 38 Norman Street, a currently underutilized property that will see the construction of a new mixed-use building with 20 residential units and commercial space on the first floor, faade modifications to 285 Derby Street to facilitate Real Pirates, a new museum/experience coming to Salem in Spring 2022, and faade improvements for Bit Bar's new location on Derby Street. DPCD staff worked with the SRA and its Design Review Board on the review of signs for new and existing businesses, including Lulu's Bakery and Pantry on Derby Street, Curly Girl Candy Shop on Washington Street, and Jenni Stuart Fine Jewelry/Helios Floral Design on Church Street.
  - The department continues to assist businesses in a range of ways: connecting those seeking space to locate in Salem or to expand their existing Salem-based business to property owners and realtors, maintaining the 'Salem Commercial Properties' inventory to share with prospective businesses, providing referral services to the Enterprise Center, Salem Main Streets, the Chamber of Commerce, the Small Business Association, MassDevelopment, the MA Office of Business Development, Mill Cities Community Investments, and administering the City's Small Business Loan Program. Businesses assisted range from established retail shops seeking to expand, new businesses moving to Salem either as a first 'brick and mortar' location or as an additional storefront, to manufacturing companies looking for industrial space. All of these businesses seek to bring a product, service, or industry to Salem that not only meets the needs of the community but provides new job opportunities. In Spring 2021, DPCD staff initiated monthly meetings with the Salem Chamber of Commerce and Salem Main Streets focused on business recruitment. These meetings serve as a touchpoint for the three entities who work together to expand the diversity of local businesses throughout Salem; the three entities share a spreadsheet that they update throughout the month as developments occur.
- DPCD worked with partners throughout the region -- including private financial institutions, non-profit organizations, and business support organizations -- on the development of the Salem Small Business Loan Fund. An initiative stemming from Essex County Community Foundation (ECCF), the loan fund launched in December 2020. With several financial institutions pooling \$1 million for the fund, ECCF offering \$100,000 in loan loss reserve, the fund is available to new and existing Salem businesses. The program is managed by Mill Cities Community Investments (MCCI) where interested entrepreneurs can talk through the program parameters and receive referrals for technical assistance being offered free of charge from several local organizations. Made all the more important by the economic hardship created by the COVID-19 pandemic, the Salem Loan Fund launched at a critical time, providing additional financial resources and technical assistance to the small business community. The Salem Loan Fund has also provided the blueprint for loan funds in other Essex County communities.
- DPCD continues to administer the City's separate Small Business Loan Program. This program, funded through CDBG, provides low-interest loans at favorable rates to businesses that seek to establish themselves in Salem, seek to expand their already established business, or need working capital to restructure existing debt.
- DPCD staff created, managed, and launched the North Shore Diversity Catalog. Partnering with our neighbors in Beverly, Peabody, Lynn, Swampscott, Marblehead, and Nahant, the Catalog is a regional vendor registry for minority- and women-owned businesses. The Catalog was created with the goal that equity and diversity in municipal contracts can be increased as well as it be a resource to provide residents and other businesses with a single, comprehensive catalog of such businesses they can support. The inaugural catalog was published in May 2021 with 138 businesses participating in it. Planning for the 2022 Catalog began in fall 2021 with an estimated publishing date of February 2022.
- DPCD continued to administer an EPA-funded brownfields revolving loan fund in partnership with the City of Peabody. The program supports the remediation and redevelopment of underutilized contaminated properties.

- DPCD continues to work with its economic development partners on ways to support, diversify, and engage with the Salem business community. With regular meetings among Salem Main Streets, Salem Chamber of Commerce, the Creative Collective, The Enterprise Center, the Salem Partnership, and Destination Salem, all of the city's economic development stakeholders are up to date and aware of changes in Salem's business environment and are able to collectively respond to these changes in a positive manner to ensure the health of Salem's business community.
- DPCD continued to work with Destination Salem to increase tourism. See Marketing and Tourism.
- DPCD continued to implement the Downtown Retail Market Study in collaboration with Salem Main Streets.
- DPCD continued to work with the Salem Partnership to study the feasibility and economic impact of a South Salem Commuter Rail.
- Public Land: Throughout 2019 and 2020, DPCD staff has been collaborating with the Massachusetts Housing Partnership (MHP) and MassHousing on the preliminary review of public land in Salem to identify sites that are feasible for affordable housing. In September 2020, MHP sponsored an Urban Land Institute (ULI) technical assistance panel (TAP) that provided guidance to the City on the redevelopment potential of the high school campus to include affordable housing, with a focus on assessing the feasibility of providing housing specifically for educators.
- Affordable Housing Trust Fund: Recent projects undertaken by this board have been establishing a Condo Conversion Act and updating the Public Land Disposition Ordinance. In the next portion of FY2022, staff will be requesting home rule petitions for elements of the Condo Conversion Act, soliciting feedback on the draft language from landlords and tenants. The draft regulations should be set for a public hearing in 2022.
- DPCD staff are coordinating with the City Solicitor and outside counsel to negotiate a cost sharing agreement with the US EPA to remediate the arsenic-contaminated soil at Mansell Field. DPCD engaged an LSP and landscape architect to develop a park restoration plan to be implemented in conjunction with the remediation.
- The City has been working on various improvements throughout Salem Willows Park. In August 2020, 23 dead or dying trees that posed a hazard were removed from the park and 22 trees were planted as replacement trees after that. Improvements to the parking lot, tennis courts, and hill area kicked off in Summer of 2021 and are anticipated to be complete by late spring 2022. Design and permitting are proceeding for the reconstruction of the Salem Willows Pier. Demolition of the existing pier has been completed and the new construction is slated to begin late 2022.
- DPCD oversaw the first phase of renovation of Palmer Cove Park. Completed in October 2021, these improvements were funded in part by a \$400,000 PARC grant and include a new waterfront promenade, relocated community gardens, refurbished basketball court, and additional trees, site furnishings, and pathways. DPCD applied for \$514,000 through the MA Land & Water Conservation Fund program to support the next phase of improvements to commence late 2022 or early 2023.
- DPCD unveiled a second rotation of sculptures along the Harbor Connector Path that was inaugurated in December 2020.
- DPCD partnered with the City of Peabody to identify solutions to flooding and riverine erosion within the Harmony Grove area of the North River. The project, funded by a \$200,000 MA EEA Municipal Vulnerability Preparedness grant, seeks to increase resiliency for the corridor's roadway, freight rail line, and SESD sewer interceptor. In addition, the work advances the design of a multiuse path segment to connect Salem and Peabody's expanding off-street path networks.
- In collaboration with Salem Sound Coastwatch and Salem State University, DPCD oversaw additional outreach, maintenance, and monitoring for the Collins Cove living shoreline project. DPCD secured a \$62,825 MA CZM Coastal Resilience Grant for this undertaking, which was completed in June 2021. The new salt marsh plantings absorb wave action to protect the Peter Tracy walkway and Webb Street properties from flooding and erosion. July 2021 marked further progress to other shoreline restoration projects as Forest River Outdoor Recreation and Nature Center is reestablishing the former pool location with native marsh plantings and working to remove invasive species.
- DPCD collaborated with Traffic and Parking staff and Toole Design Group to finalize plans for "complete streets" improvements to the North Street corridor. Proposed improvements include upgraded pedestrian crossings, traffic calming features, and protected bike lanes.
- DPCD staff secured \$137,500 in grant funding from the state's new Shared Street's and Spaces program in August 2020 for two quick-build projects: The installation of a temporary sidewalk expansion platform along Essex Street between Hawthorne Blvd. and New Liberty Street, and the installation of bike lanes and traffic calming features on Willson Street.
- DPCD applied for a \$487,500 MassDOT Community Connections grant in December 2020 to support the continued operation of the Salem Skipper on-demand shuttle service beyond its one-year pilot service. The program was initiated in December 2020 with support from a \$175,000 MassDOT Workforce Transportation Program grant.
- DPCD collaborated with Traffic & Parking staff to launch Salem's Bluebikes bikeshare system in July 2021. The program, supported by a \$200,000 MassDOT Shared Streets & Spaces grant, builds on the success of the Zagster bikeshare that logged nearly 25,000 rides in its three years of operation. In December 2021, DPCD applied for \$96,000 through the Boston MPO's Community Connection grant program to fund further system expansion.
- In 2019, the City was awarded funding by the Governor's Seaport Economic Council for the design and implementation of repairs to the North Berth and Deep Water Berth at Salem Wharf. The Deep Water

Berth repair work was completed in summer 2021. The work to the North Berth will be complete by spring 2022. The repairs will restore the functionality of these facilities to support continued commercial use of Salem's port facilities.

- The City is completing an update of the Historical Commission's Design Guidelines Notebook with support from a 2021 Survey and Planning Grant. This notebook serves as guidance for the Historical Commission as well as for the City's design review boards and historic property owners.
- DPCD completed the Broad Street Cemetery Preservation Plan with Community Preservation Act funds. The final plan assesses the condition of the cemetery's burial markers, tombs, fencing, landscape features and circulation, identifies and prioritizes restoration needs and provides cost estimates and recommended design plans. DPCD continues to advocate for the preservation of Salem's five municipally owned historic cemeteries, including conservation of headstones and tombs, restoration of historic features such as fencing, and improvements to landscape features and to public access.
- DPCD collaborated with the Department of Public Services and the Cemetery Commission on a Master Plan for Greenlawn Cemetery, one of the region's most important examples of a 19th century rural cemetery design.
- The City's Preservation Planner and the Mayor continue to coordinate ongoing meetings of the Salem Preservation Partners, a group of local preservation organizations. The Partners continue to discuss strategies to address climate change impacts on historic resources, including public engagement and educational workshops on the topic. The group hosted a virtual daylong conference on this topic - Keeping History Above Water Salem - in September 2021. The Partners are now planning a regional multi-day conference in September 2022 and will install a small temporary exhibit on climate change impacts in Salem in the City Hall Annex.
- DPCD continues to update and enhance the "Preserving Salem" website, a companion site to the City's existing "Building Salem" website. This site provides information on the City's historic resources and provide information on ongoing City-sponsored preservation projects and events.
- The Preservation Planner continues to collaborate with Historic Salem, Inc. on educational and outreach efforts about historic preservation tools for historic neighborhoods.
- DPCD completed Phase V of the restoration of the Salem Common Fence. This phase included restoring 16 fence sections on the north side of the Common.
- The City completed the final phase of a multi-phase landscape restoration project at Charter Street Cemetery. Work included upgrades and stabilization of pathways, installation of in-ground lighting, installation and restoration of fencing, and major landscaping improvements. The City was awarded a \$125,000 Massachusetts Cultural Council Facilities

Fund grant for this project. The City is now preparing a reopening plan to protect the historic cemetery. DPCD collaborated with the Parks and Recreation Department, the Department of Public Services, the City Solicitor and the Peabody Essex Museum on the creation of a new Charter Street Cemetery Welcome Center, which opened in in 2021. The Welcome Center offers interpretation of the historic cemetery and surrounding Charter Street neighborhood and provides oversight of the recently renovated Charter Street Cemetery to ensure that visitors are respectful of the burial ground's fragile features. New signage was also installed at the cemetery.

- The City is nearing completion on the restoration of the historic Almy's Clock on Essex Street. This project includes restoration of the cast iron case, cleaning and repairs to clock mechanisms, repainting the clock face and reinstalling the clock on a new granite base. Restoration is complete and the clock is expected to be reinstalled in spring 2022.
- DPCD continues efforts to restore the historic Dickson Chapel at Greenlawn Cemetery. The recent project phase replaced the conservatory doors, which were deteriorated and failing, with new historically appropriate doors. DPCD continues to work with Cemetery Superintendent and Friends of Greenlawn on future efforts including exterior masonry restoration and stained glass conservation.
- DPCD continues to advocate for the restoration and revitalization of the historic Grimshawe House on Charter Street. This building's association with Nathaniel Hawthorne as well as its prominent location in the downtown adjacent to the Charter Street Cemetery make it one of Salem's most well-known historic buildings.
- DPCD is advocating for the preservation of Fort Lee, an 18th century earthwork fort in the Willows and will be submitting a grant application in March 2022 to develop a preservation management plan to protect and preserve the historic fort while maintaining public access to the site.
- The City is seeking to conserve the Salem Deed, a 1686 parchment document that is used as evidence of the conveyance of the land known as Salem from the Massachusetts Tribe to English Settlers. DPCD staff is working with the City Clerk and the Massachusetts Tribe on this effort.
- CDBG-CV Job creation: In FY21, the Microenterprise and Small Business Grant Program for COVID-19 relief resulted in the documentation of 18 jobs retained. The Enterprise Center Small Business Technical Assistance Program documented 16 jobs.
- In FY20, 13 businesses were provided with emergency grants to provide relief of COVID-19 negative business impacts.
- In FY21, through the Main Streets program provided technical assistance to 4 new, 32 existing, and 3 potential businesses, creating 4 new full-time equivalent jobs. Technical assistance includes consultations on facility design, appearance and marketing (including social media), market research, business plan development, business models, advocacy, strategy, expansion assistance, peer support, recognizing/

addressing operating and financial risks, location assistance for new or relocating businesses and general business planning.

- Main Streets conducted one on one consultations with 4 businesses, and group technical assistance to 4 businesses on business illumination.
- Main Streets held 3 quarterly retail meetings (September, November, March) with 9-15 participants each, which provided business tips, sharing resource information, interior layout assistance, along with discussion on business adjustments due to COVID-19 such as outdoor dining and retail, centralized sales pickup locations, web sales, reopening, vaccine related FAQs, and other technical support. They also held a pre-construction meeting with 8 businesses concerning street construction impacts. They also participated in 2020 Artists Row tenant selection and a Technical Assistance Survey for the state Local Rapid Response Plan.
- Working through the Main Streets program, a successful Farmers' Market continued at Derby Square in 2021, bolstering the vitality of downtown and providing an economic boost, as well as fresh produce.
- Numerous other downtown events were organized through or in collaboration with the Salem Main Streets program, including the Salem Winter Market, Holiday Happenings (holiday tree lighting, Santa's arrival), New Year's Eve LAUNCH!, Salem So Sweet Festival, Small Business Saturday, and management of the information booth for Haunted Happenings.
- Lighting was completed on Artists' Row.
- Working with other departments and the Community Preservation Committee, the eighth round of CPA funding awards was made in spring 2021. Eight projects were recommended for funding and approved by Council. For more detailed information, see the CPA FY22 Community Preservation Plan & FY21 Annual Report.
- Housing
- CDBG assistance provided to 34 social service programs which assisted 7,928 persons, including at least 201 youth and at least 201 seniors.
- CDBG-CV assistance provided to 6 social service programs which assisted 3,943 persons, including at least 55 youth and at least 500 seniors.
- Through the North Shore CDC's Small Business Engagement Program provided technical assistance to 10 new, 62 existing, and 7 prospective businesses, creating 7 new full-time equivalent jobs. The program serves minority entrepreneurs with business workshops, mentoring sessions, networking groups and referrals to partner agencies, in order to assist the development and growth of immigrant-owned businesses that provide products and services to the Point Neighborhood.

- 19 trees planted on Cedarview St., Raymond Rd., Derby Street, Essex Street, Leavitt St., Prince St., Cedar St., Lafayette St., Loring Avenue, and Charter Streets.
- An update of a Housing Needs Assessment was completed.
-

## Market & Tourism

### Mission Statement

#### Why We Exist

Our goals are to establish Salem as dynamic year-round arts and culture destination; identify new markets and a fresh message; and explore and expand partnerships with the Boston tourism industry.

We are committed to enriching and enlivening the urban environment through showcasing innovative and transformative works of art in all media and modalities. With a focus on working with local artists, especially those historically underrepresented, we seek to foster greater community awareness of and interaction with the arts and celebrate diversity in all its forms. Our local goals are to nurture diversity and creativity; foster a sense of community pride and belonging; and enhance the quality of life for all.

We will also endeavor to boost the local creative economy by generating new markets for local artists through a variety of means including ongoing efforts to redevelop Old Town Hall into a more active venue for live performances and the visual arts, and through the continued successful operation of Artists' Row. Additionally, we strive to form partnerships with local non-profits, cultural organizations and individual artists to carry out festivals and community events, celebrate the power of the arts to activate spaces, start conversations, and bring people together in an urban environment and generally support the work of artist and arts/culture organization based in Salem.

### Goals and Objectives

Execute a more typical marketing and communications strategy during FY23 that incorporates lessons learned from the two years of the pandemic into ongoing work to increase visitation and engage visitors in downtown Salem.

#### Objectives:

- Re-envision the use of and increase artistic programming in Old Town Hall to provide new opportunities to local artists and organization while generating additional vitality for the downtown area.
- Continue implementation of the Public Art Master Plan through the Public Art Commission, including development of new public art installations.
- Support Destination Salem as it builds a visitor information center in the South Harbor Garage, which will be open 7 days/week, 12 months/year and support the City of Salem's new public restrooms.
- Continue to collaborate with Destination Salem to clearly communicate with residents regarding the importance of tourism to the Salem economy.

- Continue to incorporate public health guidelines and visitor expectations in the marketing of the City of Salem.
- Engage public relations consultants to generate earned media and manage crisis marketing and communications as necessary to ensure tourism is safe for residents, employees, and visitors.
- Support the mission and efforts of Destination Salem through continued financial support from the hotel/motel tax and acquisition of grant funding.
- Support Destination Salem and organizational partners to redesign the Salem Heritage Trail, including creation of a new website for the trail that interprets and presents an inclusive interpretation of Salem history.
- Promote the 40th anniversary Salem Haunted Happenings festival in a manner that communicates best practices for visiting Salem during October.
- Work with Destination Salem in carrying out a recovery marketing strategy that encourages year-round visitation to Salem.
- Be prepared to promote Salem as an ideal port for small cruise ships when the cruise industry returns after the pandemic.

**Goal - To boost the local creative economy by promoting the local arts community, generating new markets for local artists, and generating additional economic activity in the downtown.**

#### Objectives:

- Lease the Artists' Row stalls to "Creative Entrepreneurs" under the new model, to bring engaging high-craft and unique products that appeal to residents and tourists.
- Activate Artists' Row with performances, workshops, artist talks, and public art installation facilitated by the tenants and PAiR.
- Increase artistic programming and use of Old Town Hall to generate additional vitality downtown.
- Continue to work with cultural groups and businesses to carry out and promote local festivals such as the Salem Film Fest, Literary Salem, and the Salem Jazz Festival.
- Support local artist and arts organization by acting as a facilitator and connector to people and opportunities where possible.

### How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals

- See Planning - General Administration

## Significant Budget & Staffing Changes For FY 2023

In FY2022, Chelsea Titchenell joined the Department as a new part-time Planning Assistant.

### Recent Accomplishments

The Senior Planner for Arts and Culture, working with the Salem Public Art Commission (SPAC), and within the context of the Public Art Master Plan, formulated and approved a Public Art Work Plan for 2021 resulting in the creation of 30 paid artist opportunities and 24 original works of art, among other outcomes. Highlights from that work are included below.

From July 2020 through January 2022 the Arts and Culture Programs:

- Completed our new public facing Public Art Inventory for the City's art collection in July 2020.
- Commissioned local female artist of color, Anna Dugan, to design and paint a new Educators Appreciation Mural on Highland Ave. in November 2020.
- Commissioned local female artist of color, Keshia De Leon to design "Everybody is Somebody's Baby" a Black Live Matter mural banner and install it at Horace Mann Laboratory School.
- Commissioned indigenous artist Chris Pappan in April 2021 to work with the Massachusetts Tribal Council to create a portrait of a prominent Naumkeag Leader to be hung in City Hall.
- Hired Malorie Landgreen as the City's second Public Artist in Residence on Artists' Row, who activated the Row with 4 unique immersive art installations from May through December 2021.
- Collaborated on the Salem Arts Festival in June 2021 by hosting a slightly 'COVID modified' annual Mural Slam where twelve (12) artists were paid an honorarium to create original works of art on 4'x8' plywood panels that were then installed on the back of Artists' Row stalls and showcased to the community for one year.
- Conducted an artist call and selection process for the commissioning of the City's first ever permeant public art commission as part of the Forest River Outdoor Recreation and Nature Center (formally Forest River Pool) capital renovation project in 2020, with work being completed in 2022.
- Designed, curated, and installed the Harbor Path Sculpture Garden, a collection of seven large sculptural works, by six different artists, on long term loan to the City from Nov. 2020 – Nov. 2021, and then installed a new round of 7 new works for display Nov. 2021 – Nov. 2022.
- Completed work on the Higginson Square lighting project to illuminate the alleyways of Salem's downtown in Jan. 2021. Partnered with Mills Whitaker Architects to conduct the design and cost estimations for the restoration and renovation of Old Town Hall.

### Derby Square & Charlotte Forten Park

- Hosted a series of 4 SPAC sponsored free public performances for all ages in Derby Square in August 2021.
- Was home to three (3) flea markets and hosted activities for the Haunted Happenings in Oct. 2019 and Salem So Sweet's Ice Sculptures in Feb. 2020.
- Hosted a series of 4 SPAC sponsored free public performances for all ages in Derby Square in September 2021.
- Conducted a New England Foundation of the Arts grant funded Collective Imaginings for Spatial Justice community impact and engagement study around a modern memorial for Charlotte Forten to potentially be created in her name-sake park.

### Old Town Hall

The Senior Planner for Arts & Culture also oversees the management of Old Town Hall. The hall is a jewel in the crown of our downtown and under the City's management has become a welcoming place for both public and private events year-round. Old Town Hall rents out to non-profit entities, corporations, and private individuals. This array of programming provides income for the operations of Old Town Hall while offering the community access to this unique and beautiful historical asset.

Prior to becoming a community COVID-19 PCR testing location, Old Town Hall temporarily opened for smaller community events that abided by COVID-19 gathering restrictions from July 1, 2020 until December 20, 2020. During this time, Old Town Hall hosted 28 individual event bookings. These included private receptions, craft markets, craft lessons, rehearsals, theatrical performances, and a camp for children in the community.

In response to the need for COVID-19 testing sites, Old Town Hall temporarily halted use as an event space and converted into a free public COVID-19 PCR testing location for Massachusetts residents. The use as a testing location began December 20, 2020 and continued through the end of June 2021. This location was open for 123 days and provided thousands of free PCR tests to our community.

History Alive Inc., a non-profit theater group, has operated out of the second floor of Old Town Hall since 1992 to create cultural programming to teach Salem's history in an interactive way. This began with an audience participatory witch trial, Cry Innocent: The People vs. Bridget Bishop, and has grown to include a dozen different pieces representing many time periods, presented throughout the year. History Alive continues to be an anchor tenant and partner at Old Town Hall.

Between July 1, 2021 and January 31, 2022, Old Town Hall hosted:

- 69 individual event bookings including private receptions, craft/vendor markets, weddings, fundraisers, community meetings, concerts, theatrical performances, rehearsals, and art exhibitions.
- History Alive held live performances of Cry Innocent, an interactive performance about the witch trial of Bridget Bishop, among other original performance works. In total History Alive conducted 40 rehearsals and 200 public performances welcoming approximately 20,000 audience members into the space.
- First ever free 4-day youth theater camp with LAB culminating in a live performance in Derby Square provided free for all Salem residents.

### Destination Salem

Destination Salem is the official destination marketing organization (DMO) for the City of Salem. Founded in 1998 and reestablished in 2008, the organization cooperatively markets, promotes and manages tourism in Salem. Destination Salem advocates the kind of tourism which improves the quality of life for Salem residents and provides the greatest economic benefits to Salem’s taxpayers. Destination Salem strives to take a leadership position in the development and promotion of high-end, year-round tourism.

Destination Salem worked with 164 businesses to execute the mission of the organization to increase year-round tourism. The organization collaborated with the City of Salem on executing the recovery marketing components of the U.S. EDA grant and continued to contribute to the Economic Development Recovery and Revitalization Task Force. Destination Salem also received a tourism recovery grant from the Massachusetts Office of Travel & Tourism.

The organization has a full-time staff of three people: Executive Director Kate Fox, Assistant Director Stacia Cooper, and Communications Manager Brittany DiCologero. It works with consultants and agencies to achieve its goals, including Sperling Interactive for digital marketing, Open the Door for marketing and consumer research, and Kristen Villalongo Design for creative services.

Fiscal year 2021 accomplishments include:

- Local hotel/motel tax collections were negatively impacted by the COVID-19 pandemic. FY21 receipts were \$533,705, which was 43.4% below FY20. Local option meals tax receipts in FY21 were \$889,035, which represents a 17.3% decrease from FY20. All indicators are that FY22 will see a full recovery for accommodations and restaurants.
- The Destination Salem budget was \$441,300 for FY21 and the organization ended the year with \$552,205 in gross revenue, and a balanced budget.
- The organization generated \$257,146 in private investment during FY21 in addition to the City of Salem’s investment of \$236,258.

- Destination Salem applied for and received a Travel and Tourism Recovery Grant in the amount of \$47,500 from the Massachusetts Office of Travel & Tourism and used the funds to update Salem.org, launch a radio show/podcast on North Shore 104.9, and create a new advertising campaign to promote Salem as a walkable destination.
- In response to consumer trends, Destination Salem created the new Destination Salem app, which was downloaded 18,000 times in its first year and was an important tool in communication with consumers.
- A modified version of the Guide to Salem Haunted Happenings was produced to ensure a map and basic information was available, but businesses were not asked to purchase advertising during the pandemic.
- Published the 2021 Salem Guide, with a print and distribution run of 275,000.
- Fulfilled more than 20,200 direct mail requests for the 2021 Salem Guide, which represented a 5% increase over guide requests in FY20.
- Managed Salem.org, which saw a 54% increase in traffic over 2020, with more than 1 million users visiting the site and generating 3.9 million page views.
- Maintained HauntedHappenings.org, which saw nearly 543,000 users who generated 2.4 million pageviews in FY21, an increase of 54% over FY20.
- Continued to successfully utilize social media for marketing and communications, with a total engagement of more than 177,000 followers across Facebook, Instagram, Twitter, and Pinterest, representing a 30% increase over the prior year.
- Communicates with an opt-in email database of more than 36K subscribers that includes consumers, tourism industry representatives, concierge, and media.
- Distribution of the weekly “Salem Industry Weekly” with updates on openings, closings, tour times, and niche business needs.
- In 2021 Destination Salem’s public relations efforts generated 492 media mentions that reached an audience of more than 106 million consumers and had a publicity value of nearly \$1.8 million. The organization’s public relations efforts can be reviewed at [salem.org/media-kit](http://salem.org/media-kit)

### Additional Initiatives

Destination Salem continues to collaborate with City of Salem offices on execution and marketing of the following initiatives:

- Salem Skipper and Via transportation
- Getaround transportation
- Blue Bikes

- Preservation in a Changing Climate conference, as organized by the Preservation Partners
- Salem Film Office
- ARPA funds task force
- Harbor Planning Committee
- Salem Haunted Happenings logistics and public safety

New initiatives undertaken during FY21

- Creation of a virtual Salem Ancestry Days event in May to connect with people who have a genealogy connection to Salem. The event was the result of collaboration with Essex Heritage, New England Genealogical Society, Phillips Library, Registry of Deeds, Salem State University, Salem Witch Museum, Voices Against Injustice.
- Development of the Salem Heritage Trail committee to evaluate the current conditions, challenges, and opportunities around the Salem Heritage Trail.
- Supporting the City of Salem on establishing the Charter Street Cemetery Welcome Center.
- Collaboration with the Salem Preservation Partners on the first annual Climate Change conference in September.
- Consumer research, which was supported by recovery grant funding from the US Economic Development Administration, to learn more about tourists and Salem residents.
- Execution of a quarterly resident mailing to better engage residents with events and businesses in their downtown.
- Creation of the #TourismStarTuesdays campaign that recognized members of Salem's tourism industry.

Destination Salem continued to work with the EDRR Task Force on the following initiatives:

- Weekly newsletters sharing information about grants, business support, and evolving health guidelines.
- Collaborated on producing community town hall meetings.

Representation and Collaboration

Destination Salem supports membership and participation with the following organizations and collaboratives:

- American Bus Association
- Cape Cod Chamber of Commerce
- Discover New England (international marketing)
- Friends of Friendship
- Greater Boston Concierge Association

- Greater Boston Convention & Visitors Bureau
- Massachusetts DMO Group
- Merrimack Valley Convention & Visitors Bureau
- North of Boston Convention & Visitors Bureau Board of Directors
- North of Boston Wedding Group
- Salem Chamber of Commerce Board of Directors
- Salem Main Streets Steering Committee
- Salem Partnership
- Salem Preservation Partners
- See Plymouth

Activities affected by or eliminated due to the pandemic during FY21 include:

Some of these events and activities will not return, but several will.

- Consumer and trade shows, including The Big E and the New York Times Travel Show.
- Travel shows including the American Bus Association Marketplace and Discover New England international summit.
- Cruise travel including visiting cruise ships and shore excursions from vessels visiting Boston.
- MA400 collaborations and the Salem 400 project management has been on hold; we look forward to revitalizing this program in FY22.

The following Tourism Economic Impact Data for Salem, which has been provided by the Massachusetts Office of Travel & Tourism and US Travel Association. In 2019 Salem saw a slight increase in revenue and tax receipts in 2020 as compared to 2019.

Salem.org / Destination Salem year-round

- Website traffic on Salem.org saw 775,398 users starting 1,010,976 sessions and generating more than 2.8 million page views.
- We fulfilled 16,444 Guide requests through Salem.org.
- 25% of our domestic requests came from NY, PA, and NJ.
- Social following: 31.5K Facebook / 24.9K Instagram / 7.6K Twitter.
- Due to the pandemic, we received only 261 international requests for the Salem Guide.

Salem Haunted Happenings

- HauntedHappenings.org had 403,837 users starting almost 527,828 sessions and generating more than 1.5 million pageviews.
- Social following: 78.9K Facebook / 21.6K Instagram / 10.2K Twitter.

## Historic Commission

### Mission Statement

#### Why We Exist

The mission of the Salem Historical Commission is to provide regulatory design review within Salem's four local historic districts and to undertake community-wide historic preservation planning.

### Goals and Objectives

**Goals - To provide regulatory design review within Salem's four local historic districts and to undertake community-wide historic preservation planning.**

#### Objectives:

- Publish the Salem Historical Commission Design Guidelines Notebook with assistance from a Massachusetts Historical Commission grant.
- Continue implementing recommendations of the 2015 Historic Preservation Plan Update.
- Ensure that the Salem Historical Commission Ordinance is legally enforced.
- Ensure that the recently revised Demolition Delay Ordinance is legally enforced.
- Explore options for strengthening the City's historic preservation regulations.
- Conduct public hearings and issue decisions for projects within local historic districts.
- Comment on projects that may impact historic resources.

- Prepare grant applications for funding to implement various preservation related projects through the Department of Planning & Community Development.
- Continue to collaborate with Salem's Preservation Partners on educational and advocacy activities such as Preservation Month events.
- Administer the Certified Local Government Program.
- Provide information to property owners within historic districts and to owners of historic properties outside of the districts.
- Obtain training that can further the skills and knowledge of staff and Commission members, keep Commission members up to date on current practices, and assist Commission members in making decisions and recommendations.
- Continue to work with the State, the Salem Redevelopment Authority and other interested parties on the reuse of the Superior Court and County Commissioner's Building.
- Continue to update and enhance the Salem Historical Commission's web page on the City's website and the [www.preservingsalem.com](http://www.preservingsalem.com) website.

### How FY 2023 Departmental Goals Relate to City's Overall Long & Short Term Goals

- See Planning – General Administration

### Significant Budget & Staffing Changes For FY 2023

There are no significant budget or staffing changes.

#### Recent Accomplishments

- The Preserving Salem website ( [www.preservingsalem.com](http://www.preservingsalem.com) ) continues to serve as a valuable resource for information on Salem's historic buildings and districts, local historic district administration, as well as current City-sponsored restoration projects and upcoming preservation events.
- The Historical Commission continues to collaborate with the Salem Preservation Partners group on preservation activities including Preservation Month celebrations. Group is currently planning the second annual conference related to protecting historic resources from climate change impacts.
- The Historical Commission issued 187 decisions on projects in local historic districts.
- The Commission reviewed and acted on 4 requests under the Demolition Delay Ordinance.
- The Commission provided letters of support for:
- The Commission provided comment letters for:

## Sustainability

### Mission Statement Why We Exist

The Sustainability & Resiliency Department (“SRD”) oversees sustainability, energy, and resiliency efforts within the municipal government, either directly managing programs and projects or coordinating with other departments. In addition, the SRD engages and supports Salem residents, businesses, property owners, and non-profits to participate in activities that further the goals of Resilient Together as well as many of the other energy efficiency and sustainability goals. The mission of the Sustainability and Resiliency Department is to align, and in many cases exceed, the State of Massachusetts goal of carbon neutrality by 2050. Salem is a leader in Sustainability and Resiliency and we want to continue to be a leader in the face of climate change and achieving our 70+ climate action plan goals.

- Set up, manage and promote an online dashboard that is accessible to

### Goals and Objectives

These are just a few of the goals for FY23. The Department’s first goal would be to create their own action plan for next year. Here are some proposed goals for the coming year.

Goal – Reduce Municipal Greenhouse Gas Emissions, Energy Use, and increase the use of Renewable Energy.

- Start Implementation of Energy Performance Contract for all City and School facilities, which will upgraded all energy using systems in facilities. Goal would be 40-50% reduction.
- Continue participating in demand response and utility incentive programs.
- Ensure all City projects receive incentives and maximize energy use reduction.
- Goal – Equitable Outreach and Engagement with Salem Residents to Assist them in improving their sustainability and taking advantage of grants and other programs.
- MAPC – Community Training on Building Retrofits.
- MOU with National Grid to Increase use of Mass Save.
- Resilient Together – Distribute climate action tool kits to community groups, businesses, orgs.
- Increase participation of environmental justice and low income communities.
- Goal – To Reduce Overall Greenhouse Gas Emissions in the City of Salem the Community.

- Track metrics for City projects, revenue, savings, and greenhouse gases.
- Work with residents and businesses to implement energy saving projects.
- Goal – Reduce Water Use, Increase Sustainable Food, and Increase sustainability in other important areas that affect the economic and well-being of residents and organizations
- This will be incorporated into toolkits.
- Community outreach concerning water use.
- Work to increase awareness of climate change and hazard mitigation planning.
- Goal: Improve Salem’s Resiliency to current and future climate change
- Implement next phase for Deep dive watershed model, alternatives analysis and community engagement – design or implement solutions in the Point.
- Determine Plan for next “neighborhood watersheds”.
- Integrate resiliency into all City projects.
- Support Department’s transition to more sustainability transportation.

**Significant Budget & Staffing Changes For FY 2023**

This year we have adjusted the staffing costs to show full year salaries, as new staff did not start until Sept. The staffing now reflects the grant funded positions that we secured in FY22 and FY23.

The activities of the Sustainability staff over the years have saved, on average, over \$500,000 annually for the City, and brought in over \$250,000 in revenue annually. Our goal is to increase those savings. In addition, the City as a whole spends over \$19M on electricity alone annually. By working with residents and businesses, we can save just 10% of electricity, that would be \$1.9M annually, or per capita around \$40 a year.

**FY22 Accomplishments**

**A Framework For Action - Resilient Together : Salem and Beverly’s Climate Action Plan**

- The SRD team has been in contact with almost all city departments about Resilient Together and the climate actions, which include a broad range of action and team members.
- The SRD will be reaching out to additional staff members in the coming weeks to get an update on all actions and to begin quarterly update meetings with the “Salem Green Team” (in process of being formed – at least 1 staff member from each department).

**Greenhouse Gas Emissions Reductions & Increase of Renewable Energy**

- New Municipal Aggregation ( Salem PowerChoice ) contract was implemented City-Wide
- Developed a dashboard with the energy programs and revenue for the city, which includes the utility incentives revenue, demand response revenue, savings, and expenses related to energy efficiency.
- Created Electric and gas use report, which shows the trends over five years. More than 202 accounts were assessed, including gas and electric, from 2017 to 2021. The information is gathered in SharePoint, organized by tabs. All the departments have access to this data to prepare the budgets for the following year.
- For the Comprehensive Energy Project, developed a preliminary historical report which contains information about the facility profile of building characteristics, current conditions, equipment performance analysis, involving old town hall, fire, garage, library, and police department. **An RFQ for a Comprehensive Energy Project will be released in April.**
- Conducted a project for energy savings improvements in Horace Mann and Bates Schools. The project included improvements in transformers for both schools and lighting in **Horace Mann. The plan estimated annual electrical savings for \$7,786 and the city got a total incentive for \$ 23,526.**

- Completed solar PV training at Bertram Field and Forest River Park. The training included: system components safety, system description, operation, maintenance, troubleshooting, and warranties.
- Finished two net zero energy buildings: **Bertram Field and Forest River Outdoor Education and Nature Center**
- **Completed installation of public xx charging stations (through grants, incentives, and small City contribution)**
  - Salerno Auto Center
  - Bentley Elementary School
  - Forest River Park
  - Bertram Field
  - Museum Place Garage
- **Completed Fleet Electrification Assessment, February 2022. This provide a plan to transition our applicable fleet to electric vehicle s.**

### Community Outreach, Engagement, and Education Efforts

- The sustainability staff members attended various webinars, workshops, and local group presentations throughout the fiscal year on topics related to climate change, energy reduction, environmental justice, equitable engagement, and project management skills.
- The Sustainability and Resiliency Coordinator was invited as a guest speaker on several local and regional panel discussions, including the 2020 SNEAPA conference, 2021 Essex County Greenbelt Film & Lecture Series, and the Salem Alliance for the Environment group, discussing how to engage in equitable climate solutions and sustainability projects that Salem is working on.

The team has been actively ramping up outreach efforts, including:

- posting flyers in 20 businesses and parks around the point
- creating social media accounts for youtube and tiktok
- approx. 40 social media posts (more if you count each individual platform)
  - 4 tabling events, 60 climate corps signups, mostly Salem residents Presentations
  - Bridge Street Neck Neighborhood Association
  - Salem Alliance for the Environment (26 attended, 39 registered)
  - Joint/other Presentations
  - CWEEL
  - The Point Neighborhood Associations
  - Resilient Together: The Point Community Forum #1

- E.love.ate
- Salem Farmers Market
- SCNA KidsFest
- Forest River “Sneak Peek” of Outdoor Recreation & Nature Center (100+ attended)
- 3 Bertram Field sustainability & history signs
- 7 Forest River Outdoor Recreation and Nature Center path signs
- Regional Partnerships & Ongoing Communication Efforts

### Ongoing Partnership with the City of Beverly

- The City of Salem was awarded a \$50,000 MAPC grant in partnership with the City of Beverly to conduct a community engagement and training program on building energy retrofits beginning in July 2021.
- The City of Salem completed Rocky Mountain Institute’s 2020-2021 Building Electrification Accelerator (BEA) program, which included monthly meetings and weekly email messages between the RMI team and representatives from over 15 municipalities in MA. The mission of the BEA program is to lay the groundwork for implementing building electrification policy with content including: legal pathways provided by your state and municipal law; addressing concerns from labor, equity, and other stakeholder groups; outreach, education, and community organizing best practices; and lessons learned from existing policies. This work helped the sustainability staff and SERC members draft a strong Green Building Ordinance which is still currently being worked on.

### Savings and Revenue

Our Department manages many projects and programs that save money or generate revenue for the City of Salem or its residents and businesses.

**Through our Utility Savings Revolving Loan fund**, our Department works to monitor and process payments from utilities, renewable energy credit market, demand response, and other programs to help fund. These projects provide direct savings (efficiency, solar, etc.), as well as other revenue.

A portion of those funds are used for the salaries for staff that are required in order to ensure payments under these programs. These funds are also used to support specific projects that benefit the City or its Departments. Staff support capital projects and work with National Grid to ensure that we maximize utility incentives. Our work has resulted in a MOU with National Grid that if we meet our targets xxxxx, the City will get higher incentives on City projects. The following graphs show the program since 2018 unless otherwise stated.

The Department also manages the **Salem Power Choice Program**

This program allows the City to purchase aggregated energy supply on behalf of residents and small businesses. Our program has resulted in significant savings for residents, along with reduced emissions as we purchase cleaner energy supply. Rates shown below are through December 2024 meter reads. Prices for National Grid change every six months, but current prices are shown for comparison. National Grid meets the basic renewable electricity required by law. Salem PowerChoice, the City's municipal electrical aggregation program, already provides 100% renewable electricity supply for participating homes and businesses. Since the program launched in January 2016, Salem PowerChoice participants have saved more than \$2 million on electricity costs and, because of the program's commitment to renewable electricity, reduced the city's carbon footprint by more than 175,000 tons of CO<sub>2</sub>, which is the equivalent of removing 34,527 passenger vehicles from the road for one year. Because National Grid prices change and future prices are not known, future cost savings for PowerChoice participants compared with National Grid cannot be guaranteed.

### City of Salem Energy Supply:

The City of Salem is able to purchase energy supply for all of its electric or gas accounts. The Department manages the procurement process for electricity and gas. This bulk purchase results in significantly higher savings than if we went with National Grid. The fixed rate for general accounts is \$0.10247/kWh. The fixed rate for the 7 school accounts is \$0.0909/kWh PLUS Capacity, which equates to on average and estimated \$0.1037/kWh. This saves over \$400,000 annually. This includes a combination of Class I MA Renewable Energy Certificates (RECs) and National Wind RECs to cover its nearly 9.5 million kWh annual usage. Altogether, the RECs equate to a greenhouse gas emissions reduction comparable to removing 1,459 passenger cars from the road for a year or the CO<sub>2</sub> emissions typically required to provide enough electricity annually to power 808 homes.

In addition, staff organize and monitor energy use, finding issues and credits related to incorrect accounts or charges. These savings pass along to the Departments directly.

**Expenditure by Department**

## General Admin

### Mission Statement Why We Exist

The Department of Public Services (DPS) provides professional quality maintenance, repair and construction services while maintaining ninety (90) miles of streets, thirty-two (32) parks, twenty-eight (28) playgrounds, forty-two (42) common areas and five (5) cemeteries. DPS is also responsible for the ongoing maintenance of the water, sewer and drainage systems, and the city vehicle fleet and equipment.

Additionally, the DPS is responsible for prompt response to all snow, ice and other inclement weather emergencies and situations. The department also enforces water, sewer and snow by-laws. Lastly, we play a significant role in the daily operation of other city departments in responding to requests for service. The department budget is divided into four divisions: Public Works (General Administration), Snow and Ice, and Water and Sewer Enterprise.

### Goals and Objectives

- Continue to modify the CitiStat program to establish performance standards for most DPS work and expand to include other City Departments.
- Work with SCF and the existing website system to integrate all work submitted and performed by the department to share with the public.
- Continue to support Salem Recycles program and events.
- Provide courteous and timely responses to the requests from the constituents and other city departments. Continue to strive to respond to all constituent calls within 24 hours.
- Continue to utilize the information from the Open Space Inventory Master Plan to establish short- and long-term maintenance plans which will include work that can be performed during the winter. Emphasize the management of our annual mowing contract for open spaces including parks and provide the necessary oversight to meet public expectations.
- Continue to offer and support Arbor Day programs throughout the school system.
- Continue with tree plantings with emphasis at locations with viable open tree pits.
- Work with other departments and the community to establish a public relations plan for downtown maintenance to reduce litter and improve

cleanliness of the downtown area using a combination of contractors and DPS personnel.

- Continue to improve public relations via media outlets, our web site and public notices keeping staff and residents informed about city policies and practices.
- Maintain roadways and sidewalks to increase public safety of residents, businesses and visitors to the City of Salem.
- Work with engineering to identify city-wide sidewalks not meeting ADA requirements or that need repair.
- Establish a Landscaping Contractor who shall maintain parks and open space during peak season.
- A city wide 311 System is anticipated to launch April 2021. The 311 System will allow for residents within city limits to dial 311 and have their call answered in one central department. Constituent Service Advisor will be educated in multiple departments and be able to answer most questions a constituent will have.
- Continue to work with planning office to assist the restaurant community to set up safe eateries to help stabilize local business.
- Work with traffic, planning, and engineering on setting up safe bike lanes, multi-use pathways throughout the city and maintaining them.
- Working with PTO groups and the school administration on setting up outdoor classrooms throughout district.
- Working with Park and Recreation on making ADA improvements according to the ADA transition plan throughout city parks.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- During the past year the Department continued to track work, while holding personnel and contractors accountable for the work performed using the CitiStat, SCF systems and other established methods.
- The department continues to evaluate ongoing means and methods of work being done to establish the best method of accomplishing work whether through Department personnel, contractors, seasonal hires or volunteers.
- Work continues to identify capital needs in the short and long term and to identify the best means to meet those needs of equipment which in some instances is dangerously close to the end of its useful life.

### Significant Budget & Staffing Changes For FY 2023

DPS is requesting one (1) Full Time Employees (FTE) for the Motor poll division. This position will help us continue to improve customer relations, city-wide motor fleet operations and efficiencies related to inventory control for Engineering and DPS.

### Recent Accomplishments

- Continued restructuring of the department to improve efficiency.
- Personnel continue to be cross trained on many levels resulting in an efficient operation where we can assign employees within the division where needed.
- The Street Division repaired sidewalks at one hundred eighty-two (182) locations.
- The Sign Division repaired or added over two hundred-two (202) signs.
- The department continues to inspect and conduct sidewalk work on sidewalks identified as high priority and promptly fixing them.
- DPS continues to utilize the CitiStat program to document and measure work and performance metrics throughout the department. Meetings are held to review the data and discuss ways to improve operations based on information being provided.
- DPS added Street-Sweeping-Central Street to our webpage that explains our improved 2022 sweeping program. The new program continued the annual city-wide spring and fall sweeping effort and added more frequent (every third Wednesday) sweeping in the downtown area from April to September.
- DPS continued to use See-Click-Fix (SCF) as the primary tool. With this additional tool our staff has resolved over 2,000 requests from resi-

dents. In addition, our work order management system allowed us to repair an additional six hundred forty-five (645) items in the City.

- Department employees and contractors continued to paint crosswalks, stop bars and centerlines.
- The department continues to work with engineering to deliver replacement and newly issued trash and recycling totters.
- DPS staff also continued to manage our residential leaf and brush drop-off at the old incinerator site on Swampscott Road. We expect to manage 7,200 cubic yards of leaves and brush in FY 2022.
- The Haunted Happenings events were successful with the DPS providing preparation and cleanup for many activities. This department also provided coverage and assistance during many other events including elections.
- City-wide, the amount of trash collected and disposed of by City personnel from public parks and open spaces has seen a marked increase. In FY 2022 we expect the tonnage to be close to 200 tons, compared with last year's tonnage of 150 tons.
- The DPS Cemetery Division continues some in-house grave digging while utilizing expanded usage of contractors.
- The Open Space and Tree Divisions planted new trees in 2021. The city recently was re-designated as a "Tree City USA" in recognition of the City's commitment to a cleaner, safer environment with the aid of its beautiful trees throughout the city.
- The Open Space Division continues to help in removing illegally dumped items throughout the city.
- Between DPS Open Space Division employees and contractors, we have made improvements to the overall cleanliness of the downtown area.
- Worked with John Andrew to set up parklets and safe eateries to benefit our restaurant community.

## Snow & Ice

### Mission Statement

#### Why We Exist

The Department's goal during snow and ice events is to quickly open the streets and make them passable so that essential traffic can safely negotiate roadways. This is done with the coordination of private and publicly owned equipment, with the objective to clear streets and keep local streets passable. Mechanics and route supervisors inspect and control plowing activities and other support personnel to maintain high level of service during snow events. We strive to do all we can to reduce the likelihood of personal injury to our residents, automobile accidents and property damage by making the roadways as safe as possible under the worst of conditions.

### Goals and Objectives

- Continue to provide prompt service to open streets making them passable so that they can be safe to navigate.
- Obtain new equipment (sanders/plows) to replace those which are at or nearing their useful life.
- Establish levels of service that can be provided based on the available resources and share with the public. Procure additional contractors with equipment to meet the expectations of the public.
- Work with other departments and the public to establish a public outreach plan to inform property owners of their responsibility to clear the sidewalks, bus stops and handicap ramps that abut their property.
- Continue to work with other city departments in support of restoring safe road conditions and clearing private sidewalks as efficiently as possible.
- Upgrade plow equipment to help cut down on fuel and on mechanical deficiencies.
- Purchase and install a new salt shed.

- Improved GPS management of contractor's fleet.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

Monitor contractor and city snow plowing operations to improve quality and response time while hopefully reducing complaints. Continue to purchase salt through a consortium to reduce the cost. Whether through city personnel or contractors, verify that all parking lots, sidewalks, crosswalks and shared use paths are cleared as soon as possible.

### Significant Budget & Staffing Changes For FY 2023

No significant budget or staffing changes for FY 2023.

#### Recent Accomplishments

- Improved oversight of contractor services; increased supervision and spot checking of the condition of city roads during snow events.
- Continued utilization of reverse 911 and web site for up-to-date snow emergency related announcements.
- Continued use of SnowOps software to schedule employees and contractors for storm events and track associated costs.
- The city has contracts with twenty-four (24) contractors who provide 113 vehicles to assist during snow plowing events. Streamlined plowing operation by organizing driver locations and assigning DPS personnel to provide oversight of contractors in their locations. The 113 vehicles include nine (9) sidewalk clearing machines that are always utilized throughout storm events. This equipment is used to keep the downtown sidewalks and school and transit sidewalks passable for commuters and school children.

- Problem plow routes for city and contractor personnel have been identified with complaints being tracked by storm with the goal being to reduce persistent issues at certain locations.
- DPS added a Snow-Central page to our webpage that explains our improved 2020 snow & ice program. The webpage includes an updated Snow Brochure, information on where to park during snow events, requirements for private sidewalk snow and ice removal, driveway clearing, and the shoveling assistance program. Maps have been created and added that identify road, sidewalk and shared use path plowing priorities, as well as parking locations during snow events.
- The Department has identified snow plowing priority routes along with identifying city personnel and contractors assigned to every road within the City. Snow plowing complaints are being logged and addressed to reduce the number of persistent complaints.
- Identified downtown locations where youth groups could assist the City of Salem in clearing snow at crosswalks.
- Improved GPS tracking of Department of Public Services' fleet to allow for improved response during snow events.

**Expenditure by Department**

## General Admin

## Mission Statement Why We Exist

The Engineering Department provides technical expertise, guidance and plan review to various city boards and departments for public infrastructure improvements and private development projects. Engineering, through its GIS technician, manages the data associated with its various infrastructure assets including water, sewer, drain, roadways and sidewalks. Engineering is responsible for implementing the city-wide pavement management system, including management of the Chapter 90 paving program, and other state and federally funded roadway re-construction (TIP) projects. In addition, Engineering is also responsible for the city's capital improvement program (CIP) relative to infrastructure and provides guidance from the city's perspective to larger projects/developments. The Engineering Department works cooperatively with the Department of Public Services (DPS) to provide trouble shooting and solutions for infrastructure related concerns. The department also reviews, and issues, street opening, and trench permits for various contractors, including coordination and management of the city's licensed drainlayers. Curb cut permits are initiated in the Engineering Department. Funding for the efforts described herein is derived from the city's general fund. The Engineering Department also includes Water, Sewer and Solid Waste enterprise funds and departments.

## Goals and Objectives

- The City will continue advancing design for Boston Street corridor and advocating for state funding through the TIP process.
- Derby Street - Continue design of the phased approach with sidewalk improvements from Orange Street to Hardy Street.
- In addition to Chapter 90 roadway repairs city-wide, the city is anticipating the following major projects to start this year and reach completion in FY2023:
  - Derby Street – Anticipate construction starting on next phase of sidewalk improvements from Kosciusko Street to Hardy Street and from Webb Street to Fort Avenue. Final paving between Kosciusko Street and Fort Avenue would be anticipated for 2022 construction season.
  - Essex Street – from North/Summer Street to Washington Street.

- Prince Street – with CDBG funding, we anticipate sidewalk construction starting on Prince Street from Leavitt Street to Harbor Street this construction season.
- Continue to manage City's Chapter 90 roadway improvement program to maximize the cost effectiveness of the City's re-investment into its roadway infrastructure.
- Implementing Complete Streets into all roadway projects to provide safe and accessible options for all travel modes – walking, biking, driving and transit.
- Continue to improve the City-wide roadway improvement program by implementing long term planning of road and sidewalk repairs.
- Continue workflow development and implementation of ViewPoint Cloud forms for other Engineering, Water & Sewer and Trash applications forms used by the Department.
- Review permit applications from SiFi to construct approximately half of the fiberoptic network in the City. Provide observation of the construction work for the fiberoptic installation. Communicate information about the ongoing project to City staff and residents.
- Standardize and update department processes, details, regulations and policies to facility internal efficiency and controls as well as improve communication with developers/contractors.
- Continue to review Laserfiche documents and organize/clean files previously scanned; work toward paperless records keeping and archiving. Scan property water tie cards to make them available to the public through the Laserfiche public portal.
- Increasing staff support for GIS related to network-level work and working together with IT. This would allow the GID Administrator to focus on work with contractors/consultants/internal and public projects.

### **How FY 2023 Departmental Goals Relate to City's Overall Long & Short-Term Goals**

- Both the City's long and short-term goals for sustainable infrastructure will be met with the departments' goals, by reinvesting and rehabilitating the city's roadway, sidewalk, and public way infrastructure.
- The Engineering Department will also continue to provide infrastructure guidance for both city-initiated projects (like park upgrades) as well as private development projects.

### **Significant Budget & Staffing Changes For FY 2023**

No significant budget changes for FY 2023, but the department did have some staffing changes. A new GIS technician was hired in FY 2022 following the departure of the previous position holder. The department will continue to improve customer relations, city-wide communications and efficiencies related to combining Engineering and DPS.

### **Recent Accomplishments**

- Managed the City-wide paving program – utilizing the pavement management program and Chapter 90 funds. Continuing through the pandemic, we managed bidding Salem's improvements for the City paved roads at a cost of \$840,000. Also bidding Salem's improvements for local city sidewalks and road repairs at a cost of \$1,500,000.
- With the phased approach to Derby Street Improvements from Orange Street to Fort Avenue, road paving was completed along the Derby Street corridor from Hardy Street to Webb Street. Road construction was completed for around \$85,000.

- With Boston Street reconstruction project at 25% design level, we have continued to work with the state on coordinating with all local utility companies, ensuring Salem’s continued successful involvement in the TIP program.
- Bridge Street Massworks funded project was brought to substantial completion late Fall of 2021. Project included new sidewalks, share-use path, pedestrian and traffic signals, bio-swale, and road paving between Boston Street and Flint Street.
- Essex Street reconstruction (Washington St to North/Summer St) started in the Winter of 2021/2022 with repairs to underground sidewalk vaults in preparation for road and sidewalk construction starting in the Spring of 2022.
- The Engineering Department in coordination with the Traffic Department, completed construction of the Summer Street, Norman Street, and North Street Roundabout project in the Fall of 2021.
- The TIP funded Canal Street phase 2 bike path construction reached substantial completion in the Fall of 2021.
- Issued over 300 street opening permits and actively involved in review and coordination for over thirty-five (35) development projects, including review and comment on projects before the Planning Board.
- Coordinated with SiFi (city-wide privately funded fiber optic cable network project) relative to City requirements. Worked with SiFi to permit construction of a second pilot which was on Jackson Street, continuing the installation of first pilot. Observed pilot work. Coordinated with SiFi team post-pilot on pilot issues. Discussed extensively with SiFi relative to City requirements for protection of City sidewalks/roadways as well as need for future utility maintenance in areas where fiber optic infrastructure has been installed. Documentation developed as part of the pilot projects will assist the SiFi Team in permit application submission for the city-wide build-out.
- Salem’s construction inspector, created in FY 21, has been active providing clerk of works services to the Lighthouses and Life Storage developments as well as being the single of point of contact (SPOC) and inspector for the ongoing SiFi project. For this project, the City’s inspector was witness to SiFi’s 2nd pilot and is actively involved with providing feedback to ensure compatibility of this infrastructure within the City’s Right of Way.
- Evaluating the impacts of a number of large developments on the City’s infrastructure and developing an alternative methodology for water, sewer and drainage impacts fees. The new position of construction inspector (funded partially by fees from developers) will supplement clerk of the works efforts currently funded by developers.

- Create, update and maintain GIS data, maps, and interactive web apps/maps for engineering, DPS, other departments and public viewing.
- Create and support GIS field applications for DPS Staff for viewing municipal utility data and creating new GIS layers for use by DPS.
- Implemented the online permitting system for the Engineering Department and have successfully opened 4 applications to the public including the Street opening permit application, curb cut opening/ sidewalk modification application, application for temporary water use during constructions and backflow design data sheet.

### Expenditure by Department

Outcomes and Performance Measures	Actual FY 2019	Actual FY 2020	Actual FY 2021	Estimated FY 2022	Estimated FY 2023
Number of street permits issued	343	399	550	700	-

## General Admin

### Mission Statement Why We Exist

The goal of the Salem Park and Recreation Department Staff and Administration is to continually improve the availability and effectiveness of recreational, athletic, educational and park services that benefit all Salem Residents. Maximum participation, enjoyment and affordability are criteria for assessing the effectiveness of our programs.

### Goals and Objectives

- Update the 7 year Open Space Master Plan for the City
- Continued design work on Palmer Cove phase II
- Continued design work on Pioneer Village relocation site

- Continue collaboration with Salem States Office of Civic Engagement and Sherriff's department for park improvement projects
- Revitalize Dog Park Board Members with added members who are frequent users of the Park
- Continue to enhance the Park Ranger program for our most utilized Parks
- Continue to produce a monthly newsletter highlighting upcoming programs (emailed to all registered participants, posted on our web + FB page)
- Work in collaboration with local organizations, agencies, and schools to provide a comprehensive list of available recreational programs for Salem teens.
- Secure funding for enrichment programs at both Palmer Cove and Mack Park.
- To grow our teen and youth offerings through Coast to Coast Paddle.
- To expand our Summer Playground Program in include programs at various playgrounds.
- To continue to create and implement outdoors programs, keeping both staff and participants safe.
- Continue to collaborate with the Salem Public Schools to utilize their gym space for evening programs.
- Improved our website to make it more user friendly and encourage residents to register for activities/programs via [www.salemrec.com](http://www.salemrec.com)
- Improve our marketing through social media
- To maintain the high level of participation and quality to our special events as our numbers of participants continue to grow each year.

- To use updated Open Space Plan and anticipated citywide field assessment to address problems and take advantage of possibilities at parks and playgrounds.
- To continue to enable volunteer groups to participate in the enhancement of our parks and facilities.
- Offer intergenerational programs in collaboration with the Council on Aging.
- Continue to develop and work with local agencies to provide educational and information sessions on various topics of interest to adults.
- To continue to work with Park Foreman to Establish a priority list and maintenance plan – short and long term for parks and playgrounds.
- Continue to expand and improve our offsite program venues and provide more family orientated programs.
- Friends of Park and Recreation Golf Tournament (3rd annual event) fundraiser.

**How FY 2023 Departmental Goals Relate to City’s Overall Long- & Short-Term Goals**

- **Mayor’s Goal: Parks & Recreation; undertake a field assessment of existing facilities citywide, and develop the framework for the creation of a Park Ambassador program.**
- **Recreation Goal:** *“To continue to enable volunteer groups to participate in the enhancement of our parks and facilities”.* An assessment of City fields and facilities will be used to inform plans for repairs and enhancements, as well as recreational programming. Increasing volunteer participation, especially through refinement of the Park Ambassador program, will boost Recreation Department awareness of park and playground conditions and enhance their enjoyment.
- **Recreation Goal:** *“To use updated Open Space Plan and anticipated citywide field assessment to address problems and take advantage of possibilities at parks and playgrounds.”.*
- **Mayor’s Goal: Economic Development; Continue implementation of The Point Vision and Action Plan, which includes “providing a variety of quality recreational options for people of all ages.”**
- **Recreation Goal:** *“Continue to grow the Mary Jane Lee Park program in The Point neighborhood by offering community events.”* The goal of expanding and diversifying quality recreational opportunities for all City residents is designed to increase participation, including at parks and playgrounds in The Point.

- **Mayor’s Goal: General Government; To maintain a high level of responsiveness and accessibility to City departments and employees.**
- **Recreation Goals:** *Staff development, program enhancement, online program registration.* All aspects of Recreation Department goals are designed to increase the level of engagement with Salem residents, as well as people from other communities who may participate in our activities and events. Such goals will be achieved by being aware of demand, sensitive to feedback and open to suggestion.
- **Mayor’s Goal: General Government; Look for ways to deliver City services more effectively and efficiently through the use of technology.**
- **Recreation Goal:** Publicize and promote awareness of the Department’s Web site that enables people to review, register for and pay for recreational activities, as well as to acquire parking stickers.

**Significant Budget & Staffing Changes For FY 2023**  
No Changes

**Recent Accomplishments**

- Completion of Bertram Field Facility project with state-of-the-art locker room, training room, coaches room and concessions stand
- Substantial completion of Forest River Pool project -anticipated Ribbon cutting in June 2022
- Substantial completion of Gallows baseball field and surrounding rain gardens.
- Updates to Mack Park House Electrical systems
- Significant work aerating, super-seeding and restoring grass at McGrath Park in partnership with Salem Youth Soccer
- Irrigation system overhaul at Memorial Field completed
- Upgrades to Accessible Entrances to the Salem Common with Installation of 8 new benches (4 ADA)
- Accessible beach mat installed at Dead Horse beach
- With the ongoing COVID-19 pandemic, we continued to work to create and implement outdoor programs that are safe for both participants and staff following all public health guidelines set forth by the state our and local health department.
- Partnered with B & S Fitness to provide 3 sessions of Cross Fit for Teens free to Salem teens.
- Collaborative with Spaulding Adaptive Rehabilitation to offer adaptive recreation programs at the CLC and Parks
- Continue to grow our Pickleball Program to include teen and adult lessons from Spring to Fall at both the Collins Cove and Salem High School courts.
- The Friends of Salem Woods offers their free Saturday morning hikes through Salem Woods on the first Saturday of each month April – November.
- Applied and received a grant through the City of Salem Department of Planning and Community Development and the U.S. Department of Housing and Urban Development to provide free enrichment programs for Salem youth at Palmer Cove Park and Mack Park. This year our programs included both Girls and Boys Lacrosse, After School Drama, Hip Hop, Volleyball Clinic Saturday Morning Art Classes, a week- long Art Workshop and Yoga and Meditation.
- Offered a free 3- hour Summer Playground Program during the summer of 2021. Staff traveled to 12 different Salem playgrounds to offer traditional playground crafts and games.
- Collaborated with the Ipswich River Watershed Floating Classroom to provide nature and conservation activities to the children in our playground programs.
- Continued to work with Coast to Coast Paddle to offer and expand paddle board lessons at the Salem Willows. We offered 8 weeks of Kids Paddle and 2 weeks of Teen Paddle at full capacity (10) each week. This was a total of 100 individual lessons.

- Utilized Salem Willows and Winter Island as outdoor locations to provide an early morning and sunset yoga programs.
- Our Junior Scientist and Artist Club held their programs at Pioneer Village and the Forest River Conservation Area this summer. Children participated in a two-day session that included investigating nature at Pioneer Village, learning about common herbs planted in the garden and creating containers for an egg drop and expanded to include a future artist option for teen specific offerings.
- Our youth and adult tennis programs at Salem High School were filled to capacity this summer.
- Continued to partner with the Salem High Golf Team and coaches to provide a Junior Golf League at Olde Salem Greens.
- The deck at Olde Salem Greens Golf Course, WI function hall, and Salem Willows Shell served as locations for outdoor painting classes for all ages.
- Worked with local dance instructor, Greg Coles, to provide Pop Up Salsa lessons at the Salem Ferry Landing and Charlotte Forten Park.
- Worked with Salem State University students in the Recreation Management Department to coordinate free youth programs and clinics this year. Offerings included a Skateboard Clinic, Basketball Clinic, Kickball,

Ping Pong, and a program for younger children titled "Learning Creativity Through Expression"

- Held our 1st Family Bingo Game at Charlotte Forten Park.
- Collaborated with the Salem Public Schools Summer Meals Program to offer crafts and face painting during some meal distributions at Mary Jane Lee Park.
- Took full advantage of the beautiful trails in Salem Woods to offer Youth and Teen Hikes during the fall and winter.
- Continued a collaboration with Code Wiz to provide coding classes to youth ages 7-17.
- Organized online contests through our Facebook page.
- Partnered with the House of the Seven Gables to offer activities during the Salem So Sweet Festival.
- Partnered with our Veterans' Services Department to organize a Valentine's for Veteran's program.

## Golf Course

### Mission Statement

#### Why We Exist

The mission of Olde Salem Greens Golf Course is to provide an excellent golfing experience at a reasonable price, while promoting friendly relationships within our community. Also promoting the learning of golf to all from Salem and surrounding communities.

### Goals and Objectives

- Improve and increase pro shop merchandise for resale. \$10,000 has been transferred into the golf course budget from golf course receipt reserves.
- Change golf fleet over to electric and install charging stations.
- Complete 2nd phase of cart path installation. Including in house prep/restorations: Tree brush clearing at 4th green and 6th fairway. By the spring of 2023.
- Finish installation of new back tee on the 9th hole. By the summer of 2022.
- Seed and grow in construction areas from the 1st phase cart path project. Spring of 2022.
- Replace granite tee marker at 9. By fall of 2022.
- Install new brook crossing bridges at the 6th fairway. Spring of 2022.
- Have a gas and diesel fueling station installed at the maintenance building. Estimated cost \$135,000, by the spring of 2023.
- Pressure wash and stain the clubhouse. Estimated cost \$30,000, by the fall of 2022

- Opened successfully under Covid 19 restrictions. Catered to new

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- **Mayor's Goal:** Infrastructure and Facilities; Maintain and upgrade ... open spaces.
- **Golf Course Goal:** *Various course improvements, landscaping and renovations.* The acquiring of new equipment, the upgrading of landscaping and natural features are intended to make golfing at Olde Salem Greens more appealing and enjoyable.

### Significant Budget & Staffing Changes For FY 2023

- No significant staffing changes.

### Recent Accomplishments

patrons due to Covid 19 and increased rounds and revenue.

- Continued improvements to our turf maintenance program for improved conditions.
- Continued to improve our existing irrigation system by replacing out-dated parts.
- Expanded greens complexes closer to their original size and shape.
- Purchased a new Fairway mower to replace old worn-out unit.
- Purchased a new tractor with loader/backhoe attachments.
- Completed 1st phase of cart path installations. Including in house projects tied to the cart path installations:

Irrigation updates at clubhouse, 1st tee, 2nd tee, 5th green, 7th fairway, 8th ladies' tee. Tree/brush clearing at the 1st tee, 2nd/9th tees, 5th fairway/green, 6th fairway/green and 9th fairway. Expanded the back of the 5th green. Expanded and renovated 2nd tee area. Continued building a new forward 2nd tee. Constructed a new back tee on hole 9. Shaped road and berm at 6th green/7th tee for creating a future path up to a back 7th tee. Prepped green surrounds for sod around the 5th & 6th. Extended drainage at 7th fairway and 8th tee.

- Renovated bunker at the left of 4 green back to its original size.

- Installed drainage to the right of 5 green.

### Expenditure by Department

## Witch House

### Mission Statement Why We Exist

The Witch House, a property of the City of Salem Park and Recreation Department, is a historic site offering public tours, educational programs, and historical interpretation. It is dedicated to preserving and interpreting the social history and material culture of the seventeenth century, as well as providing information about the Salem witchcraft trials of 1692 and their connection to the house's long-time owner, Judge Jonathan Corwin. The Witch House, which is listed on the National Register of Historic Places as part of Salem's historic McIntire District, was built between 1642 and 1675 and is the only home standing in modern-day Salem with direct ties to the witchcraft trials of 1692. It was restored to its seventeenth-century appearance in 1945 by Historic Salem, Incorporated, and opened to the public in 1947. The Witch House is committed to providing an exemplary program of public access that interprets the history, architecture, and collections of the house in a relevant, educational, and engaging way.

### Goals and Objectives

- To return to normal operations.
- To repopulate the calendar with in-person events and programming opportunities.
- To design and implement an Augmented Reality (AR) tour of the museum that would enhance our visitor experience.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- *Mayor's Goal:* Travel and Tourism; Continue to improve upon management of Haunted Happenings and other community events.

- **Witch House Goal:** To design and implement an Augmented Reality (AR) tour of the museum that would enhance our visitor experience. Such a multi-media installation would allow visitors to access auditory and visual elements through their phones or devices. The platform could be altered and expanded each year to offer new opportunities to understand our site and history in a more meaningful way.

### **Significant Budget & Staffing Changes For FY 2023**

Increased budget requests for increased hourly salaries hiring and support

### **Recent Accomplishments**

- We have continued to operate the house successfully while maintaining COVID related occupancy restrictions.
- We have continued to make repairs and improvements to structure and landscaping.

### Expenditure by Department

Outcomes and Performance Measures	Actual FY 2019	Actual FY 2020	Actual FY 2021	Estimated FY 2022	Estimated FY 2023

## Pioneer Village

### Mission Statement

#### Why We Exist

Pioneer Village was created to commemorate the 1630 arrival of the Winthrop Fleet to Salem's shores. We are committed to the maintenance, preservation and continued public accessibility of the site. Through tours, events and programming, we will ensure the accurate and relevant educational interpretation of our earliest colonial history.

### Goals and Objectives

- To safely return to normal operations.
- To populate the calendar with more in-person events and programming.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

**Mayor's Goal: Cultural; Continue to improve upon management of Haunted Happenings and other community events.**

**Pioneer Village Goal:** To design and implement an Augmented Reality (AR) offering a very robust and unexpected new way to experience the village through sights and sounds of colonial and Indigenous Salem. This installation could connect to the Witch House, Charter Street, Fort Lee, Fort Pickering Indigenous/Naumkeag Trail, Heritage Trail to offer our community/visitors an encapsulated pre-colonial and colonial inventory of Salem's 17th century municipally owned remaining sites within the context of modern day Salem.

### Significant Budget & Staffing Changes For FY 2023

First time request for adding souvenir line to budget

### Recent Accomplishments

- Managed to operate village successfully despite continued COVID pandemic.
- Continued to move forward with the Pioneer Village/Camp Naumkeag relocation project.
- Made small repairs to structures.

**Expenditure by Department**

## Winter Island

### Mission Statement

#### Why We Exist

Provide quality recreational facilities and services at Winter Island Park, offering a diverse range of maritime activities at competitive prices, while maintaining economic self-sufficiency and compatibility with community standards and expectations.

### Goals and Objectives

- Continue to foster relationship with Sail Salem.
- Continue to foster relationships with Salem Cub Scout Packs and Salem Boy Scout Troops as they prepare for future community service projects at Winter Island Park.
- Apply stain/wood preservative to the interior roof of the outdoor Pavilion.
- Purchase building materials to repair existing and build additional seasonal storage racks for the Dinghy/Kayak Rack Program.
- Purchase and install a storm door to the Office/Store.
- Upgrade to the new enhanced citywide telephone system.
- Remove the remaining pre-existing concrete deck foundation located alongside the old seaplane hangar and resurface the area with asphalt.
- Replace steel door on the gatehouse at the entrance to Winter Island Park.
- Purchase and install a new ADA compliant, inclusive playground.
- Remove existing and purchase and install a new energy efficient Hot Dawg replacement heater inside the Office/Store.
- Upgrade the water and sewerage system located behind the bathhouse.
- Continue addressing Salem ADA Transition Plan with the end goal being full compliance.

### Significant Budget & Staffing Changes For FY 2023

No Significant Budget or Staffing Changes anticipated for FY 2023.

### Recent Accomplishments

- Work in collaboration with Sail Salem program for children and adults.
- Sold a total of 2,449 Salem Resident vehicle stickers and 43 Non-Resident vehicle stickers for entrance to Winter Island Park, Forest River Park and McCabe Marina & Recreation Area, and designated Salem Willows parking spaces between May 1 - Nov 1, 2021.
- Continued good relationships with the Salem Cub Scout Packs and Salem Boy Scout Troops as they completed community service projects at Winter Island Park.
- Continued efforts in collaboration with Volunteers mitigating invasive species at Winter Island Park.
- Increased frequency of commercial beach raking on Waikiki Beach.
- Made significant progress addressing items listed in the City of Salem ADA Transition Plan which pertain to the bathhouse, including modifications to and/or replacement of sinks, shower stalls, toilet stalls, grab bars, and signage in the Men's and Women's bathrooms as well as modifications to the entrance doorway and creating customer counter access inside the Store/Office.

- Purchased and installed four new durable recycled plastic frame walk-thru picnic tables including one with a walk-thru table for wheelchair access.
- Secured the services of an electrical contractor and completed necessary electrical work including replacing existing electrical boxes, wiring, and conduit on six waterfront RV camping sites (Sites 12, 13, 14, 15, 16 and 16A) located adjacent to the Public Boat Ramp.
- Publicly promoted our beach wheelchair, available for loan at no charge, making it possible for any person with a mobility impairment to visit – and enjoy – Waikiki Beach.
- Conducted repairs and added iron reinforcement to the three gates to the bunkers in Fort Pickering.
- Purchased a new 1,300 lb capacity Tommy Gate lift gate for Winter Island's Ford F-350 pick-up truck.
- Purchased a 2022 John Deere Gator HPX615E utility vehicle. Delivery date: June 2022.

### Expenditure by Department

## Charter Street

### Mission Statement

#### Why We Exist

The primary purpose of the Charter Street Cemetery Welcome Center, located in the historic Pickman House at 43 Charter Street, is to protect and support the preservational efforts of Charter Street Cemetery, the oldest graveyard in Salem and one of the oldest cemeteries in the United States, circa 1637. The City of Salem and the Peabody Essex Museum have partnered to bring this unique opportunity to provide interpretation and historic programming to enrich the community of Salem and our visitor's experience of this nationally significant site.

### Goals and Objectives

- To generate a revenue stream robust enough to maintain the center, staff and provide substantial funding for headstone repair.
- To provide programming and events that help our local community and visiting public engage with this burial point in new and creative ways.

### Significant Budget & Staffing Changes For FY 2023

#### Recent Accomplishments

- Established and staffed the Charter Street Cemetery Welcome Center including furnishing and stocking an entire gift shop, developing an exhibit room and training guides to oversee the cemetery.
- Hosted virtual lectures sharing the history of Charter Street Cemetery and scholarship on the evolution of funerary practices in America.

**Expenditure by Department**

## Council On Aging

### Mission Statement Why We Exist

The mission of the Salem Council on Aging is to develop and offer inclusive programs for all seniors (60 and older) and younger disabled residents of Salem, regardless of their race, faith, culture, gender identity or sexuality, that affirm life and independence, challenge creativity, enhance socialization and promote spiritual, psychological, and physical wellness. Although most programs and services are offered at the Community Life Center, the Salem Council on Aging is also committed to serving the needs of the homebound, socially isolated and culturally diverse older adults and younger disabled individuals of Salem.

### Goals and Objectives

- Goal: Continue to identify new ways to attract more people to the Council on Aging/Community Life Center programming with the assistance of the Community Life Center Engagement Committee (a committee of Salem for all Ages).
- Objective: To identify methods of communication to reach seniors and other older adults within three months.
- Goal: Continue to, and expand, the offering of new community partnerships and services.
- Objective: Schedule one new offering per quarter (Behavioral Health, Exercise, Lectures, etc.).
- Goal: Continue Nutrition Education through the raised vegetable bed program.
- Objective: Starting in May, seniors will plant vegetable seeds to be used in monthly cooking demonstrations and healthy snack and recipe giveaways July - September.
- Goal: Build a Healthy Snack Shack to offer nutritious snacks onsite at the CLC and outside the CLC as part of Nutrition Education.

- Objective: Collaborate with builders to realize completion of Snack Shack by end June. Nutrition Coordinator will plan and create healthy snack choices to begin offerings by September.
- Goal: Identify funding to create access to technology for seniors.
- Objective: Purchase through donations or grants IPADS and training for those in need of technology education by August.
- Goal: To continue the work around Memory CafÈs in support of those living with memory loss and their caregivers.
- Objective: Conduct monthly Memory CafÈ's at the Community Life Center with identified workshop topics and speakers.
- Goal: Sponsor and promote a caregiver support group.
- Objective: Identify space, facilitator, and promotion methods to begin by July.
- Goal: Conduct Travel Training for Salem seniors.
- Objective: Work with MBTA, MDOT and other agencies who offer this training and book by September.
- Goal: Continue monthly Wellness Walks on the Common.
- Objective: Identify a month before each walk, a local leader/celebrity/subject matter expert to host the monthly walk and talk about points of interest or expertise.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- **Mayor's Goal** : To maintain a high level of accessibility to and responsiveness by City departments and employees.
- **COA Goal** : COA staff will continue to promote Transportation for ease of access to the Community Life Center for programs and events measuring increase in utilization monthly. Conduct satisfaction surveys and program to meet needs of the growing senior population.

- **Mayor's Goal** : Look for ways to deliver City services more efficiently and effectively through the use of technology and performance management.
- **COA Goal** : The COA team, along with other staff from Community Services, will continue to promote the CLC using social media to target baby boomers and to recruit older seniors to visit and utilize the Mayor Jean A. Levesque Community Life Center. Continued use of Facebook, other social media and SATV to showcase the offerings at the CLC to the greater Salem community. Work with Salem for All Ages to create access to and training for technology; smartphones, IPADS and other platforms.

### Significant Budget & Staffing Changes For FY 2023

-Realized in mid-FY'22, the most significant staffing change is the addition of a full-time Nutrition and Culinary Coordinator to manage the kitchen and lunches offered at the Community Life Center. In addition to overseeing Title III-C Congregate meals for seniors and those living with a disability, the Coordinator supervises a corps of volunteers to greet and serve dining guests Monday through Friday in the Great Room. A FY'23 goal with the addition of this position is the development of alternate meals where we create our own offerings from the kitchen and hold events that are food-themed such as the new "Brunch and a Movie", culturally diverse offerings, guest chefs, brain-healthy treats at our Memory Café events and homemade muffins in the morning.

-In the area of Transportation, dispatching rides has been added to one of the van driver's duties. The increase in ridership calls for additional assistance in the area of Transportation. This is reflected in the FY'23 budget.

-Social Service needs rose dramatically during the last two years given challenges imposed by the pandemic. Through our partnership with North Shore Community Health, a licensed clinical social worker sees patients at the Community Life Center on Fridays. From surveying Salem seniors, over the course of the remainder of FY'22 and into FY'23, North Shore Community Health will offer "Lunch and Learns" in such areas as *Benefits of Physical Activity on Emotional Health, Sleep: Why it is so Important and How to Get a Good Night's Sleep, The Health Benefits of Hobbies and How to Find One that's Right for You and The Helping High-How Helping Others Improves Happiness.*

-The Council on Aging engaged a special projects contractor to spearhead our Memory Cafés; gathering places for those living with memory loss and their caregivers. This began in mid-FY'22 but will be funded into at least the first half of FY'23 from a special grant from the Executive Office of Elder Affairs.

### Recent Accomplishments for FY2022

- The Council on Aging Board continued to be vital in supporting the COA leadership and staff and serve as strong advocates for more subsidized senior housing.
- The Friends of the COA continued to support programs through the Annual Appeal as well as planning a fall fundraiser. The Friends continue to sponsor many classes at the COA to keep prices low- or no cost for seniors. The Friends also sponsored 250 Thanksgiving meals for homebound and isolated seniors and have committed to do the same for Easter.
- Due to the pandemic, some classes initially resumed outside due to protocols around gathering large groups of people. As programs resumed inside, we continued to socially distance and limit the number of class participants. During the course of the fiscal year, most activities resumed inside at the CLC.
- Collaborated with the Salem Police Department for the winter season "Sand for Seniors" project.
- Three raised vegetable bed gardens were built through a Mass Council on Aging grant to provide Nutrition & Gardening Education and Outreach to seniors and youth who planted and cared for produce used in cooking demonstrations and healthy snacks.
- Collaborated with the Health Department to create "Cooking with Kerry", a monthly segment offering a cooking show aired on Facebook and SATV; a way to promote healthy and simple meals.
- When we had new COVID peaks and had to pull back on gatherings and lunch in person, staff delivered treats, books and games to socially isolated seniors and meals to those deemed food insecure.

- Holiday events took the form of a Drive-Thru luncheon with goodie bags, music and staff greeting the seniors.
- Weekly Farmers Markets took place via Drive-Thru ensuring a hearty supply of nutritious offerings from the Boston Gleaners.
- The monthly Greater Boston Food Bank deliveries to food insecure seniors continued through Fall of 2022.
- The Social Service team helped to coordinate AARP's Tax-Aide program, a free service to area seniors.
- On average, 25-30 seniors joined us each day at the center for congregate meals.
- In collaboration with the Health Department, conducted monthly "Wellness Walks on the Common" featuring a local elected official or celebrated citizen as the walk leader/guide.
- Nearly 2000 seniors received counseling and support services for such topics as health and insurance benefits including Medicare, housing, surplus food distributions to prevent food insecurity and more.
- Council on Aging staff members sat on several Salem for All Ages sub-committees (Transportation, Health) as well as the Task Force.
- The R U OK? wellness check program continued in collaboration with the Salem Police Department.
- As we resumed full services, the COA transportation service was back to providing an average of 1,100 one-way rides per month to Salem seniors and citizens living with a disability to medical appointments,

grocery shopping and other destinations including the North Shore Mall and Trader Joe's.

# Library

## Mission Statement Why We Exist

To provide quality public library service at the Salem Public Library in a reliable, caring, and cost-effective manner; delivering a level of library service that exceeds our patrons' expectations and to achieve consistent upward growth in the total quality of our Salem Public Library services and collections.

## Goals and Objectives

- Maintain emphasis on excellent customer service in person, over the phone, and online.
- Continue to evaluate and improve the accessibility of the building and collections.
- Continue to develop partnerships to support community organizations and to expand access to library services.

- Create programming in partnership with the Community Life Center.
- Reestablish regular Pop-Up events.
- Investigate mobile printing services that include integrated online payment options by September 2022.
- Purchase tablets for adults to use in the library by January 2023.
- Continue to evaluate and diversify local history collections.
- Expand resources for the visually impaired by November 2022.

## How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- The Salem Public Library strives to be a welcoming place for all residents and visitors. We celebrate inclusiveness with ongoing efforts to improve accessibility, by cultivating diverse collections, and by developing partnerships to better reach members of the community.
- Improving resident access to services and information is a high priority for the Salem Public Library. Information services are available via telephone, email, chat, social media, and in person. Electronic collections have been significantly expanded and residents may apply for temporary library cards online to access these collections.
- The Salem Public Library continues to emphasize excellent customer service in person, over the phone, and online to maintain a high level of accessibility and responsiveness to Salem's citizens.
- As a member of NOBLE (North of Boston Library Exchange) – a cooperative effort of 25 area libraries, the Salem Public Library stretches tax dollars with services a single library could not afford to provide on its own. This regionalization effort enables NOBLE libraries to share a common catalog, circulation system, internet access, e-book and audio collections, online resources, staff training resources, and more. NOBLE negotiates group purchases of databases, services, and computer equipment at affordable prices. With a library card, Salem citizens can check out material in any library in Massachusetts, or request an item be delivered to their home library for pick up.
- The library offers many online options to deliver services more efficiently. Library services that are always available online include: library account management, renewals, requests for library materials,

overdue fine payments, research databases, tutorials, museum pass booking, downloadable e-books and audiobooks, language learning programs, and test preparation. Mobile printing allows patrons to print directly from their own devices in both the Children’s Room and Reference Room during the library’s operating hours.

- The Salem Public Library has always been a strong supporter of the Salem Schools and actively works toward strengthening partnerships to build a culture of high expectations for student success. Books, audiobooks, eBooks, and digital audio materials are purchased by the Salem Public Library to enhance the curriculum of the schools and support summer reading lists. In 2020, the Salem Public Library and the Salem Public Schools launched a partnership through Overdrive Connect that allows students to borrow ebooks through Sora using their student credentials. The Salem Public Library also offers programs and activities for students of all ages to promote learning, creativity, and socialization.

### Significant Budget & Staffing Changes For FY 2023

This budget request meets the State’s mandated Municipal Appropriation Requirement (MAR), the amount needed to be certified by the Massachu-

setts Board of Library Commissioners. Certification allows the library to be eligible to receive State Aid grant money (\$76,025 in FY22), gives Salem residents borrowing privileges at area libraries, and allows materials to be borrowed from other libraries and delivered to Salem. There are no significant budget or staffing changes for FY23.

### Recent Accomplishments

- Offered additional sessions of preschool programs to meet the needs of families with young children.
- Introduced innovative programs including Sensory Bins, virtual Dungeons & Dragons, knitting club, anime club, and monthly teen/tween nights.
- Acquired new Kindle Fire tablets for children to use while visiting the library.
- Added new Wonderbook collection for young readers which combines a print book with a digital read-along speaker.
- Painted and reorganized the YA section.
- Added two new free passes for the U.S.S. Constitution Museum and the Harvard Museums of Science and Culture.
- Created an interactive digital floor map to assist patrons in locating materials.
- Expanded e-book and digital audio collections.
- Hosted a book group for adults and a book group for older adults in partnership with the Council on Aging.
- Hosted Salem Lit Fest Children’s Day event in partnership with the Salem Athenaeum featuring Tricia Elam Walker and Ekuia Holmes.
- Created a story walk for families to enjoy at the Ropes Garden.
- Expanded the Library of Things collection to include a theremin, Ghost Meter, jump ropes, Hexbugs, and assorted board games.
- Developed Spice Bank Collective in partnership with the Salem Pantry and become a year-round collection place for spices.
- Continued partnership with Salem For All Ages to create age friendly programs and to support community members in need.
- Upgraded internet capability to offer bandwidth speeds of 1 gig (1,000 Mbps).
- Relabeled DVD collection to make titles easier to find.
- Created Book Match service to help readers find books to enjoy.

# Veterans

## Mission Statement Why We Exist

The Veterans' Services Department's primary responsibility is to provide Mass. state benefits for eligible veterans and their dependents provided under M.G.L. 115. 75% of these benefits costs are reimbursed to the City of Salem. Additional responsibilities include coordination for the city's Memorial Day and Veteran Day activities, assist veterans and dependents in obtaining federal VA compensation and/or pensions, advocacy to reduce veteran homelessness, assist in employment searches, enrollment into the VA health care system, and educational benefits.

## Goals and Objectives

- A new location that better suits the Veterans Department with increased privacy and space remains a priority.
- Establish a committee to redo the Salem Common War Memorial and the Washington Arch in anticipation of the 400th Anniversary of the city in 2026.
- To help finalize the new Massachusetts National Guard Museum.

## How FY 2023 Departmental Goals Relate to City's Overall Long & Short -Term Goals

- The veteran's department goals remain consistent with the Mayor's goals of improving communication and transparency with our veterans, veteran dependent population, and citizens. All donation account information and basic reimbursable expenses are open to all citizens of Salem.
- With the resumption of normal business practices, we will increase outreach to all the area neighborhood associations and public housing units.
- We will continue our outreach through the Community Life Center to help identify those veterans and families that are still not known to us.

### **Significant Budget & Staffing Changes For FY 2023**

There will be no significant veteran department staffing changes for 2023 and we expect to work within the level funding guidelines. We will continue to adjust to the veteran community needs through volunteers and Veteran Administrative Work Study students from North Shore Community College and Salem State University.

#### Recent Accomplishments

- Unlike the surrounding community veteran offices, we remained open during the COVID-19 pandemic. We have kept up with the increased demand for unemployment, VA compensation and veteran healthcare applications.
- Mentor to several new VSO's across the state.
- Coordinated a VSO working group with Congressman Moulton's district office.

**Expenditure by Department**

## Our Vision

All students will be locally engaged, globally connected, and fully prepared to thrive in a diverse and changing world.

## Our Mission

Salem Public Schools is a diverse and welcoming community that promotes the academic, social, emotional, and physical development of each student through the equitable delivery of challenging, relevant, and joyful learning experiences. We empower all students to chart a personalized path to success that includes a commitment to the common good.

## Our Core Values

- **Belonging:** We believe all members of our community are valued and that our relationships are built on empathy and respect.
- **Equity:** We believe in promoting social justice to ensure an inclusive school community where all members are empowered and engaged.
- **Opportunity:** We believe all students should receive a personalized experience to achieve academic success, find joy in their learning, and have multiple choices for their post-secondary plans.

## Equity Statement

Equity is a core value within the Salem Public Schools. We support each student's unique path to achieving high standards regardless of ethnicity, race, color, economic status, national origin, age, abilities, religion, parental or immigration status, political beliefs, sex, sexual orientation, language, gender identity, or gender expression. Valuing equity means that we:

- Reflect and embrace the greater diversity of our students and families
- Recognize that systems of oppression marginalize some populations and suppress some voices
- Bear a collective responsibility to recognize, interrupt, and transform educational inequities
- Champion access and inclusion for all students/families/staff
- Allocate resources so that the students/families/staff who need the most get the most
- Work to be an anti-racist and culturally responsive community
- Create a more just and equitable world for all our students.

### Strategic Initiatives and Priorities

- **Developing our workforce:** Build a diverse workforce, cultivate culturally and linguistically responsive teaching, and empower leaders as the unit of change.
- **Academic excellence for all:** Expand high-quality pre-kindergarten, develop independent learners, and a shared, equity-driven vision for high school.
- **Systems of support:** Empower all students, engage families as partners, and align structures for SEL supports
- **Strategy and accountability:** Strategic resource allocation, strong systems of accountability, and effective data systems.

### Recent Accomplishments

Our schools have demonstrated incredible resilience during the 2021-22 school year. Salem Public Schools is proud of all that we have accomplished in the last year, despite the many challenges created by the pandemic. We continue to explore and implement innovative solutions to these challenges and use this moment as an opportunity to build the capacity of our district to offer the best support to our students and families. Our notable accomplishments this past year include:

- Expanding preschool programs to offer access to more than 100 additional students through Salem Public Schools and partnerships with community child care providers
- Providing extensive professional learning opportunities for staff about race, equity, and inclusion
- Expanding early college and dual enrollment programming
- Increasing student access to workforce development and career technical education opportunities
- Continuing to grow the dual language program and pathways
- Investing in high-quality curriculum and high-interest, culturally relevant texts
- Expanding summer and out of school programming
- Enhancing and expanding language access support for students and families
- Offering additional social and emotional interventions for students post-COVID
- Upgrading school building safety and security
- Providing an enhanced baseline of technology to each educator
- Expanding the SPS 1:1 student device initiative

### FY2023 Goals and Objectives

In 2021, district and school leaders worked to refine and extend the existing 2017-2022 strategic plan, with an ambitious set of goals to be achieved during the 2022 and 2023 academic years. Our success in achieving those goals is measured by a comprehensive set of metrics that will be our North Star, continuing to guide our efforts in 2023.

1. Increase the percent of educators and staff who represent the racial, ethnic and linguistic diversity of students from 6% to 9% for teachers and from 11% to 15% for all staff
2. Increase the number of 3-4 year-olds in high quality PreK seats across the Salem Public Schools from 87 students (2019-20) to 185 students
3. Decrease student chronic absenteeism from 25.1% of students (2019-20) to 20%

5. Increase the percent of students who report that they learn about, discuss and confront issues of race, ethnicity and culture in school (as measured by the annual Panorama survey) from 43% favorability to 55% favorability (grades 3-5) and from 38% favorability to 50% favorability (grades 6-12)
6. Increase the percent of Salem residents who attend the Salem Public Schools from 76% to 80%
7. Accelerate high school outcomes:
  - Increase the percent of students who graduate in 4 years from 80.5% (2018-19) to 85%
  - Decrease the percent of students who dropout on an annual basis from 4.5% (2018-19) to 3.7%
  - Increase the percent of students accessing advanced coursework from 44.4% (2018-19) to 60%
8. Improve overall performance as measured by MCAS:
  - Increase grade 3-8 ELA growth from 49.3 (2018-19) to 52
  - Increase grade 10 ELA growth from 41.5 (2018-19) to 48
  - Increase grade 3-8 math growth from 49.1 (2018-19) to 52
  - Increase grade 10 math growth from 33.4 (2018-19) to 40
  - Increase the percent of schools who meet 75% of their accountability targets or more from 14% (2018-19) to 42% of SPS schools

**FY2023 School Department Budget Summary**

The FY2023 recommended budget of \$68,747,963 represents a 3.2% increase over the FY2022 adopted budget, an increase of \$2,150,044.

	FY2020 Actual	FY2021 Actual	FY2022 Adopted	FY2023 Recommended	\$ Change	% Change
Personnel	46,848,200	50,020,561	52,764,411	54,589,984	1,825,572	3.5%
Expense	11,630,848	11,484,918	13,833,507	14,157,979	324,472	2.3%
<b>Grand Total</b>	<b>58,479,049</b>	<b>61,505,479</b>	<b>66,597,918</b>	<b>68,747,963</b>	<b>2,150,044</b>	<b>3.2%</b>

Personnel resources account for 80% of the school district budget, with non-personnel expenses comprising 20%. Wage increases, therefore, are a major driver of the district budget. Over 46% of our staff are eligible for an average increase of 3.5% each year due to collectively bargained step increases. Those wage adjustments alone result in a 2.3% increase in the district’s operating budget each year. Nearly three quarters of the personnel budget is allocated to instructional staff compensation. Teaching staff make up 65% of the personnel budget, with instructional support staff (paraprofessionals, tutors, and behavior specialists) comprising another 7%.

The major driver of the personnel budget this year was negotiated salary increases. The cost of living increase (COLA) for Salem Teachers Union members was 2.75% for individuals on top step (Step 13 of the salary schedule), and 1.75% for teachers on steps 1-12. The negotiated COLA increase for FY2022 exceeded the amount budgeted so the cost of living adjustment reflected in the FY2023 budget is 3.5% for

The paraprofessionals also settled a three-year contract last year. The paraprofessional unit, now renamed the Paraprofessional and School Related Personnel (PSRP) unit, was expanded to include permanent building substitutes, full time tutors, behavior specialists, family engagement facilitators, speech and language pathology assistants, and certified occupational therapy assistants. The salaries of family engagement facilitators increased by over 30% partly due to an extension of their contractual year. Instructional paraprofessionals also received a significant salary adjustment of 8.7% which impacts about one-quarter of the PSRP unit, which now includes 190 members.

In addition to negotiated and anticipated contractual increases, the FY2023 recommended budget accommodates requests for 18.6 new positions. Eleven of those are offset with reductions in positions for a net increase to the budget of 7.6 positions.

Twenty percent of the FY2023 recommended budget is allocated to non-personnel expenses. Tuition, transportation, and utilities are the three largest categories of non-personnel expenses in the budget. Tuition and transportation (regular day, special education in-district, special education out-of-district, and homeless transportation) each comprise 24% of the district’s expense budget, or over 48% in total. Instructional supplies, materials and equipment make up 11% of the non-personnel budget with utilities comprising another 10%. Major drivers of non-personnel expenses include increases in homeless transportation due to an increase in the number of students requiring services, increases in out-of-district tuition and transportation due to an increase of 11 out-of-district placements, additional tuition for students placed at Recovery High School, and inflationary increases in supplies, materials, shipping costs, utilities, and contractual services.

The chart below shows the historical budgets and budget increases. The FY2023 School Department Budget increase of 3.2% is below the historical average of 4.0%.

We have made critical decisions and allocated our finite resources in accordance with these values, priorities and initiatives. More specifically, during our three budget forums, we have solicited input on the best way to continue to direct resources in alignment with our strategic plan. This feedback proved invaluable as we developed our operating budget proposal and in planning how to best utilize our local and federal grant funding. We worked aggressively to invest in programs, materials and positions that are responsive to the voices of our constituents and serve to positively impact the SPS student learning experience.

To fund these essential priorities and maintain other critical services, the Salem Public Schools are relying on a slight increase in the Commonwealth’s funding, the continued and generous support from the City of Salem and one-time revenue in the form of federal and state grants. While this one-time COVID relief

we are already working to shift mission critical staff and programs to the operating budget and discussing how to avoid a fiscal cliff.

We appreciate the continued support of our students, families, educators, School Committee members, Mayor Driscoll, elected officials, and Salem taxpayers to provide the young people of Salem with the educational experience they deserve.

A full version of the FY2023 School Committee Budget can be found at: <https://salemk12.org/wp-content/uploads/2022/05/SPS-FY23-Recommended-Budget-Final-12May2022.pdf>

## School

## Transfers Out

### Significant Budget & Staffing Changes For FY 2023 Budget Transfer Out

No changes for FY2023 – the transfers are level funded with FY2022.

#### Retirement Stabilization Trust Fund

This trust fund was established in FY 2009 in accordance with Massachusetts General Law – Chapter 46 sections 14 and 50 and Chapter 140 sections 19 and 137 of the Acts of 2003. The purpose of this trust fund is to

fund retiring employees accrued sick and vacation buybacks as established by City Policy and contractual agreements.

#### Salem 2026 – 400 Anniversary Fund

In FY 2014 the Mayor established a new special revenue fund to help fund the City's 400th anniversary celebration. The Mayor has appropriated funds each year to plan for anticipated cost of events related to the 2026 400th anniversary of the City of Salem.

## Public Services

### Mission Statement Why We Exist

Our mission is to provide the highest quality drinking water and wastewater collection services to our ratepayers and stakeholders. Protecting public health and safety; all the while maintaining some of the lowest rates in the Commonwealth. The Water & Sewer Divisions of the Department of Public Services and the Engineering Department are committed to ensuring environmental stewardship through a combination of preventative maintenance, planned improvements, emergency response, and sustainable and efficient upgrades. We encourage stakeholder involvement and seek to maintain transparency and open channels of communication between the department and the community we serve. We work closely with the South Essex Sewerage District, which provides wastewater treatment services for the city.

### Goals and Objectives

Utilize GIS mapping system to indicate areas of focus and track repeated similar issues for consideration of CIP improvement/replacement project.

- Continue to utilize closed circuit television inspection of sewers and drains to diagnose trouble areas.
- Maintain sewer system to help reduce sewer backups.
- Replace and secure manhole rims and covers to eliminate nuisances to residents.
- Continue routine cleaning of catch basins to reduce flooding and increase water quality.
- Leak detection efforts to continue to identify areas of weakness in the infrastructure and implement repairs and maintenance of, minimizing sewer and drain leaks and breaks.

- Continue to investigate and remove sources of infiltration and inflow (I/I) throughout the city sewer system.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

The Department of Public Services is committed to addressing any residential or business issue as soon as possible to reduce any public health risk. DPS personnel continue to work with the residents and businesses to identify and determine responsibility for any sewer issue while promptly working to fix any issue that is the city's responsibility.

### Significant Budget & Staffing Changes For FY 2023

No significant budget or staffing changes for FY 2023

### Recent Accomplishments

- Responded to over sixty-two (62) sewer backups.
- Rebuilt over seventy-seven (77) sewer manholes and catch basins.
- Repaired more than eighty (80) trenches.
- Cleaned over thirty-six (36) catch basins.
- Used web site to share sewer related notifications.
- Continued to retain sewer inspection records for future reference.
- Work order system implementation to allow for improved response time.

## Engineering

### Mission Statement

#### Why We Exist

The Engineering Department provides technical expertise related to connections to, and extensions of, the municipal wastewater collection system. All sewer infrastructure improvement projects are managed by the Engineering Department. The City Engineer is Salem's representative on the South Essex Sewerage District's (SESD) board of directors. SESD is the regional wastewater treatment plant that serves Danvers, Peabody, Beverly, Marblehead, and Salem, located on Fort Avenue in Salem. The Engineering Department manages the contracted operations and maintenance effort, including utility and supply costs, for the city's eight (8) wastewater pumping stations and one (1) stormwater pumping station. Additionally, the department manages the contracted operations of the mechanical tide gates at the outlet of the Forest River to Salem Harbor. The Department also manages the city's annual city-wide catch basin cleaning program to maximize flood mitigation and storm water quality.

Engineering is also responsible for the billing of all wastewater expenses, based on water usage, to all institutional, commercial, and residential properties in the City that are connected to the municipal collection system, which is over 10,000 accounts. The sewer department provides customer service in a timely and professional manner in response to billing inquiries, managing current accounts, establishing new accounts, scheduling appointments for the meter technician, identifying accounts requiring service, selling meters and deduct meters and processing of over 3,500 water and sewer bills monthly, approximately 10% requiring analysis and estimating. Funding for the efforts described herein is derived from the Sewer Enterprise System.

### Goals and Objectives

- Continue illicit connection detection and removal program.
- Continue to coordinate on the MS4 permit including performing activities required for compliance and development of the Annual Report.
- Continue resolving flooding and collection system deficiencies City-wide.
- Continue Infiltration & Inflow study.
- Manage the contractor operator of the City's wastewater and stormwater pump stations.
- Evaluate the need for sewer extensions in areas currently unsewered.
- Advance the Canal Street/SSU flood mitigation project to construction.
- Continue to partner with Salem Sound Coastwatch and seek grant opportunities toward clean water initiatives.
- Develop hydrologic/hydraulic models for watersheds in Salem to assist with decision making relative to infrastructure and resiliency.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

- Both the City's long and short-term goals for sustainable infrastructure will be met with the department's goals by reinvesting and rehabilitating the City's wastewater and stormwater collection and conveyance infrastructure.
- Partnerships are being developed with the many neighborhood associations, institutions (NIAC, PEM, SSU, Salem Hospital, etc.) and commercial establishments that will enable the Dept. goals to be obtained.

### Significant Budget & Staffing Changes For FY 2023

Meter Reader/Water Service Inspector duties have changed significantly over the last couple of years. This position now troubleshoots meters not sending readings through the collection system, including wiring issues, and faulty meter heads, activating the new MIU boxes for new meters, and replacing water meters and meter heads.

### Recent Accomplishments

- The department collaborated with a contractor to test wastewater to determine virus levels in certain neighborhoods. The results are be

monitored weekly and residents are notified of any increases in neighborhood levels so those residents can be individually tested. The testing, which began in November, is being done in conjunction with the Massachusetts Department of Public Health.

- Continued to incorporate the 1,600 annual backflow surveys, testing and design approval costs into our Munis Water and Sewer billing system. These bills are annual and semiannual.
- Continued to analyze accounts with water and no sewer and take appropriate action if required.
- Continued efforts to identify and remove illicit (direct sanitary) connections to the city's drainage systems in compliance with the City's EPA NPDES General Permits for Stormwater Dischargers from Small Municipal Storm Sewer Systems in Massachusetts (MS4).
- Review and coordinate the development of the city's annual MS4 permit.
- Continue to manage liens on overdue water & sewer bills to 3rd quarter real estate tax bills (442 accounts); resulting in major revenue influx, estimated at \$276,844 (sewer only). Continued to lien condo developments owing over \$600- 7 condos for December 2021.
- Continued to coordinate the Canal Street/SSU flood mitigation project at Salem State University to site an underground storage tank and storm water pump station on the O'Keefe Center Parking Lot.
- Sought permits from various regulatory agencies for the relocation of the Willow Avenue (pipe beach) truck sewer in Salem Harbor.
- Advanced CIP funded projects to address flooding issues and storm water collection system deficiencies City-wide, including the South River.
- Managed contract operator for the City's wastewater and stormwater pumping stations.
- Managed catch basin cleaning contract to mitigate flooding and promote improved water quality.
- Continued streamlining the water and sewer billing system to expeditiously resolve billing disputes in a customer friendly manner. Continued to utilize meter software to improve customer service.
- Continue troubleshooting non-billable and non-read meter locations, by making appointments with residents to get access to the meters in their buildings.
- Worked with consultant to conduct a pilot study on the effectiveness of a protein matrix in the reduction of fats, oils, and grease (FOG) buildup in the collection system. MIIA provided a grant for this pilot study.

## Sewer Enterprise SESD Assessment

### Mission Statement

#### Treasurer – Sewer Enterprise – SESD Assessment

Pursuant to Chapter 339 of the Acts of 1925, the South Essex Sewerage Board determines the estimated cost of operations/maintenance and debt service for the Fiscal Year and apportions this amount to the cities, towns, county, and Commonwealth served by the District.

## Sewer Enterprise Insurance Deduction

### Mission Statement

#### Treasurer – Sewer Enterprise – Insurance Deductible

The City has taken an insurance policy to protect itself for City-at-fault sewerage back-ups into private structures. The City pays a deductible on each claim.

## Public Services

### Mission Statement Why We Exist

Our mission is to provide the highest quality drinking water and wastewater collection services to stakeholders alike, protecting public health and safety; all the while maintaining some of the lowest rates in the Commonwealth. The Water & Sewer Divisions of the Department of Public Services and the Engineering Department are committed to ensuring environmental stewardship through a combination of preventative maintenance, planned improvements, emergency response, and sustainable and efficient upgrades. We encourage stakeholder involvement and seek to maintain transparency and open channels of communication between the department and the community we serve. We work closely with the Salem Beverly Water Supply Board, which treats and provides drinking water to the City of Salem.

### Goals and Objectives

- Improve system flow and reduce leaks through leak detection.
- Reestablish an aggressive hydrant flushing program.
- Work with engineering to add and/or replace failed water main valves.
- Continue exercising system valves.
- Paint, repair or replace hydrants when necessary.
- Work with city engineer on system improvements.

### Significant Budget & Staffing Changes For FY 2023

- Continue to identify areas of weakness in the infrastructure and implement repairs and maintenance of minimizing water loss, leaks and breaks.
- Rebid catch basin cleaning.

### Recent Accomplishments

- The Water Department continues to support contractors working on large CIP improvement projects in the city. The same support is given to developers improving the city. We also respond to every water break emergency and restore service to the residents and businesses as soon as possible.
- The Department repairs water curb stops.
- Assisted private contractors with fire hydrant flow tests and perform tests as required.
- Continue to utilize web site to disseminate water emergency notifications.
- Utilize leak detection services to find leaks and weaknesses, and eliminate them, in the water distribution system.
- Replaced or repaired over twenty-four (24) hydrants damaged during the year.

### How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals

The Department of Public Services is committed to addressing any residential or business issue as soon as possible to reduce the public health risk. DPS personnel continue to work with the residents and businesses to identify and determine responsibility for any water issue while promptly working to fix any issue that is the city's responsibility.

No significant budget or staffing changes for FY 2023.

### Expenditure by Department

## Engineering

### Mission Statement

#### Why We Exist

The Engineering Department provides technical expertise related to connections to, and extensions of, the municipal water distribution system. All water infrastructure improvement projects are managed by the Engineering Department. The City Engineer is Salem's representative on the Salem Beverly Water Supply Board (SBWSB) the entity that treats Salem's public drinking water. The Engineering Department manages the contracted operations and maintenance effort, including utility and supply costs, for the City's two water pumping stations and two covered storage reservoirs.

Engineering is responsible for the billing of water expenses based on usage to institutional, commercial, and residential properties in the City that are connected to the municipal collection system, totaling over 10,000 accounts. The water department provides customer service in a timely and professional manner in response to billing inquiries, managing current accounts, establishing new accounts, scheduling appointments for the meter reader, identifying accounts requiring service, and processing of 3,500 water and sewer billings monthly, approximately 10% currently requiring analysis and estimating. This Department also bills backflow testing charges as well as the fees associated with the water turn on/off performed by the DPS crews. The Engineering Department provides technical assistance to the Public Services Divisions' Water Operations in response to the condition and location of the City's water infrastructure. The condition of the transmission mains that convey Salem water from SBWSB to the City continues to be a high priority for the department. Funding for the efforts described herein is derived from the Water Enterprise System.

### Goals and Objectives

- Start to once again to send continuous water use letters to property owners to alert them of possible leaks in their building. Due to multiple system upgrades we had to pause the sending of these letters in FY 21.
- Work to begin the process of installing new meter interface units (MIU) as the current units fail or encounter issues. These newer units will reduce estimated readings and allows for walk by readings should they be necessary.
- Continue to increase public awareness of water conservation through Earth Day, Swap and Drop, COA presentations and other events; continue collaborating with other organizations.
- Reduce percentage of 'unaccounted for water through improved reporting, new meter installation, and CIP project implementation.
- Staff continues to provide increased customer service in evaluating leaks, usage, etc. on W&S accounts.
- Continue to coordinate relocating the City's proposed Highland Avenue elevated water storage tank.
- Renew City-wide leak detection efforts to continue reducing the City's 'unaccounted for' water.
- Manage the contract operator of the City's water pump stations and storage facilities.

### **How FY 2023 Departmental Goals Relate to City's Overall Long- & Short-Term Goals**

Both the City's long- and short-term goals for sustainable infrastructure will be met with the department's goal, by reinvesting and rehabilitating the City's water transmission and distribution infrastructure.

### **Recent Accomplishments**

- Continued to incorporate the 1,600 annual backflow survey, testing and design approval costs into the monthly and quarterly Munis Water and Sewer billing system. These bills are annual and semiannual.
- Upgraded our meter reading software to Neptune® 360™, which allows the department to collect more accurate water metering data faster and quickly identify potential leaks, excessive consumption, and reverse flow. The software is also web-based so it does not require

server installations or upgrades. The department can use an internet browser to log on anywhere.

- The department also upgraded our billing software to Munis 2019 version. This software allows for better reporting functions and provides the ability to automatically send notices and apply fees. The software also allows for easier processing of condo liens.
- Continue to issue monthly letters to customers whose meters showed continuous water usage (suspected leak in the building). Customers will receive up to three consecutive letters.
- Development of water meter GIS appointment tracking system.
- Continued to address the list of properties where meter readings are not being collected (non-billable, non-reads). Due to the Meter Technician position being vacant for several months not as much progress was made in FY 22, but we expect FY 23 to be a very productive time.
- Analyzed parcels without utility bills; rectified dozens of accounts with incorrect parcel ids; also identified new W&S accounts.
- Continue to manage liens on overdue water & sewer bills to 3rd quarter real estate tax bills (442 accounts); resulting in over \$157,705 of revenues (water only). This effort involved analysis of dozens of challenging accounts and resulted in many improvements to the current database. Continued to lien condo developments owing over \$600- 7 condos for December 2021.
- Continued providing effective billing and meter repair for water consumed with a minimum of billing issues.
- Collaborated with Department of Public Services with their leak detection efforts.
- Managed the City's contract operator for the City's water pumping stations and storage facilities.
- Managed the City's back-flow inspection, testing and survey program.

### **Significant Budget & Staffing Changes For FY 2023**

A new Meter Technician was hired as the position was vacant for several months with the departure of the previous position holder. The Water Meter Technician duties have changed significantly over the last couple of years. This position now troubleshoots meters that are not sending readings through the collection system, including wiring issues, and faulty meter head, activating the new MIU boxes for new meters, and replacing water meters and meter heads. The technician also ensures MIU boxes are installed or relocated to the outside of all properties to ensure access and connectivity.

<b>Outcomes and Performance Measures</b>	<b>Actual FY 2019</b>	<b>Actual FY 2020</b>	<b>Actual FY 2021</b>	<b>Estimated FY 2022</b>	<b>Estimated FY 2023</b>
Number of new 5/8 inch meters installed	28	58	20	20

## Treasurer

## Water Enterprise Long Term Debt

### Mission Statement

#### Treasurer–Water Enterprise–Long Term Debt

The Massachusetts Water Pollution Abatement Trust (MWPAT) was established in 1989 pursuant to Title VI of the Federal Clean Water Act. It was later amended in 1998 to encompass the provisions of Title XIV of the Federal Safe Drinking Water Act. The Trust's mission is to fund the implementation of water pollution control and drinking water projects in the Commonwealth through a revolving fund loan program. In March 2006, MWPAT approved a loan commitment to the City of Salem in the amount of \$7,640,000. The Loan Interest Rate is 2%. On March 13, 2003, the Salem City Council approved the authorization of \$12,000,000 in principal amount to be borrowed to finance anticipated water projects. Of this amount, \$7,640,000 would be funded through the MWPAT Loan Commitment and \$4,360,000 would be raised through future bond issues. In December 2006, the City raised funding through an MWPAT 2% Loan in the amount of \$2,330,656 to finance Contract No. 1, the Loring Avenue Water Main Improvements. This project was completed in the spring of 2007. The \$2,330,656 MWPAT 2% Loan will be paid off in semi-annual

principal payments through July 2026. For FY23 there is a principal and interest payment of \$136,181.98 due on July 15, 2022, and an interest-only payment of \$5,444.55 due in January 2023.

On November 18, 2021, the City issued a bond for water leak detection, flushing and GIS administration, Salem PS and booster station, Bertram Field phase II, Forest River new water, water distribution main system improvements, water transmission main improvements, vector truck and Highland Ave. 16 inch water main for a total of \$1,759,369.

On November 19, 2020, the City issued a bond for Canal Street Phase II, sewer leaks and flushing, sewer illicit connection removal, bikeway and roadway improvements for a total of \$420,000.

On November 17, 2016, the City issued a \$4,095,000 bond. The bond is for the Folly Hill storage tank, water meter replacement, rehabilitation of Gallows Hill Water Tank II, water system upgrades and improvements, water leak detection, flushing and GIS administration.

## Water Enterprise SBWSB Assessment

### Mission Statement

#### Treasurer-Water Enterprise-SBWSB

Chapter 700 of the Acts of 1913 requires the Salem/Beverly Water Supply Board to annually determine the volume of water supplied to the cities of

Salem and Beverly during the three years prior to September 30. This data establishes the proportions on which the cities pay their expenses for the operation of the Water Board. The assessment for Fiscal Year 2023 is \$2,906,306.

## Water Enterprise Insurance Deductibles

### Mission Statement Treasurer-Water Enterprise-Insurance Deductible

The City has taken an insurance policy to protect itself for City-at-fault water back-ups into private structures. The City pays a deductible on each claim.

## Engineering - Trash/Solid Waste Disposal

### Mission Statement

#### Why We Exist

The Engineering Department provides management oversight of the City's curbside, weekly solid waste and bi-weekly recycling collection program and is responsible for developing and managing the trash fee collection program, implementing new policies and procedures as they arise, and resolving any problems with the program. Any solid waste related complaint calls received are also resolved. The Department's Waste Reduction Coordinator also coordinates and staffs the City's volunteer recycling committee, SalemRecycles, and manages their numerous events to promote diversion, reduction, reuse, repair and recycling throughout the year. The Department continues to process billing to approximately 2,000 accounts monthly, generating over \$946,000 in income annually including the liens process during the third property tax billing period. Funding for the efforts described herein is derived from the Solid Waste Enterprise System.

### Goals and Objectives

- Continue to successfully manage the solid waste collection and recycling program, continuing to reduce solid waste and increase diversion and recycling including many educational initiatives.
- Reinvent popular events to make them safer for the pandemic, such as Free Book Day instead of the Book Swap.
- Continue to manage contracts for solid waste and recycling collection, transportation and disposal, e-waste.
- Continue to make it easy for residents to recycle unique TerraCycle items and textiles.
- Continue with liens process for delinquent bills.
- Continue turnkey e-waste operation on a quarterly basis at SHS.
- Manage sharps collection and overflow bag programs.
- Continue to promote the subscription based curbside compost collection program and expand the compost drop off site
- Continue to educate the public in the benefits of recycling, waste reduction, composting and implement the DEP mandatory recycling enforcement plan.
- Continue to enforce the mandatory recycling enforcement ordinance through the efforts of the Waste Reduction Coordinator tracking each household and communicating with thousands of residents monthly about best recycling practices.
- Collaborated with SalemSound Coastwatch on implementation of Reusable Bag Initiative and the Straw Reduction Campaign for restaurants.

### How FY 2023 Departmental Goals Relate to City's Overall Long & Short-Term Goals

- Both the City's long and short-term goals for sustainable infrastructure will be met with the departments' goals, by investing in and promoting the Diversion and Recycling programs.
- Continued support of SalemRecycles, the City's all volunteer recycling committee, which continues to promote waste reduction education and offer new initiatives such as Repair Cafes, Textiles Recycling, Book Swaps, Public Events Recycling, and Mandatory recycling.
- Continue to explore new initiatives such as increased Public Recycling, Curbside Compost, TerraCycle Recycling, textile recycling and recycling in schools to support the Green Communities designation.
- Continue to improve customer service through use of the Waste Management 800 number, See Click Fix, contract monitoring, and educational outreach.

Recent Accomplishments

- Continued to manage the solid waste and recycling contracts.
- Mandatory Recycling Enforcement has continued through monitoring recycling output, enforcement, and education. Recycling contamination continues to decrease through the efforts of the Waste Reduction Coordinator which saves the City money in disposal costs.
- Continued the Curbside Composting Program which is currently a subscription program involving 800 paid subscribers. Maintained the compost drop-off station at Mack Park for residents who do not want to pay for a monthly subscription.
- Continue to promote the 'Adopt a Cigarette Butt Bin' Program and placed receptacles in more appropriate locations.
- Continued to staff Recycling Committee which continues to be instrumental in developing and implementing educational programs for trash reduction including: butt bin recycling, community outreach, website updates, TO DO recycling guides, TerraCycle recycling, textile recycling and drives, compost initiatives, Repair Cafés, implementation of reusable bag initiative, recycling market education, elimination of single use plastic bags, etc.
- Diverted over 5,000 tons of materials from waste stream through curbside recycling, textiles initiative, composting, yard waste, white goods, and e-waste collections.
- Executed a May 2020 and November 2021 Textiles Recycling event, collected over 5 and 3 tons of textiles during a 5-hour event. Worked with two different companies to ensure year-round textiles recycling options are available at public and private schools and churches. Promoting textile reuse, repair, donation, recycling and exploring new partnerships to increase diversion.
- Partnered with HELPSY to provide curbside textile pick up to residents who make an appointment online.
- Began TerraCycle Recycling, an opportunity for residents to recycle materials that would otherwise be trash including razors, Swiffer pads, toothpaste tubes and brushes, deodorant tubes, pens and pencils. Installed a permanent collection bin at City Hall Annex and collected material at various events.
- Continued quarterly e-waste turnkey events at SHS, serviced over 1,000 residents and collected over 45 tons of e-waste.
- Reach a 24% recycling rate through collateral material, newspaper articles, mailings and flyers distribution, participation in many events.
- SalemRecycles continues to be regarded as a premier regional leader regarding its various initiatives, and continues to support other communities in their efforts to start Repair Cafes, Book Swaps, etc.
- Promoted Salem Recycles activities on Facebook, Instagram, Twitter PATCH, SATV, electronic newsletters and through GreenSalem.com on a regular basis.
- Promote the redesigned GreenSalem.com as a resource for residents, in particular the A-Z Guide.
- Continued to process letters for new owners of residential properties; which has resulted in several dozen new trash accounts each year; currently billing almost 2,000 accounts at nearly \$946,000 annualized rate.
- Continued to improve public recycling through community awareness and purchase of additional public recycling containers and continue to draw attention to 'greening' public events – including collecting compost at community events.
- Managed for the eighth year a city-wide effort to implement liens program, where properties with trash fees 180 days in arrears were liened to the 3rd quarter real estate tax bill. Over one hundred (100) accounts were liened yielding over \$30,000.
- Fielded thousands of calls to educate public on trash and recycling pick-up contract; continued to provide information on best ways to dispose of difficult items (ex. Resulted in Textiles event, and upcoming Swap and Drop Day)
- Received \$49,000 in DEP grant funds to continue funding the Waste Reduction Coordinator position, an increase of \$4,000 from 2021.

**Significant Budget & Staffing Changes For FY 2023**  
No significant budget or staffing changes. Waste Reduction Coordinator position will continue to be funded through DEP grant funds.

# The Budget Process

## The Budget and Appropriation Process

The budget document is the instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body. The legalistic view is that a budget is a plan of financial operation embodying an estimate of proposed expenditures for a given period of time and the proposed means of financing them. In a much more general sense, budgets may be regarded as devised to aid management to operate an organization more effectively. In the general sense, budgets are the financial expression of plans prepared by managers for operating an organization during a time period and for changing its physical facilities and its capital structure.

The budget preparation process for all Cities is governed by Massachusetts General Law (MGL) Ch. 44. The General Laws require that the budget be supported by revenues earned during the year plus any savings from prior years. The General Laws also requires public involvement in the process, including the requirement for a public hearing on the proposed budget.

The Mayor provides leadership in the budget process by developing budgetary policy and working closely with department heads and the City Council to assure that the process identifies community needs and priorities and develops a farsighted and well-crafted plan. The Mayor initiates the budget process that provides the policy context for identification of priorities and development of initiatives.

Within 170 days after the annual organization of the city government (which is ordinarily in early January), the Mayor is required to submit a budget of proposed expenditures for the fiscal year beginning on the next July 1. The City Council may make appropriations for the recommended purposes and may reduce or reject any item. Without a recommendation of the Mayor, the City Council may not increase any item or make an appropriation for a purpose not included in the proposed budget (except by a two-thirds vote in case of the failure of the Mayor to recommend an appropriation for such a purpose within 7 days after a request from the City Council). If the City Council fails to act on any item of the proposed budget within 45 days, that item takes effect.

If the Mayor does not make a timely budget submission, provision is made for preparation of a budget by the City Council. Provision is also made for supplementary appropriations upon recommendation of the Mayor. Enterprise Fund expenditures are required to be included in the budget adopted by the City Council. The school budget is limited to the amount appropriated by the City Council, but the school committee retains full power to allocate the funds appropriated.

Under certain circumstances and subject to certain limits and requirements, the city council of a city, upon the recommendation of the Mayor,

may transfer amounts appropriated for the use of the department (except for a municipal light department or a school department) to another appropriation for the same department or for the use of any other department.

Commencing September 1, 1992, the City established enterprise funds in accordance with Chapter 44, Section 531F 1/2, of the General Laws for the City's water and sewer services. In FY 2007 the City established an enterprise fund for Trash Disposal.

The Finance Department prepares budget packages for each department in January. The Mayor holds a City-wide budget meeting, attended by all department heads and finance personnel, concerning a general overview of the state of the economy, and to outline specific guidelines dictating the preparation of individual department budgets. In consultation with the Finance Department, each department then prepares an operating budget and a mission statement outlining the projected goals for the future. These operating budgets are submitted to the Finance Department for review and entry into the computerized accounting system. The budgets are then prepared for the Mayor's review.

In March and April, each department head meets with the Mayor, Mayor's Chief Administrative Aide, Finance Director, and Assistant Finance Director to review their proposed budgets and program changes for the coming year. As the proposed budgets are reviewed by the Mayor, the budgets submitted may be adjusted based on the individual needs of each department. During the months of April and May, the Mayor finalizes the Annual Budget document for submission to the City Council. The proposed budget documentation is prepared by the Finance Department. The City Council accepts the budget and submits it to the subcommittee on Administration and Finance. The City Council Subcommittee on Administration and Finance then holds subcommittee meetings with the Mayor, Finance Director, Assistant Finance Director, and Department heads to review each departmental budget. The budget must be approved by a majority vote of the City Council within 45 days of receipt of the budget, but no later than June 30th of each year.

The school department budgets are prepared by the Superintendent of Schools and the School Business Manager. The school budget is reviewed and approved by the School Committee, and subsequently submitted to the City Finance Department for inclusion in the City Budget presented to the City Council for approval and appropriation.

## WHAT IS A BALANCED BUDGET?

A budget is considered in balance when revenues are equal to, or exceed expenditures. This is a requirement of all Massachusetts communities.

## THE BUDGET FORMAT

The budget summary contains summary totals from all operating segments. The revenue section details revenue sources with expected trends. Each departmental section contains a department mission statement and financial data relating to the entire department, including personnel detail. The enterprise section includes revenue and expenditure trends of the self-sustaining enterprise funds along with departmental goals. The CIP section details all expected capital program outlays in the current fiscal year, as well as a summary of the next following years.

## BUDGET AMENDMENTS

**Budget Amendment Increases** – Any increase to the budget must be submitted to the City Council by the Mayor for approval. Budget amendments usually occur from transfers from other special revenue funds (usually receipts reserved for appropriation funds), free cash appropriations in general fund, or retained earnings appropriations within the Enterprise Funds. They can also be voted as an additional appropriation to the budget to be offset by property taxes, local revenue, state aid, and reserves prior to the tax rate being set in December of each year.

**Budget Amendment Transfers** – Budget transfers within the school department are submitted to the School Committee for their approval, and are processed by the Finance Department once approved. Budget transfers for City (non-school) budgets, either between personnel and non-personnel line items or between departments, must be submitted to City Council for their approval. This is due to the fact that the City Council votes the original budget as follows:

- **City Budgets** – The City Council votes each personnel and non-personnel line separately within each departmental unit.
- **School Budgets** - The City Council votes the TOTAL for the school budget, not separate departments and/or organizational units as they do for the City budgets.

On June 27, 2013 the Salem City Council adopted the Department of Revenue, Division of Local Services Bulletin IGR no. 06-209 from May 2006 Section C2. This section refers to the alternative year end procedure which allows budget transfers during May and June and the first fifteen days of July, upon recommendation of the Mayor, of any departmental appropria-

tion to another appropriation within the same department, not to exceed three percent of the department's annual budget. The Finance Department will provide the City Council Administration and Finance Committee with a list of these budget transfers in addition to the regular budget transfers provided in the A&F monthly report.

## BUDGET GOALS

**Policy Driven Planning** : The budget is developed based upon community values and key City strategic financial and program policies. The City's Five Year Financial Forecast provides the nexus between the long-term financial plan and budgetary development. The plan includes a comprehensive multi-year projection of the financial position and budget projections, including documentation of revenue and cost assumptions and projections.

**Program of Services for the Community** : The budget is designed to focus on financial information and missions and goals that have value added outcomes to the community through City services. The Mayor and the City Council will use the City's fundamental principles as a basis for allocation choices and policy discussions. It also provides a basis for measuring progress toward goals during the budget period.

**Financial Plan of Allocation and Resource Management** : The budget establishes the plan and legal appropriations to allow the City to operate during the fiscal year. The budget provides specific direction for departments and agencies for management of resources. It also provides broad goals related to the City's overall financial position and identifies business decisions required to keep the City financially viable and strong. It is developed using all available financial and planning reviews, including the Five-Year Financial Forecast and the five-year rolling Capital Improvement Program.

**Communication Tool** : The budget is intended to communicate to a broad range of readers, both locally and around the region, as well as the larger governmental and financial community. The budget expresses priorities and goals, assignments and plans, and targets and hopes. It is a key statement of City priorities, and is meant to provide confidence in, and confirmation of, the Ordinance mandated Mayor form of government.

# Budgeting & Accounting Practices

The basic financial statements of the City of Salem, Massachusetts are prepared in accordance with Generally Accepted Accounting Principles (GAAP) in the United States of America. The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described herein.

For budgetary financial reporting purposes, the Uniform Municipal Accounting System (UMAS) basis of accounting (established by the Commonwealth of Massachusetts) is followed, which differs from the GAAP basis of accounting are listed below. A reconciliation of budgetary-basis to GAAP-basis results for the general fund for the fiscal year ended June 30th, can be found in the City's Comprehensive Annual Financial Statement (CAFR) at the following website: <https://www.salem.com/auditor-director-finance/pages/financial-statements>.

## Basis of Accounting & Budgeting

The basis of accounting and the basis of budgeting determine when revenues and expenditures are recognized for the purposes of financial reporting and budget control. Accounting on a cash basis means that revenues and expenditures are recorded when cash is actually received or paid out. Most large businesses employ full accrual accounting in which revenue are recorded when earned (rather than when received), and expenditures are recognized when an obligation to pay is incurred (rather than when the payment is made). Capital expenses (the cost of acquiring tangible assets) are recognized over the life of the asset, not when the asset is purchased.

Governments typically employ a hybrid basis of accounting termed modified accrual. Under this system, revenues are recognized when they become measurable and available; expenditures are recognized when the obligation to pay is incurred. Capital expenditures are recognized at the time of purchase. This means that governments may experience significant increases and decreases in total expenditures from year to year because capital expenses tend to be large and unevenly timed. To help explain year to year expenditure trends, capital expenditures are reported separately from operating costs in this budget document.

The City of Salem uses modified accrual accounting and budgeting for its governmental fund types which include the general fund, special revenue funds, and capital project funds. For proprietary fund types (enterprise funds) the city uses full accrual accounting and budgeting.

## Fund Accounting

Fund accounting is an accounting system organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing

accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses as appropriate. Resources are allocated to and accounted for in individual funds based upon purposes for which they are to be spent and the means by which spending activities are controlled. Fund accounting is used by states and local governments and by not-for-profit organizations that need to account for resources the use of which is restricted by donors or grantors.

## Types of Funds

There are seven types of funds that can be used, as needed, by state and local governments, both general purpose and limited purpose. The types of funds are as follows:

### Governmental Funds

#### Proprietary Funds

#### Fiduciary Funds

**Governmental Accounting** - The modified accrual basis of accounting, as appropriate, should be utilized in measuring financial position and operating results.

Governmental fund revenues and expenditures should be recognized on the modified accrual basis. Revenues should be recognized in the accounting period in which they become available and measurable. Expenditures should be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Proprietary fund revenues and expenses should be recognized on the accrual basis. Revenues should be recognized in the accounting period in which they are earned and become measurable; expense should be recognized in the period incurred, if measurable.

Fiduciary fund revenues and expense or expenditures (as appropriate) should be recognized on the basis consistent with the fund's accounting measurement objective. Nonexpendable trust and pension trust funds (and investment trust funds) should be accounted for on the accrual basis; expendable trust funds should be accounted for on the modified accrual basis. Agency fund assets and liabilities should be accounted for on the modified accrual basis.

Transfers should be recognized in the accounting period in which the interfund receivable or payable arise.

**Fund Balance & Fund Equity** – The arithmetic difference between the amount of financial resources and the amount of liabilities recorded in

the fund is the FUND EQUITY. Residents of the governmental unit have no legal claim on any excess of liquid assets over current liabilities; therefore, the Fund Equity is not analogous to the capital accounts of an investor-owned entity. Accounts in the Fund Equity category of the General Fund and special revenue funds consist of reserve accounts established to disclose that portions of the equity are not available for appropriation (reserved or designated); the portion of equity available for appropriation is disclosed in an account called FUND BALANCE.

### Annual Audits

At the close of each fiscal year, state law requires the City of Salem to publish a complete set of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP), and that are audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, the City of Salem has been audited by the firm of Powers & Sullivan, Certified Public Accountants, of Wakefield, Massachusetts. A copy of the most current CAFR and prior fiscal year financial statements can be found on the City's website at <https://www.salem.com/auditor-director-finance/pages/financial-statements>.

### Reporting Entity

For financial reporting purposes, the City has included all funds, organizations, agencies, boards, commissions and institutions. The City has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the basic financial statements to be misleading or incomplete. As required by GAAP, these basic financial statements present the City (the primary government) and its component units. One entity has been included as a component unit in the reporting entity, because of the significance of its operational and/or financial relationship.

Blended Component Units – Blended component units are entities that are legally separate from the City, but are so related that they are, in substance, the same as the City, or entities providing services entirely or almost entirely for the benefit of the City. The following component unit is blended within the Fiduciary Funds of the primary government:

*The Salem Contributory Retirement System (CRS)* was established to provide retirement benefits to City employees, the Salem Housing Authority employees, the South Essex Sewerage District employees, the Salem-Beverly Water Supply Board employees, the North Shore Regional Vocational School employees and their beneficiaries. The System is governed by a five-member board comprised of the Finance Director (ex-officio), two members elected by the System's participants, one member appointed by the Mayor and one member appointed by the other board members. The CRS is presented using the accrual basis of accounting and is reported as a pension trust fund in the fiduciary fund financial statements.

The City is a member of the *South Essex Sewerage District (SES)*, a joint venture with the Cities of Salem and Beverly and the Towns of Danvers and Marblehead, for the operation of a septage disposal facility. The members share in overseeing the operations of SES. Each member is responsible for its proportionate share of the operational costs of the SES, which are paid in the form of assessments. Complete financial statements for the District can be obtained by contacting them at 50 Fort Avenue, Salem, MA 01970.

The City is a member of the *Salem-Beverly Water Supply Board (SBWSB)*, a joint venture with the City of Beverly for the operation of a water distribution system. The City does not have an equity interest in the Salem-Beverly Water Supply Board. Complete financial information for the SBWSB can be obtained by contacting them at 50 Arlington Avenue, Beverly, MA 01915.

### Availability of Financial Information for Component Units

The Salem Contributory Retirement System does not issue separate audited financial statement. The CRS issues a publicly available unaudited financial report in accordance with guidelines established by the Commonwealth of Massachusetts' (Commonwealth) Public Employee Retirement Administration Commission (PERAC). That report may be obtained by contacting the CRS located at 20 Central Street, Suite 110, Salem, Massachusetts 01970.

### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which are supported primarily by user fees and charges.

### Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are aggregated and displayed in a single column.

#### Major Fund Criteria

Major funds must be reported if the following criteria are met:

Additionally, any other governmental or enterprise fund that management believes is particularly significant to the basic financial statements may be reported as a major fund.

Internal service funds and fiduciary funds are reported by fund type.

### Measurement Focus, Basis of Accounting and Financial Statement Presentation

#### Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred. Real estate and personal property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of activities demonstrates the degree to which the direct expenses of a particular function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include the following:

Taxes and other items not identifiable as program revenues are reported as general revenues.

For the most part, the effect of inter-fund activity has been removed from the government-wide financial statements. However, the effect of inter-fund services provided and used between functions is not eliminated as the elimination of these charges would distort the direct costs and program revenues reported for the functions affected.

#### Fund Financial Statements

Governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for un-matured interest on general long-term debt which is recognized when due, and certain compensated absences, claims and judgments which are recognized when the obligations are expected to be liquidated with current expendable available resources.

Real estate and personal property tax revenues are considered available if they are collected within 60 days after fiscal year-end. Investment income is susceptible to accrual. Other receipts and tax revenues become measurable and available when the cash is received and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditure driven

grants recognize revenue when the qualifying expenditures are incurred, and all other grant requirements are met.

The following major governmental funds are reported:

The *general fund* is the primary operating fund. It is used to account for all financial resources, except those that are required to be accounted for in another fund.

The *stabilization fund* is a special revenue fund used to account for the accumulation of resources to be used for general and/or capital purposes upon approval of City Council.

The *school capital projects fund* is used to account for the ongoing construction and renovations of the City's school buildings.

The *non-major governmental funds* consist of other special revenue, capital projects and permanent funds that are aggregated and presented in the non-major governmental funds' column on the governmental funds financial statements. The following describes the general use of these fund types:

The *special revenue fund* is used to account for the proceeds of specific revenue sources (other than permanent funds or capital projects funds) that are restricted by law or administrative action to expenditures for specified purposes.

The *capital projects fund* is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Enterprise Funds).

The *permanent fund* is used to account for financial resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the governmental programs.

Proprietary fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The following major proprietary funds are reported:

Additionally, the following proprietary fund type is reported:

The *internal service fund* is used to account for the financing of services provided by one department to other departments or governmental units. This fund is used to account for risk financing activities related to retirees' health insurance.

Fiduciary fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting except for the Agency Fund, which has no measurement focus. Fiduciary funds are used to account for assets held in a trustee capacity for others that cannot be used to support the governmental programs.

The following fiduciary fund types are reported:

The *pension trust fund* is used to account for the activities of the System, which accumulates resources to provide pension benefits to eligible retirees and their beneficiaries.

The *private-purpose trust fund* is used to account for trust arrangements that exclusively benefit individuals, private organizations, or other governments. Some of these trusts have donor restrictions and trustee

policies that do not allow the endowment portion and any unrealized appreciation to be spent. The donor restrictions and trustee policies only allow the trustees to authorize spending of the realized investment earnings. The City's educational scholarships and housing subsidy trust funds are accounted for in this fund.

The *agency fund* is used to account for assets held in a purely custodial capacity. The City's agency funds consist primarily of payroll withholdings, police and fire details, escrow deposits and unclaimed property.

### **Government-Wide and Fund Financial Statements**

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

# Major & Non-Major Funds Overview

## General Fund - 100

MAJOR

# Performance Management & Measures

The Government Finance Officers Association (GFOA) Distinguished Budget Presentation Award program requires all submitting agencies to incorporate Performance Management and Performance Measures into their budget. The City of Salem is continuing to incorporate those ideas and strategies as part of the overall operation and management of the City.

The City has recently started a SalemStat program which uses performance measurers to determine where efficiencies can be applied based on statistical data. In the next few pages, you will see the Police, Fire and Department of Public Services SalemStat data. The Mayor and her staff hope to use these statistics to better understand how to use city resources in more efficient ways.

City of Salem conducts an annual citizen survey on the City's website ( [www.salem.com](http://www.salem.com) ) that allowed all citizens of Salem to voice their opinions on various issues. The results of the recent year's survey are listed in the next few pages.

## Long- and Short-Term Strategic Goals

The City of Salem Long and Short-Term Strategic Plan Summary is a listing of the Mayor's top priorities for the City of Salem for the current fiscal year and beyond. A chart of these goals is listed on the following pages. Several of the goals are high priority items of the current Citizens Survey result as noted.

Each department is required to include a table of Outcomes and Performance measurers in their mission statements. They are also required to include a description of "How Fiscal Year Departmental Goals relate to the City's Overall Long- & Short-Term Goals". This information defines how

each department's goals tie in to the overall goals of the City and is included for each department in their mission statements throughout Section 8 – Department Budgets.

## What is Performance Management?

Performance management is a logical and integrated approach to all aspects of the cycle of planning, budgeting, operations and evaluations that is based on data and analysis, for the purpose of continuously improving results. Performance management is:

Performance measurement has become increasingly prevalent in local government, yet most government managers still struggle with the fundamental question of what to do with performance measurement data when they have it. Management teams want to know how they can incorporate performance measurement into their management and decision making processes. Rather than simply reporting performance results, performance based management focuses on linking performance measurement to strategic planning and using it as a lever for cultural change. By creating a learning environment in which performance measures are regularly reviewed and discussed, organization can improve the pace of learning and decision making, improve performance, and facilitate broader cultural change.

## Where to get more information

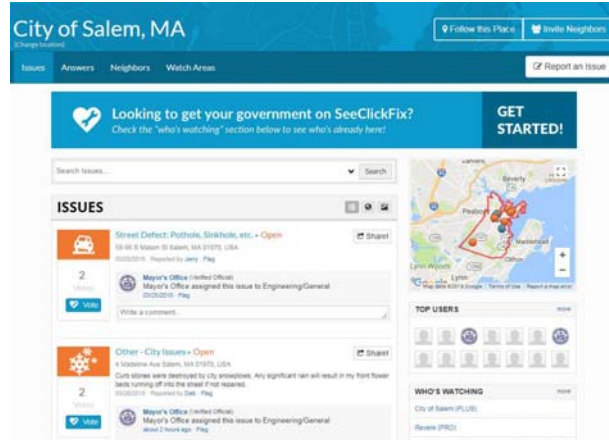

The information above was obtained from the GFOA website ( [www.gfoa.org](http://www.gfoa.org) ) and more information on performance management and measurers is available on that website.

# See-Click-Fix Website & App Overview

## SeeClickFix

Since July 2014, the City of Salem has utilized SeeClickFix for service requests.

Using SeeClickFix, residents can directly request City services, report problems to relevant departments, ask questions about City policies and services, and interact with officials about issues of concern. While Salem was not the first to use the tool, the City has quickly risen to the top as one of the most active communities using the program in Massachusetts. As of May 18, 2022, a total of 28,381 service requests had been submitted to the City through SeeClickFix.

The tool, which is available both on the City’s website and via a mobile app, also provides the City with robust data on the back end that allows the City to track response times, generate automatic work orders for service requests, manage customer service levels, map data, and more. When integrated with the SalemStat performance measurement program the tool can be especially useful.

The app also gives residents links to critical City information and websites and is updated regularly to provide the most up-to-date information on time-sensitive events, news, and more. The free app is linked to a user’s location services on their smartphone, so if they are in another SeeClickFix community, that community’s mobile buttons will automatically load and all service requests reported will go to the appropriate department in that community.

The app and online version also include Knowledge Base. As the first SeeClickFix community to deploy Knowledge Base, Salem led the way with this new tool, which replaced the traditional static FAQ page with a more dynamic wiki of City information. Users can ask questions or answer questions that other users ask, and the City can tag “official” answers. As of May 18, 2022, 515 questions have been answered in Knowledge Base, with more being added and answered all the time. In FY22 the City began using the Knowledge Base questions and answers to better program the new Help chatbot and to form the basis of a script for the 311 program launching in FY23.

In addition to providing an enhanced level of public access, SeeClickFix has helped Salem improve work flow, advocacy, and responsiveness by enabling City workers to quickly and easily report issues from the field. The City continually works to refine the existing service request categories, improve responsiveness, and train more staff on the tool’s use. The program is being utilized more by front-end staff as a CRM tool and starting in FY2020 City departments began using it more intentionally as a work order system for public works, engineering, trees, and parks. The City is continuing to expand the interaction between SeeClickFix data and the revival of the SalemStat performance evaluation initiative, which launched in FY2022.

**How to find it:** (1) search in your app store for SeeClickFix or (2) visit [www.salemma.gov/seeclickfix](http://www.salemma.gov/seeclickfix). The program is free to use.

## From the Mayor's Desk

Dear Salem resident,

Currently, 72% of our eligible Salem population have received at least one dose of COVID vaccine. We hope to see that number increase, especially with reports around the country of the rise of the highly contagious delta variant, which is now the most dominant strain of the coronavirus in the United States, representing over 50% of cases across the country. Virtually all new COVID deaths and hospitalizations are among unvaccinated people.

In Salem, we continue to monitor our wastewater for COVID variants on a weekly basis, offer free COVID testing on a daily basis and are strongly urging everyone eligible to be vaccinated to do so. Through our partnership with Salem

Hospital, North Shore Community Health Center and other healthcare partners, we have several mobile vaccine clinics in Salem. If you are not vaccinated, the best thing you can do to protect yourself, as well as your family is to get a COVID vaccine - there are lots of options close to home to get vaccinated. Visit [www.salem.com/vaccine](http://www.salem.com/vaccine) to find out where you can get the vaccine without an appointment or needing to wait.

Separate from our ongoing response to COVID, I wanted to provide an update about a high profile series of graffiti incidents in our community. As you may recall, earlier this year there had been a spate of "slap-tagging" of white supremacist stickers on local business and public property in Salem, and at least one local business had their store window defaced with a painted stencil supporting a white supremacist organization.

As a City that prides itself on being inclusive and welcoming, we strongly condemned these acts. They are more than just cowardly acts of vandalism: they are intended to frighten and discomfort residents in their own community. That's one of the reasons I'm so grateful for the

work of the Salem Police in particular Patrol Officer Green, who arrested two males on Saturday night for vandalism after they spray-painted graffiti tied to a white nationalist hate group at the MBTA station in downtown Salem.

The two men were wearing masks and tagging public property. When officers stopped the men they reported finding fresh paint on their hands and fresh paint on the wall, as well as paint cans and stencils in their possession. The stencils supported Patriot Front, a group that the Southern Poverty Law Center has identified as a white nationalist hate group.

We will continue to take these activities seriously and encourage anyone who sees this type of vandalism in our community to report it to the Salem Police Department at 978-744-1212 so we can track and investigate this activity.

Thanks, as always, for reading FYI Salem and don't forget you can find the FYI Salem podcast at [www.salem.com/fyisalempodcast!](http://www.salem.com/fyisalempodcast!)

# Heritage Days

Mayor Kimberley Driscoll has announced that Salem's Heritage Days festival will run August 2<sup>nd</sup> through August 8<sup>th</sup>, with a line-up of non-stop fun and special events celebrating Salem.

"I'm so pleased to announce the return of our annual Heritage Days festivities," said Mayor Driscoll. "This year, especially, I'm grateful that we have the opportunity to celebrate all that makes Salem the vibrant and special community that we all love. My thanks to all the organizations, community partners, and City staff whose efforts make this annual event possible."

The Heritage Days week includes several events exclusively for seniors, including an ice cream social and a picnic at Winter Island.

Opportunities abound for musical entertainment at the oceanfront Salem Willows Shell featuring the Salem Community Concert Band and Community Jazz Band, under the direction of Cynthia Napierkowski, on Monday night, the North Shore Concert Band on Tuesday night, and a variety of DJs, VJs, and live electronic music on both Saturday and Sunday.

The highlight of this year's Heritage Days takes place August 6<sup>th</sup> on Derby Wharf, with a live concert by the Ward Eights starting at 7:00 p.m. and fireworks display starting around 9:00 p.m. produced by the award-winning Atlas Pyrovision Entertainment Group.

The night promises to be the most fun and most memorable event of the summer season. The Ward Eights are an incredible band, playing funk, soul, rock, hip-hop, pop, jazz, and much more and the fireworks display that is planned promises to be one to remember.

Other events during the week include the always-popular Ice Cream Tasting and movie on the Common on August 4<sup>th</sup>, a family bingo night on August 6<sup>th</sup> at Charlotte Forten Park, and the Phillips House Annual Antique Car Meet along Chestnut Street on August 8<sup>th</sup>.

Another special event during the week is an open house at the Peabody Essex Museum's Phillips Library in Rowley, where attendees will be able to see some of the PEM's recent acquisitions along with the scope of its global collections, including its archives of Salem and Essex County history.

This year the Salem Police Department, Salem Fire Department, and Salem Department of Public Services combine their Tour-A-Truck event with a K-9 demonstration and a Salem Police & Firefighters vs. Salem Youth basketball game. Snacks and drinks will be provided thanks to donations from our local business community.

Find the complete schedule for Heritage Days online at [www.salem.com/heritagedays](http://www.salem.com/heritagedays).

## From the Mayor's Desk

Dear Salem resident,

I'm excited to share that Salem's Race Equity Task Force for the City of Salem has published their final report, available now at [www.raceequitysalem.org](http://www.raceequitysalem.org).

I convened the task force in June 2020 and charged its members with studying key sectors of the community to identify systemic and institutional racial inequities and, to the best of their ability, recommend potential strategies to help overcome those disparities.

To guide their work, the Task Force set up five subcommittees, each focused on one of the community areas of concern: Community Culture, Economics, Education, Health, and Public Safety. The report

outlines the findings and action items in each of these five areas, based on a combination of detailed research, data analysis, and expansive community input.

As a core action, the Task Force also recommended the City form a permanent committee to address race equity issues and create a senior staff level position within the City to lead this work on an ongoing basis.

Based on those recommendations, Task Force chairman Shawn Newton and I filed an Ordinance with the City Council in June to establish a permanent Race Equity Commission and we created a new Director of Diversity, Equity, and Inclusion position within the FY2022 City budget.

The commission Ordinance is pending before a City Council committee and the new Director's position was approved by the City Council by a vote of 10-1.

The Race Equity Task Force was established to identify disparities throughout our community and to develop the core elements of a strategy to help guide work at the City level to tackle these inequities.

Our hope is that this initial report will galvanize even broader support for confronting inequities, and create a forum for residents to listen, reflect, and act together to build a more inclusive community for all.

I am incredibly grateful to the volunteer members of the Task Force, to chairman Shawn Newton, and to Salem resident Jakari Griffith, who served as the group's administrator, for all of their time and commitment to this work.

This is an important moment for our city. The time for action is now and a strategic, thoughtful approach to addressing inequities is key to our community's growth and prosperity. This is the promise reflected in the Task Force's work and in this report, and it's a pledge for intentional action that we must continue to advance.

Thanks, as always, for reading FYI Salem and don't forget you can find the FYI Salem podcast at [www.salem.com/fyisalempodcast!](http://www.salem.com/fyisalempodcast!)

# Palmer Cove

Phase I restoration of Palmer Cove Park is nearing completion. All new trees and pathways have been installed and the new hardscape plaza at the basketball court is complete. The final basketball court sealcoating will be applied this week, weather permitting. Over the next two weeks, the new community garden area, sidewalk, and parking area along Salem Street will be constructed and grass seed will be planted throughout.

The project is supported by a Division of Conservation Services Parkland Acquisitions Renovations for Communities (PARC) grant and Community Preservation Act funding. Funding for a next phase of improvements is included in the City's Signature Parks program.

7/28, 10am-1pm, Salem Pantry/SSU (68 Loring Avenue)  
Mass General Brigham van  
7/30, 4pm-7pm, Peabody Essex Museum (161 Essex St)  
Curative van

## WETLANDS PROTECTION ONLINE SURVEY

The City of Salem invites you to participate in an online survey regarding an update to the City's wetlands protection policy.

Please visit the project website to take the survey and view additional project information including details for upcoming public forums.

[PublicInput.com/SalemWetlands](https://PublicInput.com/SalemWetlands)

The survey will close on August 1st and results will be presented at the August 19 public forum.

# Summer Performance Series

The City of Salem will hold a series of free live performances at parks across the Salem, with four different companies performing in nearly twenty humorous, surprising, inspiring, and modern productions that are fun for all ages. Performances will be held in August and September and are free and open to the public. All performances will be held outdoors so be sure to bring your own shade and seats. Picnics encouraged!

**OLDE SALEM STAGE COMPANY – “Much Ado About Nothing”**

**August 7, 8, 14, 15, 6:30pm, Charlotte Forten Park, 289 Derby St**

The Olde Salem Stage Company is a new collaboration of passionate theatrical practitioners whose mission is to challenge and inspire audiences with their performances. This summer they will be blending modern and traditional approaches to Shakespeare in their production of “Much Ado About Nothing”. [oldesalemstagecompany.com](http://oldesalemstagecompany.com)

**DRUMATIX – “Rhythm Delivered”**

**August 21, 22, 28, 29, 2pm, Charlotte Forten Park, 289 Derby St**

*In case of rain, performances will be moved indoors at Old Town Hall, 32 Derby Square.*

DrumatiX is dedicated to presenting humorous, interactive, family-oriented percussive content that is accessible to people of all ages and backgrounds. Using tap dance, body percussion, and creative drumming, DrumatiX has created a new 45-minute interactive, humorous, family-friendly show, “Rhythm Delivered”.

[www.subscribepage.com/drumatixsalem](http://www.subscribepage.com/drumatixsalem)

**THIRD CITIZEN THEATRE COMPANY– “As You Like It”\*\*\***

**August 28, 29 & September 4, 5, 6, 6pm, the Salem Willows Band Shell, 165 Fort Ave**

Third Citizen Theatre Company is committed to delivering high-quality productions that reimagine and recontextualize classical works to engage and entertain all ages. With live, original music, Third Citizen Theatre Company stages a performance of “As You Like It” that reflects contemporary issues while bringing a feel-good comedy to the Salem community. [www.thirdcitizentheatre.org](http://www.thirdcitizentheatre.org)

**THE RIDICULOUS PROJECT – “Dream, Love, Escape”**

**September 4, 5, 11, 12, 7pm, Derby Square, 32 Derby Square**

*In case of rain, performances will be moved indoors at Old Town Hall, 32 Derby Square.*

The Ridiculous Project seeks to spread joy to the community by giving audiences a fun and immersive theatrical experience where they are both reacting to and interacting with the story. This summer The Ridiculous Project invites you to join in an exploration of whimsy, magic, and language in a spirited retelling of one of Shakespeare’s most-loved plays, “A Midsummer Night’s Dream” transformed into a unique story of their own. “Dream, Love, Escape” brings us into a space together to acknowledge where we have been and to experience both the act and the celebration of a communal process of emerging. Learn more at [www.ridiculousproject.com](http://www.ridiculousproject.com).

# Naumkeag Portrait

The City of Salem's Arts & Culture Program is pleased to announce the awarding of the Naumkeag Portrait Project commission to artist Chris Pappan.

Pappan was selected from a pool of over 60 applicants and four finalists as the awardee of this commission by a Jury Panel consisting of arts professionals, City staff, and community members, as well as members of both the Salem Public Art Commission and the Massachusetts Tribal Council.

Chris Pappan is an artist of Kanza, Osage, and Lakota descent based in Chicago IL. He cites his influences as *Heavy Metal* and *Juxtapoz* magazines, and the Lowbrow art movement with its cultural roots in 1970s underground comics, punk, and hot rod cultures. His artistic style is based on the Plains Native art tradition known as Ledger Art and often literally reflects the dominant culture's distorted perceptions of Native peoples.

"This is an extraordinary opportunity to work with the Naumkeag community," said Chris. "I am incredibly honored and humbled by the fact that they have placed their trust in me, and I will give all I can to honor their living legacy and tenacity."

A graduate of the Institute of American Indian Arts in Santa Fe and a nationally recognized painter and ledger artist, Pappan's work is in the collections of the National Museum of the American Indian, Washington D.C.; The DePaul Art Museum in Chicago IL; The Newberry Library in Chicago IL, The North American Native Museum of Geneva Switzerland; and The Spencer Museum of Art, Lawrence, Kansas, among others. You can learn more about Pappan's work by visiting: [www.chrispappan.com](http://www.chrispappan.com).

The Naumkeag Portrait Project was proposed by Mayor Kimberley Driscoll to the Public Art Commission in May 2019, and approved by City Council, with the purpose of recognizing and highlighting the contributions and sacrifices of the Indigenous Peoples of this land through the creation of an official portrait to hang in Salem City Hall, the second oldest City Hall in America.

"I am very pleased that the selection committee has chosen such an accomplished artist for this important and historic commission," said Mayor Driscoll. "Chris will help bring a diversity of representation and history to City Hall through this portrait project. His works have appeared in collections, museums, and galleries across the nation, celebrating, commemorating, and representing a cultural heritage too often unseen and unknown in America today. A portrait recognizing the presence and role of the Naumkeag in shaping our community is long overdue at Salem City Hall. Chris' vision, to approach this commission with 'a spirit of boldness, community, and resilience,' is consistent with our city's commitment to do better in honoring the contributions and history of the Indigenous peoples who have called this place home for countless generations."

Thomas Green, Vice President of the Massachusetts Tribal Council, added to the Mayor's enthusiasm for this award: "We are excited to work with such a talented artist. We are greatly appreciative to the residents of Salem for all the support we have received with this project."

The research phase for this portrait will commence imminently, whereby Pappan will work closely with the Tribal Council to identify the appropriate subject matter for the work. Painting will commence this fall, with the portrait being finalized and presented to the City and Tribal Council in early 2022.

**PAGE 1**

Dear Salem resident,

While our local economy is recovering from the setback we experienced last year due to COVID, many residents are still struggling.

If you are a renter having difficulty making rent, or if you're a Salem landlord who has tenants facing challenges in making their rent, there are a number of options available to you right now.

First, you should know that the Essex County Bar Association offers free lawyer referral service and 30-minute consultation. Click here: <https://www.essexcountybar.org/lawyer-referral-service#lrsform> for their

online referral form or call them at: (978) 741-7888.

The City of Salem's own local rental relief program, START, offers two \$500 rental assistance checks to income eligible households that have been impacted by COVID-19. The program is administered by North Shore Community Action Programs (NSCAP). Contact NSCAP at (978) 548-5776 or email NSCAP at [funds2020@nscap.org](mailto:funds2020@nscap.org) to apply or ask questions. For more information, visit [www.salem.com/start](http://www.salem.com/start).

The Rental Assistance for Families in Transition (RAFT) Fund helps keep income eligible households in stable housing situations when facing eviction, foreclosure, loss of utilities, and other housing emergencies caused by loss of income, increase in expenses, or both. RAFT helps all kinds of households by providing up to \$10,000 per household to help preserve current housing or move to new housing. This program is administered through the Lynn Housing Authority & Neighborhood Development, but it is available to Salem resi-

dents. Visit [www.Lhand.org](http://www.Lhand.org) to apply or call (339) 883-2342 to learn more.

Lastly, Emergency Rental and Mortgage Assistance (ERMA) funds are available to low-income families who have been impacted by the COVID-19 crisis and may not be eligible for RAFT. Like RAFT, ERMA may provide up to \$10,000 for eligible households to assist with rent or mortgage arrears accrued after April 1, 2020 and/or with upcoming rent or mortgage payments. This program is also administered through the Lynn Housing Authority. Visit [www.Lhand.org](http://www.Lhand.org) to apply or call (339) 883-2342 to learn more.

If you need help, please reach out to these programs. They're here to assist you and your family as we all recover from this pandemic together.

Thanks, as always, for reading FYI Salem and don't forget you can find the FYI Salem podcast at [www.salem.com/fyisalempodcast!](http://www.salem.com/fyisalempodcast!)

FYI SALEM

# COVID Update

With rising case numbers and the expanding prevalence of the Delta variant of COVID-19, the City of Salem has announced several pro-active mitigation measures to help ensure the community stays safe, open, and strong this summer and fall.

- **Masks are required indoors** for all businesses and City buildings open to the public effective August 23<sup>rd</sup> through November 14<sup>th</sup>.
- The City has asked the Massachusetts Department of Public Health to resume **targeted wastewater surveillance** in high-risk parts of the City. For the last few months wastewater surveillance was being conducted on a city-wide basis, given the decline in Alpha variant cases.
- The City has resumed **daily updates** on local COVID-19 case data at [www.salem.com/covid](http://www.salem.com/covid).
- The City is requesting that the Commonwealth extend the **free COVID-19 “Stop the Spread” testing through the end of 2021**, which had been scheduled to end October 31<sup>st</sup>.
- The City is working with municipal and school employees on a policy to **require COVID-19 vaccination or twice weekly negative testing** for all workers. All businesses in Salem, especially those that interact directly and in-person with the public and with visitors particularly, are encouraged to join in **adopting a similar vaccination or negative-testing requirement policy for their employees**. Businesses that do so will be included in the *Keep Salem Safe, Open, and Strong* campaign, as a safe place for customers to do business this fall. Employers interested in possibly having a mobile vaccination unit visit their place of business to vaccinate their workers can contact [health@salem.com](mailto:health@salem.com) to arrange for a date.
- City boards and commissions are encouraged to **continue meeting remotely** until further notice and in no case resume in-person meetings until late November at the earliest.

The primary focus of the City over the next three months is on resuming high levels of mask usage and expanding vaccination uptake as extensively as possible, especially among front-line workers.

“Our top priority is ensuring the safety, health, well-being of our residents and in particular those who are not able to be vaccinated yet,” said Mayor Kim Driscoll. “The science is clear that masks help reduce transmission and vaccines help reduce the severity of illness. Together, they are a powerful barrier to the spread of COVID-19, including the Delta variant. We strongly urge all of our businesses to join the City and Salem Public Schools in helping to keep Salem safe by requiring their own employees be vaccinated or, if they are not vaccinated, to provide twice weekly negative COVID tests during the next few months. We’re prepared to provide masks, vaccines, and tests to help make this possible. This is going to have to be a team effort, so we can do our part to keep Salem safe, open, and strong.”

**FYI SALEM**

# BRIDGE STREET NECK

## Zoning Forums

The City of Salem invites you to participate in a public forum regarding a Bridge Street Neck Overlay zone. **All are welcome to attend and participate.**

Bridge Street Neck's unique character is changing. The zoning (what can be built, and the design) is tool that can be used to help shape future changes in a way that will reflect the vision the neighborhood.

The City is working with the Metropolitan Area Planning Council (MAPC) to draft an overlay zone to allow the kind of uses that are desired. **We need your input to make sure the zoning standards are consistent with what is desired for the neighborhood.**

**PLEASE VISIT THE PROJECT WEBSITE FOR MEETING LOGIN DETAILS AND ADDITIONAL PROJECT INFORMATION:**

**[PublicInput.com/BridgeStreetNeck](https://PublicInput.com/BridgeStreetNeck)**

## ZONING FORUM DATES

**Both meetings are online at 6pm**

Both forums will present the same content, so you only need to attend one to provide your input.

**WEDNESDAY  
AUGUST, 18  
AT 6PM**

**AND**

**THURSDAY  
AUGUST, 26  
AT 6PM**

The last day to register to vote in the September 14, 2021 municipal preliminary election is **Wednesday, August 25th**. Find out more about voting in Salem by clicking on the "Election Central" tab at [www.salem.com](http://www.salem.com).

# Schools Update

Salem Public Schools remains committed to a safe and healthy reopening for all students, staff, and families in our district. We expect a full in-person return to school for all students (remote learning will only be an option for students who qualify for home and hospital care per Massachusetts Regulation). Salem Public Schools' approach for the upcoming opening of school utilizes a multi-layered strategy to reduce the risk of spread and to minimize disruption to learning for our students and their families summarized below.

In addition to the implementation strategies below, the COVID-19 vaccines are the most effective intervention to reduce the risk of both spread of and severe illness due to the virus. SPS is offering another free vaccination clinic on Saturday, August 28th from 11am-1pm at Saltonstall (211 Lafayette St.). In order to maximize health and safety, Salem Public Schools also recommends the following additional steps to protect our students, staff, and community this fall.

**Required staff vaccination or biweekly COVID-19 testing:** In March 2021, 92% of the staff that responded to our survey had already received their vaccine or had scheduled their appointment. In alignment with the City of Salem's *Keep Salem Safe, Open, & Strong* campaign, SPS is working with the Salem Teachers Union to require either (1) proof of vaccination or (2) biweekly (twice per week) COVID checks (formerly called surveillance testing). SPS school nurses will collect proof of vaccination during all staff PD week (week of August 24th) and SPS is able to offer free, on-site testing for staff.

**Weekly COVID checks for high respiration extracurricular Activities for ages 12 and older:** Extracurricular activities are an important part of the educational experience SPS is able to provide for our students, but many also increase the risk of spread during the pandemic. Beginning in winter 2021, SPS implemented a required weekly COVID check (formerly called surveillance testing) in order to participate in athletics. This fall, in order to participate in any high respiration extracurricular activities, including athletics, band, chorus, and drama, SPS plans to resume this practice of requiring once per week COVID checks for all extracurricular activities. SPS is able to offer free, on-site testing.

**Required student vaccination or masks required outdoors and proof of consultation with your healthcare provider for high respiration extracurricular activities for ages 12 and older:** The COVID-19 vaccine has now been approved for ages 12 and over since May, 2021. Currently, 55% of 12-15 year olds and only 43% of 16-19 year olds in the City of Salem have been vaccinated. This fall, in order to participate in any high respiration extracurricular activities, including athletics, band, chorus, and drama, SPS will require that students ages 12 and older have either (1) proof of vaccination OR (2) participants must wear masks even when outdoors and must show evidence of having consulted with their healthcare provider about receiving the vaccine. SPS will provide the required form to be signed by the healthcare provider documenting the consultation and will offer access to healthcare providers for students who need it. SPS will collect proof of vaccination prior to the start of the season or at the start of the school year.

**Salem Public Schools Opening Plan Goal: Ensure the safe opening of schools in September and to minimize disruption to learning for our students and their families**

 <b>1</b> <b>Strong Health &amp; Hygiene</b>	<ul style="list-style-type: none"> <li>Regular hand washing/sanitizing and cleaning</li> <li>Commitment from all to stay home when symptomatic</li> </ul>
 <b>2</b> <b>COVID-19 Surveillance Testing</b>	<ul style="list-style-type: none"> <li>Weekly testing to identify a-/pre-symptomatic cases &amp; prevent spread</li> <li>Use of on-site daily rapid tests for close contacts to minimize quarantines</li> </ul>
 <b>3</b> <b>Supplemental Ventilation</b>	<ul style="list-style-type: none"> <li>Review of all HVAC systems to ensure proper operations</li> <li>Windows open and robust deployment of HEPA filters</li> </ul>
 <b>4</b> <b>Universal Mask Policy</b>	<ul style="list-style-type: none"> <li>Reduce the introduction of small droplets &amp; particles through masks for adults &amp; students in school and on buses</li> </ul>
 <b>5</b> <b>Meals &amp; Mask Breaks</b>	<ul style="list-style-type: none"> <li>Encourage meals to take place outdoors whenever possible</li> <li>At least 3 ft. of physical distance during indoor mask breaks or meals</li> </ul>

## From the Mayor's Desk

"Time flies over us, but leaves its shadow behind," Salem author Nathaniel Hawthorne wrote in 1860. Now, as we approach the 20th anniversary of the terrible attacks of September 11, 2001, time has passed by, but the shadow of that awful day remains, long and indelible.

It extends over those who lost loved ones and colleagues that day – in New York, Washington, and Pennsylvania. It covers those who lost family and friends in the war that followed and those veterans who returned to us from those conflicts, most especially those wounded, in body and in mind. It extends over our Muslim neighbors who, blameless and peaceful, even American themselves in most cases, felt the sting of prejudice and re-

criminations in the wake of the attacks, and over the millions of innocents across the world whose lives were disrupted – often with violence and displacement – by the last two decades of war.

Like so many others, I was at work on the morning of September 11, 2001. I vividly remember standing alongside my coworkers at City Hall in Chelsea, where I was serving as Chief Legal Counsel at the time, watching the attacks unfold live. Watching the heroic women and men of the New York City police and fire departments responding with speed and skill. Then, watching the buildings come down.

On September 11, 2001, Salem firefighters were among the members of FEMA's Massachusetts Task Force 1, which responded to Ground Zero. The scope of the devastation, and of the evil that caused it, was unimaginable up until then, but they responded to the mission at hand with supreme dedication. Sadly, what began as a rescue effort very quickly became one of recovery, instead. Nevertheless, they did what the situation required of them, and they car-

ried those duties out with a level of professionalism that should make every Salem resident proud.

The shadow of September 11th will likely never fully be gone from our lives or the lives of future generations of Americans. It's changed so much of our daily lives, our government's policies and practices, and our role and reputation in the world. But, as tragic as that day was, it helps to remember that a shadow can only exist where there is also light. We have the light from the memory of those we lost, as well as those who responded with courage and compassion. And the light from the unity our country experienced in the days after the attacks. That may be the most lasting hallmark of September 11th.

Now, especially, as we face the challenges of these past year and a half, we can recognize that, in the face of great national tragedy, Americans have unified before. It's in our history and in our nature. And there is no reason we cannot strive to do it again.

Kim Driscoll  
Mayor  
City of Salem

## Tourism Survey

Destination Salem, the City's destination marketing organization, is seeking resident feedback about your sentiments regarding tourism in Salem. To provide your input, please fill out the survey online here: <https://www.surveymonkey.com/r/SalemResidents>. Those who complete the survey will be entered to win a random drawing for a \$100 gift certificate at the Salem restaurant of your choice.

Applications are open for the 2021-2022 Salem Cultural Council (SCC) grant program. The Salem Cultural Council has been allotted \$25,400.00 in state funding to regrant to eligible applicants. Submit an application to help your creative endeavors come into fruition! For the 2021/2021 cycle, the SCC's is seeking applications that align with the theme: Uplifting a Healthy Resilient Community. Additionally the SCC will give priority to:

- \*Projects that help Salem thrive during a period when the cultural community is looking to a brighter future in a creative and optimistic way.
- \*Applicants who reside, work, have an organization in Salem or have an established partnership with an organization based in Salem.
- \*Programs that activate unexpected or underutilized canvases and performance spaces within the City of Salem.
- \*Programs that take place in Salem or benefit the residents of Salem.
- \*Programs that celebrate and promote the diversity of our community.
- \*Programs that are educational and accessible for the community, regardless of age or ability.

Applications will be evaluated using the following review criteria: How well the program meets local priorities; evidence of track record and dedication of the applicant; ability to address the diverse cultural needs of the community's underserved populations; demonstrated planning (i.e. the ability to complete the project within the cycle year); financial need; and state requirements and criterion. For the FY22 Grant Cycle, the Salem Cultural Council is once again participating in the Supplemental Grant Pilot Program, which means that approved grantees will receive their funding upfront, not as a reimbursement.

Applications are due October 15, 2021 by 11:59pm. Applications must be submitted digitally. No hard copy applications will be accepted. Visit [https://massculturalcouncil.smartsimple.com/s\\_Login.jsp](https://massculturalcouncil.smartsimple.com/s_Login.jsp) for the online application.

## COVID Testing Change

The downtown Salem walk-up COVID-19 "Stop the Spread" testing site has been relocated to **St. Peter's Church, 24 St. Peter Street**. Testing hours there are Mondays-Thursdays 9am-3pm and Fridays 9am-2pm. Follow the posted signage at the new location to enter the site. Masks are required inside the testing site at all times. Drive-up COVID-19 testing continues to be available at Salem High School, 77 Wilson Street, Mondays-Fridays 4-8pm and Saturdays 10am-3pm.

**FYI SALEM**

## Preliminary Election

The 2021 municipal preliminary election takes place on Tuesday, September 14, 2021. Polling places will be open from 7am to 8pm. Check your voter registration status or find your polling place by clicking on the "Election Central" tab at [www.salem.com](http://www.salem.com).

**VOTING  
INFORMATION**

The polling place for Ward 2 (both precincts) for the September 14, 2021 and November 2, 2021 City elections will be at the Mayor Jean Levesque Community Life Center, 401 Bridge Street. Note that this is a change from the previous polling place at St. Peter's Church hall.

For the 2021 elections the Ward 1 Precinct 2 polling place has been moved back to the Community Room at 135 Lafayette Street and the Ward 7 (both precincts) polling location has been moved back to the Enterprise Center, 121 Loring Avenue.

## American Rescue Plan

The City of Salem has launched a survey, available online in English and Spanish at [www.salem.com/rescue](http://www.salem.com/rescue), to help gather public input about the City's use of the federal COVID-19 relief funds provided to it by the American Rescue Plan Act (ARPA). The survey will be online through Friday, September 17<sup>th</sup>.

In addition to the survey, residents, employers, and workers in the community are invited to participate in two public forums intended to take in additional public feedback about the City's ARPA allocation.

One forum will take place on September 28<sup>th</sup> at 7:00 p.m. and the second on October 21<sup>st</sup> at 7:00 p.m. Both will be held online via Zoom; links and dial-in details will be posted at [www.salem.com/rescue](http://www.salem.com/rescue) the week prior to each forum.

"We are working in a thoughtful and transparent manner with respect to Salem's federal ARPA relief," said Mayor Kim Driscoll. "This aid will provide an opportunity to plan and leverage resources for the benefit of everyone in our community as we recover from the pandemic. I hope all residents will weigh in, whether through the survey, the forums, or both, to offer their input, thoughts, and ideas about what our greatest priorities are and what values should guide our investment of these important funds."

## Masks in Salem

Per order of the Salem Board of Health, to help limit the spread of COVID-19 — especially during the busy October season in Salem — masks are required to be worn over the mouth and nose when inside any business or City building through at least November 13, 2021.

Read the complete order at [www.salem.com/masks](http://www.salem.com/masks).

# Street Sweeping

The annual Fall street sweeping program began in residential neighborhoods on Monday, August 30 through Monday, September 27 and will continue on Salem's entrance corridors beginning on Tuesday, September 29 and running through Thursday, October 7.

Neighborhood sweeping will take place on both sides of the street on the same day. Sweeping will take place from 7:00 a.m. to 3:00 p.m. Each neighborhood route will be posted with temporary 'No Parking/Tow Zone' signs and parking will be prohibited between the hours of 7am and 3pm. Neighborhood streets are broken down into four zones. Sweep days are the next day after the regularly scheduled trash day. To find a specific street sweeping date, locate what zone your street is in on the 2021 Fall Street Sweeping Schedule and match it with the calendar. Monday sweep schedules are for the preceding Friday's trash day. Street sweeping schedules can be found at [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping), at the DPS office at 5 Jefferson Ave, City Hall, and the Salem Public Library. There is also a searchable map online at [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping).

Residents may use entrance corridor streets as alternative parking areas on the day of their neighborhood sweep. Entrance corridor streets are Boston St., Bridge St., Essex St. (from Boston St. to North/Summer St.), Lafayette St. (from Derby St. to Marblehead line), Loring Ave., and North St. Once a neighborhood street is swept, residents can move their vehicles back onto their street. For a list of parking alternatives go to [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping). If you choose to move your vehicle to an entrance corridor street that you must adhere to all current parking restrictions and metered rates on these entrance corridors, including resident only parking restrictions.

The last entrance corridor sweeping for the season will take place Tuesday, September 28 through Thursday, October 7. Each entrance corridor will be swept over a period of two consecutive days which will alternate between the odd and even side of the streets. Each corridor will be posted with temporary 'No Parking/Tow Zone' signs and parking will be prohibited between the hours of 5:00 a.m. to 7:00 a.m. You can find the 2021 entrance corridor sweeping schedule at [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping).

The last downtown sweep will take place on Wednesday, September 15, and the last two Point neighborhood sweeps will take place on September 13 and September 27. Certain weather conditions prohibit the use of the street sweepers: during moderate to heavy rainfall and extreme cold temperatures sweepers will not be able to operate. Weather cancellations will be posted on [www.salem.com](http://www.salem.com).

## From the Mayor's Desk

Dear Salem resident,

October is on our doorstep, and with it our community's busiest time of year. City officials, including public works, police, fire, licensing, and more, spend all year planning and preparing to help try to ensure a safe and manageable Halloween season for residents and visitors alike.

This year, because of COVID-19, there are definitely some new challenges. To help keep our community safe and healthy, our Board of Health has re-instituted the requirement that masks be worn indoors in public spaces. You can read more about that order at [www.salem.com/masks](http://www.salem.com/masks).

In addition, they created a rule requiring anyone attending a large indoor event, when there will be more than 100 people present, to have a negative COVID-19 test administered within 72 hours of the event. To help support that requirement, we are

setting up a free rapid testing site next to PEM downtown and we've worked with the state to expand the free "Stop the Spread" testing site at St. Peter's Church to include Saturday hours throughout the month. You can find out more about all the testing sites available to you at [www.salem.com/testing](http://www.salem.com/testing).

Even with these measures in place, Salem will welcome tens of thousands of visitors throughout this coming month, some from places that do not have the same science-based policies and approaches to addressing the pandemic. To help keep you, your family, and our community as safe as possible, if you're not vaccinated yet and you're eligible to get the vaccine, please do it.

All of the COVID-19 vaccines are safe and effective. They have been tested on thousands and taken by millions. If you are eligible to get a Pfizer booster, please do so. And, as soon as the FDA authorizes vaccinations for those age 5 to 11, please have your child vaccinated against this deadly disease.

We know far more about COVID now than we did at this point last year. For that reason, we prioritizing our public health efforts on testing, masking, ventilation, and vaccines. Taken together, these four measures are a powerful combination of steps that can help keep our community safe.

Despite these challenges, October is still a time that we can celebrate the Halloween spirit. There is no shortage of events and activities happening throughout the month, including many family-friendly programs. If you live in Salem and you've never experienced the fun side of October, I hope you'll consider visiting [www.hauntedhappenings.org](http://www.hauntedhappenings.org) and discovering what makes our special city so magical.

Lastly, please be patient. As a hip, historic city we are always happy to share this incredible place with guests. They help support the small businesses, shops, and restaurants we get to enjoy the rest of the year thanks to the business they get in October. They support the many hundreds of jobs and the additional city revenues that help keep Salem vibrant and mitigate the amount we need to raise in taxes from residents come budget time. We work hard, as a City, to try to minimize and manage the traffic, parking, and noise challenges that October brings to our community—while recognizing that the flip side of that coin are the jobs, economic activity, and vibrancy that make Salem the unique city that it has come to be.

Kim Driscoll  
Mayor  
City of Salem

FYI SALEM

## Bike Survey

The City of Salem has applied to the League of American Bicyclists for designation as a Bicycle Friendly City. To help the League gain a better understanding of local riders' experiences and perceptions of biking in Salem, the City seeks your help in providing feedback via the survey available now through October 11th at [tinyurl.com/SalemBike](https://tinyurl.com/SalemBike). Five survey respondents will be randomly selected to each receive a one-year BlueBikes membership including unlimited 45-minute rides. To be included in the drawing, respondents must provide their name and email address with their survey response.

## Renewable Power

In support of the City of Salem's commitment to a sustainable future and meeting its climate change goals, the City has entered into a new three-year contract for its 200 accounts that includes expanded voluntary renewable energy sources. To cover its nearly 9.5 million kWh annual usage, the City purchased a combination of Class I MA Renewable Energy Certificates (RECs) and National Wind RECs. Altogether, the RECs equate to a greenhouse gas emissions reduction comparable to removing 1,459 passenger cars from the road for a year or the CO<sub>2</sub> emissions typically required to provide enough electricity annually to power 808 homes.

The City of Salem strives to exceed the Commonwealth's standards for carbon neutrality by 2050. The regional Salem and Beverly climate action plan, [Resilient Together](#), highlights the City's commitment to 100% clean energy for all municipal operations by 2030 and 100% of community energy by 2040. Now, this transition to these RECs covers 100% of its municipal electricity usage in support of that emissions reduction goal.

[Salem PowerChoice](#), the City's municipal electrical aggregation program, already provides 100% renewable electricity supply for participating homes and business. Since the program launched in January 2016, Salem PowerChoice participants have saved more than \$2 million on electricity costs and, because of the program's commitment to renewable electricity, reduced the city's carbon footprint by more than 175,000 tons of CO<sub>2</sub>, which is the equivalent of removing 34,527 passenger vehicles from the road for one year. Because National Grid prices change and future prices are not known, future cost savings for PowerChoice participants compared with National Grid cannot be guaranteed.

"Changing our nearly 200 municipal electrical accounts to renewable sources for our electricity supply is a major step toward our climate goals and reducing our local contributions to climate change," said Salem Mayor Kim Driscoll. "It builds on our community's past work through our municipal electrical aggregation program, the conversion of our streetlights to LED fixtures, the installation of rooftop solar on city buildings, and the ongoing transition of our municipal vehicle fleet to hybrid and electric vehicles. Additionally, as we are poised to potentially become a leader in our Commonwealth and our country on offshore wind, it leverages our own capacity to increase demand for renewable energy. This step demonstrates that we are proactive when it comes to the climate crisis, not only with our words, but with actions, as well."

FYI SALEM

# Police Body Cameras

The City of Salem, the Salem Police Department, and the Salem Police Patrolmen's Union have reached an agreement on the implementation of body-worn cameras by Salem officers to improve the transparency of police operations, promote police integrity, protect officers against spurious complaints, and add valuable evidence to investigations.

Prior to the start of the program, the policy governing the cameras use will be available on [www.salem.com/salem-police-department](http://www.salem.com/salem-police-department). The department is in the process of procuring the cameras and the sorting/archiving hardware and software required for their proper and effective use. In addition, officers will be required to go through a training program on their proper use before the cameras are issued.

The use of body-worn cameras was recommended by the City's Race Equity Task Force and funding for the first phase of the program was included in the FY2022 City budget. A state grant application has been submitted to help fund future phases of the program's implementation. With the current timeline, the department anticipates the first grouping of cameras will be ready for use publicly in the first quarter of 2022.

"We are committed to serving the public transparently and professionally," said Mayor Kim Driscoll. "Body-worn cameras are a key tool to meet these important goals consistently and equitably. They protect officers from inaccurate accusations of misconduct, and they protect the public by ensuring accountability for police actions. I'm grateful for the hard work of the department, the union leadership, and our Race Equity Task Force community volunteers who have led us to this positive outcome, and to the members of the City Council who voted to fund this critical initiative."

"The implementation of body-worn cameras is very important to me as chief of the department, as a career police officer, as an advocate for fair, sensible policing, and as a resident of Salem," said Police Chief Lucas Miller. "Buying the cameras and training the officers in their use will be time and money well-spent. The cameras will aid police investigations, provide valuable evidence in criminal proceedings, promote transparency and police integrity, and provide a valuable resource in evaluating police policy and procedure. I hope to have the program operational as soon as possible."

**Salem** for all ages

# October Traffic & Parking

The list below outlines the planned and anticipated road closures for October in Salem, including lot closures and traffic impacts from planned special events. The Salem Police will close roadways at any point if they determine they should be closed for public safety reasons. Note that while there are currently road closures planned downtown for Sunday, October 31, starting no later than 4:00 p.m., there is a high likelihood that some closures will be made on Friday, October 29 & Saturday October 30 and potentially on Friday, October 22 through Sunday, October 24, as well. Any closures or changes will be announced and posted at [www.salem.com](http://www.salem.com) and [www.salempd.org](http://www.salempd.org). For real-time traffic and road closure notices, visit <https://twitter.com/SalemMAPolice> and <https://twitter.com/CityofSalemMA>. You do not need a Twitter account to follow these pages; if you do have a Twitter account, you can subscribe to both feeds at @SalemMAPolice and @CityofSalemMA. The City will also send push notifications about road closures as they happen through [the official app, My Salem MA](#); find the app by searching for "My Salem MA" in your device's app store.

## October 7: Grand Opening Parade

The Haunted Happenings Parade starts at 6:30pm The following streets will be closed to vehicular traffic at 6:00pm:

- Essex Street from Hawthorne Boulevard to New Liberty Street
- Front Street
- Central Street at intersection of Front Street and Charter Street to the Pedestrian mall
- Lafayette Street between Derby Street and Klop Alley
- Charter Street (Salem Housing Authority residents will still have access to their parking lot)

### No Parking – Tow Zone Areas

A parking ban will be in effect on October 7th on the following streets between 4pm and 9 pm. Any vehicle parked in these areas will be towed:

- Essex Street from Washington Street to Hawthorne Boulevard.
- Front Street both sides from Washington Street to Lafayette Street. (\*No parking may start earlier on this street.)
- Parking meter spaces at the intersection of Charter Street, Front Street, and Central Street.

### Garage Access

The Museum Place Garage entrance will only be accessible from Church Street or St. Peter Street.

## October 2 & 3, 9 & 10, 16 & 17, 23 & 24, and 30 & 31:

The following streets will be posted as No Parking zones:

- Washington Square North (Common Fence side only).
- A portion of the metered spaces along Hawthorne Boulevard.
- Metered spaces along Lafayette St. by Fire Headquarters (October 23, 24, 30 & 31).

Essex Street from Hawthorne Boulevard to New Liberty Street will be closed to through traffic and no on-street parking will be allowed from 9am to 10pm every Saturday and Sunday. Essex Street from Barton Square to Washington Street closures will be assessed by the Police Department each weekend. If this portion of the street is closed to vehicular traffic, vehicles will be rerouted to Barton Square to reach Washington Street.

**October 31:** Halloween will include multiple road closures and heavy traffic impacts for the entire day and night. Visitors are strongly encouraged to take the commuter rail or ferry to get to Salem. Do not plan to drive into downtown Salem. Expect major traffic impacts on Route 114 and Route 1A. Downtown streets will close to all traffic no later than 4pm.

All information above is subject to change. The Salem Police Department will close any street at any time if they determine that a public safety issue exists.

**Please note:** *the MBTA Garage will be closed from 6:00 p.m. until 1:00 a.m. on Halloween night, and possibly on October 30. Cars will not be permitted to enter or exit between these hours.*

## Vineyard Wind

Vineyard Wind has announced that the company has entered into an agreement with the City of Salem and Crowley Maritime Corporation to create a public-private partnership aimed at establishing Salem Harbor as the state's second major offshore wind port. The agreement, part of the "Commonwealth Wind" proposal, is contingent upon the company winning an award by the state of Massachusetts, which is currently evaluating offshore wind procurement bids.

Vineyard Wind estimates that the project would create up to an estimated 400 full time equivalent (FTE) job years during the revitalization of the port and up to another 500 FTEs over the first five years of operation for construction and staging for wind projects and also day-to-day port operations, for a total of 900 FTE job years.

Under the proposed agreement, Crowley Maritime Corporation will purchase the 42 acres surrounding Salem Harbor Station, currently owned by a subsidiary of Footprint Power LLC, and will serve as the long-term offshore wind port operator for the site. Vineyard Wind's partners will serve as the port's anchor tenants, utilizing the property for the Commonwealth Wind project as well as other projects in the company's portfolio. The Commonwealth Wind project intends to use the site for turbine assembly and staging activities, utilizing the site to store and assemble components – including blades, nacelles, and tower sections – as they are prepared for offshore installation. Given Salem Harbor's deep-water port and unrestricted height access to accommodate large-scale wind turbine installation vessels, Vineyard Wind sees Salem Harbor as a necessary addition to support the offshore wind industry within the Commonwealth and across the region.

Both Vineyard Wind and Crowley will work alongside the City of Salem to engage in a robust community outreach and listening process to seek input and build support for this innovative partnership. The parties are committed to jointly developing a local community benefit agreement to safeguard the City's long-term interests, while working with residents and businesses to identify local supply chain and workforce development opportunities.

"I am pleased to welcome Vineyard Wind and Crowley Maritime here to Salem," said Mayor Kim Driscoll. "For centuries, when Salem looked toward its future, it looked toward the sea. This site, in particular, has provided the electricity that has powered our community and our Commonwealth for generations. With this announcement, that legacy can continue with a new focus on a clean energy future, based on renewable power and with a shared commitment to positive action to mitigate climate change. In addition, this project would provide a significant expansion to our commercial tax base and create hundreds of clean energy jobs, right here in Salem. I'm looking forward to working with the Vineyard and Crowley teams, as well as our own local stakeholders here in the community, as this exciting new opportunity moves ahead."

### About Commonwealth Wind

Commonwealth Wind is a newly proposed offshore wind project that submitted a response on September 16, 2021 to Massachusetts' third competitive offshore wind solicitation. If awarded, Commonwealth Wind will be developed in an area 22 miles south of Martha's Vineyard that was designated by the federal government in 2015 following a multi-year stakeholder process. Commonwealth Wind can deliver up to 1200 MW of clean and affordable energy to Massachusetts, power 750,000 homes in Massachusetts, create over 11,000 jobs (FTE), catalyze hundreds of millions of investments in offshore wind infrastructure, and deliver substantial commitments to environmental justice communities.

October Shuttles	2
2021 Election	3
COVID Testing	3
School Updates	4

## From the Mayor's Desk

Dear Salem resident,

We're just about half way through October and what a busy season it's already been! While the traffic and volume of visitors can be frustrating at times, it's helpful to remember that the economic activity of this month is what helps keep our favorite restaurants and shops open and thriving the rest of the year. It also creates and supports hundreds of jobs for our neighbors.

All that said, we take October planning seriously. This year our Board of Health re-instituted the indoor mask requirement and established a rule requiring negative COVID tests for anyone attending a large indoor event.

As of today, over 1,200 people have gone to the City's rapid testing site downtown and the

site has successfully flagged 25 COVID-positive individuals, helping to prevent them potentially transmitting the virus further in our community.

Salem Police, Traffic and Parking staff, Public Works, and our regional partners have been diligent in their efforts, for months, preparing for October. We are re-launching the free satellite shuttle and parking lot program this coming weekend, adding an extra weekend to the program. In addition our special events and police teams have used some of the lesson learned during the October 2020 season to reprogram several public spaces to try to help de-densify crowds.

I like to say that October is a season that we love to see come, and love to see go. Despite the hassles the month can bring, the joy on the faces of Salem kids who were again able to enjoy the Grand Parade and Mayor's Night Out—after a year of no celebrations—was a heart-warming reminder that October in Salem is about families, neighbors, and fun.

A few other quick items to bring to your attention, while you're reading FYI Salem...

First, the next ARPA public forum will take place on November 10th.

We received a lot of great feedback from the survey and the first forum, and City staff are hard at work synthesizing that input into a plan for leveraging these historic relief funds for further success and recovery.

Next, we received a lot of great questions about the off-shore wind marshalling project proposed for the land around the power plant. We've put together a helpful FAQ document that you can find at the bottom of the page at [www.salem.com/VineyardWind](http://www.salem.com/VineyardWind).

Lastly, we have some information in this issue about the upcoming election here in Salem. November 2nd is Election Day, but thanks to changes in state law you can vote early, just like last year. Read more in this issue or check out the Election Central tab at [www.salem.com](http://www.salem.com) to find out how you can vote early by mail or in person.

Thanks again for reading FYI Salem and be sure to check out the companion FYI Salem podcast by visiting [www.salem.com/fyisalempodcast](http://www.salem.com/fyisalempodcast) or searching for "FYI Salem" on your preferred podcast service.

Kim Driscoll

City of Salem

**FYI SALEM**

# October Shuttles

The City of Salem's free October weekend shuttle returns this October for its fourth year. New this year for 2021, the service will run for three weekends in October, instead of just the final two.

Shuttles run October 16-17, 23-24, and 30-31 from 10:00 a.m. to 8:00 p.m. between three free satellite parking lots and downtown Salem.

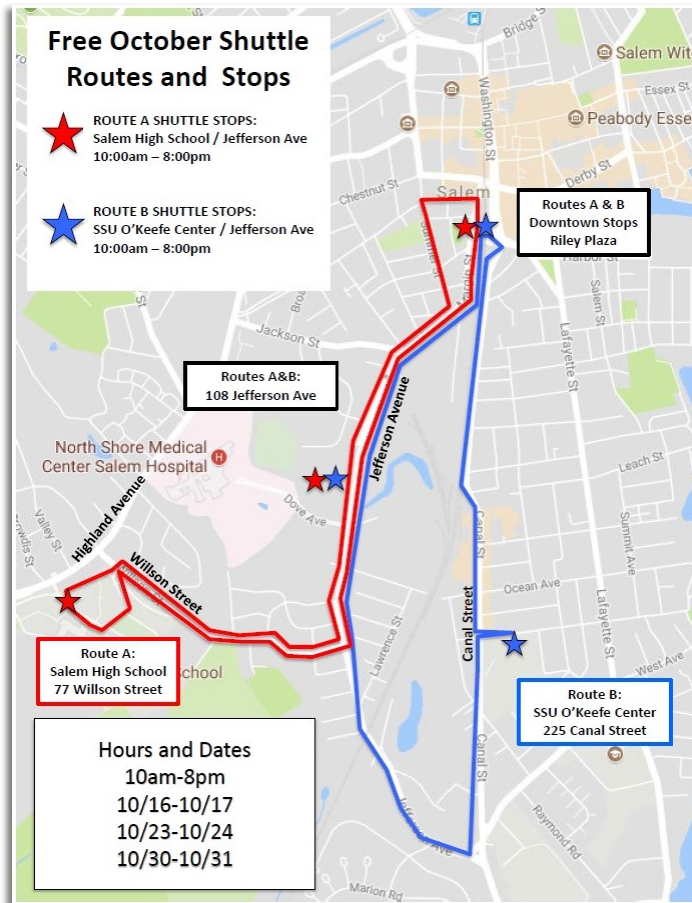

Free satellite parking lots are located at Salem State University's O'Keefe Center parking lot (225 Canal Street), Salem High School (77 Willson Street), and at 108 Jefferson Avenue behind Salem Hospital. Together the three satellite lots offer nearly 800 free parking spaces.

The downtown pick-up/drop-off location is in Riley Plaza. An accessible shuttle is available for those who require one and stops at the High School and Jefferson Avenue lots, as well as Riley Plaza. Masks are required to be worn while riding on the shuttle.

"Since we began this free service in 2017 our October shuttles have provided more than 24,500 rides to over 12,000 people," said Mayor Kim Driscoll.

"Allowing people to park at these satellite lots has helped reduce demand for downtown parking and lessen the number of cars driving into and around downtown," continued Mayor Driscoll. "Since 2017 the service has kept around 4,100 cars out of downtown Salem. While a lot of visitors use the shuttle, we also see many Salem residents use it to easily get to and from downtown Salem on October weekends. I encourage everyone planning a visit to Salem this October to make use of the free satellite parking lots and this shuttle service."

Details about the shuttle are online at [www.salem.com/OctoberShuttle](http://www.salem.com/OctoberShuttle).

FYI SALEM

# 2021 Election

Election Day is Tuesday, November 2nd. Polling places will be open that day from 7:00 a.m. to 8:00 p.m.

## VOTING INFORMATION

You can vote early by mail or in person. To vote early by mail, return the ballot application form available in the Election Central tab at [www.salem.com](http://www.salem.com) to City Hall Room #5, 93 Washington Street, Salem MA 01970 or to [elections@salem.com](mailto:elections@salem.com) before October 27th. You will be mailed your ballot. Return your ballot before 8:00 p.m. on November 2nd for it to be counted. You can return your ballot in person, by mail, or by dropping it into any of the secure ballot drop boxes. Ballot drop boxes are located at City Hall (93 Washington Street) and each Fire Station (48 Lafayette Street, 64 Loring Avenue, 415 Essex, and 142 North Street). You cannot bring an early vote ballot to a polling place on Election Day, however you can turn it in at City Hall Room #5 on Election Day. Any voter who requested but did not return an early ballot to the City Clerk's office can still vote in person on Election Day.

You can vote early in person at the following times and locations:

- Saturday, October 23rd, 9AM-1PM: Salem High School, 77 Willson Street
- Monday, October 25th, 8AM-3PM: City Hall Annex, 98 Washington Street
- Tuesday, October 26th, 8AM-3PM: City Hall Annex, 98 Washington Street
- Wednesday, October 27th, 8AM-3PM: City Hall Annex, 98 Washington Street
- Thursday, October 28th, 8AM-6PM: City Hall Annex, 98 Washington Street

Additional information about voting in Salem, including specimen ballots for each Ward, can be found by clicking on the Election Central tab at [www.salem.com](http://www.salem.com).

**SALEM: GET A TEST**  
PROTECT YOUR LOVED ONES  
PROTECT YOUR NEIGHBORS  
STOP THE SPREAD

**FREE COVID-19 TESTS**  
[MASS.GOV/STOPTHESPREAD](http://MASS.GOV/STOPTHESPREAD)

# COVID Testing

The Commonwealth's two free "Stop the Spread" COVID-19 testing sites in Salem will remain open through December 31, 2021. One site is a walk-up site located downtown, currently at St. Peter's Church (24 St. Peter Street), and the other is a drive-through site located at Salem High School (77 Willson Street).

Currently, the hours of operation at both sites are expected to remain unchanged: Salem High School is open Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays 4pm-8pm; Saturdays

10am-3pm. The downtown site is open Mondays, Tuesdays, Wednesdays, and Thursdays 9am-3pm, and Friday's 9am-2pm. These dates and hours are subject to change, based on holidays, weather, and the testing lab's hours of operation. Testing site locations may also change, if necessary. Any updates will be posted on [www.salem.com](http://www.salem.com).

Both sites provide free PCR tests with a turn-around time of approximately 1-2 days. Testing is free and no proof of insurance, residency, or citizenship is required. The City's free rapid testing site, currently located at 135 Essex Street for the month of October, will not be open after October 31<sup>st</sup>. Residents can also receive a free COVID-19 test at any of the state's "Stop the Spread" testing sites throughout Massachusetts; find more details at [www.mass.gov/stopthespread](http://www.mass.gov/stopthespread). For more information about COVID-19 testing in Salem, visit [www.salem.com/testing](http://www.salem.com/testing).

# School Updates

## Teacher of the Year - Salem's Marta García

Earlier this month, Governor Charlie Baker announced that Witchcraft Heights Elementary School teacher Marta García had been named the 2022 Massachusetts Teacher of the Year!

The ceremony at WHES included remarks and presentations from Governor Baker, Mayor Kim Driscoll, Education Commissioner Jeff Riley, State Senator Joan Lovely, State Representative Paul Tucker, and SPS Superintendent Stephen Zrike. The Teacher of the Year program is the state's top award for educators, recognizing excellence in teaching and school leaders who exemplify the dedication and positive contributions of educators statewide. Marta is the 60<sup>th</sup> recipient of the award and is now Massachusetts' candidate for National Teacher of the Year.

"Ms. García's dedication to her students and their families is a tremendous asset for our community," said Mayor Kim Driscoll, who chairs the Salem School Committee. "Salem is so proud of her and her many accomplishments and positive contributions to our schools, as we are of all our teachers, school staff, and students."

## Latinos for Education Award Winners

Five Salem Public School staff were honored this month by the statewide organization Latinos for Education as part of their 2021 State of Latino Education Summit. Anaima Piccirillo, Estephania Lugo, Arabelis Luciano, Rosaura Saldivar, and Manny Brito were recognized for their contributions as Latinx leaders in our schools and in the community.

## SPS Kindness Challenge

Salem Public Schools has launched a "Choose Kindness" video challenge for the month of October. SPS is challenging students, families, and staff throughout the district to submit kindness videos throughout the month of October, which is National Bully Prevention Month. At the end of each week, students from each school will be selected for outstanding entries and receive Amazon gift card prizes. At the end of the month, one video will be selected as a grand prize winner. Videos should be no more than one minute in length and can include a random act of kindness, paying forward a kind act, or showing an attitude of gratitude for someone else's recent act of kindness. Make sure your video has your name and school community, then submit it through Flipgrid using the link sent out to the school community by the district.

## MCAS Reports

The 2021 MCAS Parent/Guardian reports will be mailed home this week. These guides provide brief explanations about how students performed on the Spring 2021 MCAS assessment. The report also includes questions that families can use to engage their student in a discussion about the results. Please keep in mind that this MCAS assessment was administered under extremely unusual circumstances given the COVID-19 pandemic. Results should not be compared to performance from previous years. Families with questions about their child's MCAS report should contact their school principal.

## Meet Superintendent Zrike

Dr. Zrike continues to make himself available to meet with any SPS staff or family who would like to do so. If you would like to schedule a time to meet with Dr. Zrike, please email Mindy Marino at [mmarino@salemk12.org](mailto:mmarino@salemk12.org) to schedule a time and location convenient to you.

Safe Halloween	2
COVID Vaccine Boosters	2
2021 Election	3
Storm Clean-Up	3
Textile Recycling	3
Housing Road Map	4

**PAGE 1**

Dear Salem resident,

As we enter Halloween weekend and the conclusion of the October season, I want to thank you for your patience and cooperation. Living in a special place like Salem is certainly unique and it means sharing our city with the thousands of visitors who also want to explore and discover our community.

As you may be aware, Salem has seen record levels of visitors and business activity this October so far. While that's great for the hundreds of small businesses that form the fabric of our local economy, it has meant a major challenge in regards to crowd control and traffic/parking strains. The first week of the free October shuttle ([salem.com/OctoberShuttle](http://salem.com/OctoberShuttle)) saw around 3,000 riders; last weekend, though that number increased to around 10,000

passengers. In addition to enhanced ticketing and towing, we continue to emphasize to visitors that they should take the commuter rail to come to Salem, use satellite parking lots, and make a plan for their visit.

We're also reminding visitors about the need to wear a mask when indoors in Salem, and to get a COVID test if they are planning to attend a large indoor event.

COVID is not gone. As of the time I'm writing this we still have just under 100 active cases and the rate of new cases, while not increasing, is not dropping significantly, either. Just over 75% of eligible residents have had at least one dose of the vaccine, but there are thousands of children who are not yet eligible to be vaccinated and therefore run the risk of severe illness, hospitalization, or even death from COVID.

We all have a responsibility to protect one another, and that means getting vaccinated if you're eligible. Booster shots for some individuals—depending on what vaccine you have received—have also been authorized and are now available. You can find out more at [www.salem.com/vaccine](http://www.salem.com/vaccine).

We know more about COVID now than we did this time last year. We know that masks work to curb

transmission, that vaccines prevent severe illness and hospitalization and reduce the probability of death. Now we have a responsibility to put that knowledge to use, taking action to ensure public health is safeguarded until we are all on the other side of this pandemic.

Also, a reminder that November 2nd is the final municipal election here in Salem. Polling places are open from 7:00 a.m. to 8:00 p.m. If you're not sure where you vote, visit [wheredovoteMA.com](http://wheredovoteMA.com) to look up your polling place location by address. You can also find sample ballots and more information about voting in Salem by clicking on Election Central tab at [www.salem.com](http://www.salem.com).

Lastly, if you have little ones in your house, Chief Miller has set Salem's official neighborhood trick-or-treating hours from 5pm to 8pm on Sunday, October 31st. If you are driving through Salem on October 31st, please do so with caution as trick-or-treaters will be out after sunset in most neighborhoods.

Thanks again for reading FYI Salem and be sure to check out the companion FYI Salem podcast by visiting [www.salem.com/fyisalempodcast](http://www.salem.com/fyisalempodcast).

Kim Driscoll  
Mayor

**FYI SALEM**

## Safe Halloween

Chief Lucas Miller of the Salem Police Department has announced that Salem's official neighborhood trick-or-treating will take place on Sunday, October 31<sup>st</sup> from 5:00PM to 8:00PM.

"Halloween is a cherished tradition in Salem and sometimes the excitement of Haunted Happenings can cause us to forget to be careful," said Chief Miller. "There is no real 'trick' to making Halloween a real treat for the entire family. The major dangers are not from ghosts or goblins, but from pedestrian vehicle accidents and trips and falls. Please use these tips to help make your celebration safe and fun."

If you are driving through Salem on October 31<sup>st</sup>, please do so with caution as trick-or-treaters will be out after sunset in most neighborhoods. Drive slowly, especially on neighborhood and residential side streets, and be aware that children may cross at many points of the street, including from behind parked vehicles, trees, or sign posts where they may not see your approaching vehicle.

Find the full brochure about Halloween safety at [www.salem.com/home/news/halloween-safety](http://www.salem.com/home/news/halloween-safety).

## COVID Vaccine Boosters

The Centers for Disease Control and the Food & Drug Administration have authorized COVID-19 booster shots for eligible individuals.

The COVID-19 vaccines are safe and effective in reducing the risk of severe disease, hospitalization, and death, including against the widely circulating Delta variant. The CDC has found that protection from COVID-19 is improved with the addition of a booster shot, especially for those at higher risk. Getting vaccinated is the single most important thing you can do to protect yourself, your loved ones, and your community.

Visit [www.salem.com/vaccine](http://www.salem.com/vaccine) to find a list of multiple sites here in Salem offering the vaccine, including booster shots for Pfizer, Moderna, and Johnson & Johnson. Some require that you book an appointment, while others are taking walk-ins. If you can't get online or find it easier to call, you can dial 2-1-1 (Monday through Friday 8:30am-6pm and Saturday and Sunday from 9am-2pm) and follow the prompts.

**COVID-19 Vaccine Boosters Are Available**

**Pfizer, Moderna, and Johnson & Johnson boosters are safe and effective, free, and available near you.**

- You don't need an ID, health insurance, or vaccine card
- Check your eligibility: [mass.gov/BoosterCheck](http://mass.gov/BoosterCheck)
- Use [VaxFinder.mass.gov](http://VaxFinder.mass.gov) to find a location

Learn more at [mass.gov/COVID19booster](http://mass.gov/COVID19booster)

As with your initial shots, the vaccine is safe, effective, and free. You do not need an ID, proof of citizenship, or health insurance to receive the booster. We all have a role to play in keeping one another safe from this deadly virus. If you are eligible to receive a booster, please do so as soon as possible. If you are not yet vaccinated, please – for your sake and the sake of your loved ones – get vaccinated as soon as possible.

**FYI SALEM**

## 2021 Election

Election Day is Tuesday, November 2nd. Polling places will be open that day from 7:00 a.m. to 8:00 p.m. Additional information about voting in Salem, including specimen ballots for each Ward, can be found by clicking on the Election Central tab at [www.salem.com](http://www.salem.com).

**VOTING  
INFORMATION**

## Storm Clean-Up

Due to the Nor'easter storm, the Salem Transfer Station (12 Swampscott Road) will open for extended hours on October 30-31, 7am-5pm and November 1, 8am-2pm. Salem residents with proof of ID may drop off yard waste in a paper yard waste bag or dumped loose at the designated area on the site. Yard waste in plastic bags will not be accepted. Because of the large number of branches and tree limbs that fell due to the wind storm, the transfer station will accept branches greater than 2" in diameter for 10/30-11/1 only.

## Textile Recycling

SalemRecycles is partnering with HELPSY to host a clothing and household textiles and TerraCycle recycling drive on Saturday, November 20th from 8:00 am to 1:00 pm at Riley Plaza in Salem. Clean and dry textiles of all kinds and in various states of "usability" are welcome such as new or used clothes and shoes, old, stained t-shirts, sweaters needing buttons, belts in need of buckles, towels, curtains, bedspreads, purses, jackets, hats and gloves, backpacks, socks, jeans, etc. Household items, large rugs, sofa cushions and pet clothing will not be accepted.

In addition to clothing and textiles, other recyclable items can be brought to the event to be recycled with TerraCycle. These items include all used, dried Swiffer pads, all brands of reusable and disposable razors, blades, and cartridges, as well as any flexible or rigid plastic packaging they come in, all brands of toothbrushes, toothpaste tubes, mouthwash bottles, and floss containers plus toothbrush packaging, all brands of deodorant containers and caps, and all brands of empty writing instruments, glue sticks, watercolor dispensers, paint sets, and flexible packaging. Please keep items in separate bags from textiles, and make sure all TerraCycle items are clean and dry.

For a complete list of all acceptable pieces for donation, please visit [www.facebook.com/events/2200663940087036](https://www.facebook.com/events/2200663940087036). Salem also offers free curbside textile recycling collection, however you must schedule the pick-up in advance. Visit [helpsy.co](http://helpsy.co) to schedule a curbside pick-up date.

While attending the November 20th event, please keep social distancing in mind. Stay in your vehicle the whole time and have your items ready to be unloaded in your trunk, truck bed or hatchback. Please call 978-619-5672 or e-mail [mguglielmi@salem.com](mailto:mguglielmi@salem.com) if you are interested in volunteering for this event or if you have any questions.

# Housing Road Map

The City of Salem has kicked off the [Salem Housing Road Map: A Housing Plan for All](#). The purpose of the Road Map is to help Salem find the best ways to meet housing needs and shape the location, type, and design of future housing projects. The Road Map will consider best practices to help promote diverse housing options that are sensitive to the community context and capacity. When communities encourage homes of many types and sizes, it helps give all kinds of people affordable options and can help keep prices and rents from shooting out of reach.

When completed in the Spring, the Road Map will include specific, actionable recommendations for the City to take, such as zoning improvements, potential construction and reuse opportunities, and housing programs.

"I am so pleased to announce the start of the public phase of our Housing Road Map plan," said Mayor Kim Driscoll, who chairs the City's Affordable Housing Trust Fund Board. "Salem has worked intentionally and thoughtfully for years to advance policies and projects that grow our affordable and market-rate housing supply so that it can better meet the demand of a popular, vibrant community like ours. Building on past studies like Imagine Salem and the Housing Needs Assessment, this Road Map will chart a forward-looking path for the future progress of those efforts, shaping a Salem that can be home to us all."

As part of this process there will be multiple opportunities for Salem community members to be involved and help shape the recommendations in the plan. The project team held focus groups this fall and is now launching a survey and series of four public forums over the coming months.

The first opportunity to participate is coming up soon. Join the City's project team for a virtual Community Forum on Tuesday, November 30<sup>th</sup> at 6:30 p.m. This online event is free and open to all. Registration is required and can be done online at <https://linktr.ee/SalemHousingRoadmap>. During the webinar, the City's project consultants will provide an overview of the project and lead participants through interactive online activities so you can share your insights about housing needs, challenges, and opportunities in Salem.

Learn more about the Road Map at the project website, including how to register for the forum and respond to the survey, at <https://linktr.ee/SalemHousingRoadmap>.

**PAGE 1**

## From the Mayor's Desk

Dear Salem resident,

With Halloween behind us I wanted to again thank every Salem resident for your patience and your positive attitude as we once more welcomed tens of thousands of visitors to our amazing city.

While we don't have an official count, based on reports from our local businesses and attractions it does sound like October 2021 was a record year for visitors coming to Salem.

I want to especially express my gratitude to our public safety, public works, licensing, and special events teams, who work year-round to ensure they are prepared for everything that October can bring. Managing Haunted Happenings in a normal year is a chal-

lenge. To take it on in a pandemic year, along with the increased strain of an October nor'easter, required a level of professionalism and dedication that should make every Salem resident proud.

On that note, I hope you will take a moment to complete the annual post-Haunted Happenings resident survey, online through November 12th. More details are in this issue of the newsletter.

I mentioned a pandemic year because we are still working together to get through this COVID-19 crisis. While vaccination rates are continuing to increase, we are still seeing an increasing new case rate, coupled with lower than ideal hospital capacity numbers. Thankfully, due to the vaccines, hospitalization and death from COVID has been greatly reduced. However, there are still many Salem residents who are not yet vaccinated. If you are one of the nearly 13,000 Salem residents who have not yet received the vaccine, including now children age 5-11, now is the time to do it. The vaccines are safe, effective, and life-saving. Please, do your part and get vaccinated as soon as possible.

To help us monitor COVID-19 levels in Salem over the coming months we've worked with Curative, the same company that ran the October rapid testing site, to set up our third free community testing site. This site is a mobile testing trailer that will be in Riley Plaza and available six days a week for the foreseeable future. You can find more details at [www.salem.com/testing](http://www.salem.com/testing).

Lastly, I want to thank the City staff in our Finance and Human Resource Departments for two accomplishments. First, our Finance team had a great week, securing our 16th Certificate of Excellence for our annual finance report, as well as affirmation of our historic AA/Stable bond ratings. And our HR staff have been instrumental in setting up a four day municipal job fair being co-sponsored by multiple North Shore communities. Read more about all of these announcements in this issue of the newsletter.

Thanks again for reading FYI Salem and be sure to check out the companion FYI Salem podcast by visiting [www.salem.com/fyisalempodcast](http://www.salem.com/fyisalempodcast).

Kim Driscoll  
Mayor

FYI SALEM

## 3rd Testing Site

Curative, the company that operated the City's free rapid COVID testing site in October, will continue to serve the Salem community with a free walk-up COVID testing site located in Riley Plaza starting on Monday, November 15th. The Curative testing trailer will be open six days a week, Mondays-Saturdays from 8:30 a.m. to 4:30 p.m. Testing at this site is self-collected PCR testing, with results returned within 24-48 hours.

## Halloween Survey

The 2021 Salem residents' Haunted Happenings and Halloween survey is [now online here](#). This annual survey seeks to gauge resident feedback on the events, public safety response, public information, and other aspects of Haunted Happenings and Halloween in Salem. 2021 marks the eleventh year that the City has collected this feedback. The survey will be online until 11:00 a.m. on Friday, November 12<sup>th</sup>.

"We incorporate public feedback from our residents into our Halloween and October planning every year," said Mayor Kim Driscoll. "In all, Halloween 2021 went extremely well and that was in large part due to the input – and patience – of Salem residents. I hope all residents will take

a few minutes to complete the survey so we can continue to improve how we manage October in the years ahead."

## Finance Awards

The City of Salem has again been awarded the Certificate of Achievement for Excellence in Financial Reporting by the Government Finance Officers Association (GFOA) for its annual comprehensive financial report for the year ending June 30, 2020. The Certificate is the highest form of recognition in the area of government accounting and financial reporting. Its attainment represents a significant accomplishment by a government and its management. This is the 16<sup>th</sup> year in a row that Salem has earned the Certificate. In awarding this recognition, GFOA stated that Salem's financial reporting "has been judged by an impartial panel to meet the high standards of the program, which includes demonstrating a constructive 'spirit of full disclosure.'"

"This award is a reflection of the value we have placed on transparency, professionalism, and financial responsibility in government operations," said Mayor Kim Driscoll. "It is also a credit to the hard work of our Finance Department and the department's team."

In the same week, Standard & Poors issued their bond rating report for the City of Salem and have once again affirmed the City's historic AA/Stable rating. The agency specifically recognized the City's prudent fiscal practices and financial management, as well as its thoughtful planning around climate change mitigation, its healthy reserve funds, and the community's strong economic growth, even with the pandemic.

**FYI SALEM**

Salem children age 5-11 can get the **COVID-19** vaccine now — for FREE!
**Protect yourself and your loved ones by getting your family vaccinated.**

Dear Salem resident,

**The COVID-19 vaccine is now available for free to children in Salem between the ages of 5 and 11.**

With the recent FDA authorization for children to receive the Pfizer COVID-19 vaccine, we want to make sure that you are aware of the options for Salem children to get this life-saving vaccine if you are a parent or guardian of a child in this age range, or if you know any.

Vaccines are available for free at multiple sites across our community. Some require an appointment, but most are now accepting walk-ins with no appointment necessary. **Find the list of vaccination sites in Salem at [www.salem.com/vaccine](http://www.salem.com/vaccine).** The vaccine is entirely free and you do not need to show proof of citizenship to receive the vaccine. While health insurance isn't required either, if you have it, you may be asked to provide your health insurance information when your child gets the vaccine.

The availability of vaccinations, especially now for most Salem children, provides a new opportunity for hope and a tremendous step forward toward normalcy and the end of this pandemic. This should help us keep our youngest residents in school and reduce risks of serious illness due to COVID. The resilience and compassion of Salem residents have carried us through more than a year and a half of incredible challenges and hardships. I'm optimistic that that same spirit and dedication will see us through these critical next few weeks.

Please know that your City is here for you, doing all that we can to bring this pandemic to an end and keep every resident safe and healthy.

*Kim Driscoll*  
Kim Driscoll, Mayor

## Repair Cafe

Don't throw away your broken item – bring it to the Repair Café! SalemRecycles will again host a Repair Café, this time on Saturday December 4<sup>th</sup> from 9:00 a.m. to noon at the Mayor Jean Levesque Community Life Center at 401 Bridge Street. **Appointments are required; walk-ins will not be accepted.** Schedule an appointment by contacting Micaela Guglielmi at [mguglielmi@salem.com](mailto:mguglielmi@salem.com) or 978-619-5672. Repair volunteers will be available to mend clothing, sew buttons, sharpen scissors and knives, tinker with or rewire electronics and lamps, assess computer diagnostics, glue wooden furniture and ceramics, and much more.

## Veterans Day 2021

Mayor Kim Driscoll and the Salem Veterans Council invites the Salem community to join in commemorating Veterans Day 2021 on November 11th. This year the annual Veterans Day ceremony will take place at 11:00 a.m. at the intersection of Larkin Lane and Memorial Drive, as the City dedicates the new monument to U.S. Army Nurse Corps 1st Lieutenant Catherine Larkin. The guest speaker for the ceremony will be Dr. Barbara Poremba, public health nurse professor and U.S. Cadet Nurse Corps advocate. The ceremony is free and open to all, and will also be broadcast live on the City's Facebook page

## From the Mayor's Desk

Dear Salem resident,

I hope you will join me in expressing our community's support and appreciation for the LGBTQ+ students and staff at Salem State University. In recent weeks, students and staff on campus have been subjected to vile and hateful comments by an individual unaffiliated with the university or with our community.

Salem is a welcoming place for all regardless of who they love or how they identify. We consistently achieve a perfect 100 score on the Human Rights Campaign's Municipal Equality Index, have designated LGBTQ+ liaisons both in the Mayor's Office and at the Salem Police Department, and were one of the first Massachusetts municipalities to adopt a fully-inclusive non-discrimination Ordinance – and then actually enforce it.

We are far from being a perfect community, but we strive daily to achieve a shared goal: making Salem a safe, welcoming, and

loving place for all. The lone protestor at SSU is not reflective of Salem, of what we believe, or of who we are. We are working closely with SSU administrators, students, and staff to identify collective actions we can take to stand up to this hateful commentary.

Salem belongs to everyone. Our own history demonstrates the tragic outcomes that befall a community where people turn on each other. Salem today is no that place, and this protestor does not speak for us or reflect our values. To our LGBTQ+ SSU students and staff who have felt threatened by this individual, know that you are welcome and loved in Salem, always.

On a separate note, on December 1st the Council will vote on the FY22 tax rate. We strive to manage the overall tax burden on homeowners and I am proud that we have never needed or sought a Proposition 2 ½ override. This year residential and commercial rates will drop by about 4% and the average single-family tax bill will increase by just \$97.

The most powerful tool at our disposal is responsible, sensible development that adds to our tax base. Therefore, we have advocated for the appropriate redevelopment of sites such as the former courthouses, the vacant power plant property, and other under-utilized and vacant former industrial parcels. Certified new growth this fiscal year is a very strong \$2 million exceeding last year's growth of \$1.6 million. This is why – in addition to the housing need

and the desire to create good, local jobs – it is important we look to new growth opportunities. We cannot cut our way to stabilized taxes or better services; we can, however, broaden the base that funds our local government, thereby stabilizing taxes and improving services. FY22 once again demonstrates that strategy at work.

Combined, new growth and grant and non-tax revenues have reduced the average tax bill increase by roughly half when comparing the last 17 years of this administration to the 17 years prior to that. We want to keep Salem a vibrant, thriving community that delivers quality public services in as efficient and affordable a manner as possible. It has not always been easy. Just as we emerged from local fiscal trials in 2007 our national economy spiraled into a recession and, just as we were building back from that the pandemic brought a new decline in our economy.

Whatever the cause of our challenges, we weathered them and are today still resiliently positioned for success, with strong growth, a declining unemployment rate, record bond ratings, and award-winning balanced budgets. Our City's bond rating was upgraded eight years ago to AA, the highest in the City's history. In their most recent ratings report the agency cited our financial stability and reasonable budgeting practices in affirming that strong rating. This is validation that that the path we have set for ourselves is the correct one for our community.

Kim Driscoll, Mayor

**FYI SALEM**

# COVID Updates

Curative, the company that operated the City's free rapid COVID testing site in October, will continue to serve the Salem community with a free walk-up COVID testing site located in Riley Plaza starting on Monday, November 15th. The Curative testing trailer will be open six days a week, Mondays-Saturdays from 8:30 a.m. to 4:30 p.m. Testing at this site is self-collected PCR testing, with results returned within 24-48 hours.

**SALEM: GET A TEST**  
PROTECT YOUR LOVED ONES  
PROTECT YOUR NEIGHBORS  
STOP THE SPREAD

**FREE COVID-19 TESTS**  
MASS.GOV/STOPTHESPREAD

The state-run testing program, "Stop the Spread," operates two testing sites in Salem: a walk-up site at St. Peter's Church on St. Peter's Street and a drive-up site at Salem High School. The Commonwealth recently announced that the Stop the Spread program will continue through at least March 31, 2022. Testing at these sites are free and results are returned to you within one to three days of testing. More details can be found at [www.salem.com/testing](http://www.salem.com/testing).

**Massachusetts residents can access booster doses from more than 1,000 locations, with appointments available now across the Commonwealth, including many right here in Salem.**

CDC recommendations allow for mixing and matching of different COVID-19 booster doses, and individuals may choose which vaccine they receive as a booster dose. It is recommended that residents with questions about which booster is right for them should consult their health care provider.

Visit the Vaxfinder tool at [vaxfinder.mass.gov](http://vaxfinder.mass.gov) for a full list of locations to receive a booster. Residents can narrow results to search for locations that are offering boosters. Many locations will be booking appointments out weeks in advance. For individuals who are unable to use Vaxfinder, or have difficulty accessing the internet, the COVID-19 Vaccine Resource Line can help schedule appointments by **calling 2-1-1** and following the prompts for assistance (Monday through Friday 8:30am-6pm, Saturday and Sunday 9am-2pm). The COVID-19 Vaccine Resource Line is available in English and Spanish and has translators available in approximately 100 additional languages.

Vaccines are widely available across the Commonwealth and are the best way to keep everyone safe, especially during the holiday season. COVID-19 boosters are safe, effective, and free. Individuals do not need an ID or health insurance to access a booster, and do not need to show a vaccine card.

**Am I eligible for a COVID-19 booster shot?**

**Who?**  
Individuals 18+ who are fully vaccinated

**When?**

- At least 6 months after Pfizer or Moderna
- At least 2 months after J&J

**Which booster shot do I get?**

- You may have a preference, but you can get any type of vaccine for your booster shot

More information at [mass.gov/COVID19booster](http://mass.gov/COVID19booster)

**Additional information on the COVID-booster, including FAQs, can be found at [mass.gov/COVID19booster](http://mass.gov/COVID19booster).**

FYI SALEM

# Forest River Park

Salem residents and other community members interested in getting a closer look at the new Forest River Park Outdoor Recreation and Nature Center are invited to a free community sneak peek event taking place on Saturday December 18<sup>th</sup> from 10:30 a.m. to 12:30 p.m.

The event will feature brief remarks from project team members, an opportunity to tour the facility and new grounds, and light refreshments. This major signature park project included the creation of two new public pools, a renovated bathhouse with community room, public art installations, a splash pad, new accessible trails, and a more resilient and restored ocean cove area. Salem's signature parks initiative ([www.salem.com/signatureparks](http://www.salem.com/signatureparks)) is a major investment in the City's largest and most enjoyed public parks and open spaces, focused on creating an enduring legacy for the Salem 400 quadricentennial in 2026. More details about the Forest River Park project can be found in the FAQ available at [www.salem.com/home/news/sneak-peak-forest-river-park-outdoor-recreation-nature-center](http://www.salem.com/home/news/sneak-peak-forest-river-park-outdoor-recreation-nature-center).

# Housing Forum

The Salem Housing Road Map: A Housing Plan for All will help Salem find the best ways to meet housing needs and shape the location, type, and design of future housing. The Road Map will consider best practices to help promote diverse housing options that are sensitive to the community context and capacity. When completed in the Spring, the Road Map will include specific, actionable recommendations for the City to take. Join the Road Map team on November 30<sup>th</sup> at 6:30pm at a free forum. Registration is required and can be done at <https://linktr.ee/SalemHousingRoadmap>. The team will provide an overview of the project and lead participants through interactive online activities so you can share your insights about housing needs, challenges, and opportunities in Salem.

# Greenlawn Master Plan

The City is developing a master plan to guide future improvements, expansion, and long-term management of its largest place of interment, the historic Greenlawn Cemetery. Through the planning process, the City has identified ways to restore the character and quality of the landscape and has developed concepts for new interment sites. Join the upcoming meeting November 30, 6-7:30pm to learn about the plan's draft recommendations, and offer your comments, participate in polling, and engage in discussion. Information shared at the forum will be considered for inclusion in the final Master Plan document. Find the meeting link and more details at [www.preservingsalem.com/greenlawn-cemetery-master-plan](http://www.preservingsalem.com/greenlawn-cemetery-master-plan).

# School Updates

## Masks Required in Schools

On Tuesday, October 26, DESE announced that after consulting with medical experts and state health officials, their mask requirement in all K-12 public schools throughout Massachusetts has been extended through at least January 15, 2022. We recognize the desire to "just be done", but we are still in a COVID-19 pandemic and thus, we want to keep all of our staff and students safe. Staff, students, and families are required to wear a mask in our schools. We appreciate your cooperation.

## Vaccine Required by 12/1 for School Activities

Salem Public Schools remains committed to a safe and healthy environment for all students, staff, and families in our district. Currently, we are under a vaccine mandate for high respiratory extracurricular activities that was approved by the School Committee in October.

Vaccine eligible students must show proof of vaccination in order to participate in extracurricular activities unless there is a clearly stated medical exemption provided by a doctor or the family attests to a strongly held religious belief that prevents them from getting the vaccine. Students that have **received their first dose by December 1st** and are scheduled for their second dose will qualify to participate in the extracurricular activities.

## John & Abigail Adams 2021 Scholarship Winners

The John and Abigail Adams Scholarship is a merit-based program that provides a credit toward tuition for up to eight semesters of undergraduate education at a Massachusetts state college or university. For this scholarship, merit is based on student scores on the 10th grade Massachusetts Comprehensive Assessment System (MCAS) test.

Congratulations to the following SHS students:

- Genevieve Boudo
- Harrison Devoe
- Hawa Hamidou Tabayi
- Corey Aras Kaulenas
- Maher Kokonezis-Hanino
- Madison Lane
- Liam McKillop
- Cassadi O'Leary
- Perla Pena
- Jimena Pueyo-Garcia
- Natalie Wessell
- Carla Zoquier-Urbae

## From the Mayor's Desk

Dear Salem resident,

Happy holiday season to you and your loved ones!

As we approach the end of 2021, it's an opportune time to reflect on the past year and on all that we can be grateful for.

2021 was a year of enormous challenges for Salem, as well as for our Commonwealth and our country as a whole. Nevertheless, we persevered and supported one another through the challenges—and celebrated each other through the successes.

Over the past year we lost 34 more neighbors to COVID, and almost 4,000 Salem residents became sick from the virus. Many will struggle with ongoing, potentially lifelong, issues as a result of being in-

fectured with the virus. At the same time, in the past year nearly 31,000 Salem residents have become fully vaccinated against the virus.

2021 was also a year for great progress in Salem's continuing work to become a more welcoming and sustainable community. The Race Equity Task Force wrapped up its report and we are starting implementation of it, including the appointment of the City's first ever Director of Diversity, Equity, and Inclusion, and our new Race Equity Commission, a permanent body to continue the work initiated by the task force.

It was a major year for climate efforts, as well, with the establishment of the City's new Department of Sustainability, the completion and start of action on Resilient Together, our regional climate action plan with Beverly, and the development of the vacant land around the Footprint power plant as a potential marshalling site for offshore wind.

That last opportunity has truly transformative potential, laying groundwork for generations of green jobs right here in Salem, substantial growth in our tax base, and the reduction of our

region's emissions as we transition to more renewable offshore wind for Massachusetts' power supply.

Lastly, we can be proud of the progress made on the signature parks projects, making major investments in preserving, upgrading, and making more resilient and accessible our community's most beloved public spaces. First phases were completed at Salem Willows and Palmer Cove, investments were made across Salem Common, the new outdoor recreation and nature center at Forest River was completed, and conceptual planning and design initiated for Pioneer Village.

As Salem approaches our 400th anniversary in 2026 we are committed to remaining an inclusive, forward-looking, and vibrant community. I am so proud to have the opportunity to make a positive difference the daily lives of the people I am fortunate to represent and serve.

I hope you and yours have a joyful holiday season and a New Year filled with happiness and good health.

Kim Driscoll, Mayor

**FYI SALEM**

# Diversity Catalog

Salem Mayor Kim Driscoll has announced the opening of registrations for businesses to join the 2022 North Shore Diversity Catalog. Building on the success of the 2021 Catalog ([www.salem.com/diversitycatalog](http://www.salem.com/diversitycatalog)), Salem and its partner municipalities seek to update the listings and solicit participation from even more new businesses of diverse ownerships. Registration will be open until February 1, 2022.

To register for the 2022 Diversity Catalog, fill out the form in its entirety here: <https://tinyurl.com/2022DiversityCatalog>. The form is also available in Spanish here: <https://tinyurl.com/2022DiversityCatalogEspanol>.

Registration is open until February 1, 2022. Registrations after February 1, 2022, will be allowed, however entry into the catalog for those late registrants may be delayed. Previously listed businesses from the 2021 Catalog must also visit the registration link to confirm their business' information or update it if necessary.

The North Shore Diversity Catalog is a tool to help business share information about the services they provide or the products they offer. It also helps cities and towns in the region to identify the diverse array of business owners so that they can better connect them with opportunities for municipal procurement (when cities and towns purchase items or services).

The catalog will be published on the City of Salem's website, promoted by the partner municipalities, and shared with local Chambers of Commerce, Main Streets organizations, and other community groups.

"The 2021 North Shore Diversity Catalog featured over one hundred local businesses that call this region home," said Mayor Driscoll. "It not only offered municipalities a directory of businesses with diverse ownership for procurement purposes, it also provided a resource to residents who wanted to shop local and support our diverse business community. I am excited to continue Salem's partnership with our neighboring communities as registration opens for the 2022 Diversity Catalog. Together we can continue to build upon this community resource and marketing tool, making it further reaching and even more helpful than it was last year."

To participate in the Catalog, a business must meet two criteria:

- (1) Be located within the greater Salem region (i.e. Beverly, Danvers, Lynn, Marblehead, Nahant, Peabody, Salem, and Swampscott), and
- (2) Have at least 51% of the ownership team in at least one of the following categories: Immigrant, Lesbian, Gay, Bisexual and Transgendered (LGBTQIA), Black/African American, Hispanic or Latino (Central/South American or Caribbean), American Indian/Alaskan Native, Asian, Native Hawaiian/Other Pacific Islander, Person/People with a (dis)ability, Service-Disabled Veteran, Veteran, and/or Woman/Women.

FYI SALEM

## Snow Info

The City of Salem's "Snow Central" website ([www.salem.com/snow](http://www.salem.com/snow)) with critical information about snow emergencies in Salem has been updated for this winter, as well as the Snow Brochure, which is also available on that page and below. Please follow all posted information and rules about parking during snow emergencies, to allow for plowing operations to take place as effectively as possible. As a reminder, property owners are responsible for clearing the snow and ice from their sidewalk.

The City is still looking to hire additional plow truck drivers for this winter. If you are interested in this opportunity, please call the Department of Public Services at 978-744-3302.

## Discounted Overflow Bags

Salem residents may once again purchase official orange Overflow trash bags for \$1 per bag for any holiday overflow. Each household may purchase up to five bags, from December 20, 2021 through January 7, 2022, during regular City office hours. These discounted bags may only be purchased at the Collector's Office, 93 Washington Street, and the Community Life Center, 401 Bridge Street.

## CPA Grant Applications

Salem's Community Preservation Committee (CPC) uses a two-step application process for reviewing funding proposals, beginning with a brief Eligibility Application. This application enables applicants to know if their project is eligible under CPA regulations prior to submitting the more comprehensive Funding Application. Eligibility Applications may be submitted to the CPC at any time. However, in order to be considered for the FY22 funding round, applicants are encouraged to submit their Eligibility Applications no later than January 3, 2022. For projects that are determined eligible, applicants will then be invited to submit a Funding Application. The CPC's tentative deadline for the receipt of Funding Applications is March 25, 2022. Submitted applications will be reviewed in accordance with the evaluation criteria and the goal of the CPC is to submit funding recommendations to the City Council in May 2022.

"CPA has made it possible for the City of Salem to address needs of open space and recreation, historic preservation, and community housing," said Mayor Kim Driscoll. "Affordable housing continues to be very important, and I am pleased that the Community Preservation Committee has recommended CPA support for almost 200 units of new affordable housing."

The FY22 Community Preservation Plan and FY21 Annual Report, FY22 Determination of Eligibility Application and other information on the CPA can be found at <http://www.salem.com/community-preservation-committee>.

## City of Salem MA 2022 Recycling & Trash Collection Calendar for Municipal Pickup

### 2022 RECYCLING & TRASH COLLECTION SCHEDULE- FOR MUNICIPAL PICKUP

Trash is collected each week and recycling every other week; between 7 a.m. and 6 p.m. on your designated pickup day by Waste Management.

If your recycling cart has a green lid, your recycling will be collected on the GREEN weeks. If your recycling cart has a blue lid, your recycling will be collected on the BLUE weeks.

**RECYCLING IS MANDATORY IN SALEM!**

#### HOLIDAYS

When a holiday occurs during the week, collection services will be delayed one day following that holiday. Sign up for notifications on Code Red, which you will find on the main page of Salem.com.

#### BULK ITEMS, WHITE GOOD, MATTRESSES & MORE

Please call the City's contractor Waste Management, at **(800) 972-4545**. Follow the prompts for "existing residential customer". Customer Service can assist with the following:

- Schedule pickup of an item that doesn't fit in your cart. *(limit of 2 items per household per recycle week)*
- If your cart needs repairs
- If your cart (trash or recycling) was not picked up on your scheduled day

#### YARD WASTE - Curbside Pickup

Curbside pickup weeks of April 18, June 20, September 19, October 17, November 28, December 11.

Yard waste must be in paper bags or trash barrels. Do NOT place yard waste in carts.

**Christmas Tree Pickup:** 🌲 Weeks of December 26, January 2, & January 9

#### YARD WASTE - Salem Transfer Station

Located at 12 Swampscott Rd. The transfer station is open seasonally on Saturdays 7 a.m. to 3 p.m. and Sundays 9 a.m. to 5 p.m. Residents or property owners (with license and/or tax bill) may drop off acceptable yard waste during these times.

#### EXCESS TRASH (For Household Trash ONLY)

Salem residents may purchase Orange overflow Bags at \$12.50 per roll of 5 at Crosby's, Ace Hardware, DPS, and the Collectors Office. These bags may be placed on top of or beside your cart.

#### DROPOFF DATES

- **E-Waste:** Will be on four Saturdays at Salem HS from 8am-12pm. March 26, June 25, September 24, & December 17
- **2022 Household Hazardous Waste Day:** visit salem.com/health for more information.

#### FOR MORE INFORMATION

**Website:** Salem.com/RecyclingandTrash  
GreenSalem.com

**Call:** **Waste Management at 800-972-4545**  
To schedule a bulk item pick up, a cart repair, or to report a missed trash/recycling pick up  
**or Engineering Dept. at 978-619-5672**

## SALEM AND BEVERLY STYROFOAM RECYCLING EVENT

Community Life Center  
401 Bridge Street, Salem

JANUARY 8, 2022  
9 AM - 1 PM

FREE EVENT!  
OPEN TO RESIDENTS OF  
SALEM AND BEVERLY

Hold on to your Styrofoam after the holidays! While Styrofoam cannot be recycled curbside, Save That Stuff will be collecting it at this drop-off event. Styrofoam will be densified at their recycling facility and delivered to secondary markets for recycling.

**PLEASE ONLY BRING RIGID, WHITE EXPANDED POLYSTYRENE (STYROFOAM).  
SORRY, NO PACKAGING PEANUTS OR FOOD SERVICE CONTAINERS SUCH AS  
MEAT TRAYS, CLAMSHELLS OR STYROFOAM CUPS CAN BE ACCEPTED.**

**FYI SALEM**

## Bike Friendly Salem

The League of American Bicyclists honored the efforts of the City of Salem to build better places for people to bike with its bronze-level Bicycle Friendly Community (BFC) award. Salem joins 497 communities across the country, and 14 others in Massachusetts, in the movement for safer streets and better bicycling for everyone.

The League of American Bicyclists' Bicycle Friendly America program sets the standard for how communities build and benchmark progress toward making biking better. This round of awards includes 57 new and renewing awardees, joining a total of 497 current Bicycle Friendly Communities in all 50 states and the District of Columbia. The bronze BFC award recognizes Salem's commitment to improving conditions for people who bike through investments in bike education programs, regular bike events that promote and encourage people to choose biking, pro-bike policies, and bike infrastructure. The City established its Bicycling Advisory Committee in 2006 and completed Bike Master Plans in 2010 and 2018 to guide the development of infrastructure, programs, and policies to support bicycling within the community.

"I'm proud that Salem is making bicycling a safe, convenient, and enjoyable travel option to help reduce vehicle traffic and congestion, strengthen public health, and improve our environment by reducing emissions and lessening our local contribution to the climate crisis," said Mayor Kim Driscoll. "I want to thank the Bicycling Advisory Committee, the City's Traffic & Parking and Planning departments staff, and former transportation intern Noah Gordon, for all of their work to prepare the application for this award, and their ongoing efforts to make Salem more bike-friendly. This designation is a recognition of our City's work to become a 'car choice' community, where driving is just one option for residents, employees, students, and visitors to get to their destination."

Several recent projects expand the reach and connectivity of the off-street path network through Salem's neighborhoods. These include the Harbor Connector Path between Collins Cove and Derby Street, the Mayor Anthony Salvo Multiuse Path between downtown and South Salem (and, soon, all the way to Marblehead), and the new Bridge Street path connecting the Mayor Jean Levesque Community Life Center and surrounding neighborhood to downtown via the Leslie's Retreat Park path. These paths are open to not only cyclists, but also pedestrians, joggers, in-line skaters, and people using wheelchairs and mobility scooters.

Salem has had a bike share program for the past ten years, launching "Salem Spins" in 2011 and contracting in 2017 with bike share operator Zagster. This July, Salem joined Bluebikes, Metro Boston's regional bike share program, and plans to deploy several more Bluebikes stations throughout the city over the coming months. Salem's expansion of biking infrastructure supports the community's goals to reduce carbon emissions and increase climate resiliency.

Furthermore, the City is undertaking projects to make its path network resilient. In partnership with Salem Sound Coastwatch, the City recently built a living shoreline at Collins Cove to protect the Peter Tracy Path and surrounding homes from coastal storm surge and wave action. The Commonwealth's Executive Office of Energy & Environmental Affairs recently awarded a Municipal Vulnerability Preparedness grant for the Cities of Salem and Peabody to evaluate climate adaptation strategies to incorporate into a planned multiuse path within the Harmony Grove Road area of the North River corridor.

FYI SALEM

# Pioneer Village

The City of Salem has launched the website for the proposed Pioneer Village signature park project, being undertaken in the lead up to the City's quadricentennial in 2026. The proposed project would relocate Pioneer Village from its current location at Forest River Park to the current Camp Naumkeag site. The website can be found at [www.salem.com/pioneervillage](http://www.salem.com/pioneervillage). The site has extensive information about the proposed project, including presentations, an FAQ, timeline, updates, and more. As additional information and plans are developed for the project they will be added to the site, which also includes a link for those who would like to ask questions about the project.

The new site for Pioneer Village will help protect the historic amenity from climate change and will incorporate resiliency elements itself. In addition, the new location provides the opportunity to expand the area and topics of historical interpretation, while also allowing for upgrades for accessibility. The new Pioneer Village will incorporate additional representation and educational opportunities specific to the area's indigenous history and the Massachusetts tribe. The history of both Camp Naumkeag and Pioneer Village itself will also be represented and interpreted. The new Pioneer Village site will additionally provide an opportunity for linking to the historic Fort Lee site, allowing for additional interpretative and preservation opportunities.

"I would like to thank the many historians, preservationists, landscape architects, engineers, and community stakeholders who have been helping to advise and guide the City on the development of this momentous project," said Mayor Kim Driscoll. "Of all our signature park projects, the Pioneer Village effort most clearly reflects our Salem 400 goals by preserving and improving a treasured public space for future generations, while also elevating the indigenous history of Salem, investing in sustainability and resiliency, and improving accessibility. I invite all Salem residents to explore the new website, get involved in this landmark initiative, and, ultimately, join us in 2026 when we celebrate its completion."

# Terracycle Bins

The City of Salem is excited to partner with TerraCycle to offer permanent collection bins to recycle items that would otherwise be thrown in the trash: used, dried Swiffer pads; all brands of reusable and disposable razors, blades, and cartridges, as well as any flexible or rigid plastic packaging they come in; all brands of toothbrushes, toothpaste tubes, mouthwash bottles, floss containers and soap and toothbrush packaging; all brands of deodorant containers and caps;

all brands of empty writing instruments, glue sticks, watercolor dispensers, paint sets, and the flexible or rigid plastic packaging these items come in. Bins are located on the first floor of City Hall Annex, 98 Washington St. Make sure all items are empty (no toothpaste or deodorant residue inside) and dry. Visit <https://www.greensalem.com/programs/terracycle-recycling/> for more information and to view the five streams; keep each stream separate.

"Salem has long been a leader in recycling efforts, helping reduce the amount of trash our community generates" said Mayor Kim Driscoll. "Not only is this better for our environment, it also reduces costs to our community since it is so much more expensive to dispose of trash instead of recycling. I encourage all Salem residents to bring any of these recyclable items to City Hall Annex and place them into the appropriate bins for recycling."

**FYI SALEM**

## Sculpture Path

On November 29<sup>th</sup>, eight new sculptures were installed along the Salem Harbor Connector Path for the 2<sup>nd</sup> Annual Salem Harbor Connector Path Sculpture Garden.

Funded in part through a MassTrails grant, the Harbor Connector Path itself extends Salem's multiuse trail network from the Peter Tracy Walkway at Collins Cove to the Bentley School and Derby Street.

The first sculpture garden along the path opened December 1, 2020, as part of a celebration for the path's completion the previous summer. It was the first long-term public display of contemporary sculptures in the city in recent history. The eight new sculptures replace the seven currently on display.

There is no charge to enjoy the sculpture garden and path. The new sculptures will be on view now through November 30, 2022.

"This exciting project is a continuation of our work to advance the vision of Salem's Public Art Master Plan," said Mayor Driscoll. "I want to thank the Public Art Commission and City staff for their efforts to make this new sculpture garden a reality. The Harbor Connector Path Sculpture Garden continues to serve as an uplifting and engaging focal point in our community's growing trail network and our collection of thoughtful, enriching public art."

Artists with work on display in the new Sculpture Garden are Eve Lee Schauer, Nancy Schon, Melanie Zibit, Madeleine Lord, Will Smith Cabrera, Karin Stanley, Cassie Doyon (a Salem State University alum), and Robert Osborne. Information about these artists and their work is available at [www.salem.com/public-art-commission](http://www.salem.com/public-art-commission) or by using a smartphone to scan the QR codes on the signs that accompanying the works along the path.

In addition to these eight new sculptures on temporary loan, the City is currently looking to purchase the much beloved piece from the first Sculpture Garden entitled 'Seahorse', by artist Jose Criollo, to become part of the City's permanent public art collection. This piece, which was previously featured on the cover of Salem Magazine, is comprised of recycled metals from chairs, tools, auto parts, pots, pans, and more.

Those interested can support the purchase of this sculpture by visiting [Patronicity.com/SeahorseForSalem](http://Patronicity.com/SeahorseForSalem) and donating. The City has already secured \$6,000 of the \$12,500 needed to ensure this delightful work of art can stay right in here Salem.

FYI SALEM

## Free Rapid Tests

The City of Salem has an allocation of iHealth Labs COVID-19 rapid antigen test kits, with two tests in each kit. Those receiving a kit are encouraged to take one of the tests before they gather or see friends and family during the holidays, and then take the second test before returning to work or gathering with others after the holidays.

“Over 215,000 PCR tests have been administered to Salem residents since the start of this pandemic,” said Mayor Kim Driscoll. “However, having the flexibility and quick feedback from a rapid test will make it easier for residents to gather safely over the holidays, especially with the omicron variant imminent. I want to strongly encourage all eligible residents to get tested, to avail themselves of these free rapid tests if applicable, and to consider purchasing some rapid tests to have at home if they are not able to use these free tests. Lastly, we intend to make our own acquisition of a large quantity of additional rapid tests in the next few weeks, so this is just the first round of what will, I hope, be a continuing effort to provide free, rapid tests to as many Salem households as possible. Salem has been a leader in responding to COVID-19, from innovative testing to public health measures and from vaccination programs to volunteer, housing, food, and small business support efforts. This rapid testing initiative will be a continuation of that pro-active, evidence-based, public health-focused record.”

After being notified earlier in the week about the forthcoming delivery of kits, the City developed a plan to distribute them in a manner that prioritizes high risk and disproportionately impacted populations. After surveying demand from agencies that serve these populations and larger housing sites, the following distributions are taking place this week:

- To the Salem Public Schools and Salem Academy Charter School for distribution to students and/or staff.
- To the Salem Pantry to distribute to residents visiting the pantry sites over the next two weeks.
- To large multi-family housing sites, including Salem Heights, Loring Towers, Salem Housing Authority, and North Shore Community Development Coalition properties, for tenants. Tenants will be contacted by the property manager or landlord with additional details about how to receive their test kit. Please do not contact the City.
- To early childcare workers who interact regularly with children age 0-4, who cannot yet be vaccinated.
- To Lifebridge, for the day center and in their supportive housing sites, and the Salem YMCA for childcare staff.

The City will distribute the remaining test kits to any Salem resident who needs one. **Test kits will be distributed by Health Department staff on Monday Dec. 20, Tuesday Dec. 21, and Wednesday Dec. 22 at City Hall Annex, 98 Washington St., from 9am-noon and then from the Community Life Center, 401 Bridge St., from 1-3pm.**

Only **one kit** will be distributed to each household. **Proof of Salem residency** is required to receive a free test kit. No proof of citizenship or insurance is necessary. Distribution of kits to the general public is subject to availability. In the event additional test kits remain after this general distribution, the City may schedule a second distribution day and, potentially, allow households to pick up a second test kit. In that event, another announcement will be made.

Informational fliers in multiple languages with instructions about how to use these tests are at <https://www.mass.gov/lists/covid-19-self-test-at-home-instructions-graphic>. If an individual takes one of these tests and the result is positive, please see <https://www.mass.gov/info-details/what-to-do-if-you-have-or-have-been-exposed-to-covid-19> for further information about what steps to take. This testing opportunity is in addition to the existing free PCR testing options located at sites across Salem. For more information about COVID-19 testing in Salem and the options available to residents, visit [www.salem.com/testing](http://www.salem.com/testing).

## From the Mayor's Desk

Dear Salem resident,

Winter is most definitely here and with it comes the snow and ice. I want to thank the hard working members of the Department of Public Services and our DPS snow contractors, who have all put in extraordinary efforts over the past few weeks.

The most recent blizzard was especially challenging, bringing us close to a record amount of snow in a single storm.

We were able to re-use some of the strategies and approaches to snow removal that we, unfortunately, had already developed after the "snowmageddon" winter of 2015, but, despite that, being down 80% of our usual complement of team and equip-

ment, due to both COVID and the overall national labor shortage made it slow going.

Thanks for your patience and for your cooperation shoveling out your own sidewalks, crosswalk entries, and fire hydrants and catch basins near your home or business.

We have lots of information about snow storms in Salem—from rules regarding snow removal, to alternative parking locations when there is an on-street parking ban, and much more—all at [www.salem.com/](http://www.salem.com/) snow. In addition, you should be sure to subscribe to CodeRED, News & Announcements, and Urgent Alerts, all at [www.salem.com/subscribe](http://www.salem.com/subscribe). Download the My Salem MA app for your mobile device and enable push notifications. And, lastly, look for and follow the City of Salem MA on social media. We use all of these outlets to help share critical information about snow storms in our community. Be sure you're in the loop with the latest information and alerts!

In this issue of FYI Salem you'll find two articles about exciting public art initiatives underway

now—some at Old Town Hall and others along Artists Row.

We also have provided information about an upcoming presentation from FEMA about the impacts of sea level rise on our region's coast. The presentation dovetails with the recent Wetlands Protection Ordinance we filed with the City Council, which will strengthen the buffers around critical areas in our community and authorize our Conservation Commission to expressly weigh the impacts of climate change in evaluating proposed projects. If adopted, Salem would be the fourth municipality to have such a rule in place in the entire Commonwealth.

Also inside this issue of the newsletter you'll find details about how to apply for the annual Salem Scholarship Fund scholarship, if you're a student entering college next year, and how to apply for the Employee Incentive Program to support frontline workers.

Thank you, as always, for taking the time to read FYI Salem and be sure to visit [www.salem.com](http://www.salem.com) for all the latest news from your City!

Kim Driscoll  
Mayor

**FYI SALEM**

# Revitalizing Old Town Hall

The City of Salem has announced three new exciting partnership and opportunities for community members, artists, and visitors alike to engage with arts and cultural programming in Old Town Hall, a City-owned historic property in the heart of downtown, located at 32 Derby Square in Salem. There is even an opportunity to help shape the future of this remarkable public building.

In partnership with [CultureHouse](#), a nonprofit organization dedicated to improving livability in local communities by transforming unused spaces into vibrant social infrastructure, the City announced today the development of **CultureHouse Salem**—a pop-up arts and culture space at Salem's Old Town Hall.

## “Spectral Evidence” by Nancy Bowen

Nancy Bowen will be showcasing her installation “Spectral Evidence” on the first floor of Old Town Hall from February 10, 2022, to March 19, 2022. This exhibition is inspired by the true story of Colonial American judgement and repentance. Bowen creates a visual interpretation of guilt and remorse through her installation and seeks inspiration through her ancestor, Samuel Sewall, a judge in the Salem Witch Trials. Described as “humorously odd and gravely unsettling,” experience “Spectral Evidence” FREE of charge between 2:00 p.m. and 6:00 p.m. on Thursdays and Fridays and between 12:00 p.m. and 4:00 pm on Saturdays and Sundays. Bowen will offer artist talks at 3:00 p.m. on February 12<sup>th</sup>, March 5<sup>th</sup>, and March 19<sup>th</sup>, where she will discuss her inspiration in more detail and answer questions.

## Infuse Dance

From February to June, Infuse Dance will take place on the fourth Saturday every month from 10:00 a.m. to 3:00 p.m., offering anyone the opportunity to engage in a wide variety of FREE dance classes. With classes on the hour, every hour, there will be something for everyone, with offerings for dancers at every level of skill, including classes in contemporary, jazz, ballet, hip hop, afro-based styles, and more. A detailed schedule will be released once all instructors are confirmed, stay tuned for more [www.salem.com/old-town-hall/pages/calendar-events](http://www.salem.com/old-town-hall/pages/calendar-events). Infuse Dance is seeking dance instructors in all genres to teach, for pay, a one-hour class at Old Town Hall on the fourth Saturday of every month from February through June. See below for more details.

### Community Feedback for CultureHouse Salem

Visit [culturehouse.cc/salem](http://culturehouse.cc/salem) to provide your thoughts through our the community survey and register for the upcoming virtual community meeting on Thursday, February 17<sup>th</sup> 6:30-8pm.

### Gallery Sitters for “Spectral Evidence” by Nancy Bowen

Volunteers sought to open and close the gallery at Old Town Hall and help provide general information about the exhibition to the public. Interested volunteers should email [ctitchenell@salem.com](mailto:ctitchenell@salem.com) for more information.

### Infuse Dance Teaching Opportunities

Infuse Dance, in partnership with the City of Salem, is seeking dance teachers of all genres, with at least two years’ experience teaching adults, to serve as instructors for this exciting new series. Teachers will be compensated for their time. Instructor Applications and more details can be found at <https://infusesalem.com>. Applications are due by Tuesday, February 22, 2022 at 11:59 p.m.

**FYI SALEM**

## FEMA Presentation

In 2016, FEMA received a recommendation from its Technical Mapping Advisory Council to display flood risks in coastal areas that include future effects of long-term erosion and sea level rise. Because coastal erosion is a hazard that threatens lives, property, and resources in Essex County, MA, FEMA Region I has elected to initiate a coastal erosion hazard area study for Essex County. To help identify the risk to communities, FEMA has created coastal erosion hazard maps displaying projected hazards for 2030, 2050, and 2100, incorporating projected sea level rise.

These maps are nonregulatory products to be used by the community for planning and hazard mitigation purposes. FEMA Region I has shared the results of this study with the community officials within the county and would now like to share those same results with members of the community at large. We will host an evening virtual meeting that will provide an overview of the study's methodology and present the [nonregulatory coastal erosion data viewer](#). There will be time at the end for community members to ask questions

Date: February 16, 2022. Time: 6:30 p.m.–8:00 p.m. Location: [Virtual](#). Registration is required, find the link at [www.salem.com/news](http://www.salem.com/news).

## Scholarship Applications

The City of Salem's Scholarship and Education Committee has released the scholarship application form for Salem residents who are students graduating from Salem High School, Salem Academy Charter School, or other high schools, and entering college or university in the fall. The one-page application form is available now at [www.salem.com/scholarship](http://www.salem.com/scholarship). The application can be submitted either in hard copy or electronically through the website. Either way, complete application packets are due by May 31, 2022.

"In Salem education is a community mission," said Mayor Kim Driscoll, who appoints the members of the Scholarship and Education Committee. "Scholarship Fund awards are entirely funded by generous donations from Salem residents, businesses, and other members of our community. I encourage all who can to donate to support these scholarships and, for our eligible students, to apply for this year's round of scholarship awards before the May 31<sup>st</sup> deadline."

In June of 1987, Salem Mayor Tony Salvo and Superintendent of Schools Hank O'Donnell advanced a proposal to adopt Chapter 194 of the Acts of 1986, a measure that enabled cities and towns to set up a scholarship account for graduating seniors, funded through voluntary donations made by local residents on their tax bills. The City of Salem's Scholarship and Education Committee oversees both the Scholarship Fund, to provide educational financial aid to deserving city residents and the Education Fund, to provide supplemental educational funding for local educational needs or to provide funding for existing adult literacy programs. If you would like to donate to either the Scholarship Fund or the Education Fund, use the donate button at [www.salem.com/scholarship](http://www.salem.com/scholarship).

FYI SALEM

## Worker Incentive Program

The City of Salem has launched a new round of its Employee Incentive Program, this time focusing on supporting hiring and retaining front-line workers in those businesses covered by the Board of Health's December 22, 2021, order requiring proof of vaccination for public entry.

The program will provide \$500 per qualifying employee. Qualifying employees must be in an eligible type of work for a business subject to the proof of vaccination order. They must be on the payroll of the business any time between January 15, 2022, and February 4, 2022, and must remain employed at the business for at least six consecutive weeks working at least 30 total hours over the course of the six weeks.

For a list of eligible types of work and covered categories of business, additional program requirements, and the link to apply, please visit [www.salem.com/incentive](http://www.salem.com/incentive). **Applications must be submitted before noon on Monday, February 7, 2022.**

"I encourage every eligible business to apply for this financial support program for their qualifying employees," said Mayor Kim Driscoll. "We are all working hard to keep our community safe and our small businesses open and strong. As a City, we have stepped up for our small businesses throughout this pandemic, provisioning large quantities of free protective equipment, free rapid tests for frontline workers, direct financial help, technical assistance with everything from air handling equipment to navigating federal relief programs. While we have had a net gain in businesses over the course of the pandemic, that doesn't mean it has been easy for those who have held on. We all want Salem's vibrant small businesses to stay safe, open, and strong, and the employee incentive program is one more tool at our disposal to help make that happen."

## New Precinct Lines

The Commonwealth has approved the City of Salem's recent reprecincting, which is the redrawing and adjustment of ward and precinct boundaries following the U.S. Census every ten years.

You can find a link to the approved new map at <https://www.salem.com/city-clerk-elections/files/2022-approved-salems-ward-precinct-map>.

If your address is one that changed from one ward or precinct to another you will receive a mailed notification in the coming weeks. If you do not receive any such notification then your ward and precinct remain unchanged. If you have any questions, please contact the City Clerk's office at (978) 619-5617.

# Call for Creatives

The City of Salem is pleased to announce a call for creatives for the Public Artist in Residence Program for 2022, 2023, and 2024 and openings for creatives to occupy the stalls on Artists' Row for the 2023-2024 tenancy.

Mayor Kim Driscoll and the Salem Public Art Commission seek creatives to take part in the City of Salem's revitalized Artists' Row Public Artist in Residence initiative and stalls. Artists' Row consists of four artists' stalls, a restaurant, and a public restroom and is centrally located in historic downtown Salem at 24 New Derby St., across from Old Town Hall and Derby Square. This area, at the heart of the City, was originally built as a marketplace and continues to be a thriving public plaza and pedestrian way.

The City of Salem respects, values, and celebrates the diverse life experiences and unique heritages, attributes, characteristics, and perspectives that make each person who they are. We believe that bringing diverse individuals together through the Arts allows us to collectively and more effectively address the issues that face our communities and aim to help fund and uplift the local arts community, especially with the direct impact that COVID-19 has placed upon the arts community.

"I strongly encourage and welcome applications to this new round of the Public Artist in Residence program and the upcoming season at Artists' Row," said Mayor Kim Driscoll. "Public art creates vibrant and thriving communities, enlivens our city, and brings people together. I'm grateful to the City staff and volunteers on the Public Art Commission who continue to support these initiatives and make them possible."

The Artists' Row initiative is a seasonal program that provides space for artists and artisans looking to build their audience and/or arts practice through daily engagement with residents and visitors to Salem. Participation in the Artists' Row program is envisioned as a springboard opportunity for creatives wherever they are in their career that can help take them to the next stage/level in their unique professional development journey. It is very much a shared space for artists and visitors alike, where creativity happens, and unique arts-related goods and activities can be experienced in an animated public place.

The City of Salem is currently looking to fill one (1) paid position per year for 2022, 2023, and 2024 for the Public Artists in Residence. There are three (3) positions available in total, one each year, and each residency lasts for a term of 8 months.

Additionally, the City is seeking applicants for each of the three (3) available market 'stalls', which can be used as makers space with a retail opportunity for artists and creatives. Stall will be contracted for a two-year tenancy, starting in January 2023.

The City is interested in uses that will contribute to the vibrancy of the Artists' Row community and this important gateway to Salem's bustling downtown. The variety of activities/uses considered for Artists' Row spaces include, but are not limited to, original uniquely produced or handcrafted artworks and products, performances, art 'happenings', art 'interventions', art making, and temporary public art installations.

To view the full Call for Artists text and to apply to the program please visit: <https://bit.ly/Apply2ArtistsRow>.

Dear Salem resident,

February 27th marks the 178th anniversary of Dominican Independence and I invite all Salem residents to join with their City in marking this special day. Please join us at Lafayette Park on Friday, February 25, 2022 at 4pm, for the annual raising of the flag of the Dominican Republic (weather permitting).

Close to one in ten Salem residents are of Dominican heritage and our Dominican community has contributed greatly to the economic and cultural foundation of our city.

Generations of Dominican immigrants and their families adding to the fabric of Salem in a myriad of ways – as teachers, small business owners and entrepreneurs, civic

and faith leaders, volunteers, neighborhood advocates, laborers, front line workers, nurses and doctors, police officers and firefighters, artists and creatives, and so much more.

Dominican Independence Day is an occasion to celebrate the history, legacy, and enduring positive impacts of our Dominican residents. We encourage all Salem residents to join us in commemorating this day and declaring Feliz Día de la Independencia Dominicana!

As we approach the end of February, I'm also pleased to share that the number of COVID cases continues to decline, as the number of vaccinations is increasing. Despite this trend, however, we are not ending our vigilance when it comes to this deadly virus. 117 Salem residents have died from COVID since this pandemic started. One in four residents have become sick from it.

While rates are improving, we know—and just witnessed— how quickly a variant surge can develop and overwhelm our local healthcare system.

We will continue our wastewater surveillance testing program and

our efforts to distribute free rapid at-home tests for residents and, through our schools, for students. Because our school vaccination rates are so low still, the School Committee has kept the mask requirement in place in our school buildings. And our Board of Health, who has worked diligently and professionally throughout the pandemic, will continue to monitor key daily and weekly metrics to judge what actions are necessary to protect the public health of Salem residents.

The single best way you can protect yourself, your loved ones, and your neighbors, is by getting vaccinated. And, if you are vaccinated, get booster. The COVID vaccines are safe, effective, and readily available for free. Visit [www.salem.com/vaccine](http://www.salem.com/vaccine) to find out more and find a site to get your protective vaccination today.

Thank you, as always, for taking the time to read the FYI Salem newsletter. You can subscribe to get the updates in this newsletter directly by email by signing up for City News & Announcements at [www.salem.com/subscribe](http://www.salem.com/subscribe).

Kim Driscoll  
Mayor  
Salem

**FYI SALEM**

## No Place for Hate

Over the past several weeks members of the Salem Board of Health and Health Department staff with names perceived to indicate that they are Jewish have been directly targeted by hateful, antisemitic messages and threats online, by email, and over voicemails.

These actions are unacceptable, repugnant, and worthy of condemnation by everyone, regardless of your perspective on the COVID mitigation measures enacted and modified by the Board of Health to help protect public health.

As community leaders in Salem, we stand united to express our unequivocal rejection of these antisemitic attacks, our condemnation of attempted intimidation – especially when it so clearly focuses on targeting an individual based on their race, ethnicity, or religion – and our solidarity with our neighbors who volunteer and serve our community thoughtfully, diligently, and objectively on our Board of Health and the staff in our Health Department who support them in that work. We reject and condemn vile, racist, antisemitic, and regressive attacks – whether online or in person. We support those who volunteer for public service, despite these atrocious and utterly unacceptable actions and messages. And we urge every member of our community to join us in asserting with absolute clarity that Salem is no place for hate.

Read the full list of signatories and, if you wish, add your name to the community statement, at [www.salem.com/home/news/salem-no-place-hate](http://www.salem.com/home/news/salem-no-place-hate).

## Repair Café

Don't throw away your broken item – bring it to the Repair Café! SalemRecycles will be hosting a Repair Café on Saturday March 12<sup>th</sup> from 9am-12 noon at the Community Life Center at 401 Bridge Street. Appointments are required and walk ins will not be accepted. Schedule an appointment by contacting Micaela Guglielmi at [mguglielmi@salem.com](mailto:mguglielmi@salem.com) or 978-619-5672. Volunteers will be available to mend clothing, sew buttons, sharpen scissors and knives, tinker with or rewire electronics and lamps, computer diagnostics, glue wooden furniture and ceramics, and more. These services may change as we confirm volunteers.

## School Facilities Survey

Should Salem shift from school choice to a neighborhood schools assignment policy? As we look to the future, should a combined Junior / Senior (Grade 7-12) High School campus be something we consider? With enrollment declining and excess capacity, should we consider consolidating our elementary schools? Should Saltonstall remain a K-8 school or become a more traditional elementary school? Should we shift to a K-8 model throughout the entire district? Should Salem have one consolidated Early Childhood Center for our Preschool and PK students or should we offer PK at each elementary school? These are just some of the scenarios and options currently under consideration. Now is the time to weigh in so that we can make the best decisions moving forward. This plan will impact our schools within the next several years and beyond. We need your input! Please take our school facility master planning community survey at <https://forms.gle/3XKD6Cqfck1B27to9>.

**FYI SALEM**

# Online Bill Pay Warning

The City of Salem has been made aware of a website that appears to represent itself as the portal for paying City bills online.

The only officially authorized online bill payment portal for the City of Salem can be accessed at [www.salem.com/paybills](http://www.salem.com/paybills).

Third party websites not authorized by the City may charge you additional fees and/or collect personal data about you. Use of these third-party systems is done at your own risk.

The City strongly advises against using third-party or unofficial payment systems for paying City bills. If you have any questions about paying City bills online, please contact the Salem Collector's Office at 978-619-5621.

# Diversity Catalog

The Cities of Salem, Beverly, Peabody, and Lynn, and the Towns of Swampscott and Marblehead have published the second annual North Shore Diversity Catalog, a regional vendor registry for minority- and women-owned businesses (MWBE).

Originally published in May 2021 with 138 participating businesses, participation nearly doubled this year, with 249 businesses participating in the 2022 Catalog.

The Diversity Catalog assists municipalities in improving equity and diversity in municipal contracts and bids and provides residents and other businesses with a single, comprehensive catalog of such businesses that they can support.

View the 2022 North Shore Diversity Catalog at [www.salem.com/diversitycatalog](http://www.salem.com/diversitycatalog).

"I am very excited to continue this effort and share the 2022 North Shore Diversity Catalog," said Salem Mayor Kim Driscoll. "This directory is not only a mechanism for regional municipalities as they strive to diversify their procurement efforts, it is also a marketing tool for our local businesses and a resource for those who wish to support our diverse small business community."

**Salem Park, Recreation and Community Services**  
March 2022

**Welcome to Opening Day! - Thursday, March 31st 1:00-5:30pm**

Salem Council on Aging Red Sox Fans are welcome to join us as we root on the Boston Red Sox during their home opener with the Tampa Bay Rays.

The cost is \$5.00 per person and will include grilled Fenway Franks, potato salad, popcorn, cracker jacks, and (2) drink tickets good for beer, wine or soda.

Opening pitch is at 2:10pm and we will be watching the game on the big screen in the Great Room.

During the game we will have table games, lawn games and cards set up for your enjoyment.

Registration is required for this event. Please contact Rosanna at 978-744-0924 to register.

**Muscle & Strength-HITT**

Join local fitness instructor, **Beth Schultz** for this weekly class which will help increase your muscle strength, coordination and endurance. This class will offer equal parts cardio and strength training.

**Ages: 18+**  
**Date: Mondays, March 7th—April 4th 5:00-6:00pm**  
**Cost: \$45.00 for the 5 week session or \$10.00 per night. Register at salemrec.com.**

A huge thank you to all who created these special valentines for Salem veterans.

We had a great time at our Valentine's Sweets and Fun at the House of the Seven Gables during Salem So Sweet. We collaborated on an outdoor scavenger hunt on the Gables grounds for families to participate in.

**Peaceful Pretzels**

We are thrilled to offer another session of Peaceful Pretzels. Kids, ages 5-11, can join Kristen Homan for this class that will blend yoga, movement, activities to help little ones learn skills to manage their big emotions.

Thursdays, March 3rd—March 24th 4:15-5:15pm  
\$55.00 for the 4 week program.  
Register at salemrec.com.

**Garden Craft Club**

Get ready for spring with the Garden Crafts Club. Youth ages 10-15 can create their own herb planters, garden decorations and even an indoor terrarium!

Mondays, March 7th—21st  
4:30-5:30pm  
\$15.00 per person, includes all supplies  
Register at salemrec.com.

**Wellness Lecture Series by Donna Clifford**

Join Donna Clifford as we discover the joy of being fulling alive. Donna brings over 40 years of clinical nursing and holistic practices to each presentation. All presentations begin at 4:00pm. Cost is \$20.00 per class/\$10.00 for seniors

Monday, March 7th—**Gut Health, the Key to a Healthy Body and Mind**  
Monday, March 14th—**May Your Dreams Come True, Realizing Our Purpose Through Food**  
Monday, March 21st—**Happy Sleep, How to Get a Good Night's Sleep and Wake**

To register for a lecture, please contact Rosanna at 978 -744-0924.

**Art Class is Back!**

The Salem Council on Aging is thrilled to have our Thursday art class return. This class is funded by the City of Salem Department of Planning and Community Development and the U.S. Department of Housing and Urban Development.

March class dates are:  
Thursday, March 10th 4:00-6:00pm and  
Thursday, March 31st 4:00-6:00pm  
Contact Rosanna at 978-744-0924 to register.

**Salem Wellness Walks**

Lace up your walking shoes and join us at the Salem Common for Salem Wellness Walks! Our special guest this month is Sen. Joan Lovely.

Wednesday, March 9th 9:00-10:00am  
This event is co-sponsored by the Salem Council on Aging and the Salem Board of Health.

**St. Patrick's Day Luncheon**

The Salem Council on Aging will be hosting our annual St. Patrick's Day Luncheon complete with live music and dancing.

Thursday, March 17th 10:30am  
\$10.00 per person  
Contact Rosanna at 978 744-0924 to register.

**PAGE 1**

Dear Salem resident,

Just weeks ago, the world witnessed an unprovoked and repugnant act of aggression by the Russian government towards the free and sovereign nation of Ukraine.

Nations, communities, and individuals across the globe have rightly condemned this illegal war and Salem is proud to join with them in doing the same.

We are heartbroken by the violence being visited upon the people of Ukraine and we denounce it loudly and firmly. The people of Salem stand with our friends in Ukraine, and we hold them in our hearts as their nation suffers this atrocious invasion.

To our Ukrainian neighbors here in Salem and throughout Massachusetts, we extend a supporting hand of friendship and of solidarity in these troubled times.

This past weekend hundreds of Salem residents turned out for a vigil at St. John the Baptist Ukrainian Catholic church here in Salem. They joined with members of the congregation is expressing their shared hope for peace and for compassion for those who are suffering during this senseless war.

If you would like to make a financial donation to support Ukrainian relief efforts, you can do so online through the United Ukrainian American Relief Committee: [www.uuarc.org](http://www.uuarc.org).

We can also take this moment to recommit ourselves to being a community, a commonwealth, a country – and, yes, a planet – that places a true value on the rights of every person, and on the preservation of democracy and pluralism at home and abroad. Because when democracy is crushed beneath the boot of authoritarianism, human rights are

crushed as well.

As a city, Salem has our own unignorable history with the dangers that follow when a society discards, diminishes, and devalues those perceived to be “other.” But we’ve changed and grown from that past, using the lessons and legacy of 1692 to inform and inspire us to a better present – and to a more hopeful future, one where the rule of law and equal justice prevail, where every culture and race and belief system are respected – not persecuted, and where the life of every person is valued.

We can each be a leader in achieving that future, in every interaction with one another, in how we teach and raise the next generation, and in how we treat those among us who are suffering, excluded, or oppressed.

Thank you, as always, for taking the time to read the FYI Salem newsletter.

# Change to COVID Testing

The Commonwealth of Massachusetts will close the two "Stop the Spread" PCR COVID-19 testing sites in Salem – at St. Peter's Church and at Salem High School – on March 31, 2022. March 31<sup>st</sup> will be the last day of testing at both sites.

The Curative testing site, located in Riley Plaza, will remain through at least June 30, 2022. Free walk-up PCR testing is available to all residents at this location Mondays-Saturdays from 8:30 a.m. to 4:00 p.m. You must pre-register for an appointment time and may do so at <https://curative.com/sites/33988>.

The City of Salem is providing an additional distribution of free rapid antigen COVID-19 tests for at-home use. Any Salem resident or individual who works in Salem is eligible to pick up three boxes of tests (two tests per box) from the Health Department offices, 98 Washington Street 3<sup>rd</sup> floor, Mondays-Wednesdays 8:00 a.m. to 4:00 p.m. and Thursdays 8:00 a.m. to 7:00 p.m. between March 7<sup>th</sup> and the end of March, or as long as supplies last.

Lastly, the City of Salem – in partnership with the Massachusetts Department of Public Health, Biobot, and the South Essex Sewerage District – continues to conduct surveillance testing for COVID-19 in the community's wastewater. Testing is conducted every other day and the resulting data are published at [www.salem.com/covid](http://www.salem.com/covid).

# Repair Café

# Call for Creatives

The City of Salem is excited to announce two new calls for artists and performers!

**CultureHouse Salem** – CultureHouse Salem seeks North Shore based performers, artist, creatives, non-profit organizations, and businesses to participate in collaborative programming for the months of April, May and June 2022 at our pop-up community space hosted at Old Town Hall. Slight preference will be given to Salem-based entities. CultureHouse is partnering with the city to conduct an in depth community impact study around the activation of Old Town Hall as a year around Art & Culture destination to enliven and invigorate this historic community icon through direct support to local creatives by show casing their works. Submit your proposal/idea ([https://www.salem.com/sites/g/files/vyhliif3756/f/uploads/culturehouse\\_salem\\_call\\_for\\_artists\\_and\\_collaborators.pdf](https://www.salem.com/sites/g/files/vyhliif3756/f/uploads/culturehouse_salem_call_for_artists_and_collaborators.pdf)) for how you could see your creative works as part of this exciting program and help inform the future of Old Town Hall. Applications will be accepted and reviewed throughout the 3 month program. Artists' stipends offered. Para la versión en español haga clic aquí: [https://www.salem.com/sites/g/files/vyhliif3756/f/uploads/culturehouse\\_salem\\_convocatoria\\_para\\_artistas\\_y\\_colaboradores.pdf](https://www.salem.com/sites/g/files/vyhliif3756/f/uploads/culturehouse_salem_convocatoria_para_artistas_y_colaboradores.pdf).

2021 People's Choice Award Winner, Zhonghe (Elena) Li, at work on her mural entitled "Being one with Earth"

**Salem Arts Festival Mural Slam** - The Salem Public Art Commission and Salem Arts Festival are teaming up to present the 7th annual Salem Arts Festival Mural Slam. This dynamic live painting event engages the public with creative producers and contributes to downtown Salem's cultural vitality. This City seeks 12 artists to showcase their talents and contribute to keeping Artists' Row and downtown Salem a destination for world-class, inspiring, and engaging public art. Artist stipends offered. Submit your mural idea today! (<https://www.salem.com/public-art-commission/pages/call-artists-salem-art-festival-mural-slam>) Application deadline is March 31, 2022 at 11:59pm.

For more information about these opportunities, to learn how to apply, and find future calls please check out and bookmark our new Calls for Artists page: [www.salem.com/arts-culture/pages/calls-art-artist-and-creatives](http://www.salem.com/arts-culture/pages/calls-art-artist-and-creatives)

## Free Dance Classes

Infuse Dance Studio, in partnership with the City of Salem, is thrilled to announce its new line up for FREE adult dance classes at Old Town Hall.

Dances of all levels welcome. All classes are 18 and over. Pop into open house and try them all for free. Each open house event will feature a different rotation of teachers and classes.

All open houses are taking place in Salem's Old Town Hall, 32 Derby Square, Salem MA, in the Great Hall. This series will run on the fourth Saturday of the month February through May.

Registration not required but encouraged, you can RSVP here: <http://www.infusesalem.com/>

**FYI SALEM**

# School Updates

## Unified Sports

This winter, Salem High School launched our Unified Sports program. It has been an incredible way to help foster a more inclusive environment at SHS by bringing together students with and without disabilities as both competitors and teammates, with an eye on breaking down social walls, developing friendships, and furthering inclusion in the school community.

In this inaugural strength and conditioning season, we've had 46 students and 12 staff members compete together in various exercises. The energy and joy have been amazing!

Moving forward, we're excited to host three seasons during the school year: basketball in the fall, strength and conditioning in the winter, and track and field in the spring.

This was the final week for our Unified Sports program. We are proud of what these athletes have accomplished over the last 6 weeks and what they will accomplish in future seasons.

## Act of Kindness

Acts of kindness can turn around someone's day and our WHES students showed them all how to do it. Mr. Collins' 4th and 5th grade civics class is learning about community building, caring for others and performing random acts of #kindness with the hope that others will pay it forward.

## Last Day of School

With our two snow days and our one wellness day, the last day of school is currently Friday, June 17th (June 15th for our Pre-K and Kindergarten students). For Carlton Innovation School the last day will be June 23rd (June 17th for Kindergarten families) given that June 20th is a holiday for Juneteenth).

Please know that this is subject to change depending on the weather over the coming months.

## From the Mayor's Desk

Dear Salem resident,

Earlier this week we announced the new Salem Housing Stability Service, a program launched in partnership with the Essex County Bar Association (ECBA).

The new service will provide renters and landlords with information, guidance, and connections to resources to strengthen housing stability, avoid costly evictions, and help maintain the integrity of our neighborhoods.

COVID-19 has resulted in many housing challenges for renters and landlords alike, along with a need for housing information and resources related to housing rights, responsibilities, and opportunities.

The Housing Stability Service includes drop-in hours, a Housing Stability Hotline and a Housing Stability webpage. Drop-in hours with an ECBA attorney will be available:

**Community Life Center (401 Bridge Street)**

- 4<sup>th</sup> Wednesday, 9am-2pm (starting March 23, 2022)
- 2<sup>nd</sup> Thursday, 3pm-7pm (starting April 14, 2022)

**Espacio (105 Congress Street)**

- 1<sup>st</sup> Wednesday, 9am-2pm (starting April 6, 2022)
- 3<sup>rd</sup> Thursday, 3pm-7pm (starting April 21, 2022)

The Housing Stability hot line is 978-500-0973 and is answered live Wednesdays from 9am to 2pm and Thursdays from 4pm to 7pm. Outside those times, leave a message and an ECBA attorney will get back to you.

The Housing Stability website is [salemhousinginfo.com](http://salemhousinginfo.com). It will be updated regularly with up-to-date resources and information on tenant/landlord responsibilities, eviction process and eviction intervention resources, court information, laws, and other housing-related information.

These services provided by the Housing Stability Service are not

legal advice. These services are to help educate and inform Salem owners and renters about their housing options and opportunities, as they relate to renting in Salem. The goal of the program is to help resolve housing problems to foster greater neighborhood and housing stability. When needed, referrals to legal aid or lawyer referral services will be made available for those that specifically seek or need legal redress through litigation.

For some Salem residents, the pandemic has resulted in an exacerbation of housing security challenges. The Housing Stability Service can help owners and renters understand their obligations and the options available to them when they are facing difficulties.

Our hope is that the service can help mediate housing issues and prevent legal action in court, which can create even more financial hardships, housing problems, and mental health crises for renters and landlords alike.

Thank you, as always, for taking the time to read the FYI Salem newsletter.

Kim Driscoll  
Mayor, City of Salem

**FYI SALEM**

## Unclaimed Funds

Salem's City Treasurer's office has released the most recent list of unclaimed checks at [www.salem.com/unclaimedfunds](http://www.salem.com/unclaimedfunds). According to Massachusetts General Laws, Chapter 200A Section 5, funds are presumed abandoned unless claimed by the person entitled to them within three years after the date prescribed for payment. If your name appears on the list at [www.salem.com/unclaimedfunds](http://www.salem.com/unclaimedfunds), submit a claim form by March 31, 2023 to the Treasurer's office (98 Washington Street, 3rd floor, Salem MA 01970). Claim forms are also available at [www.salem.com/unclaimedfunds](http://www.salem.com/unclaimedfunds). If you have any questions, please contact the Salem Treasurer's office at (978) 619-5635.

## PowerChoice

Updated electricity generation disclosure labels are available for the City's electricity program, Salem PowerChoice. These documents include details about the electricity supplied through the program, including sources and associated emissions, as well as other information. <https://bit.ly/3CYIk0O>.

## Transfer Station Opens

Salem residents with proof of residency or property ownership will be able to drop off their yard waste at the Salem Transfer Station on Swampscott Road starting on Saturday April 16<sup>th</sup>. Hours for the facility are the same as last year: Saturdays 7am to 3pm and Sundays 9am to 5pm, including Easter Sunday April 17<sup>th</sup>. Yard waste should be dropped off in a paper yard waste bag or dumped loose at the designated area on the site. Yard waste in plastic bags will not be accepted and stumps and branches greater than 2" in diameter will also not be accepted.

The next curbside yard waste collection will take place as scheduled, the week of April 18<sup>th</sup>. Subsequent curbside yard waste collection will take place the weeks of June 20<sup>th</sup>, September 19<sup>th</sup>, October 17<sup>th</sup>, November 28<sup>th</sup>, and December 12<sup>th</sup>. Curbside collection of yard waste takes place on the regularly scheduled trash day for the street. Curbside yard waste must be in paper bags or barrels. Do not place yard waste in Waste Management carts. Residential trash and construction and demolition debris is not accepted at the Transfer Station. Residents who need to dispose of residential trash more than that which fits within an approved curbside trash cart may purchase official overflow trash bags for curbside collection. Overflow bags are available for \$2.50 each at the Department of Public Services (5 Jefferson Avenue), the City Collectors Office (93 Washington Street), Crosby's Marketplace (109 Canal Street), and Winer Brothers Hardware (86 Lafayette Street).

For more information about disposing of household junk and construction debris, please visit [www.salem.com/recycling-and-trash/pages/alternatives-household-junk-construction-demolition-debris](http://www.salem.com/recycling-and-trash/pages/alternatives-household-junk-construction-demolition-debris).

**FYI SALEM**

## Old Town Hall Forum

The City of Salem's Department of Planning and Community Development will hold a community forum to discuss the building history, current conditions, and plans for renovations and restoration for Salem's historic Old Town Hall.

The forum takes place on March 29, 2022 from 6:00 p.m. to 7:00 p.m. Join the online discussion at <https://bit.ly/OldTownHallZoom> or join on Zoom using meeting ID 876 0596 5167 and password TownHall. Find out more about Old Town Hall at [www.salem.com/old-town-hall](http://www.salem.com/old-town-hall).

## Opioids Settlement

The City of Salem will receive approximately \$1.3 million between this year and 2038 as part of a historic lawsuit against pharmaceutical companies responsible for the ongoing opioids crisis. The funds are part of a \$526 million award directed to Salem and the other roughly 150 Massachusetts municipalities

that joined together to sue Johnson & Johnson, Cardinal, McKesson, and Amerisource Bergen for their roles in creating and exacerbating the opioids scourge impacting communities across the Commonwealth. Salem's allocations will vary between \$60,000 and \$150,000 per year over the sixteen-year agreement. All the funds will be directed toward opioid overdose prevention, education, and treatment.

"This is the first major award to the City in our ongoing legal efforts to hold accountable those companies responsible for profiting off of and furthering the opioids crisis in the community, but I am hopeful it will not be the last" said Salem Mayor Kim Driscoll. "Other litigation against additional companies is continuing through the legal process and may, if resolved in the City's favor, result in additional settlement amounts to fund this important work. Working in collaboration with our colleagues in other cities and towns, and our partners at the state level, we will hold these corporations accountable for the harm they have caused to our families and our community."

## WM Scholarship

The City of Salem, in partnership with WM (the city's solid waste and recycling service provider), is excited to announce a new annual scholarship program! This scholarship will award \$1,000 to Salem residents who are students pursuing college or graduate level studies in preparation for a career focused on environmental sustainability, including careers in environmental science or careers in other fields such as education, engineering or law so long as there is a specific environmental focus (e.g. science education, environmental engineering, or environmental law).

Applications are due by July 1, 2022 and should be sent via email to Micaela Guglielmi: [mguglielmi@Salem.com](mailto:mguglielmi@Salem.com). The application form is available online at [www.salem.com/wmscholarship](http://www.salem.com/wmscholarship).

**FYI SALEM**

# Street Sweeping

Spring street sweeping will begin on Salem's entrance corridors on March 22 through March 31 and continue into residential neighborhoods April 4 and through May 6. Entrance corridors will be swept six times from March through September. Each entrance corridor will be swept over a period of two consecutive days alternating between the odd and even side of the streets. Each corridor will be posted with temporary 'No Parking/Tow Zone' signs and parking will be prohibited between the hours of 5am to 7am on sweeping days. Workers will utilize blowers to clear corridor sidewalks of debris prior to the first entrance corridor sweep. Find the 2022 sweeping schedule at [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping).

DPW will blow and sweep streets and sidewalks in the downtown beginning on Wednesday, March 23 and then on every third Wednesday of the month from April through September. Blowing will begin at 9:00 p.m. followed by street sweeping at 11:00 p.m. to approximately 3:00 a.m. The downtown area will be posted with 'No Parking Tow Zone' signs, so please remove vehicles from the affected downtown streets on sweep days during the post hours so they will not be towed. Residents on the affected streets may park free of charge at the Museum Place Garage from 8:00 p.m. Wednesday evening to 8:00 a.m. Thursday morning, with proof of residency, on sweep days.

Residential neighborhood street sweeping will take place April 4 to May 6. Neighborhood sweeping will continue to take place on both sides of the street on the same day. Sweeping will take place from 7:00 a.m. to 3:00 p.m. Each neighborhood route will be posted with temporary 'No Parking/Tow Zone' signs and parking will be prohibited between the hours of 7:00 a.m. and 3:00 p.m. Neighborhood streets are broken down into four zones. Sweep days are the next day after the regularly scheduled trash day. To find a specific street sweeping date, locate what zone your street is in on the 2022 Spring Street Sweeping Schedule and match it with the calendar. Monday sweep schedules are for the preceding Friday's trash day. Please note the sweep date changes on the calendar because of holidays. Street sweeping schedules can be found at [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping) or at the DPS office at 5 Jefferson Avenue. There is also a searchable map online at [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping).

Residents can use entrance corridor streets as alternative parking areas on the day of their neighborhood sweep. Entrance corridor streets are Boston St., Bridge St., Essex St. (from Boston St. to North/Summer St.), Lafayette St. (from Derby St. to Marblehead line), Loring Ave., and North St. Once a neighborhood street is swept, residents will be able to move their vehicles back onto their street. For a list of parking alternatives go to [www.salem.com/streetsweeping](http://www.salem.com/streetsweeping). Remember, if you choose to move your vehicle to an entrance corridor street you must adhere to all current parking restrictions and metered rates on the entrance corridor, including resident parking restrictions.

There will also be additional sweeping scheduled in the Point Neighborhood. Sweeping will take place on March 28 and continue with twice monthly sweeps from April through September. Cars must be removed from both sides of the street on these days. 'No Parking/Tow Zone' signs will be posted and parking will be prohibited from 7:00 a.m. to 3:00 p.m. Residents on the affected streets may park in the South Harbor Parking Garage, free of charge, between the hours of 8:00 p.m. Sunday to 8:00 p.m. Monday, on sweep days, with proof of residency.

Certain weather conditions prohibit the use of the street sweepers. During moderate to heavy rainfall and extreme cold temperatures sweepers will not be able to operate. Weather cancellations will be posted on [www.salem.com](http://www.salem.com).

FYI SALEM

# Short-Term Rentals

With spring approaching, some Salem homeowners and property owners may be thinking about listing their home or a portion of it as a short-term or vacation rental on such platforms as Airbnb, VRBO, and the like.

In 2018, the City of Salem adopted rules regulating short term rentals (STRs). This update is offered as a reminder of those rules, in the event you are considering renting out your property on one of these platforms. You can find more details about STRs in Salem, as well as a “dynamic” FAQ, at [www.salem.com/str](http://www.salem.com/str).

- **You must live in the property you are planning to offer as a STR.** With only a few small exceptions, STRs that are NOT owner-occupied are illegal in Salem. Allowable STRs are the dwelling you reside in (at least six months of the year) or one that is in the same building where you live. For example, if you live in your house and are going away for a week and want to rent it out, that is permitted. If you own a two-family house and live on one side and rent the other on a STR platform, that is permitted. If you own two 1-family houses in Salem and live in one but want to rent the other out on a short-term basis, that is not permitted.
- **You must register the STR with the City.** In order to list a STR within the City of Sale, you must register the unit, first. There is a \$50 fee to do so and registration is required annually. The registration form is available online here: [www.harmari.com/client/reg-portal/register/salem](http://www.harmari.com/client/reg-portal/register/salem). Failure to register your STR could result in fines or even in having your listing removed by STR platforms. The City uses a vendor, Harmari, that scans STR platforms weekly for Salem listings, then identifies unregistered units so the City can issue warning notices and, if necessary, tickets. Properties with excessive fines/ordinance violations within the past six months or that have unpaid City bills are prohibited from registering as a STR.
- **You must get a Certificate of Fitness from the Salem Health Department.** Certificates of Fitness are required for all residential rental units in Salem, whether they are offered on a short-term or longer-term basis. The fee for a Certificate of Fitness is \$50 and it is required annually for STRs. You can apply for a Certificate of Fitness here: <https://salemma.viewpointcloud.com/categories/1085>. After you apply, you must call the Health Department at 978-741-1800 to schedule the required in-person inspection. No Certificate can be issued without an inspection first. The Certificate of Fitness ensures that the unit being offered for rent complies with state and City codes and regulations and is safe for habitation.
- **Per Massachusetts state law, STR operators must collect room excise taxes from customers and pay it to the Commonwealth.** This is not a City rule or function, however it’s important for STR operators to know about it, to avoid potential tax liabilities and violations with the Massachusetts Department of Revenue (DOR). You can find more details about this requirement and a link to register with DOR here: [www.mass.gov/service-details/room-occupancy-excise-tax](http://www.mass.gov/service-details/room-occupancy-excise-tax).
- **There are rules about parking, noise, information you are required to furnish to guests and to the City, and more.** Those planning to offer a STR in Salem are strongly encouraged to familiarize themselves with the City’s specific rules for doing so: [https://library.municode.com/ma/salem/codes/code\\_of\\_ordinances?nodeId=PTIIICCOOR\\_CH15SHRMREERE](https://library.municode.com/ma/salem/codes/code_of_ordinances?nodeId=PTIIICCOOR_CH15SHRMREERE) (see, especially, since 15-6: “Requirements for short-term rentals”).

**PAGE 1**

## From the Mayor's Desk

There's a lot of information in this issue of the FYI Salem newsletter, but I wanted to especially highlight a few items.

First, the Salem for All Ages speaker series returns to the Community Life Center later this month. The last season of this series proved to be very popular and I hope you'll consider registering to attend one or many of this season's free offerings!

Salem. Also, if you're not vaccinated or boosted, now is the time to do so! Visit [www.salem.com/vaccine](http://www.salem.com/vaccine) for details.

Lastly, earlier this month we marked the second anniversary of the first death of a Salem resident from COVID-19. Vitalina Williams was just 59 years old when she was taken from her family and our community in 2020.

Dear Salem resident,

Spring is here!

As you get into your spring cleaning routine, don't forget that the transfer station opens for yard waste drop off the weekend of April 16th and then the following week, of April 18th—23rd, is curbside yard waste pick-up. Then, the SalemRecycles Book Swap returns to the CLC on May 7th, so you can get rid of some of those old books and CDs (or pick up some new ones!).

The city-wide Spring street sweeping is still underway in neighborhoods, as well, so please be mindful of the notifications and signs. When they go up, please move your car on your sweep day so DPW can sweep your street effectively.

If you're a landlord or a tenant in need of housing assistance, our new Housing Stability Services—being offered through a partnership with the Essex County Bar Association—has announced its April and May drop-in hours, or call the hotline and visit the program website.

The annual Resident Survey is now online at [www.salemma.gov/mayor](http://www.salemma.gov/mayor) through April 15th. This survey is an important tool for the City as we plan services and approaches to government for the year ahead. Please take a few minutes to fill it out today!

April has brought some changes to COVID testing in Salem. While the state testing sites have closed, we're still offering free rapid test kits to all Salem residents and those who work in

When she passed, one in 700 Salem residents had been infected by COVID. Today, it is one in four. This virus has touched all of us in some manner, and some - like the Williams' family - it has impacted most deeply of all.

As we reflect on the anniversary of the first COVID-19 death here in Salem, it's an opportunity for us to rededicate ourselves to our shared well-being and safety, and to compassion for one another. Please keep the memory of Vitalina and all 110 of our neighbors who have lost their lives to this awful virus in your heart.

Kim Driscoll  
Mayor, City of Salem

**FYI SALEM**

## RESIDENT SURVEY

Mayor Kimberley Driscoll today announced that the thirteenth annual Salem Residents Survey is now online. The survey is available by clicking the "Salem Residents Survey" button

at [www.salemma.gov/mayor](http://www.salemma.gov/mayor).

The survey is available in English, Spanish, Portuguese, French, Arabic, and Chinese. The 2022 residents' survey will be online through 10:00 a.m. Friday, April 15, 2022. All Salem residents are encouraged to take the online survey and share their opinions on a range of issues facing the City of Salem and their view of City services.

"The 2022 survey marks the thirteenth year this data has been collected," said Mayor Driscoll. "Hearing directly from residents allows us to improve service delivery and focus our public resources on those issues that are of most concern to the people of Salem. Having several years' worth of data now also enables us to take a closer look at trends and changes that are taking place in our community."

The final data is compiled and included in the Mayor's annual budget, which will be published later this spring at [www.salem.com/fy23](http://www.salem.com/fy23). The information provides feedback into resident priorities and goals, as well as important performance and outcome measures. These have, in the past, contributed to the City of Salem being one of just a handful of Massachusetts communities to be awarded both a Certificate of Excellence and a Distinguished Budget Award from the Government Finance Officers Association.

## Book Swap

On Saturday, May 7, 2022, SalemRecycles will host a Book Swap from 10am to 1pm at the Salem Community Life Center at 401 Bridge Street. Come on by and look for books or drop off books that you don't need anymore.

Bring your: books, CDs & DVDs, video games, records, re-usable bags, and greeting cards. All items must be clean, dry, and mildew free.

If you have lots of books, you may drop them off before the event during the times below. Volunteers will be available to help carry and unload items. Please, no drop offs outside of these scheduled times:

- Friday, May 6th, 4:00 pm – 7:00 pm at the CLC at 401 Bridge Street.
- Saturday, May 7th, 9:00 am – noon at the CLC at 401 Bridge Street

Discover Books will take the remaining un-swapped books and media at the close of the event to be donated or recycled. Please note the event is not open to the public until 10am, but donations will be accepted starting at 9am. No book dealers or more than two bags per swapper before noon.

Contact Micaela Guglielmi at [mguglielmi@salem.com](mailto:mguglielmi@salem.com) or 978-619-5672 with specific questions or to volunteer.

**City of Salem, MA**

**FYI SALEM**

## URL Change

You may have noticed that the City of Salem website has begun to resolve as salemma.gov. This is an important step in migrating to a more secure, and appropriate, name space for the city (ie, .edu for educational institutions; .gov for local, state and federal government). The migration will be a lengthy process and salem.com will live on, though over time the primary access point for email, online and other services will move to salemma.gov. Look for additional updates in the coming months as the migration moves ahead. For information about .gov please follow this link: <https://home.dotgov.gov/about/>.

## COVID Testing Changes

The state has closed the two “Stop the Spread” free testing sites in Salem. The City of Salem, however, is continuing to provide free rapid antigen COVID-19 tests for at-home use. Any Salem resident or individual who works in Salem is eligible to pick up three boxes of tests (two tests per box) from the Health Department offices, 98 Washington Street 3rd floor, Mondays-Wednesdays 9:00 a.m. to 4:00 p.m. and Thursdays 9:00 a.m. to 7:00 p.m. through the end of April, or as long as supplies last.

Additionally, the free walk-up COVID-19 testing site in Riley Plaza operated by Curative has had a change in Saturday hours. On Saturdays the site will now be open 8:30 a.m. to 1:00 p.m. Additionally, pre-registration is no longer required at this site. Walk-up testing will be accepted at this location.

## Shetland Park Meeting

A new planning effort for Shetland Park is launching with a public input website at [www.publicinput.com/shetlandpark](http://www.publicinput.com/shetlandpark) and a “come and go” Community Listening Session on Tuesday April 12, 2022 from 5:30-7:30 pm at the Salem Academy Gymnasium (16 Lynch Street). A virtual experience to participate in similar activities as the listening session will also be available.

This project is guided by the following objectives:

- Engage in a transparent, equitable, and flexible engagement process that builds trust and takes in perspectives from diverse stakeholders
- Build a shared vision for Shetland Park directly shaped by diverse input and shared priorities
- Develop a Framework Plan for the site that balances the goals of the community, site owners, and the City (A Framework Plan is a high-level strategy that is responsive to diverse needs. Framework plans include things like a development program, connections and views, open space network, distribution of height/density.)

FYI SALEM

### COVID-19 Booster Doses

The best way to protect yourself from COVID-19, including Omicron is to get vaccinated and boosted.

**Who?** Everyone ages 12 and older should get a booster.

**When?** At least 5 months after your second Pfizer or Moderna shot, or 2 months after Johnson & Johnson.

As of 1/5/2022

### COVID-19 Booster Doses

Adolescents age 12 and older are now eligible to get a booster, 5 months after their second Pfizer shot.

As of 1/05/2021

### COVID-19 Booster Doses

Adults age 50 and older and some immunocompromised individuals are now eligible to get a second booster, at least 4 months after their first booster.

As of 3/29/2022

**PAGE 1**

## From the Mayor's Desk

Dear Salem resident,

This week Regina Zaragoza Frey joined the City as its first ever Director of Diversity, Equity, and Inclusion (DEI). Regina comes to Salem from Colorado, where she was the Manager for Inclusiveness and Equity for Thorne Nature Experience, one of the state's first and largest environmental education organizations.

Prior to that she was the Volunteer Manager for the "I Have a Dream" Foundation of Boulder County and a Bilingual Emergency Response Specialist and Legal Advocate for the Safehouse Progressive Alliance for Nonviolence, where she provided victim advocacy and support to survivors of domestic violence in times of crisis.

In the Boulder community Regina served on the Board of the Boulder Chamber of Commerce and continues to be a part of their DEI Committee. She was also a founding member of Boulder County's LGBTQ Chamber of Commerce. Fluent in English and Spanish, as well as highly proficient in French, Regina holds a Master of Law in Ethics and Compliance from the University of Colorado.

In addition to advancing the recommendations and groundwork outlined by the Race Equity Task Force's recent report Regina will help us strengthen our hiring, retention, and training practices, examine policies and projects through an equity lens, and galvanize the forthcoming Race Equity Commission.

There is a lot to do, but I'm confident that, working collaboratively with one another, we can move this important effort forward and that Regina will be a singular, insightful, and important leader in that mission. You can find out more about race equity work here in Salem at <https://raceequitysalem.org>.

As a reminder, it's still important to get vaccinated and boosted with the COVID-19 vaccine. In addition, familiarize yourself with

the treatment options available to you through your healthcare provider and your local pharmacy, should you become symptomatic and sick with this dangerous virus.

COVID-19 is still with us, and wastewater test data and positive case counts have moderately increased again in recent weeks. While we're certainly not facing a spike like we saw when Omicron emerged, the numbers are still going up—and we all have a role to play in order to help slow its spread and protect one another.

You can find COVID data for Salem at [www.salemma.gov/covid](http://www.salemma.gov/covid) and links to vaccination locations at [www.salemma.gov/vaccine](http://www.salemma.gov/vaccine).

I'd like to close with an expression of sympathy to the family of Mollie Gill, who passed away on Sunday. Mollie volunteered in my office here at City Hall for a number of years before the pandemic. She was a kind, diligent, and generous person and she will be missed by us all.

Thank you, as always, for reading FYI Salem.

Kim Driscoll  
Mayor, City of Salem

FYI SALEM

## Budget Award

The City of Salem has received its fourteenth Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA), a nation-wide nonprofit organization. The award is the only national awards program for governmental budgets. The Distinguished Budget Presentation Award from the GFOA reflects the City's commitment to meeting the highest principles of governmental budgeting. In order to receive the award, the City had to meet or exceed nationally recognized guidelines for an effective budget presentation.

"I'm very pleased that we have once again earned this recognition and distinction from the GFOA, a nation-wide public finance watch-dog organization," said Mayor Kim Driscoll. "We have consistently delivered transparent and informative budgets, based on real costs, carefully developed financial forecasts, and best practices in municipal governance. This award is reflective of the diligent work that goes into Salem's budget and our financial practices, and it is a credit to the professional staff in our Finance Department."

The GFOA guidelines are designed to assess how well a municipality's budget serve as a policy document, a financial plan, an operations guide, and a communications device. GFOA advances excellence in government finance by providing best practices, professional development, resources and practical research for more than 21,000 members and the communities they serve.

## Race Equity Commission

The City of Salem is seeking applicants to volunteer to serve on the new Race Equity Commission, a board formed at the recommendation of the City's recent Race Equity Task Force. There are four seats open to Salem residents, each serving for a three-year term and subject to appointment by the Mayor and confirmation by the City Council.

The Commission has the following six charges: (1) Implementing the Race Equity Action Plan and updating the plan as needed. (2) Advising departments and officials to ensure programs, policies, budgets, and other ordinances are developed in a manner that avoid and reduce systemic racism and bias. (3) Developing and proposing new initiatives, programs, and policies to reduce systemic racism in Salem. (4) Designing and carrying out hiring and recruitment programs for the City and advising on employee training and retention programs all intended to increase the diversity of City workforce and the cultural competency of City employees. (5) Supporting and guiding community organizations, businesses, nonprofits, and other Salem entities as they work to improve racial equity in the community. (6) Seeking grants and other sources of support and funding to carry out the Commission's work.

"The work before the Commission is exceptionally important and urgent," said Mayor Kim Driscoll. "I encourage all Salem residents who believe they may be able to contribute constructively and positively to this effort to submit their application for consideration."

Those interested in applying for the Commission should submit a current resume and brief statement summarizing why they are interested in the appointment to Dominick Pangallo, Chief of Staff in the Mayor's Office, at [dpangallo@salem.com](mailto:dpangallo@salem.com).

# Artists Row Launch

On April 30th and May 1st Artists' Row will come alive with FREE activities for all ages. Starting at 10am meet local artists, see them in their natural habitat, participate in free hands-on art making activities, sign up for workshops, listen to some live tunes, grab a bite to eat and even do a bit of shopping.

Throughout the weekend ShinDig will offer free make your own button workshops, a makers grab bag table, and an array of upcycled lovable oddities. Chagall PAC will host a variety of activities from artist Sadie Nadeau, of Sadie's Beads, will host a FREE make-your-own-earrings beading workshop from 2-4pm; to Dennis Shafer's sound painting workshop from 4-6pm; and an outdoor performance by Annie and the Fur Trappers filling the Row with music from 3-5pm. Later that evening Dennis will be joined by fellow ChagallPAC director Diana Norma, in their Interactive Poetry and Performance Workshop from 6-8 pm at CultureHouse Salem, located in Old Town Hall. Festivities on Artists' Row will continue Sunday, May 1st, with the ChagallPAC student recital at 12pm as well as a return of Sadie's Beads, ShinDig's, and Maia Mattson's wonderful hands-on workshops.

**ChagallPAC** offers up an eclectic array of handcrafted jewelry, fiber arts, poetry books, painting and so much more at their booth so passerby can get a taste of all this amazing collective of artists has to offer. ChagallPAC is a community of artists committed to collaborating across disciplines and exploring the ways we experience art. We believe art is never the same in any given moment, but rather evolving and continually being shaped by the imaginations of those who come into contact with it. We create performances that involve audience participation and expand to the newest reaches of contemporary performance art. Open Saturdays & Sundays 10am-6pm and starting April 30th, the shop will be open weekdays 12-6pm and weekends 10am-6pm. Visitors can also enjoy live music outside every Friday and Saturday night throughout the summer. [chagallpac.com](http://chagallpac.com).

**Beverly Bees** will have experts available to answer your honeybee questions, an observation hive for visitors to view honeybees at work as well as a variety of hand made locally harvested beeswax candles and skincare. Watch them make beeswax candles and purchase some raw local honey from Beverly Bees' hives. Learn about bees, beekeeping, bee removal, how to help save bees and so much more. You can even view live bees in the shop's observation hive as a fun bonus! They are currently open Wednesdays-Fridays 11am-6pm, Saturdays 10am-6pm and Sundays 12pm-6pm. [beverlybees.com](http://beverlybees.com).

**Shindig!**, along with visiting artists from TRIANGLE, will be setting up an expanded version of their shop including more up-cycled, artist-embellished oddities, antiques, one of a kind fashion, patches, pins and more. Shindig! is all about fun! Inspired by pop culture and design, Shindig! creates and collects fun and unique jewelry, art, clothing, and other things you might not be able to live without. Family owned and operated, Shindig! is a small operation that's dedicated to creating cool things with as little waste as possible. Open 6 days a week 12:00-6:00pm, closed Tuesdays. [shindigstudios.com](http://shindigstudios.com)

**Maia Mattson**, the new Salem Public Artist in Residence on Artists' Row, is a multidisciplinary artist specializing in botanical installations made from locally grown and foraged plants as her primary medium. As Salem's 2022 Public Artist in Residence, Maia will facilitate monthly nature-based art making workshops that will explore the many connections between nature, art, and human impact. The series will culminate in a community activated garden tour of the city. Learn more about the project and upcoming workshops on Instagram @stixsense.

In addition to the above, the longtime Salem favorite **The Lobster Shanty** is now open from Noon until Midnight seven days a week for both dine-in and take out service. Live entertainment resumes this year on Saturday evenings and outdoor seating is always available along with a new expanded menu! [lobstershantysalem.com](http://lobstershantysalem.com).

VOLUME 8, ISSUE 7

MAY 9, 2022

## From the Mayor's Desk

Dear Salem resident,

Salem is excited to once again celebrate Preservation Month!

Every year in May, communities throughout the nation celebrate Preservation Month to recognize the unique historic resources that make their communities special.

Salem is blessed with one of the most important and beautiful collections of historic buildings in the country.

This heritage defines Salem's unique character and sense of place and also serves as a vital tool that contributes to the city's economic health.

Some facts about Salem during this celebration:

- Salem's historic architecture spans almost 400 years and includes almost all of the architectural styles popular in the United States over the

past four centuries.

- Salem has more than 4,500 resources documented in the City's historic inventory, the third largest inventory in Massachusetts.
- Salem has almost 1,700 historic buildings listed in the National Register of Historic Places.
- Salem's historic municipal assets date from the early 1600s to the mid-20<sup>th</sup> century and include historic buildings (15+), historic parks (7), historic monuments (5+), and historic cemeteries (5), as well as historic structures, artwork and documents.
- Salem has awarded more than \$2.8 million in CPA funds to assist 37 historic preservation projects.
- Salem has more than 25 organizations that participate in the Salem Preservation Partners group.

This year's Preservation Month theme "*People Saving Places*" provides a perfect opportunity for Salem to thank our local preservation advocates.

It is through the tireless efforts of local individuals, friends' groups, and non-profits organizations that many of Salem's historic places have been saved and preserved for

current and future generations.

The City and the Salem Preservation Partners are excited to host local events starting in May in order to focus attention on Salem's unique heritage and people.

Walking tours, in-person and virtual lectures and open house days are just some of the events planned.

The City also continues preservation efforts at some of Salem's most iconic historic landmarks, including restoration of the Salem Common Fence, improvements to Dickson Memorial Chapel at Greenlawn Cemetery and the refurbishment of the Almy's Clock.

Other recent preservation initiatives include an update to the Salem Historical Commission Design Guidelines, revisions to the Demolition Delay Ordinance, and efforts to address climate change impacts to historic resources through the *Preservation in a Changing Climate* initiative, an exhibit of which is currently on display on the first floor of Salem's City Hall Annex.

For more information on these projects and a list of partner events, visit [www.preservingsalem.com](http://www.preservingsalem.com).

Thanks for reading FYI Salem!

Kim Driscoll  
Mayor, City of Salem

FYI SALEM

# Salem Ferry

The City of Salem, in partnership with Boston Harbor City Cruises, will once again this year offer seasonal ferry service with several daily trips between Boston and Salem beginning May 26th through Halloween. Convenient departure and landing points for the approximately 50-minute ferry ride are 10 Blaney Street in Salem and One Long Wharf in Boston.

"The Salem Ferry is a terrific amenity and transportation alternative for Salem residents and visitors alike," said Mayor Kim Driscoll. "The return of the ferry each season is a celebratory moment and I hope those looking for a different way to get between Salem and Boston will take advantage of it, especially with discounted fares for Salem residents."

For Salem area residents, the Ferry is a great choice for commuters who work in Boston or for anyone visiting Boston for a day or overnight stay. Special commuter, Salem Resident and North Shore Resident rates are available when purchasing tickets in person with proof of residency. Discount multi-ride passes are also available. Free parking is available at the Blaney Street lot for ferry riders with passes available at the ticket booth.

For visitors to Boston, the Ferry provides a convenient and enjoyable way to take a day trip to Salem and experience all that the city has to offer. While onboard visitors can also enjoy beautiful views of Boston, Salem and the New England shoreline from the outdoor viewing decks or the temperature controlled inside decks.

The Landing at the Salem Ferry, Salem's completely-outdoor waterfront patio bar, located at the end of the Blaney St. Pier, will also return this season. Opening Day is May 25th and the season will run through Halloween – open Wednesday through Sunday, noon to 11 PM, weather dependent. This season, in addition to its regular offerings, an expanded live music calendar, events and additional food options are planned for The Landing.

## RESIDENT, COMMUTER AND MULTI-RIDE RATES

Salem Resident Round Trip Rates: Adult - \$19, Senior - \$15, Child - \$11

North Shore Resident Round Trip Rates: Adult - \$31, Senior - \$26, Child - \$19

Commuter Round Trip Rates (Mon – Fri rush hour trips only): Adult - \$16, Senior - \$8, Child - \$8

10 Ride Passes: Non-Commuter - \$200, Commuter - \$72

Rates*	Roundtrip	One-Way
Adult	\$45	\$25
Senior	\$41	\$23
Child (3-11)	\$35	\$20

## Festival Grants

Mayor Kim Driscoll and the City of Salem are pleased to announce the creation of the **Festival and Special Event Support Program**, a grant program designed to support festivals and special events taking place in the spring and summer of 2022. The program is being announced as part of National Travel and Tourism Week, which runs from May 1<sup>st</sup> until May 7<sup>th</sup>.

"These events are a crucial part of what makes Salem a great place to live, work, play and are a critical part of our economy," said Mayor Kim Driscoll. "For residents, visitors, and businesses alike, options to gather safely will reawaken one of the key drivers of our local economy and are an important part of our recovery from the last two years of pandemic life. I can't wait to be part of the wonderful festivals and special events planned for Salem this spring and summer."

The program will provide financial support for organizations and entities that organize and hold festivals and special events in the City through September 15, 2022. Eligibility will be determined on a case-by-case basis and is open to non-profits, community groups, and other entities and will support cultural, creative, and historic focused programming as well as farmer's markets, awareness programs, and more.

For more information on the program or to apply, please visit [www.salemma.gov/recovery](http://www.salemma.gov/recovery). The Salem Festival and Special Event Support Program is made possible by the American Rescue Plan Act, which provides financial support to organizations that suffered an adverse economic impact as the result of the Covid-19 pandemic.

## CLC Survey

Salem for All Ages, in partnership with the Salem Council on Aging and the Department of Parks, Recreation, and Community Services, are conducting a brief survey to gauge public feedback regarding the Mayor Jean Levesque Community Life Center (CLC).

While the survey is open to all, the hope especially is to gather input from Salem residents who do **not** normally visit the CLC. The survey will be online through 10:00 May 20 and can be found at [www.salemma.gov/CLCsurvey](http://www.salemma.gov/CLCsurvey).

"It's been about four years since the CLC opened and, especially with the impacts of the pandemic, we would like to get a sense of what types of programs and activities are working well and where we can grow," said Mayor Kim Driscoll. "I encourage all residents, whether they have been to the CLC or not, to take a few minutes to complete this brief, but important, survey."

The City of Beverly and City of Salem present

### FREE STYROFOAM RECYCLING EVENT

Hold on to your Styrofoam!

Saturday  
June 11, 2022  
9AM-12PM

5/22: BlueMiles22  
5/29: BlueMiles29

## COVID Testing

The City of Salem is providing an additional distribution of free rapid antigen COVID-19 tests for at-home use. Any Salem resident or individual who works in Salem is eligible to pick up three boxes of tests (two tests per box) from the Health Department offices, 98 Washington St, Mondays-Wednesdays 9am-4pm and Thursdays 9am-7pm through the end of May, or as long as supplies last.

## Open Space Advisory Group

The City of Salem seeks applicants to the advisory group for its forthcoming Open Space & Recreation (OSRP) planning process to begin in late-spring 2022 and conclude in early 2023. The OSRP process is a way for the City to identify community needs and desires on a variety of open space and recreation topics. The process will include informational presentations and community input exercises to discern goals and make recommendations to the community based both on input and professional community planning best practices and analyses.

The commitment is for: participating in group meetings every other month or so; public workshops (that may potentially be a combination of either physical or virtual meetings); providing feedback about the process and public forums, as well as helping draft potential survey questions for the community; getting the word out about the Salem OSRP 2029 process, public workshops and the online surveys; providing ideas and feedback for potential presentation content, preliminary goals, draft survey questions, and draft plan report in early/mid 2023.

The deadline to apply is May 24, 2022. Email [tdevine@salem.com](mailto:tdevine@salem.com): (1) Name, address, phone number, and email address of nominee. (2) A brief explanation of how the nominee engages or wishes to engage in Salem's Park & Recreation facilities or programming. (3) A summary of the nominee's interest in serving on the advisory group. (4) Any further information that may support the City in its selection of advisory group members. The City expects to receive more nominations than it can accommodate and therefore cannot guarantee that any application will result in selection to serve on the Advisory Board.

**FYI SALEM**

### COVID-19 Booster Doses

The best way to protect yourself from COVID-19, including Omicron is to get vaccinated and boosted.

**Who?** Everyone ages 12 and older should get a booster.

**When?** At least 5 months after your second Pfizer or Moderna shot, or 2 months after Johnson & Johnson.

As of 1/5/2022

### COVID-19 Booster Doses

Adolescents age 12 and older are now eligible to get a booster, 5 months after their second Pfizer shot.

As of 1/05/2021

### COVID-19 Booster Doses

Adults age 50 and older and some immunocompromised individuals are now eligible to get a second booster, at least 4 months after their first booster.

As of 3/29/2022

# Glossary of Terms

**Abatement**

A complete or partial cancellation of a tax levy imposed by a governmental unit and administered by the local board of assessors.

**Accounting Period**

A period at the end of which, and for which, financial statements are prepared. Also known as a fiscal period.

**Accounting System**

A system of financial record keeping that records, classifies and reports information on the financial status and operation of an organization.

**Accrual**

A method of accounting that recognizes income when earned and expenses when incurred regardless of when cash is received or disbursed.

**Activity**

A specific and distinguishable line of work performed by one or more organization components of a governmental unit for the purpose of accomplishing a function for which the governmental unit is responsible.

**Adopted Budget**

The resulting budget that has been approved by the City Council.

**Allocation**

The distribution of available monies, personnel, buildings, and equipment among various City departments, divisions or cost centers.

**Annual Budget**

An estimate of expenditures for specific purposes during the fiscal year (July 1-June 30) and the proposed means (estimated revenues) for financing those activities.

**Appropriation**

An authorization granted by the City Council to incur liabilities for purposes specified in the appropriation act.

**Arbitrage**

Investing funds borrowed at a lower interest cost in investments providing a higher rate of return.

**Assessed Valuation**

A valuation set upon real or personal property by the local board of assessors as a basis for levying taxes.

**Audit**

An examination of documents, records, reports, system of internal control, accounting and financial procedures to ensure that financial records are fairly presented and in compliance with all legal requirements for handling of public funds, including state and federal laws and the City charter.

**Balanced Budget**

A budget in which receipts are greater than (or equal to) expenditures. A requirement for all Massachusetts cities and towns.

**Bond Anticipation Notes (BAN)**

Notes issued in anticipation of later issuance of bonds, usually payable from the proceeds of the sale of the bonds or renewal notes.

**Budget**

A plan of financial operation embodying an estimate of proposed expenditures for a given time period and the proposed means of financing them. The term usually indicates a financial plan for a single fiscal year.

**Budget Calendar**

A schedule of certain steps to be followed in the budgeting process and the dates by which each step must be complete.

**Budget Document**

The instrument used by the Mayor to present a comprehensive financial program to the appropriating body.

**Budget Message**

A general discussion of the submitted budget presented in writing by the Mayor to the legislative body as part of the budget document.

**Capital Budget**

A plan of proposed outlays for acquiring long-term assets and the means of financing those acquisitions during the current fiscal period.

### Capital Improvement Program (CIP)

A plan for capital expenditure to be incurred each year over a fixed period of years to meet capital needs arising from the long term work program. It sets forth each project and specifies the full resources estimated to be available to finance the projected expenditures.

### Charges for Service

(Also called User Charges or Fees) the charges levied on the users of particular goods or services provided by local government requiring individuals to pay for the private benefits they receive. Such charges reduce the reliance on property tax funding.

### Cherry Sheet

A form showing all state and county charges and reimbursements to the City as certified by the state director of accounts. Years ago this document was printed on cherry colored paper, hence the name. A copy of this manual can be found at the following on-line address: <http://www.mass.gov/dor/local-officials/municipal-databank-and-local-aid-unit/cherry-sheet-reports.html>.

Community Benefits Agreement (CBA) or Community Host Agreement (CHA). Typically a contract signed by a developer/business/group and a municipality that requires the business/developer/group to provide specific amenities and/or mitigations to the local community or neighborhood.

### Community Preservation Act (CPA)

The CPA allows communities to create a local Community Preservation Fund to raise money through a surcharge of up to 3% of the real estate tax levy on real property for open space protections, historic preservation and the provision of affordable housing. The act also creates a significant state matching fund, which serves as an incentive to communities to pass the CPA.

### Cost Center

The lowest hierarchical level of allocating monies. Often referred to as a program, project or operation.

### Debt Limits

The general debt limit of a City consists of normal debt limit, which is 2 ¾ percent of the valuation of taxable property and a double debt limit which is 5 % of that valuation. Cities and towns may authorize debt up to the normal limit without state approval. It should be noted that there are certain categories of debt which are exempt from these limits.

### Debt Service

Payment of interest and repayment of principal to holders of a government's debt instruments.

### Deficit or Budget Deficit

The excess of budget expenditures over receipts. City and State laws require a balance budget.

### Department

A principal, functional and administrative entity created by statute and the Mayor to carry out specified public services.

### Encumbrance

An account used to record the estimated amount of purchase orders, contract, or salary commitments chargeable to an appropriation. The account is credited when goods or services are received and the actual expenditure of the appropriation is known.

### Enterprise Fund

A fund established to account for operations that are financed and operated in a manner similar to private business enterprises. The intent is that the full costs of providing the goods or services be financed primarily through charges and fees thus removing the expenses from the tax rate. Governmentally owned utilities and hospitals are ordinarily accounted for by enterprise funds.

### Equalized Value (EQV)

The commissioner or Revenue, in accordance with MGL CH. 58 Section 10C, is charged with the responsibility of biannually determining an equalized valuation for each city and town in the Commonwealth. EQVs present an estimate of fair cash value of all taxable property in each city and town as of January 1 of each year (MGL CH. 58, Sections 9 & 10C). The EQV is a measure of the relative property wealth in each municipality. Its purpose is to allow for comparisons of municipal property values at one point in time, adjusting for differences in local assessing practices and revaluation schedules. EQVs have historically been used as a variable in the allocation of certain state aid distributions, the calculation of various state and county assessments to municipalities, and the determination of municipal debt limits. EQVs are used in some distribution formulas so that communities with lower property values receive proportionately more aid than those with higher property values. In some assessment formulas they are used so that those with lower property values assume proportionately less of the cost than communities with higher property values. The local aid receipt programs using EQV are: Public Libraries, Chapter 70, and School Construction Aid. The assessments using EQV are: Boston's Metropolitan Transit Districts, the Count Tax, Mosquito

Control Projects and Air Pollution Control Districts. A municipality's annual EQV is the sum of estimated fair market value for each property class plus an estimate of new growth, resulting in values indicative of January 1.

### **Exemptions**

A statutory reduction in the assessed valuation of taxable property accorded to certain taxpayers, such as senior citizens, widows, and war veterans.

### **Expenditures**

The amount of money, cash or checks, actually paid or obligated for payment from the treasury when liabilities are incurred pursuant to authority given in an appropriation.

### **Fiduciary Funds**

contain resources held by a government but belonging to individuals or entities other than the government. A prime example is a trust fund for a public employee pension plan. Governmental funds account for everything else.

### **Financial Accountability**

The obligation of government to justify the raising of public resources and what those resources were expended for.

### **Financial Condition**

The probability that a government will meet its financial obligations as they become due and its service obligations to constituencies, both currently and in the future.

### **Financing Plan**

The estimate of revenues and their sources that will pay for the service programs outlined in the annual budget.

### **Fiscal Period**

Any period at the end of which a governmental unit determines its financial position and the results of its operations.

### **Fiscal Year**

The 12-month financial period used by all Massachusetts municipalities this begins July 1st and ends June 30th of the following calendar year. The year is represented by the date on which it ends. Example: July 1, 2006 to June 30, 2007 would be FY 07.

### **Fixed Asset**

Assets of a long-term character that are intended to continue to be held or used, such as land, buildings, machinery, furniture, and other equipment.

### **Full and Fair Market Valuation**

The requirement, by State Law, that all real and personal property be assessed at 100% of market value for taxation purposes. "Proposition 2 3/4" laws set the City's tax levy limit at 2 3/4 % of the full market (assessed) value of all taxable property.

### **Fund**

A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities, and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

### **Fund Balance**

The portion of Fund Equity available for appropriation.

### **Fund Equity**

The excess of fund assets and resources over fund liabilities. A portion of the equity of a governmental fund may be reserved or designated; the remainder is referred to as Fund Balance.

### **General Fund**

A fund used to account for all transactions of a governmental unit that is not accounted for in another fund. The General Fund is used to account for the ordinary operations of a governmental unit that are financed from taxes and other general revenues.

### **Government Accounting Standards Board (GASB)**

The Governmental Accounting Standards Board (GASB) was organized in 1984 as an operating entity of the Financial Accounting Foundation (FAF) to establish standards of financial accounting and reporting for state and local governmental entities. Its standards guide the preparation of external financial reports of those entities. The Foundation's Trustees are responsible for selecting the members of the GASB and its Advisory Council, funding their activities and exercising general oversight-with the exception of the GASB resolution of technical issues. The GASB function is important because external financial reporting can demonstrate financial accountability to the public and is the basis for investment, credit and many legislative and regulatory decisions. The mission of the Governmental Accounting Standards Board is to establish and improve standards of

state and local governmental accounting and financial reporting that will result in useful information for users of financial reports and guide and educate the public, including issuers, auditors, and users of those financial reports. More information, including all statements, can be found at [www.gasb.org](http://www.gasb.org).

### **Government Finance Officers Association (GFOA)**

The Government Finance Officers Association (or GFOA) is a professional association of approximately 17,500 state, provincial, and local government finance officers in the United States and Canada. GFOA is headquartered in downtown Chicago. More information can be found at [www.gfoa.org](http://www.gfoa.org).

### **Governmental Funds**

revenues and expenditures should be recognized on the modified accrual basis. Revenues should be recognized in the accounting period in which they become available and measurable. Expenditures should be recognized in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest on general long-term debt, which should be recognized when due.

### **Grant**

A contribution of assets by one governmental unit to another unit. Typically, these contributions are made to local governments from the state and federal government. The contribution is usually made to aid in the support of a specified function (for example, education), but it is sometimes also for general purposes, or for the acquisition or construction of fixed assets.

### **Group Insurance Commission (GIC)**

The group insurance commission was established by the Legislature in 1955 to provide and administer health insurance and other benefits to the Commonwealth of Massachusetts employees and retirees, and their dependents and survivors. The GIC also covers housing and redevelopment authorities' personnel, participating municipalities, and retired municipal employees and teachers in certain governmental units.

### **Inter-fund Transactions**

Payments from one administrative budget fund to another or from one trust fund to another, which result in the recording of a receipt and an expenditure.

### **Intra-fund Transactions**

Financial transactions between activities within the same fund. An example would be a budget transfer.

### **Levy**

The amount of taxes, special assessments, or service charges imposed by a governmental unit.

### **Levy Ceiling**

The limit imposed by Proposition 2 ¾ that equals 2 ¾ % of the total full and fair cash value of all taxable property.

### **Levy Limit**

The amount that a municipality may raise in taxes each year which is based on the prior year's limit plus 2 ¾ % increase on that amount plus the amount certified by the State that results from "new growth".

### **License and Permit Fees**

The charges related to regulatory activities and privileges granted by government in connection with regulations.

Line-item Budget - A format of budgeting which organizes costs by object of expenditure such as supplies, equipment, maintenance or salaries.

### **MBTA-Massachusetts Bay Transportation Authority**

The Massachusetts Bay Transportation Authority is the state authority responsible for all aspects of transportation throughout the Commonwealth of Massachusetts. An description of the assessment charged to municipalities can be found in the cherry sheet manual located on-line at <http://www.mass.gov/dor/local-officials/municipal-databank-and-local-aid-unit/cherry-sheet-reports.html>.

### **MGL-Massachusetts General Law**

The General Laws of the Commonwealth of Massachusetts. These laws can be found at <http://www.mass.gov/legis/>.

### **MSBA-Massachusetts School Building Authority**

The MSBA is the state authority that oversees all school building projects and funding. The web site is [www.mass.gov/msba](http://www.mass.gov/msba).

### **Major Funds**

There are two types of major governmental funds – General Funds and Enterprise Funds. These funds are voted as part of the annual city budget. The General Fund is the major operating fund of municipal governments,

and it accounts for the vast majority of municipal operations. The General Fund is supported by revenues from real estate and personal property taxes, state and federal aid, excise taxes, investment income, fines and forfeitures, and fees and charges. Most of the municipal departments, including the schools, are supported in whole or in part by the General Fund. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

### **Modified Accrual Basis**

Under the modified accrual basis of accounting, required for use by governmental funds, revenue are recognized in the period in which they become available and measurable, and expenditures are recognized at the time a liability is incurred pursuant to appropriation authority.

### **New Growth**

The additional tax revenue generated by new construction, renovations, and other increases in the property tax base during a calendar year.

### **Non-expendable Trust Fund**

A fund, the principal, and sometimes also the earnings, of which may not be expended.

### **Non-Tax Revenue**

All revenue coming from non-tax sources including licenses and permits, intergovernmental revenue, charges for service, fines and forfeits and various other miscellaneous revenue.

### **Other Financing Sources (OFS)**

An Operating statement classification, in which financial inflows other than revenues are reported, for example, proceeds of long-term debt and operating transfers-in.

### **Other Financing Uses (OFU)**

An Operating statement classification in which financial outflows other than expenditures are reported, for example, operating transfers-out.

### **Other Post Employment Benefits (OPEB)**

Other Postemployment Benefits (or OPEB) are benefits (other than pensions) that U.S. state and local governments provide to their retired employees. These benefits principally involve health care benefits, but also may include life insurance, disability, legal and other services.

### **Operating Budget**

A budget that applies to all outlays other than capital outlays. See Budget.

**Overlay** The amount raised by the assessors in excess of appropriation and other charges for the purpose of creating a fund to cover abatements and exemptions.

### **Overlay Surplus**

Any balance in the overlay account of a given year in excess of the amount remaining to be collected or abated can be transferred into this account. Overlay surplus may be appropriated for any lawful purpose.

### **Performance Indicator**

Variables measuring the degree of goal and objective fulfillment achieved by programs.

### **Performance Standard**

A statement of the conditions that will exist when a job is well done.

### **PILOT – Payment in Lieu of Taxes**

Money received from exempt (non-profit) organizations who are otherwise not obligated to pay property taxes. Federal, state, municipal facilities, hospitals, churches and colleges are examples of tax exempt properties.

### **Policy**

A definite course of action adopted after a review of information and directed at the realization of goals.

### **Priority**

A value that ranks goals and objectives in order of importance relative to one another.

### **Procedure**

A method used in carrying out a policy or plan of action.

**Program**

Collections of work related activities initiated to accomplish a desired end.

**Program Budget**

A budget format which organizes expenditures and revenues around the type of activity or service provided and specifies the extent or scope of service to be provided, stated whenever possible in precise units of measure.

**Proposition 2 ¾**

A law which became effective on December 4, 1980. The two main components of the tax law relating to property taxes are: 1) the tax levy cannot exceed 2 ¾ % of the full and fair cash value, and 2) for cities and towns at or below the above limit, the tax levy cannot exceed the maximum tax levy allowed for the prior by more than 2 ¾ % (except in cases of property added to the tax rolls and for valuation increases of at least 50% other than as part of a general revaluation).

**Purchase Order**

A document issued to authorize a vendor or vendors to deliver specified merchandise or render a specified service for a stated estimated price. Outstanding purchase orders are called encumbrances.

**Rating Agencies**

This term usually refers to Moody's Investors Service and Standard and Poor's Corporation. These services are the two major agencies which issue credit ratings on municipal bonds.

**Registered Bonds**

Bonds that are registered on the books of the issuer as to ownership; the transfer of ownership must also be recorded on the books of the issuer. Recent changes in federal tax laws mandate that all municipal bonds be registered if their tax exempt status is to be retained.

**Reserves**

An account used to indicate that portion of fund equity which is legally restricted for a specific purpose or not available for appropriation and subsequent spending.

**Reserve for Contingencies**

A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

**Retained Earnings**

The accumulated earnings of an Enterprise or Internal Service Fund that have been retained in the fund and are not reserved for any specific purpose.

**Revenue**

Additions to the City's financial assets (such as taxes and grants) other than from interfund transfers and debt issue proceeds.

**Revolving Fund**

A fund established to finance a continuing cycle of operations in which receipts are available for expenditure without further action by the City Council.

**RMV-Registry of Motor Vehicles**

The Registry of Motor Vehicles in Massachusetts is responsible for all aspects of motor vehicles including but not limited to registration, sales tax, and licensing.

**Service Level**

The extent or scope of the City's service to be provided in a given budget year. Whenever possible, service levels should be stated in precise units of measure.

**Special Revenue Fund (SRF)**

A fund used to account for revenues from specific revenue sources that by law are designed to finance particular functions or activities of government.

**Submitted Budget**

The proposed budget that has been approved by the Mayor and forwarded to the City Council for their approval. The City Council must act upon the submitted budget within prescribed guidelines and limitations according to statute and the City charter.

**Supplemental Appropriations**

Appropriation's requested by the Mayor and approved by the City Council after an initial appropriation to cover expenditures beyond original estimates.

**Tax Anticipation Notes (TAN)**

Notes issued in anticipation of collection of taxes, usually retired only from tax collections, and only from the proceeds of the tax levy whose collection they anticipate.

**Tax Levy**

The amount of taxes, special assessments, or service charges imposed by a governmental unit.

**Tax Rate**

The amount of tax stated in terms of a unit of the tax base. Prior to a 1978 amendment to the Massachusetts Constitution, a single tax rate applied to all of the taxable real and personal property in a City or town. The 1978 amendment allowed the legislature to create three classes of taxable property: 1) residential real property, 2) open space land, and 3) all other (commercial, industrial, and personal property). Within limits, cities and towns are given the option of determining the share of the levy to be borne by the different classes of property. The share borne by residential real property must be at least 65% of the full rate. The share of commercial, industrial, and personal property must not exceed 150% of the full

rate. Property may not be classified until the State Department of Revenue has certified that all property has been assessed at its full value.

**Unit Cost**

A term used in cost accounting to denote the cost of producing a unit of product or rendering a unit of service, for example, the cost of treating and purifying a thousand gallons of sewage.

**Valuation (100%)**

Requirement that the assessed valuation must be the same as the market value for all properties.

**Warrant**

An order drawn by a municipal officer directing the treasurer of the municipality to pay a specified amount to the bearer, either after the current or some future date.

**Warrant Payable**

The amount of warrants outstanding and unpaid.
